TAKEOVER OF SOUTH AUSTRALIAN COAL LIMITED; EX-FELIX RESOURCES DIRECTORS TO JOIN WHITE ENERGY BOARD; INJECTION OF \$100 TO \$140 MILLION IN ADDITIONAL CASH; STRONG PLATFORM FOR PARTICIPATION IN FUTURE COAL SECTOR OPPORTUNITIES

Highlights:

- White Energy Company Limited ("White Energy") to acquire 100% of unlisted South Australian Coal Limited ("SACL") through a takeover bid. Ex-Felix Resources Limited ("Felix Resources") Board and management own a majority of SACL.
- Ex-Felix Resources Chairman, Travers Duncan, to become Chairman of White Energy.
- Brian Flannery, the Managing Director of Felix Resources, to assume the role of Chief Executive Officer of White Energy and join the Board as an executive director from August 2010.
- Former Felix Resources Board members Hans Mende and John Kinghorn to join the Board of White Energy in non-executive roles.
- Current Chairman John McGuigan, current Managing Director John Atkinson and current director Graham Cubbin to continue as non-executive directors of White Energy.
- SACL owns a large sub bituminous coal resource at Lake Phillipson, EL3386 in South Australia. SACL's coal resource is proximate to the Adelaide - Darwin rail line and has access to under-utilised ports at Darwin, Adelaide and Whyalla. White Energy's proprietary BCB technology upgrades sub-bituminous coal into export quality upgraded coal.
- White Energy's mainly scrip offer (with a limited cash alternative) is for an upfront consideration valued at \$39.3 million for 100% of SACL which will result in SACL shareholders receiving up to 15.7 million White Energy shares (based on a price of \$2.50 per White Energy ordinary share). In addition, SACL shareholders could receive up to a further 17.0 million White Energy ordinary shares (based on a \$2.80 and \$3.10 price per White Energy ordinary share) subject to future positive coal exploration results increasing the coal resources from 515 million tonnes to 1,515 million tonnes.

19 April 2010

ASX Release

- **Interests associated with Travers Duncan, Brian Flannery and John Kinghorn have agreed to further invest in White Energy through a \$75 million share placement at \$2.50 per share. In addition, Hans Mende has stated his intention to invest \$19.3m in White Energy through an associated investment vehicle by way of the SACL subscription offer. The SACL subscription offer, which forms part of the bid for SACL and will be offered to all SACL shareholders, has the potential to raise an additional \$50.6 million.**
- **The Board views these transactions and appointments as a major step forward in the ongoing development of White Energy. As a result of the addition of the experienced ex Felix Resources Directors to the White Energy Board and the acquisition of SACL:**
 - **White Energy will immediately become a mid-tier coal company with cash reserves between \$200 million to \$250 million, a large sub-bituminous coal resource and a unique coal upgrading technology;**
 - **White Energy will be run by a highly regarded management team with an industry wide reputation for delivery and execution of major coal projects; and**
 - **White Energy will be ideally positioned to participate in industry consolidation in Australia and internationally and to take advantage of acquisition opportunities.**

19 April 2010 - White Energy (ASX:WEC; OTCQX:WECFY) today announced it has reached agreement with SACL to make an offer to acquire 100% of SACL through an off-market takeover bid, for an upfront consideration valued at \$39.3 million which will result in SACL shareholders receiving up to 15.7 million White Energy ordinary shares (based on a price of \$2.50 per White Energy ordinary share). In addition, SACL shareholders could receive up to a further 17.0 million White Energy ordinary shares (based on a \$2.80 and \$3.10 price per White Energy ordinary share) subject to future positive coal exploration results at EL3386 increasing the coal resource from 515 million tonnes to 1,515 million tonnes.

SACL is owned by ex-Felix Resources shareholders, and was separated from Felix upon the successful takeover by Yanzhou Coal Mining Company Limited in 2009. SACL's principal asset is a large sub bituminous coal deposit at Lake Phillipson in South Australia.

As part of the transaction, the Chief Executive Officer of Felix Resources, Brian Flannery, has agreed to assume the role of Chief Executive Officer of White Energy and will join the Board as an executive director commencing August 2010. Travers Duncan, ex-Chairman of Felix Resources, and current non executive director of White Energy will become Chairman of White Energy. Ex-Felix Resources Board members John Kinghorn and Hans Mende will join the White Energy Board in non-executive director roles. John Atkinson (current CEO) and John McGuigan (current Chairman), who have been integral in building the Company from concept to an ASX 300 company, will continue as non-executive directors of the Company and will also play an ongoing role with business development and relationship initiatives in key markets.

Chairman of White Energy, John McGuigan, said, "This is a game-changing deal for White Energy and its shareholders. Bringing the two companies together increases the size, scope and diversity of White Energy's operations and provides greater access to the execution skills required for White Energy to realize its significant potential in a growing global coal market.

19 April 2010

ASX Release

“White Energy’s opportunity is demonstrated by the ex-Felix Resources management and Board agreeing to join the company and invest their own capital into building a substantial coal company.”

CEO of White Energy, John Atkinson, said; “Bringing in house the combined coal industry expertise and project execution skills of the ex-Felix Resources management and Board significantly enhances White Energy’s ability to deliver on the platform it has built and expedite the roll-out of our coal upgrading technology across the globe.

“In one step White Energy becomes a coal company run by a world class management team, owning a large resource, with a proprietary upgrading technology and having the cash to not only grow its existing business, but to create additional value through the acquisition of strategic coal assets.”

White Energy’s Offer to SACL Shareholders

White Energy has agreed with SACL to make an off-market bid to acquire all of the shares of SACL (the “Offer”).

If 100% of SACL shareholders accept the scrip alternative under the Offer, they will in aggregate receive:

- (i) 15.7 million White Energy ordinary shares with a total value of \$39.3m based on the \$2.50 White Energy share price which places a base value of \$0.1996 on each SACL share; and
- (ii) In the event that additional coal resources of between 0 and 500 million tonnes are proven at EL3386 (i.e. up to 1,015 million tonnes of coal resources in total) SACL shareholders will also be entitled to receive between 0 and a maximum of an additional 8.9 million White Energy ordinary shares on a sliding scale, at an agreed price of \$2.80 per White Energy share; and
- (iii) In the event that additional coal resources of between 501 million tonnes and up to 1,000 million tonnes are proven at EL3386 (i.e. 1,515 million tonnes of coal resources in total) SACL shareholders will be further entitled to receive between 0 and a maximum of an additional 8.1 million White Energy ordinary shares on a sliding scale, at an agreed price of \$3.10 per White Energy share; and
- (iv) an opportunity to take up rights to subscribe for fully paid White Energy ordinary shares at a subscription price of \$2.50 per White Energy ordinary share under the “Subscription Offer” (representing subscription rights to 0.2034 White Energy ordinary shares per SACL share).

If 100% of SACL shareholders accept the scrip offer, they will initially be issued with 15.7 million performance shares as consideration which will convert to the 15.7 million ordinary shares referred to in paragraph (i) above. The performance shares will also include the entitlements which may result in the issue of the additional shares referred to in paragraphs (ii) and (iii) above. Subject to additional coal resources being proved, additional shares will be issued in 2 tranches expected to be issued in early 2011 and 2012 (unless issue is deferred in certain circumstances). If the ASX agrees to quote the performance shares as a separate class of White Energy shares, the conversion of the performance shares into ordinary shares is expected to occur once the 2nd tranche of additional shares has been issued. If the ASX does not agree to quote them, the performance shares will convert on the first business day of January 2011. This early conversion will not affect the entitlements to additional shares referred to in paragraphs (ii) and (iii) above.

19 April 2010

ASX Release

The number of additional White Energy ordinary shares referred to in paragraphs (ii) and (iii) above will be determined by no later than the last business day of December 2011. Further information about the White Energy performance shares and the subscription rights will be provided in White Energy's bidder's statement.

The independent directors of SACL have unanimously recommended that SACL shareholders accept the Offer by White Energy in the absence of a superior proposal.

The Offer is subject to a number of conditions including a 90% minimum acceptance condition. Refer to Annexure 1 for a description of the conditions. White Energy and SACL have entered into a bid implementation agreement which includes terms customary to such a transaction. Refer to Annexure 2 for a summary of the bid implementation agreement.

White Energy will offer a cash alternative to SACL shareholders on the following principal terms:

- SACL shareholders may elect to accept cash consideration of \$0.19962 per SACL share in respect of some or all of their holding.
- The cash alternative will be limited in aggregate to \$10 million. Acceptances in excess of \$10 million will be scaled-back on a pro rata basis.

SACL and White Energy – Complementary Businesses

SACL owns a large deposit of sub-bituminous coal (Exploration Licence 3386 and associated retention leases), which contains the Lake Phillipson Coal Deposit with a JORC inferred, indicated and measured sub-bituminous coal resource of 515 million tonnes. EL 3386 has been subjected to significant exploration work over a number of years. Information derived from earlier exploration work provides a strong indication that the total coal inventory is in excess of 4 billion tonnes.

SACL is an unlisted company that was separated from Felix Resources upon the successful takeover of Felix Resources by Yanzhou Coal Mining Company Limited in 2009. The exploration license EL 3386 is due to expire on 8 August 2010. SACL has received written confirmation from the relevant government authorities that an extension of the licence will be forthcoming subject to a final assessment of the relevant application once lodged by SACL.

SACL is located very close to an existing under-utilised railway that could transport upgraded product to ports at Port Augusta, Adelaide or Darwin for export. The fact that White Energy's BCB technology upgrades sub-bituminous coal provides not only a potential revaluation of the reserves located at EL 3386 and obvious synergies for current White Energy and SACL shareholders but also provides the opportunity to upgrade the high in situ moisture coal for export or domestic consumption.

Further, there is likely to be domestic demand for SACL's sub-bituminous coal. The size of the SACL resource also provides coal gasification and coal to liquids opportunities. Finally, EL 3386 is within the Gawler Craton a major mineral province in South Australia which is host to the Olympic Dam iron-oxide-gold-uranium deposit as well as the Prominent

ASX Release

Hill site. Independent analysis has confirmed that there is exploration potential for these other minerals in the tenement area.

The acquisition of SACL brings with it access to project management expertise which will assist White Energy in executing the various projects it has undertaken globally. These projects include:

- White Energy's joint venture with Bayan Resources to build up to a 15 million tonnes per annum coal upgrading operation in Indonesia;
- White Energy's agreement with Buckskin Mining Inc. to build up to an 8 million tonnes per annum coal upgrading operation in the Powder River Basin in the USA;
- White Energy's joint development arrangement with Peabody Energy Inc. to build up to a 20 million tonnes per annum coal upgrading operation in the Powder River Basin in the USA; and
- White Energy's joint venture with Black River (an associated company of the Cargill Group) to build and operate coal upgrading plants throughout the African continent.

Capital Raising

Interests associated with Travers Duncan, Brian Flannery and John Kinghorn have agreed to invest in White Energy through a \$75m Placement at \$2.50 per share, subject to White Energy shareholders approving Travers Duncan's participation in the Placement.

Under the Subscription Offer, SACL shareholders will be offered rights to subscribe for White Energy ordinary shares at the same price as those provided to Messrs Duncan, Flannery and Kinghorn in the Placement. Messrs Duncan and Flannery, who are also shareholders of SACL, have agreed that they will not take up and exercise the subscription rights offered to them under the Subscription Offer as they will participate in the Placement.

Hans Mende has stated his intention to accept the Subscription Offer through AMCI Capital LP in respect of the whole of AMCI Capital LP's 19.14% stake in SACL, investing \$19.3m in White Energy.

If the other SACL shareholders take up and exercise all of their subscription rights an additional \$50.6 million could be raised by White Energy under the Subscription Offer.

The capital raised will be used to develop the coal mining opportunity and associated potential upgrading operation at SACL's Lake Phillipson deposit; further review and progress coal gasification and coal to liquids opportunities at the Lake Phillipson deposit; facilitate White Energy's participation in coal industry consolidation in Australia and take advantage of acquisition opportunities in other key coal markets; fund White Energy's obligations associated with the roll out of coal upgrading plants in various markets around the world in accordance with White Energy's business plan; and otherwise for general working capital purposes.

Strong Platform for Participation in Future Opportunities in Coal Sector

The combination of White Energy's upgrading technology, SACL's coal resource, the highly regarded management team and expected cash reserves in excess of \$200 million provides an outstanding platform for the future development of White Energy in key coal markets. In particular, the coal sector is characterised by significant consolidation activity, and White Energy will be well positioned to participate in such activity.

Common Shareholdings and Directorship

Travers Duncan is a director and substantial shareholder of SACL and White Energy. Subject to the requirements of the ASX Listing Rules and Australian law, White Energy is likely to submit various resolutions to a vote of its shareholders in order to give effect to the Offer and Placement.

Transaction Timing

It is intended that White Energy's bidder's statement will be dispatched to SACL shareholders in early June 2010.

Advisers

Arthur Phillip are acting as White Energy's corporate and financial adviser, Deloitte as Independent Expert and tax adviser and Freehills as legal adviser. Wilson HTM are acting as SACL's corporate and financial advisers and Allens Arthur Robinson as its legal adviser.

ANNEXURE 2 SUMMARY BID IMPLEMENTATION AGREEMENT FOR THE SACL OFFER

White Energy and SACL have entered into an implementation agreement which provides the framework for proposing and implementing the Offer. A summary of the key provisions is set out below.

Exclusivity arrangements

The agreement contains exclusivity obligations which apply to SACL until the earlier of the end of the offer period for the Offer.

During the exclusivity period SACL must ensure that neither it nor its representatives:

- a) directly or indirectly solicit or encourage the submission of any enquiries, negotiations or discussions which might lead to obtaining any expression of interest, offer or proposal from any other person for a third party proposal;
- b) directly or indirectly enter into or participate in any discussions or negotiations with any person regarding a third party proposal;
- c) grant any other person any right to conduct due diligence in respect of it or any of its related entities;
- d) enter to any arrangement which may lead to a third party proposal; or
- e) endorse or propose to endorse any third party proposal.

SACL has also agreed that it will notify White Energy of any approach, inquiry or proposal or any attempt to initiate discussions regarding any third party proposal.

The exclusivity obligations (except the No Shop Provision) do not restrain SACL to the extent that failure to engage in the relevant conduct would, in the opinion of the SACL Board, after receiving legal advice, constitute a breach of the SACL directors' fiduciary or statutory duties.

Conduct of business

SACL agrees to carry on its business in the usual and ordinary course to the end of the offer period and consult with and inform White Energy regarding certain material business decisions.

Promotion of Offer

SACL has certain standard obligations to promote the Offer, such as including statements in all public statements to the effect that SACL's independent directors recommend that SACL shareholders accept the Offer subject to no superior proposal.

19 April 2010

ASX Release

Warranties

Each party warrants to the other:

- a) that it is not aware of any circumstances that would result in any of the conditions to the Offer being triggered;
- b) the accuracy of information provided to the other party in connection with the bid;
- c) material compliance with applicable laws.

SACL also warrants to White Energy its capital structure, the status of its interests in mining tenements and that its representatives have not been involved in any negotiations concerning competing proposals.

Termination

Either party may immediately terminate the agreement if:

- a) the other party is in material breach of the agreement and the breach is not remedied within 10 business days;
- b) White Energy lawfully withdraws the takeover bid or the takeover bid lapses for any reason.
