

ASX Media Release

FIGURWELL adopts MEDEC's products in Germany.

01 NOVEMBER 2005 - Perth based health care equipment company MEDEC Ltd (MAA) has signed a Heads of Agreement with Figurwell, a large German health and fitness franchise, to incorporate Medec's diagnostic and therapeutic products into their franchise model.

The Figurwell company currently operates 17 different centres throughout Germany on a franchise basis offering different health, fitness and beauty concepts.

The integration of MEDEC's technically advanced diagnostic and therapeutic products allow Figurwell franchisees to provide their clients with a comprehensive weight management system incorporating diagnosis with the Medec Calorie-Fit and Medec Biograph and therapy using the Medec Detox and Bio-resonance Systems.

After initially testing the Medec's products for two months within their Deggendorf facility, Figurwell have recently commenced with initial product training to their franchisees through training seminars and product coaching. This training also involved co-operation with Medec in providing personnel with specialist product knowledge to play an active role in the training.

Figurwell is also using the MEDEC diagnostic devices to demonstrate the benefit of exercising and fitness programs to their clients, a concept which Figurwell is promoting to the larger German fitness industry via exhibitions and seminars.

"This agreement with a leading Germany health and fitness company to incorporate our products into their successful national franchise program, confirms the leading role that our products and technology play in the health and fitness industry", said Mr Dermot Patterson, Chief Executive Officer of Medec Limited. "This is a perfect partnership for both Figurwell and Medec to showcase to the general community their concept for enhancing long term health."

"This project will further strengthen our commitment to expand our manufacturing capabilities both within Europe and overseas. The partnership between Medec and Figurwell will also assist Medec in the future to identify other potential international partners in the health, fitness and beauty industries," said Mr. Patterson.
