Chairman's Statement

RESULTS

The directors of ARB Corporation Limited ("**ARB**" or the "**Company**") are pleased to report that the Company achieved a record net profit after tax of $37.9 million for the year ended 30th June 2011. This represented a 16% increase over the prior year's net profit after tax of $32.6 million.

The Company's strong profit performance was achieved on an 11.5% increase in sales to $254 million from $228 million last year. A summary of the 2010/11 result is presented below:

Year to 30 June	2011 $'000	2010 $'000	Change

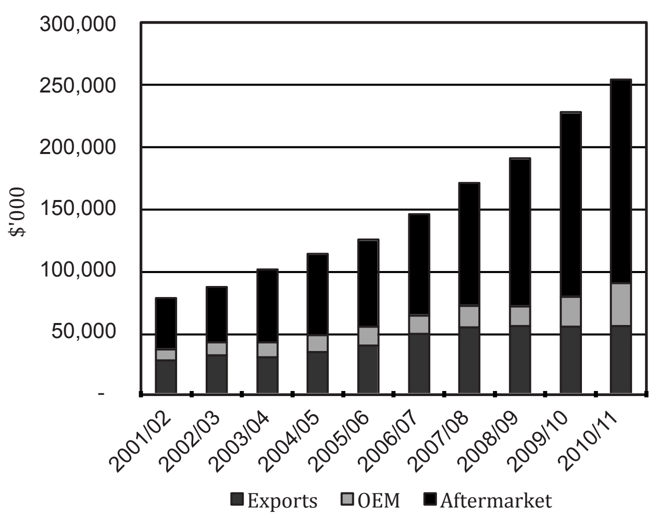
Total Revenue	256,553	230,313	
Net Profit Before Tax	**51,315**	**44,812**	**+ 14.5%**
Less Tax	13,461	12,184	
Net Profit After Tax	**37,854**	**32,628**	**+ 16.0%**
Basic EPS – cents	52.2	46.3	
DPS – cents			
Interim	10.0	7.5	
Final	13.0	12.0	
Special	-	40.0	
Total	23.0	59.5	
Franked Amount	100%	100%	

The Company intends to pay an increased final fully franked dividend of 13.0 cents per share on the 21st October 2011. This brings total ordinary dividends for the year to 23.0 cents per share fully franked, compared with 19.5 cents per share fully franked last year. The Record Date for the final dividend will be the 7th October 2011.

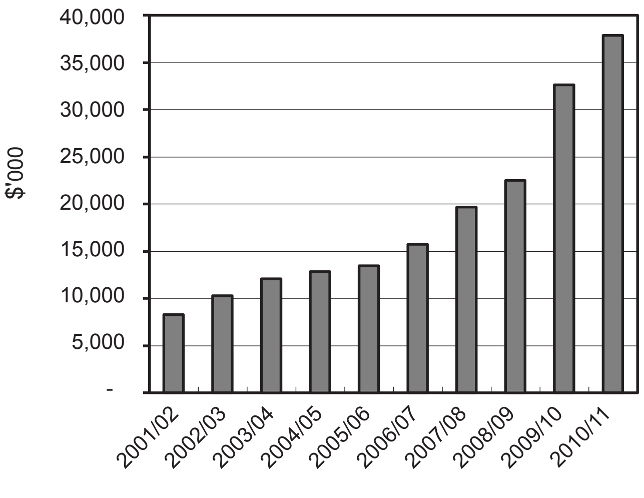
10 YEAR HISTORICAL PERFORMANCE

The sales, profits and dividends per share performance of the Company over the past 10 years is illustrated in the graphs below:



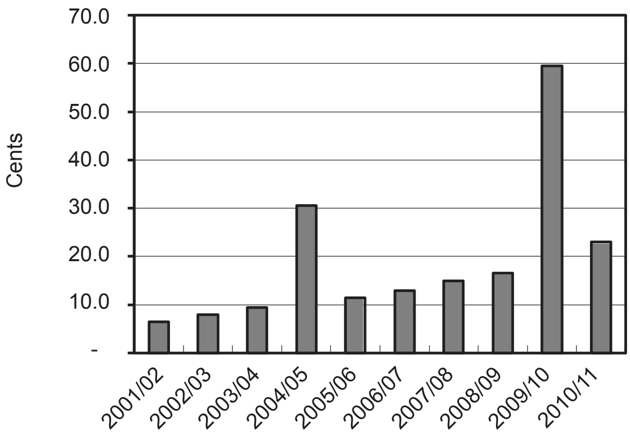
SALES REVENUE

Annual sales revenue has grown at an average compound rate of 13.9% over the past 10 years.



NET PROFIT AFTER TAX (ex property sales)

Net profit after tax has grown at an average compound rate of 18.4% over the past 10 years (excluding profits from property sales in 2004/05 and 2005/06).



DIVIDENDS PER SHARE

Dividends per share have grown steadily over the past 10 years with special dividends paid in 2004/05 and 2009/10. All dividends have been fully franked.

HIGHLIGHTS OF THE 2010/11 YEAR

Sales

The Company's sales growth for the 2010/11 year of 11.5% was very pleasing given the challenging economic environment that prevailed during this period. Of total group sales for the year, the Australian aftermarket accounted for 64%, whilst export sales represented 23% and sales to vehicle manufacturers (OEMs) were 13%.

In Australia, a sales increase of 15.4% was recorded and most of ARB's operations achieved growth. It should be noted that Australian sales include ARB sales to the aftermarket and OEMs and sales made by Kingsley Enterprises and Thule Car Rack Systems.

The Company's export sales, direct from Australia and Thailand and to customers via ARB's US subsidiary Air Locker Inc., were severely hampered by the strengthening Australian dollar. Sales in the USA increased by 12.6% in US dollar terms, however, in Australian dollar terms sales declined marginally. Overall, total export sales in Australian dollar terms were on a par with the prior year's result despite the exchange rate impact.

ARB's market leading store and stockist network throughout Australia helped the Company to maintain good growth in the Australian aftermarket. The number of ARB branded stores increased to 40 with 15 of these being corporate stores. During the year the following changes were made to the store network:

- a new ARB licensed store was established at Caboolture, Queensland in December 2010;
- the Company purchased the business of ARB Cairns in Queensland from an independent licensee in November 2010;
- the Company purchased the business of a stockist in Mandurah, WA and moved the business to larger Company owned premises to establish ARB Mandurah in December 2010; and
- in June 2011 the Company closed its Richmond store in Melbourne as scheduled and the business was transferred to surrounding stores.

Chairman's Statement (continued)

Sales of new 4WD vehicles in Australia continued to grow over the period. The table below outlines this growth.

Australian New Vehicle Sales
12 months to 30th June

	4WD Vehicle All Categories	4WD Utilities	Total Vehicles Australia
2010	308,918	92,662	1,011,565
2011	327,386	96,741	1,000,647
% change	+6.0%	+4.4%	-1.1%

As can be seen from the figures in the table above, ARB's market in Australia remains strong. Almost 1 in 3 vehicles sold in Australia is a 4WD and their proportion of the total new vehicle market continues to grow.

Overall vehicle sales and sales of 4WD vehicles would have been stronger had it not been for the devastating earthquake and resultant tsunami that occurred in Japan early in the second half of 2010/11. The supply of both 4WDs and 4WD utilities built in both Japan and Thailand was severely disrupted throughout the last quarter. This disruption continues at present but vehicle deliveries should be back to normal by the end of September 2011.

Products

ARB remains committed to product development as an essential element of maintaining the Company's sustainable competitive advantage. Expenditure on R&D has grown over the period and new products are regularly being released by ARB into its market worldwide.

A few highlights for the year were:

- a new range of polished aluminum nudge bars was released for smaller SUVs and utilities;
- the range of ARB fridges was expanded to four models;
- the range of Nitrocharger Sport shock absorbers was expanded extensively;
- products in a new market segment - "under vehicle" protection systems - were released for many of the most popular vehicles; and
- a modular range of roller drawer systems was released for distribution throughout the ARB store network.

The Company is pleased to report that it has a large number of both short and long term development projects underway in all of its major product groups.

Manufacturing

Demand for the Company's manufactured products was consistently high during 2010/11. This meant that ARB's manufacturing plants in both Australia and Thailand were operating at close to full capacity. In response, the Company made further investments in new plant and equipment to increase production capacity as required.

Financial

ARB strengthened its balance sheet during the period and had a net cash balance of $30.7 million at the 30th June 2011. This compares with a net cash balance of $20.9 million at the 30th June 2010.

The Company's strong financial position ensures that ARB can react quickly to appropriate opportunities, such as further earnings accretive capital projects or suitable acquisitions.

Exchange rates have fluctuated significantly over the year. The Company has some natural hedges through its operations in Australia, USA and Thailand and also through its purchasing and selling arrangements. However, changes in exchange rates affect costs in different geographic markets and management believes that more stable currency markets generally create a better business environment for the Company over the longer term.

Chairman's Statement (continued)

THE FUTURE

The Company's record 2010/11 result was achieved in the face of very difficult global market conditions. The current economic environment remains challenging. However, the outlook for the Company is positive and the Board is cautiously optimistic about the future. A first quarter trading update will be provided to shareholders at the AGM in October 2011.

ARB's main growth strategies remain focused on achieving the following:

- increasing output from the Company's manufacturing plants as demand requires;
- further strengthening ARB's store network throughout Australia, particularly in areas where 4WD vehicle sales are strong;
- fast tracking the development of new products to supply ARB's aftermarket customers both locally and overseas;
- developing the Thule Car Rack Systems and ARB Off Road businesses;
- ensuring that Kingsley Enterprises has new products to supply its existing customers both locally and overseas; and
- concentrating the Company's sales efforts in areas of the world where oil extraction, mining, aid and relief and agriculture are creating high demand for 4WD vehicles.

With strong brands around the world, a very capable senior management team and staff, a strong balance sheet and growth strategies in place, ARB is well positioned to continue on-going success despite the global economic challenges.

Corporate Governance Statement
For the Year Ended 30 June 2011

The Board of ARB Corporation Limited ("ARB" or the "Company") is committed to high standards of corporate governance and supports the principles of good corporate governance and best practice recommendations as published in the second edition Corporate Governance Guidelines of the ASX Corporate Governance Council in August 2007 and revised subsequently.

ASX Listing Rule 4.10 requires ARB to disclose the extent to which it has followed these best practice recommendations. This statement outlines the key corporate governance practices of ARB, as they relate to the recommendations of the ASX Corporate Governance Council.

The Board recognises that some practices are more relevant to larger companies. The Board has adopted those practices that it believes will maximise long term shareholder value given ARB's specific circumstances.

1. The Roles of the Board and Management

The Board of Directors is responsible for increasing shareholder value through leadership and direction of the Company. Matters reserved for the Board include:

- setting the strategic direction of the Company
- appointing and reviewing the performance of the Managing Director
- setting objectives for which the Managing Director is responsible
- approving major investment decisions and financial budgets
- monitoring financial and operating performance
- determining capital, funding and dividend policies
- planning Board and management succession
- defining the limits to management's responsibilities
- ensuring the Company complies with the law and conforms to the highest standards of financial and ethical behaviour

Board Meetings are held regularly and the Board meets on other occasions to deal with matters that require attention between scheduled meetings.

The responsibility for the operation and administration of the economic entity is delegated by the Board to the Managing Director, the Executive Directors and the Departmental Executives.

The Board of ARB and senior management monitor the performance of all Divisions through the preparation of weekly management reports and monthly management accounts.

The weekly management reports are circulated to all Board members to ensure that they are aware of key developments within the Company and in the industry and environment in which it operates.

The monthly management accounts are prepared using accrual accounting techniques and report each Division's results. These monthly management accounts are compared by management with monthly targets. Each Division has key performance indicators and reports to the Board monthly.

The monitoring of ARB's performance by the Board and management assists in identifying the areas where additional attention is required.

The Executive Directors evaluate the performance of the senior management team on an informal basis throughout the year and on a formal basis once per year.

2. The Structure of the Board

The composition of the Board is determined in accordance with ARB's constitution and the ASX Listing Rules.

The Board regards a Director as independent if he or she is free from any material interest in, or other material relationship with, the Company, other than as a Director, which could reasonably be perceived to materially interfere with the Director's ability to exercise independent judgement with respect to the matter being considered. Independence and materiality are considered by the Board in the context of all of the relevant circumstances.

The Board presently comprises three Executive Directors and three independent Non-executive Directors. The Board believes that, at present, this structure combines the skills, experience and efficiency of operation best suited to governing the Company.

The Executive Chairman currently carries out the roles of Chairman and Managing Director and has done so since the company listed on the ASX in 1987. The Board acknowledges the recommendation of the ASX Corporate Governance Council that these roles be carried out by different people and the Chairman be a Non-executive Director. However, the Board believes that the wealth of knowledge and expertise of the current Chairman and his interest in the Company as a substantial shareholder, make it appropriate for him to be the Chairman and Managing Director.

For the same reasons, the Board does not comprise a majority of independent Directors. The Board believes that all of its Directors exercise due care and skill with respect to the matters which they consider and bring objective judgement to bear in decision making.

Committees

The Board of Directors, as part of its responsibility to oversee the strategic direction of the Company, has established guidelines and committees to ensure that its businesses operate ethically and fairly and to ensure that the assets of the Company are properly protected. The committees which the Board has established are as follows:

- Audit Committee
- Risk Management Committee
- Remuneration and Nomination Committee

The Board, through the Remuneration and Nomination Committee, attempts to assess objectively its performance and that of its committees and individual members. The Board regularly undertakes performance reviews on an informal basis.

The requirement for membership of this committee is that the member must be an independent Non-executive Director and able to make a contribution to this decision-making process. The Remuneration and Nomination Committee is composed of the three Non-executive Directors of ARB and is chaired by one of those independent Non-executive Directors.

Appointment of Directors

One of the roles and responsibilities of the Remuneration and Nomination Committee is to recommend to the Board the selection and appointment of suitable Directors to the Company.

The committee considers the size and composition of the Board and the selection and appointment of new Directors as required based upon the existing expertise and experience of the Board and the future requirements of the Company and the desirability of increasing diversity as a means of enhancing shareholder value.

The Board's objective is to achieve the mix of skills and diversity that is best suited to maximising long term shareholder value given the circumstances at any particular time. The Board believes that the Remuneration and Nomination Committee is best placed to assess these requirements rather than using intermediaries.

The conditions relating to a Director's appointment are provided to the Director in writing prior to appointment. All Directors are subject to re-election by rotation in accordance with ARB's constitution. Shareholders are encouraged to participate in the re-election of Directors.

Directors may obtain independent professional advice, at the Company's expense, on matters arising in the course of their Board duties after obtaining the Chairman's approval, which cannot be unreasonably withheld.

The other information with respect to the structure of the Board noted in the Guide to Reporting on Principle 2 has been provided in the Directors' Report as the Board believes this is a more appropriate place at which to disclose such information.

3. Ethical Business Practices

ARB is committed to be being a socially responsible corporate citizen, using honest and fair business practices.

The Company does not have a formal Code of Conduct because the Company believes that a more effective means of enhancing investor confidence and actively promoting ethical and responsible decision-making is for the Board and the senior management team to foster, through their own actions, an ethical corporate culture.

Similarly, the Board believes that it has fostered and that the Company and its employees have a governance culture that encourages excellence and ethical business practices to enhance long term shareholder value. This includes the advancement of all employees in an ethical manner as appropriate irrespective of gender, age, ethnicity and cultural background.

Accordingly, the Board has not adopted a formal diversity policy or set measurable objectives based on diversity alone. The Board believes that this is consistent with its objective of generating long term shareholder value in an ethical manner.

The Board promotes open and honest disclosure and discussion, together with consideration and respect for the interests of all legitimate stakeholders, at all Board and weekly management meetings.

In addition, the Board and the senior management of the Company regularly consider relevant matters including conflicts of interest, corporate opportunities, business practices, confidentiality, fair dealing, complaints handling, protection and proper use of the Company's assets, compliance with laws and regulations and reporting unlawful and unethical behaviour.

The Board has ultimate responsibility for resolving all matters concerning ethical and responsible decision-making.

These procedures are designed to ensure that the integrity of the Company is maintained and that investor confidence is enhanced.

The Board encourages Non-executive Directors to own shares in the Company to further link their interests with the interests of all shareholders.

The Company is aware of its legal and other obligations to all legitimate stakeholders. The Board believes that appropriate recognition of these interests will enhance shareholder value in the long term.

The Board believes that the shareholders of the Company ultimately assess the performance of the Board, its committees, individual Directors and senior management based on the financial performance of the Company in the context of the commercial, legal and ethical framework within which the Company operates.

Directors' share trading

The Board of Directors has a formal policy for share dealing by Directors. This policy allows for the buying and selling of ARB shares only during the four-week periods following the annual and half yearly results announcements and the annual general meeting, unless approval is obtained from the Chairman to deal in the Company's shares outside these times.

4. Safeguard Integrity

ARB has an Audit Committee with a formal charter. The Audit Committee is composed of the three independent Non-executive Directors of ARB and is chaired by one of those independent Non-executive Directors.

The Board considers that the composition of the present Audit committee maintains integrity and is most operationally effective for a company of ARB's size and Board composition.

The primary function of the Audit Committee is to recommend to the Board the selection and appointment of the external auditors, based on the audit requirements of the Company and the independence and suitability of the auditors. The Audit Committee also acts as an interface between the Board and the external auditors to:

- ensure that the external auditors who are selected and appointed remain appropriate to the needs of the Company
- review the independence of the external auditors
- ensure the rotation of the external audit engagement partners in accordance with regulatory requirements
- review, with management and the auditors, the Company's periodic statutory accounts and reports
- review the systems and controls established by management to safeguard the assets of the Company
- monitor procedures in place aimed at ensuring compliance with the Corporations Act 2001 and the Australian Stock Exchange Listing Rules
- monitor the effective management of financial and other business risks

The Audit Committee has reviewed the external auditor's independence and is satisfied that they are not restricted in forming an independent view on the Group's financial report.

The provision of non-audit services by the external auditors to the Group has been restricted by the Board to ensure audit independence.

The other information with respect to safeguarding the integrity of financial reporting noted in Guide to Reporting on Principle 4 has been provided in the Directors' Report.

5. Timely Disclosure of Material Matters

The Company's aim is to ensure timely, balanced and continuous disclosure to the market of all material matters concerning the Company in accordance with the ASX continuous disclosure regime.

The policies and procedures designed to ensure compliance with ASX Listing Rules and Corporations Act 2001 disclosure requirements and to ensure accountability at a senior management level for that compliance are as follows:

- the Company must notify the market, via the ASX continuous disclosure regime, of any price sensitive information
- the Directors, Company Secretary and the Financial Controller are designated as Disclosure Officers who are responsible for reviewing potential disclosures and deciding what information should be disclosed
- only a Disclosure Officer may authorise communication with external parties on behalf of the Company thereby safeguarding confidentiality of corporate information
- the onus is on all executives to inform a Disclosure Officer of all potential disclosures as soon as they become aware of the information. The senior management team is responsible for ensuring staff understand and comply with this policy
- ASX and media releases must be approved by a Director who is a Disclosure Officer

6. Rights of Shareholders

The shareholders of ARB are responsible for voting on the election of Directors at the Annual General Meeting in accordance with the Company's constitution.

The Annual General Meeting also provides shareholders with the opportunity to express their views on matters concerning the Company and to vote on other items of business for resolution by shareholders. ARB's policy is to encourage effective shareholder participation at general meetings.

ARB requests that a senior partner of the firm of auditors attends the Annual General Meeting and be available to answer shareholder questions about the conduct of the audit and the preparation and content of the auditor's report.

ARB has a policy of effective communication with shareholders through:

- the Annual Report which is distributed to all shareholders
- disclosures made to the ASX
- letters to shareholders after half year and full year results announcements
- notices and explanatory memoranda in relation to resolutions to be put to a vote
- AGMs at which shareholders are given an opportunity to participate

7. Risk Management

The Board has established a Risk Management Committee to oversee the management of business risks and internal control. This is a management committee composed of the Executive Directors and the Financial Controller.

The Risk Management Committee identifies, assesses, monitors and manages business risks and internal control procedures by considering such matters as part of the regular weekly meetings of the senior management team of the Company.

Minutes of every management meeting are circulated to the Board which has the ultimate responsibility of ensuring that the risk mitigation actions recommended at these meetings are implemented.

8 Fair and Responsible Remuneration

ARB has established a Remuneration and Nomination Committee. The Remuneration and Nomination Committee is composed of three independent Non-executive members of the Board. The Chairman of the Committee is appointed by the Board.

The primary function of the Remuneration and Nomination Committee is to review senior executive remuneration structures, review senior management succession plans and monitor Directors' remuneration levels.

The committee may engage appropriately qualified consultants to provide it with advice and recommendations.

The independent Non-executive Directors are remunerated by way of fees and statutory superannuation.

Additional information with respect to remuneration noted in Guide to Reporting on Principle 8 has been provided in the Directors' Report.

Directors' Report

The Directors present their report together with the financial report of the consolidated entity of ARB Corporation Limited, being the Company and its controlled entities, for the financial year ended 30 June 2011 and the auditor's report thereon. Remuneration Report

Remuneration Policies

The Board's policy for determining the nature and amount of remuneration of key management personnel is agreed by the Board of Directors as a whole. The Board obtains professional advice where necessary to ensure that the Company attracts and retains talented and motivated key management personnel who can enhance Company performance through their contributions and leadership.

For executive directors and key management personnel, the Company provides a remuneration package that incorporates both cash-based and non cash-based remuneration. The contracts for service between the Company and specified key management personnel are on a continuing basis, the terms of which are not expected to change in the immediate future. The remuneration policy is not directly related to Company performance. The Board considers a remuneration policy based on short-term returns may not be beneficial to the long-term creation of wealth by the Company for shareholders.

The Company determines the maximum amount for remuneration for Directors by resolution.

Notes to the Financial Statements
For the Year Ended 30 June 2011

NOTE CONTENTS

1. Basis of preparation

The following is a summary of significant accounting policies adopted by the consolidated entity in the preparation and presentation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

(a) Basis of preparation of the financial report

This financial report is a general purpose financial report that has been prepared in accordance with Australian Accounting Standards, Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001.

The financial report covers ARB Corporation Limited and its controlled entities as a consolidated entity. ARB Corporation Limited is a company limited by shares, incorporated and domiciled in Australia.

The financial report was authorised for issue by the Directors as at the date of the Directors' report.

Compliance with IFRS
The consolidated financial statements of ARB Corporation Limited also comply with the International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

Historical Cost Convention
The financial report has been prepared under the historical cost convention, as modified by revaluations to fair value for certain classes of assets as described in the accounting policies.

(b) Going concern

The financial report has been prepared on a going concern basis.

(c) Principles of consolidation

The consolidated financial statements are those of the consolidated entity ("the group"), comprising the financial statements of all entities. ARB Corporation Limited has the power to control the financial and operating policies so as to obtain benefits from its activities. Details of the controlled entities are contained in Note 24.

The financial statements of subsidiaries are prepared for the same reporting period as the parent entity, using consistent accounting policies. Adjustments are made to bring into line any dissimilar accounting policies.

All inter-company balances and transactions, including any unrealised profits or losses have been eliminated on consolidation. Subsidiaries are fully consolidated from the date on which control is established.

(d) Revenue recognition

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer and the costs incurred or to be incurred in respect of the transaction can be measured reliably. Risks and rewards of ownership are considered passed to the buyer at transfer of ownership of the goods to the customer.

Revenue from rendering services to customers is recognised upon delivery of the service to the customer.

Interest revenue is recognised when it becomes receivable on a proportional basis taking into account the interest rates applicable to the financial assets.

(e) Cash and cash equivalents

Cash and cash equivalents include cash on hand and at banks, short-term deposits with an original maturity of three months or less held at call with financial institutions, and bank overdrafts.

(f) Inventories

Inventories are measured at the lower of cost and net realisable value. Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- Raw materials and consumables: purchase cost on a first-in-first-out basis;
- Finished goods and work in progress: cost of direct material and labour and a proportion of manufacturing overheads based on normal operating capacity.

1. Basis of preparation (continued)

(g) Property, plant and equipment

Cost and valuation
Freehold land and buildings are shown at cost less accumulated depreciation for buildings and accumulated impairment losses.

All other classes of property, plant and equipment are stated at cost less depreciation and any accumulated impairment losses.

Depreciation
Land is not depreciated. The depreciable amounts of all other fixed assets are depreciated over their estimated useful lives commencing from the time the asset is held ready for use.

The useful lives for each class of assets are:

		2011	2010
-	Buildings:	40 years	40 years
-	Plant and equipment:	3 to 10 years	3 to 10 years

(h) Leases

Leases are classified at their inception as either operating or finance leases based on the economic substance of the agreement so as to reflect the risks and benefits incidental to ownership.

Operating Leases
Lease payments for operating leases, where substantially all of the risks and benefits remain with the lessor, are charged as expenses in the period in which they are incurred.

(i) Business combinations

A business combination is a transaction or other event in which an acquirer obtains control of one or more businesses and results in the consolidation of the assets and liabilities acquired. Business combinations are accounted for by applying the acquisition method.

The consideration transferred is determined as the aggregate of fair values of assets given, equity issued and liabilities assumed in exchange for control. Deferred consideration payable is discounted to present value using the group's incremental borrowing rate.

Goodwill is recognised initially at the excess over the aggregate of the consideration transferred, the fair value of the non-controlling interest, and the acquisition date fair value of the acquirer's previously held equity interest (in case of step acquisition), less the fair value of the identifiable assets acquired and liabilities assumed.

Acquisition related costs are expensed as incurred.

(j) Intangibles

Goodwill
Goodwill is initially measured as described in Note 1 (i)

Goodwill is not amortised but is tested annually for impairment, or more frequently if events or changes in circumstances indicate that it might be impaired. Goodwill is carried at cost less accumulated impairment losses.

Research and Development
Expenditure on research activities is recognised as an expense when incurred.

Expenditure on development activities is capitalised only when technical feasibility studies identify that the project will deliver future economic benefits and these benefits can be measured reliably. Capitalised development expenditure is stated at cost less accumulated amortisation. Amortisation is calculated using a straight-line method to allocate the cost of the intangible asset over its estimated useful lives, which range from 3 to 5 years. Amortisation commences when the intangible asset is available for use.

Other development expenditure is recognised as an expense when incurred.

Distribution Rights
The distribution rights were recorded at fair value on acquisition.

Amortisation is calculated using a straight-line method to allocate the cost over the period of the distribution rights.

1. Basis of preparation (continued)

(k) Impairment

Assets with an indefinite useful life are not amortised but are tested annually for impairment in accordance with AASB 136. Assets subject to annual depreciation or amortisation are reviewed for impairment whenever events or circumstances arise that indicate that the carrying amount of the asset may be impaired.

An impairment loss is recognised where the carrying amount of the asset exceeds its recoverable amount. The recoverable amount of an asset is defined as the higher of its fair value less costs to sell and value in use.

(l) Taxes

Current income tax expense or revenue is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities.

Deferred tax assets and liabilities are recognised for temporary differences at the applicable tax rates when the assets are expected to be recovered or liabilities are settled. No deferred tax asset or liability is recognised in relation to temporary differences if they arose in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit or taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only when it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

Tax Consolidation
The parent entity and its controlled Australian entities have formed an income tax consolidated group under the tax consolidation legislation. The parent entity is responsible for recognising the current tax liabilities and deferred tax assets arising in respect of tax losses, for the tax consolidated group. The tax consolidated group has also entered into a tax funding agreement whereby each company in the group contributes to the income tax payable in proportion to their contribution to the net profit before tax of the tax consolidated group.

(m) Employee benefits

Liabilities arising in respect of wages and salaries, annual leave and any other employee benefits expected to be settled within twelve months of the reporting date are measured at their nominal amounts based on remuneration rates which are expected to be paid when the liability is settled. All other employee benefit liabilities are measured at the present value of the estimated future cash outflow to be made in respect of services provided by employees up to the reporting date.

(n) Financial instruments

Loans and Receivables
Loans and receivables are measured at fair value at inception and subsequently at amortised cost using the effective interest rate method.

Financial Liabilities
Financial Liabilities include trade payables, other creditors and loans from third parties.

Hedge Accounting
Certain derivatives are designated as hedging instruments and are classified as cash flow hedges.

At the inception of each hedging transaction the group documents the relationship between the hedging instruments and hedged items, its risk management objective and its strategy for undertaking the hedge transaction. The group also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions have been and will continue to be highly effective in offsetting changes in cash flows of hedged items.

Cash flow hedge
To qualify as a cash flow hedge the underlying transactions generating the cash flows must be highly probable.

Changes in the fair value of derivatives that are designated and qualify as cash flow hedges are recognised in equity in the cash flow hedging reserve. The gain or loss is released to profit or loss in the same period when the forecast transactions occur, thereby mitigating any exchange fluctuations that would have transpired in the absence of the hedge.

1. Basis of preparation (continued)

(o) Foreign currency

Functional and presentation currency
The financial statements of each group entity are measured using its functional currency, which is the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars which is the parent entity's functional and presentation currency.

Transactions and Balances
Transactions in foreign currencies of entities within the consolidated entity are translated into functional currency at the rate of exchange ruling at the date of the transaction.

Foreign currency monetary items that are outstanding at the reporting date (other than monetary items arising under foreign currency contracts where the exchange rate for that monetary item is fixed in the contract) are translated using the spot rate at the end of the financial year.

Except for certain foreign currency hedges, all resulting exchange differences arising on settlement or re-statement are recognised as revenues and expenses for the financial year.

Entities that have a functional currency different to the presentation currency are translated as follows:

- Assets and liabilities are translated at year-end exchange rates prevailing at that reporting date;
- Income and expenses are translated at actual exchange rates or average exchange rates for the period, where appropriate; and
- All resulting exchange differences are recognised as a separate component of equity.

(p) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the Consolidated Statement of Financial Position are shown inclusive of GST.

Cash flows are presented in the Consolidated Statement of Cash Flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

(q) Comparatives

Where necessary, comparative information has been reclassified and repositioned for consistency with current year disclosures.

(r) Rounding amounts

The Group is of a kind referred to in ASIC Class Order CO 98/0100 and in accordance with that Class Order, amounts in the financial statements have been rounded off to the nearest thousand dollars, or in certain cases, to the nearest dollar.

(s) New accounting standards and interpretations

A number of accounting standards and interpretations have been issued at the reporting date but are not yet effective. The Directors have not yet assessed the impact of these standards or interpretations.

2. Financial risk management

The consolidated entity is exposed to a variety of financial risks comprising:
(a) Currency risk
(b) Interest rate risk
(c) Credit risk
(d) Liquidity risk
(e) Fair values

The Board of Directors has overall responsibility for ensuring that the risk mitigation actions recommended by the risk management committee are implemented. The principle that the Board undertake with the exposure of the group to financial risks is to seek to minimise potential adverse effects on the financial performance as a result of risks arising from financial instruments.

(a) Currency risk

Derivative financial instruments are used by the group to hedge exposure to exchange rate risk associated with foreign currency transactions. Transactions for hedging purposes are undertaken without the use of collateral as only reputable institutions with sound financial positions are dealt with.

The group enters into forward exchange contracts to buy and sell specified amounts of foreign currencies in the future at stipulated exchange rates. The objective in entering the forward exchange contracts is to protect the consolidated entity against unfavourable exchange rate movements for both the contracted and anticipated future sales and purchases undertaken in foreign currencies.

Forward exchange contracts as at 30 June were:

	Sell USD/Buy AUD		**Forward Exchange Rate**	
Settlement	**JUN 2011 A($'000s)**	JUN 2010 A($'000s)	**JUN 2011 $**	JUN 2010 $
Less than 6 months	-	577	-	0.6929

	Sell AUD/Buy SEK		**Forward Exchange Rate**	
Settlement	**JUN 2011 A($'000s)**	JUN 2010 A($'000s)	**JUN 2011 $**	JUN 2010 $
Less than 6 months	-	1,199	-	6.3386

The group trades in various foreign currencies for both sales and purchases.

There is a net excess of United States Dollars (USD) received over the Group's United States Dollars payments. Accordingly, the group monitors the foreign currency exchange rates and may take out hedge contracts to stabilise the group's sale of United States Dollars.

The group purchases product in Swedish Krona (SEK). To minimise the risk on the exposure to Swedish Krona the group may take out hedge contracts.

If the group considers its exposure in a foreign currency to be significant it will consider the use of hedging contracts.

Sensitivity

No reasonable movement in the Australian dollar (AUD) would result in a significant impact on profit or equity.

2. Financial risk management (continued)

(b) Interest rate risk

The group monitors its cashflow on a daily basis with the aim of minimising its borrowings and therefore its interest rate risk. Borrowings as at the year ended 30 June 2011 were $nil (2010: $nil). Finance facilities available and used as at the reporting date are disclosed in Note 21.

The consolidated entity's exposure to interest rate risks and the effective interests of financial assets and liabilities, both recognised and unrecognised at the balance date, are as follows:

Consolidated Entity	Note	Weighted Average Interest rate	Floating Interest rate ($'000s)	Fixed interest maturing in: 1 year or less ($'000s)	Fixed interest maturing in: More than 1 year ($'000s)	Non Interest Bearing ($'000s)	Total ($'000s)
2011							
Financial assets

Receivables	7	-	-	-	-	31,739	31,739
Financial liabilities							
Payables	13	-	-	-	-	25,508	25,508

(c) Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The maximum exposure to credit risk, excluding the value of any collateral or other security, at balance date of recognised financial assets is the carrying amount of those assets, net of any provisions for impairment of those assets, as disclosed in the Consolidated Statement of Financial Position and Notes to the Financial Statements.

Credit risk for derivative financial instruments arises from the potential failure by counterparties to the contract to meet their obligations. The credit risk exposure to forward exchange contracts is the net fair value of these contracts.

The consolidated entity does not have any material credit risk exposure to any single debtor or group of debtors under financial instruments entered into by the consolidated entity.

Concentrations of credit risk
The consolidated entity minimises concentrations of credit risk in relation to trade receivables by undertaking transactions with a large number of customers. The majority of cash holdings are held on deposit with Australian banks.

(d) Liquidity risk

Maturity analysis
The table below represents the undiscounted carrying amounts of financial instruments that are due to be settled within the next six months in accordance with their contractual terms.

	CONSOLIDATED Carrying Amount **JUN 2011 ($'000s)**	JUN 2010 ($'000s)

Other financial assets	**-**	56
Payables	**(23,381)**	(25,508)
Net maturities	**39,110**	27,190

2. Financial risk management (continued)

(e) Fair values

The net fair value of financial assets and financial liabilities approximates their carrying amounts as disclosed in the Consolidated Statement of Financial Position and Notes to the Financial Statements.

Derivative hedging instruments fair values have been determined based on observable inputs. Derivative hedging instruments are classified as Level 2 in the fair value measurement hierarchy. All other financial assets and liabilities carrying amounts are a reasonable approximation of fair values as they are short term trade receivables and payables.

Impairment

Goodwill is allocated to the following cash-generating units. The impairment test for each of these units has been prepared using a value in use calculation with the following assumptions. Growth rates are based upon Director's assumptions and consideration of historical averages. The terminal value has been calculated based on an earnings multiple of 5 times.

		Goodwill ($'000s)	Growth rate	Discount Rate (post tax)	Period of projection
2011					
	Thule Car Rack systems	1,748	5.0%	9.0%	5 years
	Kingsley Enterprises	3,226	4.5%	9.0%	5 years
	ARB Corporation (Australia)	3,734	6.5%	9.0%	5 years

	Kingsley Enterprises	3,226	4.5%	9.0%	5 years
	ARB Corporation (Australia)	2,883	6.5%	9.0%	5 years

No reasonable change in any of the key assumptions would result in an impairment.

(b) During 2010 the Company paid a special dividend of 40 cents in relation to which shareholders were provided with the opportunity to participate in a Dividend Reinvestment Plan and a Bonus Share Plan. The participation price for shareholders who elected to participate in the Dividend Reinvestment Plan was $4.50 and the Bonus Share Plan participants forwent their dividend at an equivalent rate.

Capital Management
When managing capital, the Board's objective is to ensure the entity continues as a going concern as well as maintaining optimal return to shareholders and benefits for other stakeholders.

During 2011 the Company paid dividends of $15,946,000 (2010: $12,585,000) and a special dividend by way of dividend reinvestment of $nil (2010: $21,223,000). A special dividend was forgone by way of Bonus Share Plan of $nil (2010: $5,403,000).

Management monitors, with consideration of the domestic and international economic climates, the group's debt and liquidity levels. The capital management objective is to maintain the dividend payment ratio, whilst generating cash for future growth. It is the Board's current intention to maintain a dividend payout ratio of between 40% to 60% of Net Profit after Tax, excluding any special dividends.

INDEPENDENT AUDITOR'S REPORT

To the Members of ARB Corporation Limited

Report on the Financial Report

We have audited the accompanying financial report of ARB Corporation Limited and its controlled entities, which comprises the consolidated statement of financial position as at 30 June 2011, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 1, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with *International Financial Reporting Standards*.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*.

Opinion

In our opinion:

(a) the financial report of ARB Corporation Limited is in accordance with the *Corporations Act 2001*, including:

(i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2011 and of its performance for the year ended on that date; and

(ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and

(b) the consolidated financial report also complies with *International Financial Reporting Standards* as disclosed in Note 1.

Report on the Remuneration Report

We have audited the Remuneration Report included in pages 13 to 14 of the directors' report for the year ended 30 June 2011. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Opinion

In our opinion, the Remuneration Report of ARB Corporation Ltd and its controlled entities for the year ended 30 June 2011 complies with section 300A of the *Corporations Act 2001*.
