**DIRECTOR'S REPORT**

The directors present their consolidated financial statements on the results of OBJ Limited and its controlled entities for the financial half-year ended 31 December 2011.

**Directors**

The names of directors in office at any time during or since the end of the period are:

Mr Glyn Gregory Horne Denison  
Mr Jeffrey David Edwards  
Dr Christopher John Quirk

Directors have been in office since the start of the financial year to the date of this report.

**Review of Operations**

The following provides an update on the technical and commercial progress of the Company for the half-year ended 31 December 2011.

**Highlights**

Highlights during the period included the commencement of negotiations with one of the world's leading Fast Moving Consumer Goods companies (FMCG) for a wide ranging Joint Development Agreement in beauty, an expansion of the Company's oral health partnership with GSK and significant progress in the development of a range of musculoskeletal patch products that the Company plans to develop independently of its existing international partners.

**1. Commercial Activities**

OBJ remains committed to its three-part commercial development program which focuses on partnering with major international pharmaceutical, cosmetic and FMCG companies, developing value added products and processes utilising OBJ's proprietary design and development of its range of products to be distributed by channel partners.

In 2011, the Company announced that it planned to develop a new range of high value pain and pain management products utilising the unique benefits of the Company's technologies. An extensive internal development program commenced and is currently being supported by an extensive international market research program based in the UK. Work has continued and the program has gained increased momentum during the period.

The Company received notification from the US Patent Office in August 2011 that its Dermaportation or powered technology device patent had been allowed. This has subsequently allowed the Company to gain considerable interest from major cosmetic groups for the Company's new *e-skin* product range. The potential market exclusivity provided by the US patent has considerably strengthened market interest.

Late in 2011, the Company reported that the previously announced Strategic Alliance program with one of the world's leading Consumer Products companies had further progressed following successful technical evaluations. In October, the Company learned that the FMCG company was seeking world-wide exclusive access rights to OBJ's technologies in the area of a beauty.

Negotiations commenced regarding the various financial, developmental and investment commitments by the FMCG company to OBJ's technologies and considerable progress in these negotiations was achieved during the period.

**DIRECTOR'S REPORT (continued)**

**Review of Operations (continued)**

**2. Technology Development**

During the period, the Company was rewarded by positive results in its technology development programs in surface hygiene. Data provided through the Company's close working relationship with Bradford University in the UK, has supported an expansion of this work.

The Company's work with microneedles was also expanded during the period with the receipt of the first positive results of enhanced drug delivery when used in conjunction with microneedles. This has led to the development of new Intellectual Property and the development of a number of new product forms that utilise this combination of technologies.

**3. Capabilities**

During the period, the Company has focused on a number of technical and development relationships with major universities in both Australia and UK. This has added substantially to the technical scope available to the Company's R&D and partnering programs.

The trend towards utilising specialised centres of excellence around the world as a means of expanding the Company's technical capabilities is expected to continue.

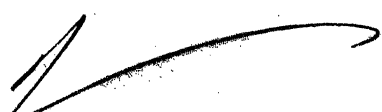

**4. Outlook**

The Company has made substantial progress during the period in its key interest areas of technology utilisation, international partnering and moving towards the development of its own products. The recent FMCG negotiations, expansion of collaborations with major international groups and strong consumer research to OBJ's product plans should result in an exciting and expansive 2012.

**Auditor's Independence Declaration**

In accordance with the Audit Independence requirements of the Corporations Act 2001, the directors have received and are satisfied with the "Audit Independence Declaration" provided by OBJ Limited external auditors RSM Bird Cameron Partners. The Audit Independence Declaration is set out on page 8 of this half-year consolidated financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of OBJ Limited, would be in the same terms if given to the directors as at the time of this auditor's review report.

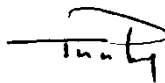

*Conclusion*

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of OBJ Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2011 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.
