### Democratic Republic of Congo (DRC) media reports

Tiger Resources Limited (ASX/TSX: TGS, "Tiger") refers to overnight media reports suggesting the possibility of the Democratic Republic of Congo (DRC) Government increasing its interest in mining projects located in the country.

The media articles said that, based on a preliminary report, the DRC Government was considering raising its interest in mineral projects to 35 per cent from 5 per cent and raise royalties to 4 per cent on mineral exports.

Tiger Resources Managing Director Brad Marwood said: "We are a member of the DRC's mining community and have been in consultation with the government about possible changes.

"The DRC government, through our joint venture partner Gecamines, owns 40% of the Kipoi Copper Project and we already pay a 4.5% royalty to Gecamines and the DRC Government."

"We see no basis for a change to the ownership structure at Kipoi for the current heavy media separation (HMS) operation or for the planned Stage 2 solvent extraction electro-winning (SX-EW). We believe existing mining operations terms and conditions affecting Tiger will be honoured"
