for the Financial Year ended 30 June 2003

ABN 23 009 112 725

#### 1 Basis of Preparation

This preliminary final report has been prepared in accordance with ASX Listing Rule 4.3A and the disclosure requirements of ASX Appendix 4E.

The accounting policies adopted in the preparation of the preliminary final report are consistent with those adopted and disclosed in the 2002 annual financial report.

The consolidated entity has recorded a loss of \$198.3 million, after outside equity interests, for the year ended 30 June 2003. This includes a loss of \$56.4 million in relation to the disposal of Proton World International (PWI) and an additional charge for the provision of the deferred liability on the PWI acquisition of \$10.9 million.

The consolidated entity generated a positive operating cash flow of \$17.3 million before interest and borrowing costs (\$13.7 million), restructure and advisory costs (\$6.4 million), and redundancy (\$0.7 million). Including these costs, operating cash flow was a negative \$3.5 million for the year.

During the year, the ERG Group restructured its statement of financial position with the conversion of the \$250 million listed convertible notes into equity and the disposal of the PWI investment. The net cash received on disposal amounted to \$49.0 million with a further \$13.7 million receivable post year-end.

Subsequent to financial year end an agreement has been reached with Azienda Tramvie e Autobus del Comune di Roma (ATAC) to restructure the Rome contract. The assets for the operation in Rome will be sold to ATAC for approximately \$46 million in cash with \$28 million due on signing of the renegotiated contract.

The Export Finance and Insurance Corporation has provided a facility of approximately \$25 million to assist with bonding for some of the major contracts. The facility will be able to be drawn down subject to certain conditions precedent.

The Directors believe that the ERG Group will return to profitability with the successful delivery of major transit projects in Seattle, Stockholm, Sydney and Washington DC. The delivery of these projects involves certain risks and uncertainties some of which are outside the control of the Group.

As a result of the above, the Directors are of the opinion that it is appropriate for the financial statements to be prepared on a going concern basis and that the consolidated entity has the appropriate resources to meet its debts and commitments as and when they fall due.

## **Preliminary Final Report of ERG Limited** for the Financial Year ended 30 June 2003

2	Profit/(Loss) from Ordinary Activities		
		2003 \$'000	2002 \$'000
	Profit/(loss) from ordinary activities before income tax includes the following items of revenue and expenses:		
(a)	Revenue		
	Revenue from Operating Activities

2 Contingent Assets and Liabilities (continued)	2003 \$'000	2002 \$'000
Contingent Liabilities		
Details and estimates of maximum amounts of contingent liabilities are as follows:		
Controlled Entities Secured guarantees given by ERG Limited and controlled entities in support of other leasing facilities.	863	27
ERG Limited has granted a guarantee and indemnity to the Public Transport Corporation of Victoria in connection with the monetary and performance obligations of OneLink Transit Systems Pty Ltd (OLT) arising from various automated fare collection system contracts. ERG Limited holds cross-indemnities, via various agreements with its co-shareholders in OLT, in respect to the performance of the respective co-shareholders' delivery obligations.		
ERG Property Pty Ltd, as trustee for The Energy Research Group Unit Trust (ERG Trust), is the owner of land and buildings at Balcatta, Western Australia. ERG Trust has given a first mortgage over the land to the State Government of Western Australia. In addition, ERG Property Pty Ltd and ERG Trust are jointly and severally liable for repayment of the loan.	-	
Other Persons  Bank guarantees and performance bonds held by contracting parties in the normal course of business.	154,449	157,10
ERG Limited has granted a guarantee to the Australia and New Zealand Banking Group Limited in connection with refinancing of AFC Equipment Co Pty Ltd (AFC) assets. Under this guarantee, ERG Limited has provided an irrevocable guarantee for the performance obligations of AFC and has guaranteed the secured monies which are supported by interest rate swap agreements.		
	52 063	60

## 13 Segment Information

Refer to Attachment B.

### 14 Subsequent Events

The consolidated entity announced that it has reached agreement with Azienda Tramvie e Autobus del Comune di Roma (ATAC), the organisation administering the public transport in Rome, to restructure the contract.

The restructure will result in the return of approximately \$46 million in cash to ERG in the short term, the elimination of approximately \$7 million in annual depreciation charges and the continued involvement in the operation of the system for eight years. The contract documents are currently being finalised and are expected to be completed imminently. The terms of the new relationship are as follows:

ATAC will purchase the public transport ticketing hardware, with the exception of the central clearing house, from ERG for a consideration of \$36.2 million. On signing of the contracts \$28.5 million is due, with the remainder due in two instalments within six months. ATAC has pre-arranged external bank financing for this purchase.

ERG and ATAC will establish a new company ("Newco") that will operate the ticketing system. ERG will own 30% of Newco and will contribute approximately \$3.1 million in cash to the new entity.

Newco will purchase the rights to use ERG's software for \$10.1 million payable in cash on signing of the contracts. ERG will also receive an annual software maintenance fee of \$1.9 million for a period of eight years.

In return for operating the system, Newco will receive an annual fee from ATAC of 7.85% of all transit fares processed by the system. This operating contract has an initial term of eight years, with the annual fee estimated to be in the range of \$35–40 million.

ERG will be paid an additional \$5.1 million for software engineering services to be supplied over the next 12 months.

The above event did not have a financial impact in the year ended 30 June 2003.

#### 15 Information on Audit or Review

This preliminary final report is based on accounts that are in the process of being audited.

### Attachment A Schedule 3: Comments by Directors

(Comments on the following matters are required by ASX or, in relation to the preliminary final report, by AASB 1029: Interim Financial Reporting. The comments do not take the place of the directors' report and statement (as required by the Corporations Act) and may be incorporated into the Director's report and statement. For both half-yearly and preliminary final reports, if there are no comments in a section, state NIL. If there is insufficient space to comment, attach notes to this report.)

#### 1 Full-Year Results

For the year ended 30 June 2003, operating revenue was lower at \$205.6 million, compared to \$271.8 million in the previous year due to continued delays in the commencement of new projects, such as Sydney and Seattle, and the delay in expansion of the Rome project into the surrounding Lazio region. ERG incurred an overall operating loss totalling \$198.3 million, compared to \$243.9 million in the previous year, and an EBITDA loss of \$26.5 million (compared to a loss of \$14.7 million in the previous year), before individually significant items.

The Directors of ERG Limited ("the Group") resolved, following a comprehensive review of the financial statements of the Group for the year ended 30 June 2003, to write down various assets and make provisions for diminution in value against the carrying value of a number of the Group's current and non-current assets.

The results for the year include the sale of its 39% shareholding in ECard Pty Ltd, which realised a profit of \$5.0 million, and various charges on individually significant items of \$119.2 million. The individually significant items are as follows:

		\$m
•	Loss on the disposal of PWI	56.4
•	Write-off of project cost capitalised	15.6
•	Provision for doubtful debts	14.8
•	Provision for the deferred consideration on the acquisition of PWI	10.9
•	Restructure and advisory fees	6.4
•	Write down in recoverable amount of financial assets	4.8
•	Provision for project losses and delays	4.1
•	Others	6.2

Depreciation and amortisation charges before significant items for the period were \$38.6 million (2002: \$38.2 million) and interest expense and borrowing costs were \$21.2 million compared to \$29.7 million for the previous year. The listed convertible notes and some accrued interest were successfully converted into equity in April 2003.

An amount of around \$38 million (€22.5 million), representing payments due to ERG on a milestone earn-out basis, has not been accounted for in determining the loss on disposal of PWI. This will be brought to account as it is earned. ERG will retain access to the Proton technology by taking a 20 year global licence of the Proton technology.

for the Financial Year ended 30 June 2003

ABN 23 009 112 725

## Attachment A Schedule 3: Comments by Directors

#### 2 Business Strategy

The ERG Group is engaged in the business of developing and commercialising its smart card and electronic ticketing solutions. The Group has achieved a recognised dominance globally in the development and implementation of integrated smart card systems in the transit business.

The ERG Group has successfully delivered systems in Hong Kong, Rome and Singapore that support more than 20 million smart cards in circulation. ERG's systems globally handle approximately 5 billion transactions per annum.

During the year, the Group has been successful in winning various major transit contracts, as follows:

- The integrated transit system in the Washington DC area, Maryland and Northern Virginia with Northrop Grumman Information Technology. The revenue for the contract is approximately \$30 million (US\$20 million). A card base of more than one million will be issued over a five-year period. ERG and Northrop Grumman, a major defence contractor and a recognised leader in government related smart card initiatives in the United States, have signed a teaming agreement to pursue transit opportunities throughout the United States.
- The finalisation and execution of contracts for the integrated smart card based ticketing system for the entire Greater Sydney commuter transport network. The total value of the contract is approximately \$320 million, of which approximately \$100 million is for the supply of the system and \$220 million for the operation of the system for ten years. The system is expected to be fully operational in 2006 with a card base of more than two million.
- A regional fare collection system for Seattle and the Central Puget Sound of Washington State. The contract is worth approximately \$95 million (US\$63 million) for the system implementation and management of the operations for a ten year period. A card base of around 400,000 is expected at the commencement of operation of the system.
- The contract for the upgrade of the current magnetic ticketing system to a smart card based automated transit fare collection system throughout the city and county of Stockholm. The contract value is in excess of \$50 million (SEK\$250 million). A card base of one million will be issued within the next 2 ½ years.
- An agreement in principle with ATAC, (the operator of the Rome Metropolitan transit system), and Cotral, (the regional transport operator in the Lazio region surrounding the Rome metropolitan area) to proceed with the Phase 2 expansion of the Rome ticketing contract. This expansion will provide revenue of approximately \$45 million (€25 million) over eighteen months. ERG and ATAC will establish a new company that will operate the ticketing system for a period of eight years (refer note 14).

The Group has also received sign off on the Phase 1 for the San Francisco Translink® Smart Card Project which will allow Phase 2 of the project to proceed.

The Group's Board, management structure and business processes have been reorganised to ensure that the Group is able to successfully deliver these major projects in accordance with the contracts. The return to profitability for the Group is dependent upon the successful delivery of these major contracts to the customers.

for the Financial Year ended 30 June 2003

ABN 23 009 112 725

### Attachment A Schedule 3: Comments by Directors

#### 3 Restructure of Statement of Financial Position

ERG Group's Statement of Financial Position has been strengthened during the year with the disposal of a major asset Proton World International (PWI) and the conversion of the \$250 million listed convertible notes to equity.

- During the year, the Group sold its 100% interest in PWI for a consideration of approximately \$110 million (€60 million). Net cash received on disposal amounted to \$49.0 million, with a further \$13.7 million receivable post year-end.
- The conversion of the listed convertible notes of \$250 million (with an interest rate of 7.5%) to equity.
- On 3 September 2003, the Group announced it has reached an agreement with ATAC to restructure the Rome contract. This will result in the return of approximately \$46 million in cash to the Group in the short term. ERG will continue to be involved in the operations of the system for eight years.
- The Export Finance and Insurance Corporation has also provided performance bonds for projects contracted in Seattle, Stockholm and Washington DC with a facility of approximately \$25 million. The facility will be able to be drawn down subject to certain conditions precedent.

During the year, the Group also paid out \$29.4 million in bank debts and \$21.3 million in unlisted convertible note debt. At 30 June 2003, the Group had an interest-bearing loan of \$25.4 million and deferred consideration payable of \$32.2 million in relation to the acquisition of PWI.

The restructure of the Statement of Financial Position has resulted in the removal of approximately \$40 million in annual depreciation, amortisation and interest charges.

The Group will continue to explore alternative financing facilities including project financing for the current contracts to assist with working capital requirements and to obtain an optimal debt to equity ratio to maximise return to shareholders.

With the restructure of its Statement of Financial Position, the ERG Group is in a strong position to pursue opportunities in the transit business and with alliance partners, such as Northrop Grumman in the United States, where appropriate.

#### 4 Financial Reporting Basis

The Directors believe that the ERG Group will return to profitability with the successful delivery of major transit projects in Seattle, Stockholm, Sydney and Washington DC. The successful delivery of these projects involves certain risks and uncertainties, some of which are outside the control of the Group.

As a result of the above, the Directors are of the opinion that it is appropriate for the financial statements to be prepared on a going concern basis and that the consolidated entity has the appropriate resources to meet its debts and commitments as and when they fall due.

#### Attachment B

### **Schedule 13: Segment Information**

#### Segment Information

#### **Business Segments**

The consolidated entity is organised on a global basis into the following business segments:

#### Projects Supply and Installation

The supply and installation of automated fare collection (AFC) systems throughout the world.

#### Infrastructure and Maintenance

The infrastructure segment of the business represents the source of long-term recurring revenue for the Group derived primarily from the outsourced operation and/or long-term maintenance of AFC systems once installed.

#### Corporate and Financing

This segment of the business provides the technology, financing and administrative support to the two operational segments outlined above.

#### **Geographical Segments**

The consolidated entity's divisions operate in the following three main geographical areas:

Asia-Pacific – comprises operations in Australia, Hong Kong, Malaysia and Singapore. Australia is the home country of the parent entity and provides all of the consolidated entity's Corporate support.

Europe, Middle-East and Africa – comprises operations in Belgium, France, Germany, Italy, Sweden and the United Kingdom.

North America – comprises operations in Canada and the United States.
