IMPORTANT INFORMATION

TIME AND PLACE OF MEETING

Notice is given that the annual general meeting of the Shareholders to which this Notice of Meeting relates will be held at 2pm (WST) on 30 November 2011 at:

University of Western Australia
Seminar Room 3
Hackett Drive, Crawley, WA 6009

YOUR VOTE IS IMPORTANT

The business of the Annual General Meeting affects your shareholding and your vote is important.

VOTING ELIGIBILITY

The Directors have determined pursuant to Regulation 7.11.37 of the Corporations Regulations 2001 (Cth) that the persons eligible to vote at the Annual General Meeting are those who are registered Shareholders at 2pm (WST) (5pm Sydney daylight savings time) on 28 November 2011.

VOTING IN PERSON

To vote in person, attend the Annual General Meeting at the time, date and place set out above.

VOTING BY PROXY

To vote by proxy, please complete and sign the enclosed Proxy Form and return by the time and in accordance with the instructions set out on the Proxy Form.

New sections 250BB and 250BC of the Corporations Act came into effect on 1 August 2011 and apply to voting by proxy on or after that date. Shareholders and their proxies should be aware of these changes to the Corporations Act, as they will apply to this Annual General Meeting. Broadly, the changes mean that:

- if proxy holders vote, they must cast all directed proxies as directed; and
- any directed proxies which are not voted will automatically default to the Chair, who must vote the proxies as directed.

For personal use only

Further details on these changes is set out below.

Proxy vote if appointment specifies way to vote

Section 250BB(1) of the Corporations Act provides that an appointment of a proxy may specify the way the proxy is to vote on a particular resolution and, **if it does:**

- the proxy need not vote on a show of hands, but if the proxy does so, the proxy must vote that way (i.e. as directed); and
- if the proxy has 2 or more appointments that specify different ways to vote on the resolution – the proxy must not vote on a show of hands; and
- if the proxy is the chair of the meeting at which the resolution is voted on – the proxy must vote on a poll, and must vote that way (i.e. as directed); and
- if the proxy is not the chair – the proxy need not vote on the poll, but if the proxy does so, the proxy must vote that way (i.e. as directed).

Transfer of non-chair proxy to chair in certain circumstances

Section 250BC of the Corporations Act provides that, if:

- an appointment of a proxy specifies the way the proxy is to vote on a particular resolution at a meeting of the Company's members; and
- the appointed proxy is not the chair of the meeting; and
- at the meeting, a poll is duly demanded on the resolution; and
- either of the following applies:
 - the proxy is not recorded as attending the meeting;
 - the proxy does not vote on the resolution,

the chair of the meeting is taken, before voting on the resolution closes, to have been appointed as the proxy for the purposes of voting on the resolution at the meeting.

BUSINESS OF THE MEETING

AGENDA

ORDINARY BUSINESS

Financial Statements and Reports

To receive and consider the annual financial report of the Company for the financial year ended 30 June 2011 together with the declaration of the directors, the directors' report, the remuneration report and the auditor's report.

1. RESOLUTION 1 – ADOPTION OF REMUNERATION REPORT

To consider and, if thought fit, to pass, with or without amendment, the following resolution as a **non-binding resolution**:

“That, for the purpose of Section 250R(2) of the Corporations Act and for all other purposes, approval is given for the adoption of the Remuneration Report as contained in the Company's annual financial report for the financial year ended 30 June 2011”

Note: the vote on this Resolution is advisory only and does not bind the Directors or the Company.

Voting Prohibition Statement:

A vote on this Resolution must not be cast (in any capacity) by or on behalf of any of the following persons:

- (a) a member of the Key Management Personnel, details of whose remuneration are included in the Remuneration Report; or
- (b) a Closely Related Party of such a member.

However, a person described above may vote on this Resolution if:

- (c) the person does so as a proxy appointed by writing that specifies how the proxy is to vote on the Resolution; and
- (d) the vote is not cast on behalf of a person described in sub-paragraphs (a) or (b) above.

2. RESOLUTION 2 – RE-ELECTION OF DIRECTOR – MR MARCUS EDWARD-JONES

To consider and, if thought fit, to pass, with or without amendment, the following resolution as an **ordinary resolution**:

“That, for the purpose of clause 13.2 of the Constitution and for all other purposes, Mr Marcus Edward Jones, a Director, retires by rotation, and being eligible, is re-elected as a Director.”

3. RESOLUTION 3 – RATIFICATION OF PRIOR ISSUE OF SECURITIES – SHARES AND OPTIONS

To consider and, if thought fit, to pass, with or without amendment, the following resolution as an **ordinary resolution**:

“That, for the purpose of ASX Listing Rule 7.4 and for all other purposes, Shareholders ratify the allotment and issue of 83,563,829 Shares and 41,781,915 Options on the terms and conditions set out in the Explanatory Statement.”

Voting Exclusion: The Company will disregard any votes cast on this Resolution by a person who participated in the issue and any associates of those persons. However, the Company need not disregard a vote if it is cast by a person as a proxy for a person who is entitled to vote, in accordance with the directions on the Proxy Form, or, it is cast by the person chairing the meeting as proxy for a person who is entitled to vote, in accordance with a direction on the Proxy Form to vote as the proxy decides.

4. RESOLUTION 4 – PLACEMENT – SHARES

To consider and, if thought fit, to pass, with or without amendment, the following resolution as an **ordinary resolution**:

“That, for the purpose of ASX Listing Rule 7.1 and for all other purposes, approval is given for the Directors to allot and issue up to that number of Shares, when multiplied by the issue price, will raise up to \$10,000,000 on the terms and conditions set out in the Explanatory Statement.”

Voting Exclusion: The Company will disregard any votes cast on this Resolution by any person who may participate in the proposed issue and a person who might obtain a benefit, except a benefit solely in the capacity of a holder of ordinary securities, if the Resolution is passed and any associates of those persons. However, the Company need not disregard a vote if it is cast by a person as a proxy for a person who is entitled to vote, in accordance with the directions on the Proxy Form, or, it is cast by the person chairing the meeting as proxy for a person who is entitled to vote, in accordance with a direction on the Proxy Form to vote as the proxy decides.

5. RESOLUTION 5 – ADOPTION OF NEW CONSTITUTION

To consider and, if thought fit, to pass, with or without amendment, the following resolution as a **special resolution**:

“That, for the purposes of Section 136(2) of the Corporations Act and for all other purposes, the Company adopts a new constitution in the form as signed by the Chairman of the Meeting for identification purposes, in lieu of the existing constitution of the Company.”

DATED: 27 OCTOBER 2011

BY ORDER OF THE BOARD

**JANE FLEGG
COMPANY SECRETARY**

EXPLANATORY STATEMENT

This Explanatory Statement has been prepared to provide information which the Directors believe to be material to Shareholders in deciding whether or not to pass the Resolutions which are the subject of the business of the Meeting.

1. FINANCIAL STATEMENTS AND REPORTS

In accordance with the Constitution, the business of the Meeting will include receipt and consideration of the annual financial report of the Company for the financial year ended 30 June 2011 together with the declaration of the directors, the directors' report, the remuneration report and the auditor's report.

The Company will not provide a hard copy of the Company's annual financial report to Shareholders unless specifically requested to do so. The Company's annual financial report is available on its website at www.rangeresources.com.au.

2. RESOLUTION 1 – ADOPTION OF REMUNERATION REPORT

2.1 General

The Corporations Act requires that at a listed company's annual general meeting, a resolution that the remuneration report be adopted must be put to the shareholders. However, such a resolution is advisory only and does not bind the Directors or the Company.

Under recent changes to the Corporations Act which came into effect on 1 July 2011, if at least 25% of the votes cast on Resolution 1 are voted against adoption of the Remuneration Report at the Annual General Meeting, and then again at the Company's 2012 annual general meeting, the Company will be required to put to Shareholders a resolution proposing the calling of an extraordinary general meeting to consider the appointment of directors of the Company (**Spill Resolution**).

If more than 50% of Shareholders vote in favour of the Spill Resolution, the Company must convene the extraordinary general meeting (**Spill Meeting**) within 90 days of the Company's 2012 annual general meeting. All of the Directors who were in office when the Company's 2012 Directors' report was approved, other than the managing director of the Company, will cease to hold office immediately before the end of the Spill Meeting but may stand for re-election at the Spill Meeting. Following the Spill Meeting those persons whose election or re-election as Directors is approved will be the Directors of the Company.

The remuneration report sets out the Company's remuneration arrangements for the Directors and senior management of the Company. The remuneration report is part of the Directors' report contained in the annual financial report of the Company for the financial year ending 30 June 2011.

A reasonable opportunity will be provided for discussion of the remuneration report at the Annual General Meeting.

2.2 Proxy Restrictions

Pursuant to the Corporations Act, if you elect to appoint the Chair, or another member of Key Management Personnel whose remuneration details are included in the Remuneration Report or any Closely Related Party of that member as your proxy to vote on this Resolution 1, *you must direct the proxy how they are to vote*. Where you do not direct the Chair, or another member of Key Management Personnel whose remuneration details are included in the Remuneration Report or Closely Related Party of that member on how to vote on this Resolution 1, the proxy is prevented by the Corporations Act from exercising your vote and your vote will not be counted in relation to this Resolution 1.

3. RESOLUTION 2 – RE-ELECTION OF DIRECTOR – MR MARCUS EDWARD-JONES

Clause 13.2 of the Constitution requires that at the Company's annual general meeting in every year, one-third of the Directors for the time being, or, if their number is not a multiple of 3, then the number nearest one-third (rounded upwards in case of doubt), shall retire from office, provided always that no Director (except a Managing Director) shall hold office for a period in excess of 3 years, or until the third annual general meeting following his or her appointment, whichever is the longer, without submitting himself or herself for re-election.

The Directors to retire at an annual general meeting are those who have been longest in office since their last election, but, as between persons who became Directors on the same day, those to retire shall (unless they otherwise agree among themselves) be determined by drawing lots.

A Director who retires by rotation under clause 13.2 of the Constitution is eligible for re-election.

The Company currently has 4 Directors and accordingly one must retire.

Mr Marcus Edward-Jones, the Director longest in office since his last election, retires by rotation and seeks re-election.

4. RESOLUTION 3 – RATIFICATION OF PRIOR ISSUE OF SECURITIES – SHARES AND OPTIONS

4.1 General

On 28 September 2011 the Company entered into an agreement (**Placement Agreement**) with Socius CG II. Ltd (**Socius**), pursuant to which Socius agreed to subscribe for up to 83,563,859 Shares (**Placement**). For every two (2) Shares issued under the Placement Agreement, Socius will receive one (1) free attaching Option.

On 28 September 2011, the Company issued the Shares and Options under the Placement to raise a total of US\$15,000,000.

Resolution 3 seeks Shareholder ratification pursuant to ASX Listing Rule 7.4 for the issue of those Shares and Options (**Ratification**).

ASX Listing Rule 7.1 provides that a company must not, subject to specified exceptions, issue or agree to issue more equity securities during any 12 month period than that amount which represents 15% of the number of fully paid ordinary securities on issue at the commencement of that 12 month period.

ASX Listing Rule 7.4 sets out an exception to ASX Listing Rule 7.1. It provides that where a company in general meeting ratifies the previous issue of securities made pursuant to ASX Listing Rule 7.1 (and provided that the previous issue did not breach ASX Listing Rule 7.1) those securities will be deemed to have been made with shareholder approval for the purpose of ASX Listing Rule 7.1.

By ratifying this issue, the Company will retain the flexibility to issue equity securities in the future up to the 15% annual placement capacity set out in ASX Listing Rule 7.1 without the requirement to obtain prior Shareholder approval.

4.2 Technical information required by ASX Listing Rule 7.4

Pursuant to and in accordance with ASX Listing Rule 7.5, the following information is provided in relation to the Ratification:

- (a) 83,563,859 Shares were allotted;
- (b) 41,781,915 Options were allotted;
- (c) the Shares were issued at an issue price of 18.15 cents per Share;
- (d) the Options were issued for nil cash consideration;
- (e) the Shares issued were all fully paid ordinary shares in the capital of the Company issued on the same terms and conditions as the Company's existing Shares;
- (f) the Options will be issued on the terms and conditions set out in Schedule 1;
- (g) the Shares and Options were allotted and issued to Socius who is not a related party of the Company; and
- (h) the funds raised from the Placement were used to fast track the Herrera drilling program.

5. RESOLUTION 4 – PLACEMENT – SHARES

5.1 General

Resolution 4 seeks Shareholder approval for the allotment and issue of up to that number of Shares, when multiplied by the issue price, will raise up to \$10,000,000 (**Placement**).

A summary of ASX Listing Rules 7.1 and 7.4 is set out in Section 4.2 above.

The effect of Resolution 4 will be to allow the Directors to issue the Shares pursuant to the Placement during the period of 3 months after the Meeting (or a longer period, if allowed by ASX), without using the Company's 15% annual placement capacity.

5.2 Technical information required by ASX Listing Rule 7.1

Pursuant to and in accordance with ASX Listing Rule 7.3, the following information is provided in relation to the Placement:

- (a) the maximum number of Shares to be issued is up to that number of Shares which, when multiplied by the issue price, equals \$10,000,000;

- For personal use only
- (b) the Shares will be issued no later than 3 months after the date of the Meeting (or such later date to the extent permitted by any ASX waiver or modification of the ASX Listing Rules) and it is intended that allotment will occur on the same date;
 - (c) the issue price will be not less than 80% of the average market price for Shares calculated over the 5 days on which sales in the Shares are recorded before the day on which the issue is made or, if there is a prospectus, over the last 5 days on which sales in the securities were recorded before the date the prospectus is signed;
 - (d) the Shares will be allotted and issued to sophisticated and professional investors pursuant to section 708 of the Corporations Act, none of whom are related parties of the Company;
 - (e) the Shares issued will be fully paid ordinary shares in the capital of the Company issued on the same terms and conditions as the Company's existing Shares; and
 - (f) the Company intends to use the funds raised from the Placement towards:
 - (i) drilling, development and other operational activities on the Company's Puntland, Texas, Georgian and Trinidad assets; and
 - (ii) general working capital purposes.

6. RESOLUTION 5 – ADOPTION OF NEW CONSTITUTION

6.1 General

A company may modify or repeal its constitution or a provision of its constitution by special resolution of Shareholders.

Resolution 5 is a special resolution which will enable the Company to adopt a new constitution (**Proposed Constitution**) which is of the type required for a listed public company limited by shares updated to ensure it reflects the current provisions of the Corporations Act and ASX Listing Rules.

This will incorporate amendments to the Corporations Act and ASX Listing Rules since the current Constitution was adopted on 23 November 1998.

The Directors believe that it is preferable in the circumstances to replace the existing Constitution with the Proposed Constitution rather than to amend a multitude of specific provisions.

The Proposed Constitution is broadly consistent with the provisions of the existing Constitution. Many of the proposed changes are administrative or minor in nature including but not limited to:

- updating references to bodies or legislation which have been renamed (e.g. references to the Australian Settlement and Transfer Corporation Pty Ltd and ASTC Settlement Rules); and
- expressly providing for statutory rights by mirroring these rights in provisions of the Proposed Constitution.

The Directors believe these amendments are not material nor will they have any significant impact on Shareholders. It is not practicable to list all of the changes to the Constitution in detail in this Explanatory Statement, however, a summary of the proposed material changes is set out below.

A copy of the Proposed Constitution is available for review by Shareholders at the at the Company's website at www.kalmining.com.au and at the office of the Company. A copy of the Proposed Constitution can also be sent to Shareholders upon request to the Company Secretary. Shareholders are invited to contact the Company if they have any queries or concerns.

6.2 Summary of material proposed changes

Dividends (current clause 25 / new clause 21)

Section 254T of the Corporations Act was amended effective 28 June 2010.

There is now a three-tiered test that a company will need to satisfy before paying a dividend replacing the previous test that dividends may only be paid out of profits.

The amended requirements provide that a company must not a pay a dividend unless:

- (a) the company's assets exceed its liabilities immediately before the dividend is declared and the excess is sufficient for the payment of the dividend;
- (b) the payment of the dividend is fair and reasonable to the company's shareholders as a whole; and
- (c) the payment of the dividend does not materially prejudice the company's ability to pay its creditors.

The existing Constitution reflects the former profits test and restricts the dividends to be paid only out of the profits of the Company. The Proposed Constitution is updated to reflect the new requirements of the Corporations Act. The Directors consider it appropriate to update the Constitution for this amendment to allow more flexibility in the payment of dividends in the future should the Company be in a position to pay dividends.

Partial (proportional) takeover provisions (new clause 35)

A proportional takeover bid is a takeover bid where the offer made to each shareholder is only for a proportion of that shareholder's shares.

Pursuant to Section 648G of the Corporations Act, the Company has included in the Proposed Constitution a provision whereby a proportional takeover bid for Shares may only proceed after the bid has been approved by a meeting of Shareholders held in accordance with the terms set out in the Corporations Act.

This clause of the Proposed Constitution will cease to have effect on the third anniversary of the date of the adoption of last renewal of the clause.

Information required by Section 648G of the Corporations Act

Effect of proposed proportional takeover provisions

Where offers have been made under a proportional off-market bid in respect of a class of securities in a company, the registration of a transfer giving effect to a contract resulting from the acceptance of an offer made under such a proportional off-market bid is prohibited unless and until a resolution to approve the proportional off-market bid is passed.

Reasons for proportional takeover provisions

A proportional takeover bid may result in control of the Company changing without Shareholders having the opportunity to dispose of all their Shares. By making a partial bid, a bidder can obtain practical control of the Company by acquiring less than a majority interest. Shareholders are exposed to the risk of being left as a minority in the Company and the risk of the bidder being able to acquire control of the Company without payment of an adequate control premium. These amended provisions allow Shareholders to decide whether a proportional takeover bid is acceptable in principle, and assist in ensuring that any partial bid is appropriately priced.

Knowledge of any acquisition proposals

As at the date of this Notice of Meeting, no Director is aware of any proposal by any person to acquire, or to increase the extent of, a substantial interest in the Company.

Potential advantages and disadvantages of proportional takeover provisions

The Directors consider that the proportional takeover provisions have no potential advantages or disadvantages for them and that they remain free to make a recommendation on whether an offer under a proportional takeover bid should be accepted.

The potential advantages of the proportional takeover provisions for Shareholders include:

- (a) the right to decide by majority vote whether an offer under a proportional takeover bid should proceed;
- (b) assisting in preventing Shareholders from being locked in as a minority;
- (c) increasing the bargaining power of Shareholders which may assist in ensuring that any proportional takeover bid is adequately priced; and
- (d) each individual Shareholder may better assess the likely outcome of the proportional takeover bid by knowing the view of the majority of Shareholders which may assist in deciding whether to accept or reject an offer under the takeover bid.

The potential disadvantages of the proportional takeover provisions for Shareholders include:

- (a) proportional takeover bids may be discouraged;
- (b) lost opportunity to sell a portion of their Shares at a premium; and
- (c) the likelihood of a proportional takeover bid succeeding may be reduced.

For personal use only

Recommendation of the Board

The Directors do not believe the potential disadvantages outweigh the potential advantages of adopting the proportional takeover provisions and as a result consider that the proportional takeover provision in the Proposed Constitution is in the interest of Shareholders and unanimously recommend that Shareholders vote in favour of Resolution 5.

SCHEDULE 1 – TERMS AND CONDITIONS OF OPTIONS

The Options entitle the holder to subscribe for Shares on the following terms and conditions:

1. Each Option gives the Optionholder the right to subscribe for one Share. To obtain the right given by each Option, the Optionholder must exercise the Options in accordance with the terms and conditions of the Options
2. The Options will expire at 5:00 pm (WST) on 30 September 2016 (**Expiry Date**). Any Option not exercised before the Expiry Date will automatically lapse on the Expiry Date.
3. The amount payable upon exercise of each Option will be \$0.1898 (**Exercise Price**).
4. An Optionholder may exercise their Options by lodging with the Company, before the Expiry Date:
 - (i) a written notice of exercise of Options specifying the number of Options being exercised; anda cheque or electronic funds transfer for the exercise price for the number of Options being exercised or as so described in Clause 2.7 of the Placement Agreement (**Exercise Notice**).
5. An Exercise Notice is only effective when the Company has received the full amount of the Exercise Price in cleared funds or agreement is reached between Range and Socius as to the satisfaction of **Clause 2.7** of the **Placement Agreement**.
6. On receipt of the Exercise Notice accompanied by the Exercise Price, the Company will allot the number of Shares required under these terms and conditions in respect of the number of Options specified in the Exercise Notice.
7. The Options are transferable.
8. All Shares allotted upon the exercise of Options will upon allotment rank pari passu in all respects with other Shares.
9. The Company will not apply for quotation of the Options on ASX. However, The Company will apply for quotation of all Shares allotted pursuant to the exercise of Options on ASX within 10 Business Days after the date of allotment of those Shares.
10. If at any time the issued capital of the Company is reconstructed, all rights of an Optionholder are to be changed in a manner consistent with the Corporations Act and the ASX Listing Rules at the time of the reconstruction.
11. There are no participating rights or entitlements inherent in the Options and Optionholders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Options. However, the Company will ensure that for the purposes of determining entitlements to any such issue, the record date will be at least 7 Business Days after the issue is announced. This will give Optionholders the opportunity to exercise their Options prior to the date for determining entitlements to participate in any such issue.
12. In the event that Company proceeds with a pro rat issue (except a bonus issue) of securities to Shareholders after the date of issue of the Options, the exercise prices of the Options may be reduced in accordance with the formula set out in ASX Listing Rule 6.22.2.
13. In the event the Company proceeds with a bonus issue of securities to Shareholders after the date of the issue of the Options, the number of securities over which an Option is exercisable may be increased by the number of securities which the Optionholder would have received if the Option has been exercised before the record date for the bonus issue.

1. **(Appointing a Proxy):** A member entitled to attend and vote at an Annual General Meeting is entitled to appoint not more than two proxies to attend and vote on a poll on their behalf. The appointment of a second proxy must be done on a separate copy of the Proxy Form. Where more than one proxy is appointed, such proxy must be allocated a proportion of the member's voting rights. If a member appoints two proxies and the appointment does not specify this proportion, each proxy may exercise half the votes. A duly appointed proxy need not be a member of the Company.
2. **(Direction to Vote):** A member may direct a proxy how to vote by marking one of the boxes opposite each item of business. Where a box is not marked the proxy may vote as they choose. Where more than one box is marked on an item the vote will be invalid on that item.
3. **(Signing Instructions):**
- **(Individual):** Where the holding is in one name, the member must sign.
 - **(Joint Holding):** Where the holding is in more than one name, all of the members should sign.
 - **(Power of Attorney):** If you have not already provided the Power of Attorney with the registry, please attach a certified photocopy of the Power of Attorney to this form when you return it.
 - **(Companies):** Where the company has a sole director who is also the sole company secretary, that person must sign. Where the company (pursuant to Section 204A of the Corporations Act) does not have a company secretary, a sole director can also sign alone. Otherwise, a director jointly with either another director or a company secretary must sign. Please sign in the appropriate place to indicate the office held.
4. **(Attending the Meeting):** Completion of a Proxy Form will not prevent individual members from attending the Annual General Meeting in person if they wish. Where a member completes and lodges a valid Proxy Form and attends the Annual General Meeting in person, then the proxy's authority to speak and vote for that member is suspended while the member is present at the Annual General Meeting.
5. **(Return of Proxy Form):** To vote by proxy, please complete and sign the enclosed Proxy Form and return by:
- (a) post to Range Resources Limited, Ground Floor, 1 Havelock Street, West Perth WA 6005; or
 - (b) facsimile to the Company on facsimile number +61 8 9324 2400.

so that it is received not less than 48 hours prior to commencement of the Meeting.

Proxy forms received later than this time will be invalid.

Letter to Shareholders

Dear shareholder

The 2011 financial year was one that Range was finally able to capitalise on its potential in so far as revenue generation and proven reserves as an underpin whilst still establishing the foundations for sustained and potentially exponential growth in the coming years.

The acquisition of 3 strategic onshore Trinidad Licences and the drilling company comprising rigs, personnel and associated infrastructure has provided Range with its key exploration and development asset moving forward. The Company has already commenced its development program which will see targeted production increase to 3,500 - 4,000 bbls/ day over the next 2-3 years from known reserves. Significant exploration upside also exists with the Deeper Herrera formation and we intend to drill at least 3 wells next year. The Company has also commenced plans to initiate water flood programs to further increase daily production. Having all technical and operational expertise in place allows the Company to develop its Trinidad assets at a rapid pace with fewer outside factors able to influence the normal risks (and costs) associated with exploration and development.

The North Chapman Ranch Field in Texas continued to provide Range with a quality asset which can realise its full potential following the drilling of the next 2 wells scheduled for completion in Q1 2012. Success with both the Smith 2 and Albrecht 1 wells will see most of the fields' P3 reserves move to P1 and P2 categorisation providing the basis for a significant value re-rating which could provide Range with a liquidity event in the next 6-9 months allowing for a return to Shareholders.

At the time of writing this letter, the first Georgian exploration well is being drilled. It is important that shareholders understand that the full exploration and development of Georgia will not be determined by one well and irrespective of the success of the first well we will move to drill the second well on completely different geological structures and then examine either development or farm out options. Range will also undertake an additional seismic program in Block VIb targeting known leads and shale gas potential. With our revenue generating assets of Trinidad and Texas we do have the ability to maximize the exploration potential of Georgia without being pinned down by drilling commitments which could affect our funding capabilities over the coming years.

Last but by no means least, at this stage it does look like Range will see its formation goal of seeing a well drilled in Puntland in 2011. Horn Petroleum (spin out of Africa Oil Corp) has moved very effectively as operator to spud the historic first Shabeel well with the follow up Shabeel North to be drilled Q1 2012. The significance of the wells is not just in their massive recoverable reserve potential, but also in the event of a success, their positive impact on Puntland, its economy and most importantly its people. A vast number of Range shareholders have stayed with the Company to see the Puntland wells drilled and we all hope that they are a success so as to reward the loyalty shown by many.

Moving forward, last quarter 2011 and the first 3 quarters of 2012 will be just as productive for Range with a large amount of activity on all 4 of its projects. The Company may look at farming into one more high impact onshore near term production play depending on market conditions but Trinidad will remain the key focus in driving the Company's growth platform with far less exploration risk than other plays.

In addition to thanking Shareholders for their support and patience, I would also like to thank fellow board members and key consultants who have all made significant contributions in laying the foundations for Range's growth over the coming years.

Peter Landau
Executive Director

Directors' report

Your directors present their report on the company and its controlled entities for the financial year ended 30 June 2011

Directors

The names of the directors in office and at any time during, or since the end of, the year are:

Sir Samuel Jonah
Mr Peter Landau
Mr Marcus Edwards-Jones
Mr Anthony Eastman

Directors have been in office since the start of the financial year to the date of this report unless otherwise stated.

Company Secretary

The following persons held the position of company secretary at the end of the financial year:

Mr Anthony Eastman
Ms Jane Flegg

Principal Activities

The principal activity of the economic entity during the financial year was hydrocarbon exploration and development within Somalia, Republic of Georgia, Texas and Trinidad.

The following significant changes in the nature of the principle activity occurred during the financial year:

- The Company expanded its hydrocarbon exploration and development focus through the completion of the acquisition of 100% interest in Trinidad company that holds three onshore oil and gas licenses and a fully operational drilling subsidiary, with the company receiving the shares in SOCA post year end.

Operating Results

The consolidated loss of the economic entity for the financial year after providing for income tax amounted to \$15,506,885 (2010: \$8,838,586).

Dividends Paid or Recommended

The directors recommend that no dividend be paid for the year ended 30 June 2011, nor have any amounts been paid or declared by way of dividend since the end of the previous financial year.

Review of Operations

- Puntland Onshore Production Sharing Agreements ratified by the New Puntland Government in the prior year have been extended a year into early 2012, with key contracts signed subsequent to year end paving the way for the historic spudding of the first of two planned exploration wells on the Company's Puntland assets
- Successful completion of a 410km 2D seismic program in Georgia and subsequent geochemical helium survey which has led to the spudding of the first of two exploration wells on the Georgia licences subsequent to year end
- Acquisition of a 25% interest in the first well (Smith #1 well – 20% on subsequent wells) in well known Texan oil and gas field
- First production achieved during the year on the Company's second well on the North Chapman Ranch project – with a successful fracture stimulation program completed on both wells
- Increased interest to 21.75% in second Texan property during the year with first well having spudded
- Acquisition of 100% in Holding Company which holds interests in three onshore Trinidad projects plus drilling company, with the shares in SOCA received post year end
- The Company successfully completed a number of capital raisings during the year

Georgia

During the year, the Company received the results from the report entitled Seismic Interpretation, Field Mapping and Evaluation of Prospective Hydrocarbon Volumes across the Company's two Georgian blocks (Block VIa and Block VIb) completed by leading International Oil and Gas Seismic Consultancy firm RPS Energy ("RPS").

RPS identified a total of 68 structural culminations across the two blocks each of which potentially contains stacked reservoirs. Total combined best estimate of gross unrisks oil-in-place across these 68 identified structural culminations amounts to 2,045 million barrels. Recovery factors for oil in place can be conservatively estimated at 30%.

Of the 68 identified prospective targets across the two blocks, 6 structures have been prioritised as being ready for drilling.

Of these 6 structures, total gross unrisks oil-in-place has been estimated at 728 million barrels.

Following on from the seismic program, Range engaged international geochemical company, Actual Geology International Limited ("AGI") to carry out a "helium" survey on the 3 top multi-stacked prospects as identified by RPS which have estimated undiscovered oil-in-place in excess of 450 mmbbls (mean 100% basis).

AGI were given the co-ordinates of three of the six identified "ready to drill" prospects and commenced mobilisation and field operations in early December. AGI completed all field work in early January with laboratory analysis completed soon thereafter.

The survey was a "blind test" where AGI shot the survey without any prior seismic info on the co-ordinates provided by Range/Strait. After the survey and results were compiled by AGI they were then integrated with the existing seismic results to produce the best possible target locations to be drilled.

Of the three locations tested by AGI, results of the helium survey by AGI indicated active oil & gas presence in the first 2 drill targets (as identified following the RPS Seismic Report) at the Mukhiani and Kursebi areas, with the survey identifying priority zones which are most likely to contain potentially productive systems.

Shortly after the completion of the helium survey, the Company and its Georgian partners secured the services of Edeco Petroleum Services Limited ("Edeco") to supply the exploration drilling rig to be used in the Company's two exploration well program in Georgia.

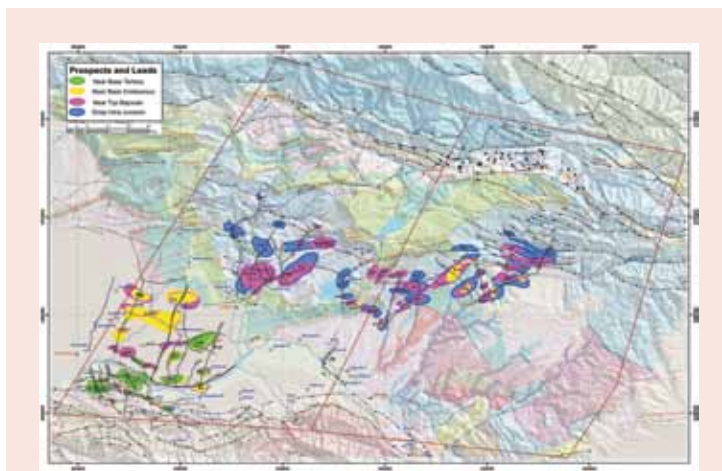

Figure 1 - 68 identified structural culminations amounting to 2,045 million barrels gross unrisks oil-in-place

Directors' report

The rig was successfully shipped to Georgia and subsequent to year-end the Mukhiani #1 well successfully spudded. The Mukhiani Well is targeting the Vani 3 prospect which has the following potential STOIIP:

Vani 3 Prospect – STOIIP* (mmbbls)

	P90	P50	P10	Mean
Gross	41.7	92.7	178.2	115.2
Net Attributable to Range (40%)	16.7	37.1	71.3	46.1

*STOIIP shown here assumes that the Vani 3 Prospect contains 3 stacked reservoirs based on current stratigraphic understanding. Any given well may encounter 1, 2, or 3 such potential reservoirs depending on the degree of relative uplift and/or erosion at any given Prospect location.

Also during the year the Company, along with its Georgian partner Strait Oil and Gas UK Limited ("Strait") entered into a Heads of Agreement ("HOA") with Red Emperor Resources NL ("Red Emperor") (ASX: RMP) to acquire a 20% farm-in interest (10% from Range and 10% from Strait) in Block VIa and Block VIb in Georgia.

The key terms of the HOA will see Red Emperor contribute 40% of the drilling costs for the planned two well program (capped at total gross costs of \$14m RMP contributing \$5.6m) to acquire the 20% interest in the two blocks.

Texas

North Chapman Ranch

During the year the Company received a revised reserve report on the North Chapman Ranch field in Nueces County, Texas, following the successful drilling and completion of the Russell-Bevly #1 appraisal well which confirmed the Company's structural and stratigraphic models and established additional Proved oil and gas reserves across the northwest flank of the closure.

After integration of data obtained from the Russell-Bevly #1, Lonquist & Co LLC's ("Lonquist") independent reserves report has estimated the following gross commercially recoverable reserves from the North Chapman Ranch Field:

Figure 2 – Drilling operations – Mukhiani #1 Well

Category	Natural Gas (Bcf)	Oil (mmbbls)	Natural Gas Liquids (mmbbls)
Proved (P1)	62.4	4.8	4.5
Probable (P2)	34.6	2.7	2.5
Possible (P3)	142.5	10.9	10.3
Total Reserves	239.5	18.4	17.3

Set out below is Range's attributable interest in the gross recoverable reserves on 25% of the Smith #1 well and on 20% of the remaining wells assuming the exercise of certain clawback provisions by joint venture partners occurs following the success of the Smith #1 and Russell-Bevly wells:

Category	Natural Gas (Bcf)	Oil (mmbbls)	Natural Gas Liquids (mmbbls)
Proved (P1)	12.7	1.0	0.9
Probable (P2)	6.9	0.5	0.5
Possible (P3)	28.5	2.2	2.1
Total Reserves	48.1	3.7	3.5

Based on the reserve numbers cited above, Lonquist's estimated net undiscounted cash flow value to Range, along with PW10 discounted cash flow (at a 10% discount rate) using the same commodity price deck as used in the May 2010 report, following reductions for royalties, opex, capex, production taxes etc are as follows:

Reserve Category	Undiscounted US\$	PW10 US\$
Proved (P1)	100m	69m
Probable (P2)	60m	37m
Possible (P3)	252m	142m
Estimated Future Cashflow (Range's net interest)	412m	248m

Changes to reserve estimates at North Chapman Ranch included a significant movement of Probable Reserves into the Proved category, as well as new reserves established by the Russell-Bevly #1 appraisal Well.

Also during the year, both the Smith #1 and Russel Bevly wells were successfully fracture stimulated with gross combined rates from the field hitting a high of 9.3 MMcf and 800 bbl of oil per day during the month of March. Towards the end of the year, remedial work was performed on the Company's Smith #1 well with production tubing being installed and successfully completed, with the Smith #1 well back online shortly before year-end.

East Texas Cotton Valley Prospect

Also during the year, the Company acquired an additional 8.19% in the East Cotton Valley Prospect which was subject to pre-emptive rights from the Prospects other partners. Subsequent to period end, none of the partners exercised their pre-emptive rights and Range completed the acquisition of the additional 8.19% for a total cost of \$148,000 in lease acquisition costs and an overriding royalty retained by the seller, bringing Range's total interest to 21.75%.

Directors' report

Trinidad

During the year Range acquired through SOCA Petroleum ("SOCA") its right to purchase a 100% interest in a Trinidad holding company whose two wholly owned subsidiaries hold production licences for three blocks in producing onshore oilfields in Trinidad together with a local drilling company.

The production acreage and operating wells cover the Morne Diablo, Beach Marcelle and South Quarry oilfields, with the total acreage covering 16,253 gross acres on the southern coast of onshore Trinidad. Current production from the fields is approximately 600 bopd, however Range believes a minimal work program could potentially lift production to more than 4,000 bopd within 36 months on the known reserves.

In addition to the holding company parent of two subsidiaries holding production licences for the onshore acreage, the proposed Range acquisition also includes a 100% interest in a wholly owned drilling company (located in Trinidad), which owns onshore drilling equipment and related facilities.

The Company is planning to use company owned drilling rigs and equipment and to commence its development and exploration program which aims to increase the production from 600 bopd to 4,000 bopd within 36 months from known reserves without taking into account any exploration upside. Subsequent to year-end the Company initiated its initial work program that will see approximately 21 wells being drilled on known reserves with an aim to lift production to 1,400-1,800 bopd.

In addition to the known reserves, significant potential exists in the deeper Herrera Formation. The Deeper Herrera Formation will be a primary target of future drilling using company owned drilling rigs, which are capable of reaching the depth of these formations. Subject to the successful drill testing of this formation, the Company is ultimately targeting an increase in production levels to between 8,000 – 10,000 bopd.

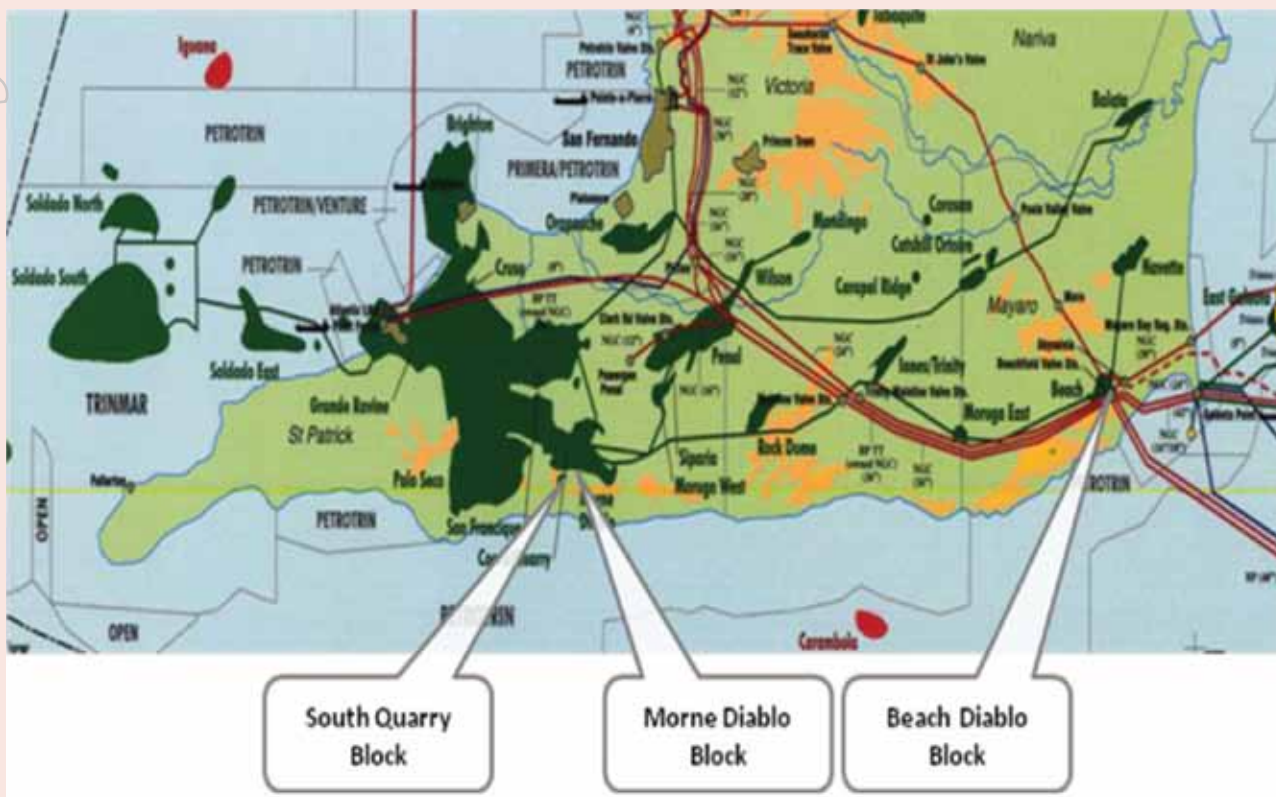

Figure 5 – Location of License areas - onshore Trinidad

Puntland

During the year, Range together with its joint venture partners successfully negotiated the extension of the PSAs with the Government of Puntland.

Range also agreed with its joint venture partner and operator Africa Oil that the second exploration well will be included as part of Africa Oil’s exploration commitments under the Joint Venture Agreement between Range and Africa Oil. Under this agreement, Africa Oil is obliged to spend US\$22.5m in both Dharoor and Nugaal before Range reverts to a contributing basis.

Africa Oil has satisfied their commitments with respect to Dharoor, however to date, still has circa US\$15m expenditure commitments on Nugaal, with expenditure to date on Nugaal being circa US\$7.5m. With the second well being able to satisfy the joint ventures obligations under the Nugaal PSA, Range will be carried for the first US\$15m spent on the well.

Corporate

During the year the Company raised circa \$92.4m through the exercise of options, drawdown on its equity line of credit facility and placement with institutional and sophisticated investors.

The Company was included in the FTSE AIM All Share Index (“the Index”) in the UK during the year. In order to qualify for inclusion in the Index the Company must meet certain liquidity requirements over a twelve month period, which the Company met during 2010.

Financial Position

The net assets of the economic entity have increased by \$77,054,042 from \$109,508,759 at 30 June 2010 to \$186,562,801 in 2011. This increase has largely resulted from the acquisitions and associated exploration and development expenditure during the year.

The directors believe the economic entity is in a strong and stable financial position to expand and grow its current operations.

Directors' report

Significant Changes In State of Affairs

The following significant changes in the state of affairs of the parent entity occurred during the financial year:

- In June 2011 the Company successfully acquired through SOCA Petroleum ("SOCA") its right to purchase a 100% interest in a Trinidad holding company whose two wholly owned subsidiaries hold production licences for three blocks in producing onshore oilfields in Trinidad together with a local drilling company.
- In January 2011 the Company, along with its Georgian partner Strait Oil and Gas UK Limited ("Strait") entered into a Heads of Agreement ("HOA") with Red Emperor Resources NL ("Red Emperor," ASX:RMP) to acquire a 20% farm-in interest (10% from Range and 10% from Strait) in Block VIa and Block VIb in Georgia. The key terms of the HOA will see Red Emperor contribute 40% of the drilling costs for the planned two well program (capped at total gross costs of \$14m RMP contributing \$5.6m) to acquire the 20% interest in the two blocks.
- In January 2011, Range acquired an additional 8.19% in the East Cotton Valley Prospect which was subject to pre-emptive rights from the Prospects other partners, increasing its stake in the prospect to 21.75%.
- During the year the Company successfully raised circa \$92.4m through the exercise of options, drawdown on the Company's Equity Line of Credit Facility and a placement.

Events Subsequent to Reporting Date

- Following on from completion of the Trinidad acquisition during the year, subsequent to year end, Range received the 100% share capital of SOCA Petroleum Limited through its newly created subsidiary Range Resources (Barbados) Limited.
- Range also made a strategic investment in Tangiers Petroleum Limited ("Tangiers", ASX:TPT) in subscribing for 5m ordinary shares in Tangiers at an issue price of \$0.40. Tangiers is an ASX listed exploration company which has a portfolio of two potentially world class oil and gas projects located in Morocco and Australia. Tangiers Moroccan assets include the highly prospective offshore Tarfaya block. Netherland, Sewell & Associates conducted an independent review of the first four prospects on this block and concluded a best estimate prospective resource of approximately 870 million barrels, and a high estimate of almost 5 billion barrels
- Subsequent to year-end the Company successfully raised US\$15m through a strategic placement of 83,563,829 shares and 41,781,915 attaching options to Socius CG II, an established and highly successful United States based investment group and a wholly-owned subsidiary of Socius Capital Group.

Future Developments, Prospects and Business Strategies

To further improve the economic entity's profit and maximise shareholders wealth, the Company is committed to further developing the exploration potential of its Puntland and Georgian Exploration Projects and invite interested parties into joint venture arrangements along with the active development of the Company's Texan and Trinidad interests. The Company has also expanded its oil and gas prospects with the acquisition of 100% interest in Trinidad company that holds three onshore oil and gas licenses and a fully operational drilling subsidiary.

Likely Developments

Other than information disclosed elsewhere in this annual report, information on likely developments in the operations of the economic entity and the expected results of those operations in future financial years has not been included in this directors' report because the directors believe, on reasonable grounds, that to include such information would be likely to result in unreasonable prejudice to the economic entity.

Environmental Regulation

The economic entity's operations are not regulated by any significant environmental regulation under a law of the Commonwealth or of a state or territory.

The Directors have considered compliance with the National Greenhouse and Energy Reporting Act 2007 which requires entities to report annual greenhouse gas emissions and energy use. For the first measurement period 1 July 2008 to 30 June 2009 and subsequent periods the directors have assessed that there are no current reporting requirements, but may be required to do so in the future.

Remuneration Report (Audited)

This report details the nature and amount of remuneration for each director of Range Resources Limited.

(a) Remuneration Policy

The remuneration policy of Range Resources Limited has been designed to align director and executive objectives with shareholder and business objectives by providing a fixed remuneration component and offering specific long-term incentives based on key performance areas affecting the economic entity's financial results. The Board of Range Resources Limited believes the remuneration policy to be appropriate and effective in its ability to attract and retain the best executives and directors to run and manage the economic entity, as well as create goal congruence between directors, executives and shareholders.

The board's policy for determining the nature and amount of remuneration for board members and senior executives of the Company is as follows:

The remuneration policy, setting the terms and conditions for the executive directors and other senior executives, was developed and approved by the board.

Non-executive directors, executive directors and senior executives receive a base salary (which is based on factors such as length of service and experience), which is calculated on a total cost basis and includes any FBT charges related to employee benefits including motor vehicles, as well as employer contributions to superannuation funds.

Executive directors can be employed by the Company on a consultancy basis, on board approval, with remuneration and terms stipulated in individual consultancy agreements.

The board exercises its discretion in determining remuneration performance of executives. Given the size and nature of the entity, the board does not deem it to be realistic to measure performance against defined criteria. As such remuneration and performance are not linked.

All remuneration paid to directors and executives is valued at the cost to the Company and expensed. Shares given to directors and executives are valued as the difference between the market price of those shares and the amount paid by the director or executive. Unlisted options are valued using the Binomial methodology.

The board policy is to remunerate non-executive directors at market rates for comparable companies for time, commitment and responsibilities. As approved by shareholders on 29 April 2005, the aggregate non-executive remuneration per annum was increased to \$200,000. The Board determines payments to the non-executive directors and reviews their remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required. Fees for non-executive directors are not linked to the performance of the consolidated entity. The Directors are not required to hold any shares in the Company under the Constitution of the Company; however, to align directors' interests with shareholder interests, the directors are encouraged to hold shares in the Company.

Options are issued to directors and executives as part of remuneration. The options are not based on performance criteria, but are issued to directors and executives to increase goal congruence between executives, directors and shareholders.

Under the Company's share trading policy, all employees and Directors of the Company and its related companies are prohibited from trading in the Company's shares or other securities if they are in possession of "inside information".

The Board believes that it has implemented suitable practices and procedures that are appropriate for an organisation of this size and maturity.

Remuneration Report (Audited) (Continued)

(i) Remuneration Committee

During the year ended 30 June 2011, the consolidated entity did not have a separately established nomination or remuneration committee. Considering the size of the consolidated entity, the number of directors and the consolidated entity's early stages of its development, the Board are of the view that these functions could be efficiently performed with full Board participation.

(ii) Company Performance, Shareholder Wealth and Directors and Executives Remuneration

No relationship exists between shareholder wealth, director and executive remuneration and Company performance.

Remuneration Report (Audited) (Continued)

Additional Information

For grant of partly paid shares and options, the percentage of the available grant that was paid, or that was vested, in the financial year, and the percentage that were forfeited or expired is set out below. The options vest immediately and there were no performance conditions attached to the granting of vesting of the options.

The options and partly paid shares on issue to key management personnel as part of remuneration for years ended 30 June 2010 and 2011 are shown below:

Name	Options					Minimum total value of grant yet to vest	Maximum total value of grant yet to vest

There were no shares issued during the current or prior year as a result of the exercise of the above options by directors or key management personnel.

(g) Employment Contracts of Directors and Senior Executives

On appointment to the Board, new Executive Directors enter into a consultancy agreement with the company. The agreement sets out their duties, remuneration and place of service. Remuneration and other terms of employment for the Managing Director and Executive Director are formalised in employment agreements. These contracts may be terminated early wherein the employee must give six months notice. When the company terminates the contract, he will be entitled to his salary for the balance of any part of the term remaining.

S. Jonah as Chairman

Contract term – 3 years from 1 January 2011

Base payment – \$60,000 per annum,

Notice period – 6 months

Termination benefits – payment in lieu of any untaken Annual Leave in addition to salary for the balance of the term of the contract

P. Landau as Executive Director

Contract term – 3 years from 1 July 2009

Base payment – \$300,000 per annum, laptop computer and mobile phone.

Notice period – 6 months

Termination benefits – salary for the balance of the term of the contract

(h) Partly Paid Shares Issued to Directors

During the year ended 30 June 2007, Partly Paid Shares were allotted and issued to directors at an issue price of \$0.60 each and were deemed to have been paid up to \$0.30 each leaving \$0.30 payable by the holder within 13 months of the date of issue as follows:

Michael Povey (resigned 29 October 2008)	1,500,000
Peter Landau	1,500,000
Marcus Edward-Jones	750,000

The primary purpose of the partly paid shares was to provide a cost effective consideration of work to be done by the Directors for the Company and for recognition of Directors efforts in negotiating and securing the acquisition of the Puntland Project. The terms of the partly paid shares are ambiguous, given they state that the holder is able to elect, at their sole and absolute discretion, to pay up the shares. It was never the intention of the Board to issue partly paid shares that would require the Directors (without any discretionary election) to pay up any unpaid portion of the shares. Accordingly, on 10 February 2008, and following uncertainty as to the ability to exercise the partly paid shares, those directors entitled to consider the matter (and not having a material personal interest) being Messrs Sam Jonah and Liban Bogor, resolved in accordance with clause 32.9 of the Company's constitution that the shares be forfeited and that payment will not be enforced with regards to the unpaid balance of capital. The Board will obtain the necessary resolutions for a selective reduction and cancellation of these partly paid shares through a meeting of shareholders at some time in the future. The accounts at 30 June 2011 do not reflect the cancellation of the partly paid shares.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2011

Note 1: Statement of Significant Accounting Policies

These financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards, Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the *Corporations Act 2001*.

The financial statements cover the consolidated entity consisting of Range Resources Limited and its controlled entities. Separate financial statements of Range Resources Limited are no longer presented as a result of a change to the Corporations Act 2001. Financial information for Range Resources Limited as an individual entity is disclosed in Note 29. Range Resources Limited is a listed public company, incorporated and domiciled in Australia.

The following is a summary of the material accounting policies adopted by the consolidated entity in the preparation of the financial statements. The accounting policies have been consistently applied, unless otherwise stated.

Basis of Preparation

Reporting Basis and Conventions

The financial statements have been prepared on an accruals basis and are based on historical costs modified by the revaluation of selected non-current assets, and financial assets and financial liabilities for which the fair value basis of accounting has been applied.

Compliance with IFRS

The financial statements of Range Resources Limited also comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). The financial statements were approved by the Board of Directors on 30 September 2011.

Functional and presentation currency

These consolidated financial statements are presented in Australian dollars, which is the functional currency of the consolidated entity.

Adoption of new and revised accounting standards

In the current year, the consolidated entity has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that are relevant to its operations and effective for the current annual reporting period.

The impact of standards and interpretations that have been published but are not mandatory for 30 June 2011 reporting periods and have not been early adopted are disclosed within Note 32. There were no standards that were early adopted as of 30 June 2011.

Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements, and have been applied consistently by the consolidated entity.

(a) Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Range Resources Limited ("parent entity") as at 30 June 2011 and the results of all subsidiaries for the year then ended. Range Resources Limited and its subsidiaries together are referred to as "consolidated entity".

Subsidiaries are all those entities (including special purpose entities) over which the consolidated entity has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one-half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the consolidated entity controls another entity.

Where controlled entities have entered or left the consolidated entity during the year, their operating results have been included/excluded from the date control was obtained or until the date control ceased. A list of controlled entities is contained in Note 13 to the financial statements. All controlled entities have a June financial year-end.

All inter-company balances and transactions between entities in the consolidated entity, including any unrealised profits or losses, have been eliminated on consolidation. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with those policies applied by the parent entity.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2011

Note 1: Statement of Significant Accounting Policies (cont.)

Associates are all entities over which the consolidated entity has significant influence but not control or joint control, generally accompanying a shareholding of between 20-50% of the voting rights. Investments in associates are accounted for in the consolidated financial statements using the equity method of accounting, after initially being recognised at cost.

(b) Income tax

The charge for current income tax expense is based on the profit for the year adjusted for any non-assessable or disallowed items. It is calculated using tax rates that have been enacted or are substantively enacted by the reporting date within each jurisdiction.

Deferred tax is accounted for using the liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled. Deferred tax is credited in profit or loss except where it relates to items that may be credited directly to equity, in which case the deferred tax is adjusted directly against equity.

Deferred income tax assets are recognised to the extent that it is probable that future tax profits will be available against which deductible temporary differences can be utilised.

The amount of benefits brought to account or which may be realised in the future is based on the assumption that no adverse change will occur in income taxation legislation and the anticipation that the consolidated entity will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

The amount of benefits brought to account or which may be realised in the future is based on the assumption that no adverse change will occur in income taxation legislation and the anticipation that the consolidated entity will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

(c) Property, plant and equipment

Plant and equipment are measured on the historical cost basis less accumulated depreciation and impairment losses.

The cost of fixed assets constructed within the consolidated entity includes the cost of materials, direct labour, borrowing costs and an appropriate proportion of fixed and variable overheads.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the consolidated entity and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

Depreciation

The depreciable amount of all fixed assets including capitalised lease assets is depreciated on a straight-line basis over their useful lives to the consolidated entity commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

The depreciation rates used for each class of depreciable asset are:

Class of Fixed Asset	Depreciation Rate
Plant & Equipment	11.25% - 33%

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows which will be received from the asset's employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amount.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2011

Note 1: Statement of Significant Accounting Policies (cont.)

(c) Property, plant and equipment (cont.)

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains or losses are included in profit or loss. When revalued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to accumulated losses.

(d) Exploration and evaluation expenditure and the recognition of assets

Exploration and evaluation expenditure incurred is accumulated in respect of each identifiable area of interest. These costs are only carried forward to the extent that they are expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves.

Accumulated costs in relation to an abandoned area are written off in full against profit in the year in which the decision to abandon the area is made.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

The recoverability of the carrying amount of the exploration and evaluation assets is dependent on the successful development and commercial exploitation, or alternatively, sale of the respective areas of interest.

The carrying values of expenditures carried forward are reviewed for impairment at each reporting date when the facts, events or changes in circumstances indicate that the carrying value may be impaired.

Accumulated expenditures are written off to profit or loss to the extent to which they are considered to be impaired.

Range Resources Limited is applying AASB 6 *Exploration for and Evaluation of Mineral Resources* which is equivalent to IFRS 6. The carrying value of exploration and evaluation expenditure is historical cost less impairment.

(e) Development assets

Upon the commencement of commercial production from each identifiable area of interest, the exploration and evaluation expenditure incurred up to that point impairment is tested and then reclassified to development assets.

When production commences, the accumulated costs for the relevant area of interest are amortised on a units of production method based on the ratio of actual production to remaining proved reserves (P1) as estimated by independent petroleum engineers over the life of the area according to the rate of depletion of the economically recoverable reserves.

Subsequent costs are included in the asset's carrying amount, only when it is probable that future economic benefits associated with the item will flow to the consolidated entity and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit and loss during the financial period in which they are incurred.

The carrying amount of development assets is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows which will be received from the asset's employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains or losses are included in profit or loss. When revalued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to accumulated losses.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2011

Note 1: Statement of Significant Accounting Policies (cont.)

Costs of site restoration are provided over the life of the facility from when exploration commences and are included in the costs of that stage. These costs are included in development assets in the statement of financial position. Site restoration costs include the dismantling and removal of plant, equipment and building structures, waste removal, and rehabilitation of the site in accordance with clauses of the mining permits. Such costs are determined using estimates of future costs, current legal requirements and technology on an undiscounted basis.

Any changes in the estimates for the restoration costs are accounted on a prospective basis. In determining the costs of site restoration, there is uncertainty regarding the nature and extent of the restoration due to community expectations and future legislation. Accordingly the costs have been determined on the basis that the restoration will be completed within one year of abandoning the site.

(f) Financial instruments

Financial instruments are included in cash and cash equivalents, trade and other receivables and financial assets available-for-sale in the statement of financial position of the consolidated entity.

Recognition

Financial instruments are initially measured at cost on trade date, which includes transaction costs, when the related contractual rights or obligations exist. Subsequent to initial recognition, these instruments are measured as set out below.

The consolidated entity classifies its financial assets in the following categories, loans and receivables and available-for-sale investments. The classification depends on the purpose for which the investments were acquired. Management determines the classification of its investments at initial recognition.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are stated at amortised cost using the effective interest rate method.

Available-for-sale financial assets

Available-for-sale financial assets include non-derivative financial assets designated in this category not included in any of the other categories. Available-for-sale financial assets are reflected at fair value. Unrealised gains and losses arising from changes in fair value are taken directly to the available for sale investment revaluation reserve in equity. Investments are designated as available-for-sale if they do not have fixed maturities and fixed determinable payments and management intends to hold them for the medium to long term.

Fair value

Fair value is determined based on current bid prices for all quoted investments. Valuation techniques are applied to determine the fair value for all unlisted securities held at cost less impairment, including recent arm's length transactions, reference to similar instruments and option pricing models.

Changes in the fair value of monetary securities denominated in a foreign currency and classified as available-for-sale are analysed between translation differences resulting from changes in amortised cost of the security and other changes in the carrying amount of the security. The translation differences related to changes in the amortised cost are recognised in profit or loss, and other changes in carrying amount are recognised in the available for sale investment revaluation reserve in equity. Changes in the fair value of other monetary and non-monetary securities classified as available-for-sale are recognised in equity.

Impairment of assets

The consolidated entity assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. In the case of equity securities classified as available-for-sale, a significant or prolonged decline in the fair value of a security below its cost is considered as an indicator that the securities are impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss – is removed from equity and included in profit or loss. Impairment losses recognised in the statement of comprehensive income on equity instruments classified as available-for-sale are not reversed through profit or loss.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2011

Note 1: Statement of Significant Accounting Policies (cont.)

(f) Financial instruments (cont.)

Recognition and derecognition

Regular purchases and sales of financial assets are recognised on trade-date – the date on which the consolidated entity commits to purchase or sell the asset. Investments are initially recognised at fair value plus transaction costs. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the consolidated entity has transferred substantially all the risks and reward of ownership.

When the securities classified as available-for-sale are sold, the accumulated fair value adjustments recognised in equity are included in profit or loss as gains and losses for investment securities.

(g) Foreign currency transactions and balances

Functional and presentation currency

The functional currency of each entity within the consolidated entity is determined using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars which is the parent entity's functional and presentation currency.

Transaction and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in profit or loss.

Exchange differences arising on the translation of non-monetary items are recognised directly in equity to the extent that the gain or loss is directly recognised in equity; otherwise the exchange difference is recognised in profit or loss.

Group companies

All group companies operate in a functional currency that is the same as the consolidated entity's presentation currency, Australian dollars (AUD).

(h) Provisions

Provisions for legal claims, service warranties and make good obligations are recognised when the consolidated entity has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the reporting date. The discount rate used to determine the present value reflects the current market assessments of the time value of money and the risk specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

(i) Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the statement of financial position.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2011

Note 1: Statement of Significant Accounting Policies (cont.)

(j) Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. Trade receivables are generally due for settlement within 30 days.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off by reducing the carrying amount directly. An allowance account (provision for impairment of trade receivables) is used when there is objective evidence that the consolidated entity will not be able to collect all amounts due, according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired. The amount of impairment allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial.

The amount of impairment loss is recognised in profit or loss within other expenses. When a trade receivable, for which an impairment allowance had been recognised, becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in profit or loss.

(k) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances, rebates and amounts collected on behalf of third parties. Revenue is recognised when the amount of revenue can be reliably measured, and it is probable that future economic benefits will flow to the consolidated entity.

Revenue from the sale of oil and gas and related products is recognised when the consolidated entity has transferred to the buyer the significant risks and rewards of ownership and the amounts can be measured reliably. In the case of oil, this usually occurs at the time of lifting.

Interest revenue is recognised on a time proportion basis taking into account the interest rates applicable to the financial assets.

(l) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

(m) Comparative figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

(n) Fair value estimation

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement for disclosure purposes.

The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and available-for-sale securities) is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the consolidated entity is the current bid price.

The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivatives) is determined using valuation techniques. The consolidated entity uses a variety of methods and makes assumptions that are based on market conditions existing at each reporting date.

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values due to their short-term nature. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the consolidated entity for similar financial instruments.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2011

Note 1: Statement of Significant Accounting Policies (cont.)

(o) Investments in associates

Investment in associates is accounted for using the equity method of accounting in the consolidated financial statements.

Under the equity method, the investment in the associates is carried in the consolidated statement of financial position at cost plus post-acquisition changes in the Group's share of net assets of the associate.

After application of the equity method, the Group determines whether it is necessary to recognise any additional impairment loss with respect to the Group's net investment in the associate.

The Group's share of the associate post-acquisition profits or losses is recognised in the statement of comprehensive income. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in the associate equals or exceeds its interest in the associate, including any unsecured long-term receivables and loans, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

The reporting dates of the associate and the Group are identical and the associate's accounting policies conform to those used by the Group for like transactions and events in similar circumstances.

(p) Prepayments for investments

Prepayments for acquisitions of financial assets are recorded at the fair value of consideration to acquire the assets.

On satisfaction of all terms of the acquisition contract have been satisfied the prepayment is transferred and accounted for as an investment.

(q) Trade and other payables

These amounts represent liabilities for goods and services provided to the consolidated entity prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

(r) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the financial year but not distributed at reporting date.

(s) Contributed equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(t) Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing the profit or loss attributable to equity holders of the company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares.

(u) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the managing director.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2011

Note 2: Critical accounting estimates and judgements

The directors evaluate estimates and judgements incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the consolidated entity. Areas involving a higher degree of judgement or complexity, or areas where estimations and assumptions are significant to the financial statements are disclosed here.

Exploration and evaluation expenditure

Exploration and evaluation expenditure for each area of interest is carried forward as an asset provided certain conditions listed in Note 1(d) are met. Exploration and evaluation assets are assessed for impairment when facts and circumstances suggest that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount. These calculations and reviews require the use of assumptions and judgement. The related carrying amounts are disclosed in Note 15.

Development asset expenditure

The classification of exploration and evaluation expenditure to development asset is based on the time of first commercial production. Development asset expenditure for each area of interest is carried forward as an asset provided certain conditions listed in Note 1(e) are met and depreciated on a unit of production basis on P1 reserves. P1 reserves have been determined by an independent expert.

Development assets are assessed for impairment when facts and circumstances suggest that the carrying amount of a development asset may exceed its recoverable amount. These timings, calculations and reviews require the use of assumptions and judgement. The related carrying amounts are disclosed in Note 16.

Share-based payments

The Binomial valuation model was used to value share-based payments made in the period to consultants when there was no active market available. As such, certain assumptions are made based on historical data which may not be reflective of future events. Note 27 details these assumptions.

Financial assets available-for-sale

The value of the investment in Pangaea Energy Limited, an unlimited company incorporated in the UK, is carried at cost, as there is no active market for re-valuation. Given the developments in Kyrgyzstan in the later half of the prior financial year, where Pangea has areas of interest, Range believes the investment in Pangaea Energy shows indication of impairment and as such provided in full against the cost of the investment. Refer to Note 12.

Investments in associates

During the year Range received 50% of the share capital of Strait Oil & Gas (UK) Limited ("Strait") which was subsequently diluted to 40% following the farm-in with Red Emperor Resources hence the Company did not have control of Strait at balance date – refer Note 19.

Available-for-sale financial assets comprise investments in the ordinary share capital of various entities. There are no fixed returns or fixed maturity date attached to these investments.

No assets have been pledged as security.

During the 2009 financial year, the loan receivable from Ram Resources Limited was settled through receipt of an investment in unlisted company, IMC Holdings (Hong Kong) Limited, which holds the Kyrgyzstan uranium asset, previously held by Ram Resources. IMC Holdings was subsequently acquired by Pangaea Energy Limited with Range's investment in IMC Holdings being rolled into an investment in Pangaea Energy. Given the recent developments in Kyrgystan in the later half of the 2010 financial year, where Pangea Energy has areas of interest, the Company believed the investment in Pangaea Energy showed indications of impairment and as such provided in full against the cost of the investment.

At 30 June 2011, the \$87,809,879 (2010: \$83,848,855) capitalised exploration and evaluation expenditure relates to the interests of the group in Puntland, Somalia, and Texas. The recoverability of the carrying amount of exploration assets is dependent on the group being able, and permitted, to develop and commercially exploit these rights or alternatively to sell the rights.

Amortisation of the costs carried forward for the development phase is not charged until the commencement of commercial production when the assets are reclassified as development assets.

During 2010, a commercial discovery was made on the Russel Bevly Well, which subsequently commenced productions in September 2010, with expenditure to date of first production have been transferred to development assets – refer Note 16.

During the prior year, a commercial discovery was made on the Smith #1 Well, which subsequently commenced production in February 2010, with expenditure to date of first production have been transferred to development assets – refer Note 16.

Capitalised costs amounting to \$8,232,118 (2010: \$7,090,041) has been included in the statement of cash flows from investing activities relating to the acquisition of capitalised exploration expenditure and development assets.

Details of these transactions are shown below:

(i) Georgia

The terms of the agreement with Strait Oil & Gas (UK) Limited includes the issue of 70m ordinary shares and 70m listed options (\$0.05, 31 December 2011) upon various milestones. In addition, to earn the 50% of Strait Oil & Gas (UK) Limited, Range was required to complete Phase II of the relevant Production Share Agreement applicable to the two Oil and Gas blocks, comprising mainly the completion of 350km of seismic and well selection which was completed during the prior year with 40 million of the shares and options had been issued due to milestones having been met.

(ii) Trinidad

Under the terms of the Agreement with SOCA Petroleum, Range has paid \$49m in cash and \$3m in shares to acquire the 100% interest in SOCA and subsequent to year end issued following shareholder approval:

- 35,842,293 fully paid ordinary; and
- Two parcels of performance shares of 17,921,146 fully paid ordinary shares per parcel that will convert fully paid ordinary shares upon production from the SOCA licences reaching 1,250 bopd and 2,500 bopd respectively.

As part of the agreement with unlisted UK Company Strait Oil & Gas (UK) Limited ("Strait"), Range was to fund the completion of Phase II and Phase III of the PSA, with the initial US\$6m spent to be allocated to the acquisition of the shares and classed as investment in associate and additional expenditure being repayable upon the declaration of a commercial discovery and shall be payable out of profit oil and gas or cash proceeds that may arise from a sale event. Interest on the loan accrues at a rate or LIBOR.

On 1 January 2011 the Company received shares in the unlisted UK Company Strait Oil & Gas (UK) Limited ("Strait"), representing 50% of the total shares on issue of Strait. As such, the Company has reclassified expenditure to 1 January 2011 from Prepayment for Investment to Investments with all subsequent payments with respect to the Company's Investment in Strait being recorded as additions per above. Range interest was subsequently diluted to 40% following the farm-in with Red Emperor Resources.

During the year ended 30 June 2007, Partly Paid shares were allotted and issued to directors at an issue price of \$0.60 each and were deemed to have been paid up to \$0.30 each, leaving \$0.30 payable by the holder within 13 months of the date of issue as follows:

Michael Povey	1,500,000
Peter Landau	1,500,000
Marcus Edward-Jones	750,000

The primary purpose of the partly paid shares was to provide a cost effective consideration of work to be done by the Directors for the Company and for recognition of Directors efforts in negotiating and securing the acquisition of the Puntland Project. The terms of the partly paid shares are ambiguous, given they state that the holder is able to elect, at their sole and absolute discretion, to pay up the shares. It was never the intention of the Board to issue partly paid shares that would require the Directors (without any discretionary election) to pay up any unpaid portion of the shares.

Accordingly, on 10 February 2008, and following uncertainty as to the ability to exercise the partly paid shares, those directors entitled to consider the matter (and not having a material personal interest) being Messrs Sam Jonah and Liban Bogor, resolved in accordance with clause 32.9 of the Company's constitution that the shares be forfeited and that payment will not be enforced with regards to the unpaid balance of capital. The Board will look to convene a meeting of shareholders to obtain the necessary resolutions for a selective reduction and cancellation of these partly paid shares. The accounts at 30 June 2011 do not reflect the cancellation of the partly paid shares.

Range is free carried by AOC for US\$45 million (\$22.5 million on each block). Subject to certain milestones being reached by AOC, AOC can make cash calls on Range. The above represents Range's best estimate of this commitment as at the reporting date.

Note: It is possible that Africa Oil's work program will vary and work could be accelerated. This would affect the timing and quantum of the cash calls on Range. In the event that Range is not able to or chooses not to participate in the cash calls as made by the operator (Africa Oil), then Range will be deemed to be a Non Consenting Partner. In the event that this happens, Range has the 'option' to reinstate its relinquished rights by paying a 700% (7x) premium within 30 days of exercising their option to reinstate as a Consenting Partner to the farm-in.

Amounts disclosed as remuneration commitments include commitments arising from the service contracts of key management personnel referred to in the remuneration report within the directors' report that are not recognised as liabilities and are not included in the key management personnel compensation.

Note 24: Contingent Liabilities and Contingent Assets

The Company completed the acquisition of the remaining 49.9% of the Puntland Rights from Consort Private Limited ("Consort") in May 2007. Under the terms of the Agreement, Range must issue a further 45 million shares to Consort upon completion of the first hydrocarbon well drilled in Puntland.

In addition, upon completion of the first 4 hydrocarbon wells drilled in Puntland, the Company must pay US\$20 million to Consort.

Consort are also entitled to receive a 2.5% net royalty on any Puntland projects derived in respect of Range's interest.

Further, US\$200,000 is payable upon a commercial discovery on each license area as a result of the wells drilled in Puntland giving a total contingent liability of US\$400,000.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2011

Note 24: Contingent Liabilities and Contingent Assets (cont.)

The Company has entered into a 12 month rolling agreement with Texas Energy Advisors LLC to procure an offshore drilling partner in Puntland. If Texas Energy facilitates the introduction of Range Resources to an offshore drilling partner, Texas Energy will receive cash or equity to the value of:

Aggregate value of payment received by Range	% to be paid to Texas Energy
Less than or equal to A\$50m	2.0% of such amount; plus
Greater than A\$50m but less than A\$100m	4.0% of such amount; plus
Greater than A\$100m	6.0% of such amount

Taghmen Ventures have been employed by the Company to locate a Joint Venture drilling partner for the Puntland offshore project. Taghmen Ventures will be compensated as per the below table:

	Introduction by Taghmen Ventures	Introduction without Taghmen Ventures
Upon formal Joint Venture	5,000,000 fully paid ordinary shares 75,000 \$0.50 unlisted options (30/6/12)	Nil
Upon drilling of first well	4,500,000 fully paid ordinary shares	2,250,000 fully paid ordinary shares
Total	9,500,000 fully paid ordinary shares 75,000 \$0.50 unlisted options (30/6/12)	2,250,000 fully paid ordinary shares

During the prior year, the Company entered into a transaction to acquire a 50% interest in Strait Oil and Gas (UK) Limited, which holds two licenses in the Republic of Georgia. Under the terms of the Agreement, Range must issue 30m shares and 30m options (\$0.05, 31 December 2011) upon the completion of two wells or commercial discovery.

During the financial year ended 30 June 2008, the entity settled a transaction regarding the disposal of subsidiaries with operations in Peru. Range Resources has received conflicting advice from local advisors as to whether any tax liability arises in Peru from this disposal and are therefore unable, at this stage, to quantify any such liability should it, in fact, exist.

The Trinidad subsidiary of Range, Trincan Oil Limited has been named as a defendant in 3 High Court Actions in Trinidad relating to previous contracts with drilling companies from a number of years ago. To date, no judgement has been handed down hence the Company is not in a position to determine the likely financial impact and potential amounts payable should these actions be successful. The Company believes that any outcome against the Company will not have a significant detrimental impact on the Company.

The Directors are not aware of any further contingent liabilities or contingent assets as at 30 June 2011.

Note 25: Segment Reporting (cont)

Accounting Policies

AASB 8 requires operating segments to be identified on the basis of internal reports about components of the consolidated entity that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and to assess its performance. The chief operating decision maker is the managing director and through this role the Board of Directors.

Following the adoption of AASB 8, the identification of the consolidated entity's reporting segments remain consistent with prior periods, with management allocating resources to segments on a geographical basis.

Information regarding these segments is presented above. The accounting policies of the reportable segments are the same as those of the consolidated entity. Segment information is prepared in conformity with the accounting policies of the entity as disclosed in Note 1.

Segment revenues and expenses are those directly attributable to the segments and include any joint revenue and expenses where a reasonable basis of allocation exists. Segment assets include all assets used by a segment and consist principally of cash, receivables, plant and equipment, exploration expenditure capitalised and development assets net of accumulated depreciation and amortisation. While most such assets can be directly attributed to individual segments, the carrying amount of certain assets used jointly by two or more segments is allocated to the segments on a reasonable basis. Segment disclosures do not include deferred income taxes.

Revenue from continuing operations from Texas of \$3,074,492 is derived from several customers who each account for greater than 10% of this amount.

Intersegment Transfers

Segment revenues, expenses and results do not include any transfers between segments.

Note 27: Share-Based Payments

The following share-based payment arrangements occurred during the financial year ended at 30 June 2011.

Quantity	Security	\$ Value	Purpose
10,095,676	Fully paid ordinary shares	1,913,086	Issued in lieu of corporate advisory, capital raising etc. fees
9,366,399	\$0.05, 31 March 2015 - unlisted option	687,775	Issued in lieu of corporate advisory, capital raising etc. fees
5,420,655	\$0.07, 30 June 2015 - unlisted option	335,701	Issued in lieu of capital raising fees
7,058,824	\$0.265, 30 April 2016 - unlisted option	1,193,856	Issued in lieu of capital raising fees

The fair value at grant date of the unlisted options is independently determined using a Binomial option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option. The fair value of the listed options was determined as the market price of the listed options at the time the services were provided to the Company.

The following share based payment arrangements from prior periods existed at 30 June 2011:

	2011		2010	
	Number of Options	Weighted Average Exercise Price \$	Number of Options	Weighted Average Exercise Price \$
Outstanding at the beginning of the year	164,878,978	0.110	43,858,333	0.206
Granted – (\$0.05 - 31.12.11)	-	-	42,175,000	0.050

Expired – (\$1.00 - 01.10.10)	(4,500,000)	1.000	-	-
Outstanding at year end	149,447,323	0.098	164,878,978	0.110
Exercisable at year end	149,447,323	0.098	164,878,978	0.110

The following factors and assumptions were used in determining the fair value of the unlisted options on grant date:

Grant date	Expiry date	Fair value per option	Exercise price	Price of shares on grant date	Expected volatility annualised	Risk free interest rate	Dividend yield
22 December 08	30 June 12	\$0.0041	\$0.50	\$0.037	84.52%	3.64%	-
14 April 09	31 December 11	\$0.0122	\$0.05	\$0.030	83.83%	3.26%	-
19 March 10	31 December 11	\$0.0230	\$0.10	\$0.053	125.00%	4.80%	-
19 March 10	31 March 15	\$0.0430	\$0.05	\$0.053	125.00%	4.80%	-
8 July 10	30 June 15	\$0.0619	\$0.07	\$0.091	100.00%	4.80%	-
24 June 11	30 April 16	\$0.1691	\$0.265	\$0.235	94.57%	4.89%	-

Historical volatility has been the basis for determining expected share price volatility as it assumed that this is indicative of future volatility, which may not be the case.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2011

Note 30: Financial Risk Management

The consolidated entity has exposure to the following risks from their use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

This Note presents information about the consolidated entity's exposure to each of the above risks, their objectives, policies and processes for measuring and managing risk, and the management of capital. Further quantitative disclosures are included throughout these financial statements.

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework.

Risk management policies are established to identify and analyse the risks faced by the consolidated entity, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed to reflect changes in market conditions and the consolidated entity's activities. The consolidated entity, through training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all consultants and agents understand their roles and obligations.

Credit risk

Credit risk is the risk of financial loss to the consolidated entity if counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the consolidated entity's investments, receivables and cash held at financial institutions.

Exposure to credit risk

The carrying amount of the economic entity's financial assets represents the maximum credit exposure. The consolidated entity's maximum exposure to credit risk at the reporting date was:

	CONSOLIDATED	
	2011 \$	2010 \$
Available for sale financial assets	912,342	420,147
Loans and receivables	3,002,395	2,038,997

Cash and cash equivalents	17,359,870	7,398,470
	33,396,784	9,857,614

Cash and cash equivalents are held in financial institutions in Australia with external credit ratings of AA.

The carrying value of unlisted investments prior to write off was \$904,439, of which \$904,439 was provided against in the prior year (2010: \$904,439).

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2011

Note 30: Financial Risk Management (cont.)

Loans and receivables

The consolidated entity's exposure to credit risk is influenced mainly by the individual characteristics of each debtor. No collateral was held in relation to these receivables.

Impairment losses

None of the receivables at year end are past due or impaired. There are no guarantees to disclose.

Investments in associates / Prepayment for investments

The Company doesn't consider any financial risk to its investments in associates and prepayment for investments other than the risk of impairment that is assessed on an annual basis.

Liquidity risk

Liquidity risk is the risk that the consolidated entity will not be able to meet its financial obligations as they fall due. The consolidated entity's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the economic entity's reputation.

The consolidated entity uses activity-based costing to cost its activities, which assists in monitoring cash flow requirements and optimising its cash return on investments. Typically, the consolidated entity ensures that it has sufficient cash on demand to meet expected operational expenses for a period of 6 months; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

The following are contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements:

Consolidated Entity 2011	Carrying amount	Contractual cash flows	6 months or less	6 – 12 months	1-2 years	2-5 years	Over 5 years
Financial liabilities at amortised cost							
Trade and other payables	1,419,646	-	1,419,646	-	-	-	-
Consolidated Entity 2010	Carrying amount	Contractual cash flows	6 months or less	6 – 12 months	1-2 years	2-5 years	Over 5 years
Financial liabilities at amortised cost							
Trade and other payables	1,587,394	-	1,587,394	-	-	-	-

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2011

Note 30: Financial Risk Management (cont.)

Market risk

Market risk is the risk that changes in market prices, such as interest rates and equity prices will affect the consolidated entity's income or the value of its holdings of available for sale assets. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Equity price risk

The consolidated entity is exposed to equity securities price risk. This arises from investments held by the consolidated entity and classified on the statement of financial position as available for sale. The consolidated entity is not exposed to commodity price risk.

The consolidated entity holds equity investments which are publicly traded and included either on the ASX or the Toronto Stock Exchange.

The table below summarises the impact of increases/decreases equity investments held on these two indexes on the consolidated entity's post tax profit for the year and on equity. The analysis is based on the assumption that the share price had increased/decreased by 10% (2010: 10%) with all other variables held constant.

	Impact on post-tax loss		Impact on Equity	
	2011 \$	2010 \$	2011 \$	2010 \$
Listed available-for-sale assets				
Ram Resources (formerly Contact Uranium)	-	-	12,000	11,200
Boss Energy	-	-	-	18,750
Africa Oil	-	-	16,574	12,061
Red Emperor Resources	-	-	34,000	-

Equity would increase/decrease as a result of gains/losses on equity securities classified as available for sale, unless the assets were determined to be impaired there would be no impact on loss for the year.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2011

Note 30: Financial Risk Management (cont.)

AASB7 – Financial Instruments: Disclosures requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1)
- inputs other than quoted prices included within the level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (level 2); and
- inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

2011	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
Assets				
Available for sale financial assets				
Equity securities	612,941	-	299,401	912,342
Total assets	612,941	-	299,401	912,342

2010	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
Assets				
Available for sale financial assets				
Equity securities	420,147	-	-	420,147
Total assets	420,147	-	-	420,147

The fair value of financial instruments in active markets such as available for sale securities is based on quoted market bids at the end of the reporting period. The quoted market price used for financial assets held by the consolidate entity is the current bid price. These instruments are included in level 1.

The fair value of the financial instruments categorised as level 3 is based on the fair value of the consideration paid at acquisition date less costs to sell.

As there is no active market for the securities, management believe that the acquisition cost less costs to sell is the fair value of the equity instruments.

Foreign exchange risk

The consolidated entity operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the US dollar, British pound and Euro.

Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the entity's functional currency. The risk is measured using sensitivity analysis and cash flow forecasting.

The consolidated entity's treasury risk management policy is to closely monitor exchange rate fluctuations. The consolidated entity has engaged a foreign exchange consulting company to assist in this process. To date, the consolidated entity has not sought to hedge its exposure to fluctuations in exchange rates, however this policy will be reviewed on an ongoing basis.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2011

Note 30: Financial Risk Management (cont.)

The consolidated entity's exposure to foreign currency risk at the reporting date was as follows:

	CONSOLIDATED	
	2011 US\$	2010 US\$
Amount receivable from other entities	874,747	271,261
Amount payable to other entities	-	-

Sensitivity

Based upon the amounts above, had the Australian dollar strengthened by 10% against the US dollar with all other variables held constant, the consolidated entity post-tax loss for the year would have been AUD\$82,541 lower (2010: AUD\$21,676 lower), mainly as a result of foreign exchange gains/losses on translation of US denominated payables as detailed in the table above. A 10% weakening of the Australian dollar against the above currencies at 30 June would have had the equal but opposite effect, on the basis that all other variables remain constant.

Range Resources' contingent liabilities are mainly denominated in USD\$ however as the timing and/or occurrence of the payment does not allow that these be included in the sensitivity analysis performed here.

Interest rate risk

Profile

At the reporting date, the interest rate profile of the consolidated entity's interest-bearing financial instruments was:

	CONSOLIDATED

Sensitivity analysis for variable rate instruments

The sensitivity on interest rates for 2011 assumes a change of 100 basis points in the interest rates at the reporting date and would have increased / (decreased) profit and loss by the amounts shown. This analysis differs from 2010 which was performed on an interest rate movement up of 50 and 100 basis points (bps) at reporting date – which was consistent with the current market expectations of likely interest rate movements in the prior year. Both analysis for each year assumes that all other variables, in particular foreign currency rates, remain constant.

	31,979,625	31,979,625	8,270,217	8,270,217

The basis for determining fair value is disclosed in Note 1(n) and Note 1(o).

Other price risk

The consolidated entity is not exposed to any other price risks.

Capital management

The entity's objectives when managing capital is to safeguard its ability to continue as a going concern, so that it can continue to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital.

The entity's overall strategy remains unchanged from 2011.

The capital structure of the group consists of cash and cash equivalents and equity attributable to equity holders of the Company, comprising issued capital, reserves and accumulated losses as disclosed in Notes 21 and 22 respectively. None of the entities within the group are subject to externally imposed capital requirements.

Gearing ratio

The Board reviews the capital structure on an annual basis. As a part of this review the Board considers the cost of capital and the risks associated with each class of capital.

Note 31: Events After the Reporting Date

- Following on from completion of the Trinidad acquisition during the year, subsequent to year end, Range received the 100% share capital of SOCA Petroleum Limited through its newly created subsidiary Range Resources (Barbados) Limited. The Company is still in the process of valuing the acquisition in accordance with the requirements of AASB 3. The amounts paid for the acquisition is referred to in Note 18.
- The initial 21 development well work program commenced in Trinidad in less than 2 months from the acquisition of 100% of the Trinidad assets. The development well program is utilizing 3 of the Company's rigs and is targeting an increase in production to between 1,400-1,800 bopd, an increase and reclassification of reserves along with extending the limits of the existing fields.
- The Company's first exploration well in Georgia successfully spudded in July, with the Mukhiani #1 well targeting a prospect with a mean estimate of undiscovered oil in place of 115 million barrels (with 46 million barrels attributable to Range's 40% interest) and a total proposed depth of 3,500m.
- The Company's joint venture partner Africa Oil Corporation signed a landmark contract with Sakson Drilling and Oil Services who will provide a 1,500 horse-power, top drive drilling rig to drill two highly anticipated exploration wells in Puntland, Somalia. The majority of the drilling-related third party service contracts have now been entered into, with the mobilisation of required personnel and equipment to commence, which is expected to allow for the spudding of the first well during the fourth quarter of this year. Drilling locations have been selected over two robust prospects targeting total gross best estimate Prospective Resources of 675 million barrels of oil (with 135 million barrels net attributable to Range). The first prospect, Shabeel-1, is targeting Prospective Resources of in excess of 300 million barrels of oil (with 60 million barrels net attributable to Range).
- Range also made a strategic investment in Tangiers Petroleum Limited ("Tangiers", ASX:TPT) in subscribing for 5m ordinary shares in Tangiers at an issue price of \$0.40. Tangiers is an ASX listed exploration company which has a portfolio of two potentially world class oil and gas projects located in Morocco and Australia. Tangiers Moroccan assets include the highly prospective offshore Tarfaya block. Netherland, Sewell & Associates conducted an independent review of the first four prospects on this block and concluded a best estimate prospective resource of approximately 870 million barrels, and a high estimate of almost 5 billion barrels.
- Subsequent to year-end the Company successfully raised US\$15m through a strategic placement of 83,563,829 shares and 41,781,915 attaching options to Socius CG II, an established and highly successful United States based investment group and a wholly-owned subsidiary of Socius Capital Group.

AASB reference	Title and Affected Standard(s):	Nature of Change	Application date/ Effective date	Impact on Initial Application
AASB 124 (issued December 2009)	Related Party Disclosures	Simplifies disclosure requirements for government-related entities and clarifies the definition of a related party.	Annual reporting periods commencing on or after 1 January 2011	As this is a disclosure standard only, there will be no impact on amounts recognised in the financial statements. However, various disclosures currently required by government entities about related party transactions with other entities that are controlled, or significantly influenced by the same government entity will no longer be required if it is costly to gather and of less value to users.
AASB 12 (issued August 2011)	Disclosure of Interests in Other Entities	Combines existing disclosures from AASB 127 Consolidated and Separate Financial Statements, AASB 128 Investments in Associates and AASB 131 Interests in Joint Ventures. Introduces new disclosure requirements for interests in associates and joint arrangements, as well as new requirements for unconsolidated structured entities.	Annual reporting periods commencing on or after 1 January 2013	As this is a disclosure standard only, there will be no impact on amounts recognised in the financial statements. However, additional disclosures will be required for interests in associates and joint arrangements, as well as for unconsolidated structured entities.
AASB 7	Financial Instruments: Disclosures	Deletes various disclosures relating to credit risk, renegotiated loans and receivables and the fair value of collateral held.	Periods commencing on or after 1 January 2011	There will be no impact on initial adoption to amounts recognised in the financial statement as the amendments result in fewer disclosures only.
AASB 101	Presentation of Financial Statements	A detailed reconciliation of each item of other comprehensive income may be included in the statement of changes in equity or in the notes to the financial statements.	Periods commencing on or after 1 January 2011	There will be no impact on initial adoption of this amendment as a detailed reconciliation of each item of other comprehensive income has always been included in the statement of changes in equity.

AASB reference	Title and Affected Standard(s):	Nature of Change	Application date/ Effective date	Impact on Initial Application
AASB 2010-6 (issued November 2010)	Amendments to Australian Accounting Standards – Disclosures on Transfers of Financial Assets	Additional disclosures required for entities that transfer financial assets, including information about the nature of financial assets involved and the risks associated with them.	Annual reporting periods commencing on or after 1 July 2011	As this is a disclosure standard only, there will be no impact on amounts recognised in the financial statements.
AASB 1054 (issued May 2011)	Australian Additional Disclosures	Moves additional Australian specific disclosure requirements for for-profit entities from various Australian Accounting Standards into this Standard as a result of the Trans-Tasman Convergence Project. Removes the requirement to disclose each class of capital commitment and expenditure commitment contracted for at the end of the reporting period (other than commitments for the supply of inventories).	Annual reporting periods commencing on or after 1 July 2011	When this Standard is adopted for the first time for the year ended 30 June 2012, the financial statements will no longer include disclosures about capital and other expenditure commitments as these are no longer required by AASB 1054.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF RANGE RESOURCES LIMITED

Report on the Financial Report

We have audited the accompanying financial report of Range Resources Limited, which comprises the consolidated statement of financial position as at 30 June 2011, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year ended on that date, a summary of significant accounting policies, other explanatory notes and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances. In Note 1, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with International *Financial Reporting Standards*.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001* would be in the same terms if it had been given to the directors at the time that this auditor's report was made.

Auditor's Opinion

In our opinion:

- (a) the financial report of Range Resources Limited is in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2011 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001*; and
- (b) the financial report also complies with *International Financial Reporting Standards* as disclosed in Note 1.

Corporate Governance Statement

FOR THE YEAR ENDED 30 JUNE 2011

This Corporate Governance Statement sets out the Company's current compliance with the ASX Corporate Governance Council's Principles of Good Corporate Governance and Best Practice Recommendations (**Best Practice Recommendations**). The Best Practice Recommendations are not mandatory. However, the Company will be required to provide a statement in its future annual reports disclosing the extent to which the Company has followed the Best Practice Recommendations.

The Board of the Company currently has in place a corporate governance policy and are in the process of adopting a more comprehensive Corporate Governance Plan.

	BEST PRACTICE RECOMMENDATION	COMMENT
1.	Lay solid foundations for management and oversight	
1.1	Formalise and disclose the functions reserved to the board and those delegated to management.	Satisfied. Refer the Corporate Governance section on the Company website.
1.2	Disclose the process for evaluating the performance of senior executives.	Not satisfied. The Company has not yet established formal performance review measures for key executives given the size and stage of the Company's operations.
1.3	Provide the information indicated in the <i>Guide to Reporting on Principle 1</i> .	Satisfied. Refer to Director's report.
2.	Structure the board to add value	
2.1	A majority of the board should be independent directors.	Satisfied. Refer the Corporate Governance section on the Company website.
2.2	The chairperson should be an independent director.	Satisfied. Refer the Corporate Governance section on the Company website.
2.3	The roles of chairperson and chief executive officer should not be exercised by the same individual.	Satisfied. Refer the Corporate Governance section on the Company website.
2.4	The board should establish a nomination committee.	Not satisfied. The Board considers that given the current size of the board, this function is efficiently achieved with full Board participation. Accordingly, the Board has resolved not to establish a nomination committee at this stage.
2.5	Disclose the process for evaluating the performance of the board, its committees and individual directors.	Not satisfied. The Company has not yet established formal performance review measures for key executives nor has it established a nomination committee given the size and stage of the Company's operations. The full Board will review the performance of key executives.
2.6	Provide the information indicated in <i>Guide to Reporting on Principle 2</i> .	Satisfied. Refer to Director's report.

Corporate Governance Statement

FOR THE YEAR ENDED 30 JUNE 2011

	BEST PRACTICE RECOMMENDATION	COMMENT
3.	Promote ethical and responsible decision-making	
3.1	<p>Establish a code of conduct to guide the directors, the chief executive officer (or equivalent), the chief financial officer (or equivalent) and any other key executives as to:</p> <p>(a) the practices necessary to maintain confidence in the company's integrity; and</p> <p>(b) the practices necessary to take into account their legal obligations and the reasonable expectations of their stakeholders</p> <p>(c) the responsibility and accountability of individuals for reporting and investigating reports of unethical practices.</p>	Satisfied. Refer the Corporate Governance section on the Company website.
3.2	Disclose the policy concerning trading in company securities by directors, officers and employees.	Satisfied. Available on the Company website.
3.3	Provide the information indicated in <i>Guide to Reporting on Principle 3</i> .	Satisfied. Refer to Director's report.
4.	Safeguard integrity in financial reporting	
4.1	The board should establish an audit committee.	Not Satisfied. The Directors believe that it would not increase efficiency or effectiveness to have a separate audit committee, and that audit matters are of such significance that they should be considered by the full Board. The Board may call on outside consultants if it requires assistance in this area.
4.2	<p>Structure the audit committee so that it consists of:</p> <p>(a) only non-executive directors;</p> <p>(b) a majority of independent directors;</p> <p>(c) an independent chairperson, who is not chairperson of the board; and</p> <p>(d) at least three members.</p>	Not satisfied. Refer 4.1.
4.4	The audit committee should have a formal charter.	Not satisfied. Refer 4.1
4.5	Provide the information indicated in <i>Guide to Reporting on Principle 4</i> .	Satisfied. Refer to Director's report.

Corporate Governance Statement

FOR THE YEAR ENDED 30 JUNE 2011

	BEST PRACTICE RECOMMENDATION	COMMENT
5.	<i>Make timely and balanced disclosure</i>	
5.1	Establish written policies and procedures designed to ensure compliance with ASX Listing Rule disclosure requirements and to ensure accountability at a senior management level for that compliance.	Satisfied. Continuous disclosure policy is available on the Company website.
5.2	Provide the information indicated in <i>Guide to Reporting on Principle 5</i> .	Satisfied. Refer 5.1
6.	<i>Respect the rights of shareholders</i>	
6.1	Design and disclose a communications strategy to promote effective communication with shareholders and encourage effective participation at general meetings.	Satisfied. Communications with Shareholders policy is available on the Company website
6.2	Provide the information indicated in <i>Guide to Reporting on Principle 6</i> .	Satisfied. Refer to the Company website.
7.	<i>Recognise and manage risk</i>	
7.1	The board or appropriate board committee should establish policies on risk oversight and management.	Satisfied. Risk management program is available on the Company website.
7.2	Design and implement the risk management and internal control system to manage the company's material business risks and report on whether those risks are being managed effectively.	Satisfied. Refer 7.1
7.3	The board should disclose whether it has received assurance from the chief executive officer (or equivalent) and the chief financial officer (or equivalent) that the declaration provided in accordance with section 295A of the Corporations Act is founded on a sound system of risk management and internal control and that the system is operating effectively in all material respects in relation to financial reporting risks.	Due to the size and scale of its operations, the Company does not have a designated CEO or CFO. The roles are performed by the Board as a whole.
7.4	Provide the information indicated in <i>Guide to Reporting on Principle 7</i> .	Satisfied. Refer 7.1 Not currently applicable. Refer 7.3
8.	<i>Remunerate fairly and responsibly</i>	
8.1	The board should establish a remuneration committee.	Not satisfied. The Board considered this recommendation and formed the view that it would not increase efficiency or effectiveness to have a separate committee, and that remuneration matters are of such significance that they should be considered by the full Board. The Board may call on outside consultants if it requires assistance in this area.
8.2	Clearly distinguish the structure of non-executive directors' remuneration from that of executives.	Details of executive and non-executive remuneration are outlined in the Directors' report.
8.3	Provide the information indicated in <i>Guide to Reporting on Principle 8</i> .	Satisfied. The Company has incorporated all information as required.
