Technical Statement / Competent Persons Statement

The information in this report that relates to Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Mr Darren Holden who is a Member of The Australasian Institute of Mining and Metallurgy. Mr Holden is a full time employee of ABM Resources NL and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2004 Edition of the "Australasian Code for Reporting Exploration Results, Mineral Resources and Ore Reserves". Mr Holden consents to the inclusion in the documents of the matters based on this information in the form and context in which it appears.

Refer to previous Company Press-Releases for full resource estimation details, drill hole details, and intercept calculations. A full list is provided in Appendix 1.

Details of the Buccaneer Gold Deposit Inferred Resource are in Appendix 2.

Duelling Drill-Rigs?

In Australia – the next million ounces maybe within shadow of the headframe?

But where is the next +20 Million ounce deposit going to come?

Noted mineral economist Richard Schodde* recently reported:

- Grass roots expenditure has been stagnant for a decade.
- Half of Australia's mines to close in 5 to 15years.
- Depth of discovery is increasing.
