ASX 24 NTP Update – 19/07/18

ASX would like to remind customers that Service Release 2 (SR2) will go live Monday 30 July 2018. SR2 does not include any functional changes or interface changes but does include several bug fixes. Customers with CDE+ access are encouraged to test the SR2 release prior to the 28 July production rollout.

Please refer to the "NTP Release Notes" in the NTP document library for more information about the changes included in SR2.

Timetable

Day	NTP System Status
Saturday 7 April 2018	CDE+ upgrade to SR2 - COMPLETED
Saturday 21 April 2018	CDE update to a tertiary failover model - COMPLETED
Saturday 28 July 2018	SR2 production release
Monday 30 July 2018	SR2 production go-live
