### BOARD:

Denis O'Meara: Chairman  
Justin Brown: MD  
Ian Cornelius: Non-Exec

### KEY PROJECTS:

PEAK HILL (100%)  
Gold

BUTCHER BIRD (100%)  
Manganese, Copper

MT PADBURY (100% of gold)  
Gold, Manganese, Iron

### KEY SHARE POSITIONS:

AUVEX RESOURCES LTD  
10,000,000 FPO Shares

BUXTON RESOURCES LTD  
2,000,000 FPO Shares

## PEAK HILL PROJECT UPDATE

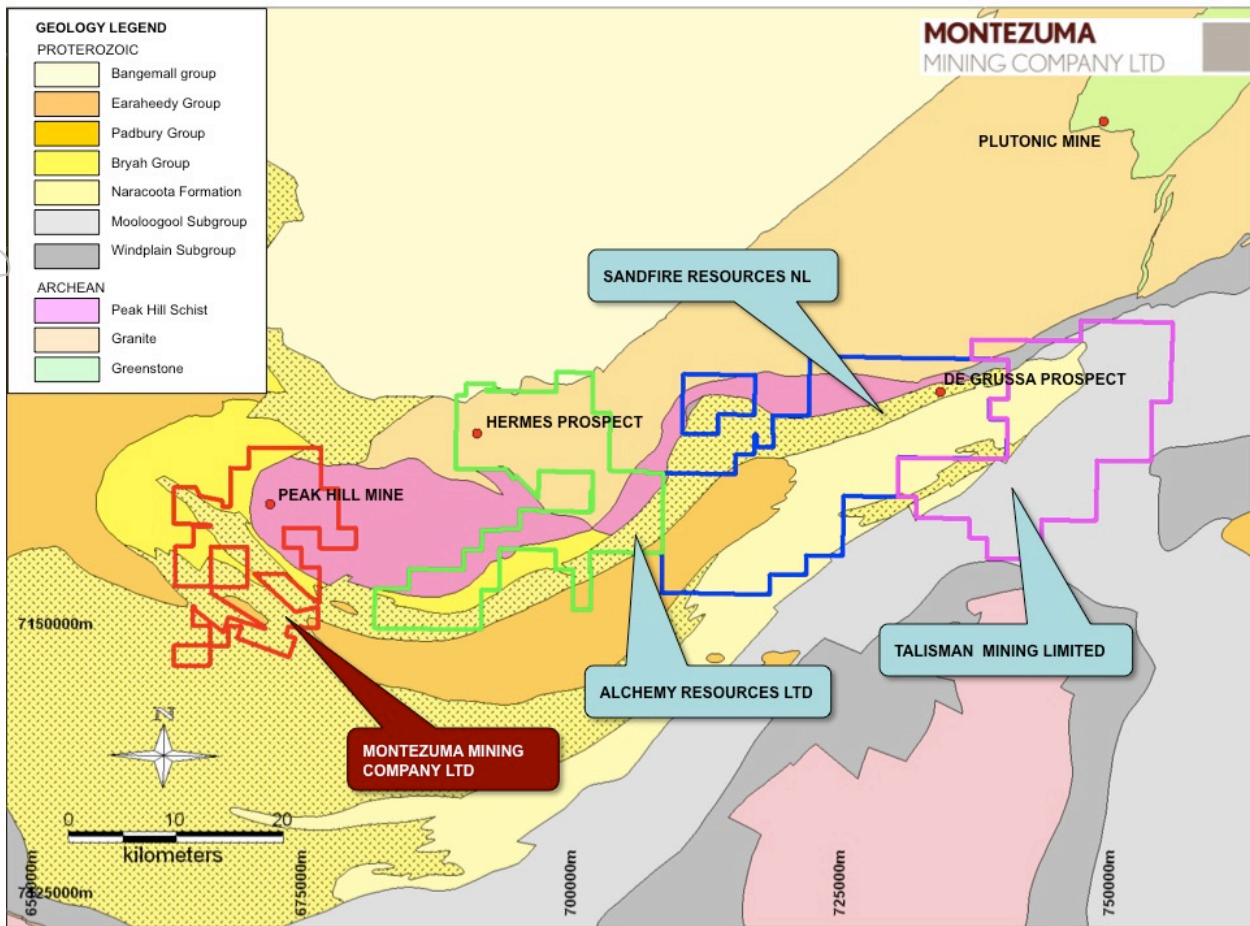

- Applications have been granted which will significantly increase the Company's ground holding at the Peak Hill Project.
- Exploration program to commence on **Narracoota Formation** mapped within Montezuma acreage, along strike from Alchemy Resources Limited and Sandfire Resources NL's tenements.
- Ground also contains significant extensions to existing gold mineralisation. Drilling highlights by previous workers include;
  - **6m @ 21.2 g/t** from 51m,
  - **4m @ 11.0 g/t** from 27m;
  - **2m @ 25.7 g/t** from 52m and;
  - **8m @ 5.7 g/t** from 10m.

Montezuma is pleased to announce that an exploration licence covering approximately 111km<sup>2</sup> of tenure at Peak Hill **has been granted**. The additional ground covers significant areas of **gold mineralisation potential** as well as areas containing the **Narracoota Formation rocks**, the host to Sandfire Resources NL's recent copper discovery at their De Grussa Project.

The new tenure contains high grade gold drilling intersections ready for follow up, as well as a number of regional targets comprising geochemical, rock chip and drilling anomalies. The area also covers structural positions with significant potential to host extensions and/or repetitions of mineralisation near the known major gold mineralisation areas at Peak Hill.

The grant of these licences opens the way for Montezuma to commence exploration over the new ground with the aim of extending the existing gold Resources at Peak Hill as well as assessing the potential for analogues to the recent copper discoveries along strike to the east.

For personal use only
