SPHERE MINERALS LTD AND ITS CONTROLLED ENTITIES CHAIRMAN'S REPORT AND REVIEW OF OPERATIONS

The 12 month period ended 31 December 2012 was a challenging but successful year for the Company.

The sector experienced turbulent conditions as the iron ore prices significantly fluctuated however it was pleasing to see prices recover in the later part of 2012.

During the period Sphere Mauritania SA was granted an exploitation permit for the Askaf project setting the path to progress the Askaf North project towards the execution stage. A significant drilling program for the El Aouj project was undertaken as the project commenced a pre-feasibility study.

Askaf Project (Sphere 90%; Mauritania State 10%)

The Feasibility Study for a sinter fines blend (SFB) magnetite concentrate operation is being finalised.

Negotiations are in progress with SNIM on the Rail and Port Agreement to transport the product from the mine site and load it onto ships at the Port of Nouadhibou.

A Mineral Resource Update Statement was announced to the market 31 January 2013 for the Askaf North magnetite deposit, Mauritania following completion of resource modelling and estimation.

The current drilling program at the Askaf Centre, East and Western deposits has been completed and samples are in the process of being analysed.

Project sustainable development activity continues to progress well. Baseline studies have been completed for noise, surface water, visual impact, flora and fauna, soils and geology, and land use. Environment and social impact assessment of the project is currently being completed.

Pursuant to the Mauritanian Mining Code 2008, as modified by article 38(§2) of law No 2009/26 passed on 7 April 2009, an exploitation permit can only be granted to a Mauritanian legal entity in which the Mauritanian State holds a 10% free carry stake. Following Sphere Mauritania SA having been granted an exploitation permit for the Askaf project it has transferred 10% of the share capital of the company to the Islamic Republic of Mauritania for no consideration.

Guelb el Aouj (Sphere 50%; SNIM 50%)

The Guelb el Aouj resource remains Sphere's most significant project in which it owns 50% through the El Aouj Mining Company (EMC) together with Société Nationale Industrielle et Minière (SNIM).

The engineering contract for the Pre-Feasibility Study (PFS) for the project was awarded during the last quarter of 2012. The PFS is based on producing approximately 15 million tonnes per annum of sinter feed concentrate from principally the el Aouj East deposit. This is the first stage of an overall project for the production of approximately 30 million tonnes per annum from the el Aouj exploitation permit area.

EMC has established a team to manage the work, including secondees from both Xstrata and Société Nationale Industrielle et Minière (SNIM).

Sphere Minerals Limited (Sphere) is managing the drilling on behalf of the two partners under a contract with the El Aouj Mining Company (EMC).

El Aouj East

Drilling progressed well and to date a total of 58,997 metres (35,481m of RC and 23,516 of DC) of the planned 87,000m has been drilled. The drilling program commenced in June 2012 and aims to:

- Further define the existing resource; and
- Extend the existing resource by drilling down-dip.

A bulk sample of approximately 19t for pilot plant test work was collected and delivered to SGA (Studiengesellschaft für Eisenerzaufbereitung) in Germany.

SPHERE MINERALS LTD AND ITS CONTROLLED ENTITIES CHAIRMAN'S REPORT AND REVIEW OF OPERATIONS

Bou Derga deposit - View towards the east

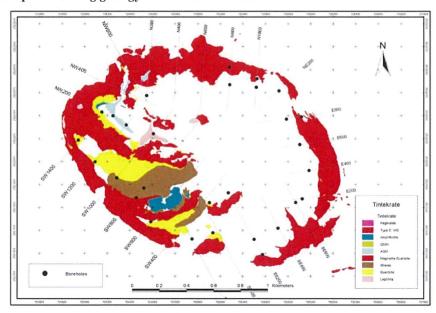

A maiden Mineral Resource Statement was announced to the market on 23 April 2012 for the Bou Dergamagnetite-quartzite deposit in Mauritania.

The Mineral Resource is based on the results of an exploration drilling program of 17,427m (66 holes) that was completed in December 2011 and comprises:

- An Inferred Mineral Resource of 510Mt of fresh magnetite-quartzite mineralisation at a head grade of 36% Fe and a Davis Tube (DTC) concentrate grade (DTC Fe) of 69.7% Fe at 43% mass recovery (DTC wt%). A cut-off grade of 20% DTC wt% was used for the fresh mineralisation. Davis Tube testwork was performed on drill samples pulverised to 95% passing 80μm.
- An Inferred Mineral Resource of 130Mt of oxidised magnetite-quartzite mineralisation at a head grade of 35% Fe. A cut-off grade of 20% head Fe was used for the oxidised mineralisation.

Figure 2 Tintekrate deposit showing geology and location of boreholes.

SPHERE MINERALS LTD AND ITS CONTROLLED ENTITIES CHAIRMAN'S REPORT AND REVIEW OF OPERATIONS

To date, 21,752m of a planned 21,932m have been drilled (15,073m of RC and 6,678m of DC) in the current phase of exploration at the Tintekrate deposit. The outstanding drilling will be completed once the drilling program at the el Aouj East deposit has been completed.

Tintekrate deposit - View towards the east

Lebtheinia Project (Sphere 100%)

Concept work continued in 2012 on various options for the development of the large Lebtheinia resource located 145km from the Port of Nouadhibou.

The Company has reached a number of key milestones during the period as it progresses its projects into the next stage of development. Sphere has a significant resource base in its portfolio of projects in Mauritania and continues to look for the most optimal way of obtaining value for our shareholders and stakeholders.

The Company is looking forward to a challenging and successful 2013, in particular with addressing its Askaf project.

Peter Freyberg

Non-Executive Chairman

Corporate Governance

The directors of Sphere Minerals Limited ("the Company") consider that high standards of corporate governance are critical to business integrity and performance.

The board ensures that the Company meets the objectives of all its shareholders, while paying proper regard to the interests of employees and external stakeholders. The corporate governance structures and practices in place at the Company are substantially in compliance with the 2nd edition of the Corporate Governance Principles and Recommendations (the Principles) developed by the Australian Securities Exchange (ASX) Corporate Governance Council (the Council).

The board has considered the Council's Principles and the Company does not comply with the following recommendations:

- Recommendations 1.2 and 1.3 the Company does not have a process and did not conduct an evaluation of senior executives;
- Recommendation 2.1 and 2.2 a majority of the board are not independent directors, nor does the Company have an independent chairman;
- Recommendation 2.4 the board has not established a separate nomination committee;
- Recommendation 2.5 the Company does not have a formal process for evaluating the performance of the board, its committees and individual directors;
- Recommendation 8.1 and 8.2 the board has not established a separate Remuneration committee.

Xstrata plc, through a wholly owned subsidiary owns 88.16% of the Company and provides to the Company management and support services including senior management to enable the Company to conduct its business.

Areas where corporate governance practices do not follow the Council's Principles arise as a result of this.

As explained further below, the board considers that, in each case, this is appropriate.

As a subsidiary of Xstrata plc the Company has adopted Xstrata plc's corporate governance and sustainability policies. Further details of these policies are available at www. Xstrata.com

Principle 1 - Lay solid foundations for management and oversight

The Company has formalised and disclosed the roles and responsibilities of the Board and those delegated to senior management in its Board Charter⁽¹⁾.

The responsibilities of the Board include determining and monitoring the objectives and strategic direction of the Company, monitoring the performance of the Company and its senior executives, approving business plans and budgets, and developing and ensuring adherence to company policies. The Board is also responsible for compliance with the codes of conduct, overseeing risk management and internal controls, and the assessment, appointment and removal of the Chief Executive Officer, Chief Financial Officer, Company Secretary and other senior executives.

The senior management are responsible for the efficient and effective operation of the Company in accordance with the objectives, strategies and policies determined by the Board.

The Board charter is available, however, because of the small number of shareholders and the associated costs, the directors decided to close down the Company's website.

Principle 2 - Structure the board to add value

The Board of the Company currently consists of two executives and four non-executive directors. Details of the Company directors, their qualifications and experience and their period of office are included in the Directors' Report.

In considering the independence of directors, the Board considers issues of materiality and relies on those thresholds for qualitative and quantitative materiality as contained in the Board Charter. Under these criteria, Mr Parker and Mr Clark are the only non-executive independent directors of the Company.

While the Company's Board composition does not follow the ASX recommendations, the Board considers that given the Company's ownership structure, current size and stage of exploration and development, its current Board structure is appropriate and provides the necessary diversity of skills and experience.

The Chair of the Board is Mr Freyberg. Mr Freyberg is not considered independent as he is the Chief Executive Officer of Xstrata Coal Pty Limited, which is a related body corporate of the Company.

Mr Freyberg's experience within the industry and his commitment to success was considered to be in the best of interest of the Company. The Company has appropriate guidelines and checks in place to ensure that the Board makes decisions in the best interests of shareholders.

Subject to the Chairman's approval, which is not to be unreasonably withheld, directors have the right, at the Company's expense, to obtain independent professional advice on issues arising in the course of their duties.

The Company has a policy defining the procedure for the selection and appointment of new directors. Candidates for the Board are considered and selected by reference to a number of factors which include, but are not limited to, their relevant experience and achievements, compatibility with other Board members, credibility within the Company's scope of activities, and intellectual and physical ability to undertake Board duties and responsibilities. Directors are initially appointed by the full Board, subject to election by shareholders at the next general meeting.

Principle 3 - Promote ethical and responsible decision making

The Board is responsible for developing the culture of the organisation, including the performance focus and the legal, ethical and moral conduct, to preserve and enhance Sphere's reputation in the mining industry, business generally and the broader community.

Sphere has adopted Xstrata plc's Code of Conduct which requires that all employees are aware of, and comply with, legislation and policies applicable to their position. The Code also requires employees to avoid or ensure proper management of conflicts of interest, to not use confidential information for personal gain, and to generally operate in a fair, honest and open manner. In accordance with the Council's recommendation, Sphere has established a securities' trading policy, identifying the circumstances in which share trading in the Company's securities by directors, senior managers and other employees is permitted, and specifying procedures to reduce the risk of insider trading.

The Company's policy is to make reasonable endeavours to ensure that it gives proper consideration to the impact on the environment of its activities, and that the Company observes its obligations in respect of environmental practices, and the health, safety and general wellbeing of its employees.

The Company has adopted Xstrata's diversity policy which believes a diverse workforce enables more effective operation in a variety of contexts. Whether it is business planning, technical design or safety management, the decision-making process is often enhanced by a wide range of different perspectives, coming from people with a variety of backgrounds. There is a strong commitment to hiring local managers and employing local expertise in Mauritania, which benefits both the business and the community.

The Company currently has 3% female employees in the whole organisation. There are no women currently in senior positions.

Xstrata's Code of Conduct and Diversity policy is available at the website www.Xstrata.com.

Principle 4 - Safeguard integrity in financial reporting

The Company has established an Audit Committee and adopted an Audit Committee Charter⁽¹⁾.

The members of the Audit Committee are Mr Clark (chair, independent), Mr Parker (independent) and Mr Melamed (non executive, non independent). Details of each of the Audit Committee member's qualifications as well as details of the Audit Committee meetings and attendances are contained in the Directors' Report. All three members of the Audit Committee consider themselves to be financially literate and have industry knowledge.

During the 12 month period, the Audit Committee convened three times to consider all matters under the Audit Committee Charter.

The Audit Committee charter is available, however, because of the small number of shareholders and the associated costs, the directors decided to close down the Company's website.

The Board has adopted a policy and procedure for selection of external auditor and rotation of audit engagement partners. The key criteria are:

Mandatory criteria

Candidates for the position of external auditor of the Company must be able to demonstrate complete independence from the Company and an ability to maintain independence through the engagement period. Further the successful candidate must have arrangements in place for the rotation of the audit engagement partner on a regular basis.

Other criteria

Other than the mandatory criteria mentioned above, the Board may select an external auditor based on criteria relevant to the business of the Company such as experience in the industry in which the Company operates, references, cost and any other matters deemed relevant by the Board.

The Board reviews the performance of the external auditor on an annual basis.

Principle 5 - Make timely and balanced disclosure

In order to ensure that the Company meets its obligations with regard to the continuous disclosure requirements, Sphere has adopted a Continuous Disclosure Policy. The policy sets out the Company's obligations and its policies and procedures to ensure timely and accurate disclosure of price sensitive information to the market.

The Company also has policies in place to ensure integrity in financial reporting. The Chief Executive Officer and Chief Financial Officer provide the Board with a written statement that Sphere's half year and annual financial statements present a true and fair view in all material respects, of the Company's financial condition and operational results and are in accordance with relevant accounting standards.

Principle 6 – Respect the rights of shareholders

Sphere endeavours to provide shareholders with important information on the Company in a timely and efficient manner.

Shareholders are informed of the activities of the Company through its Quarterly Report, Annual Report, and other market disclosures made in the spirit of ASX listing rule 3.1. Shareholders are also actively encouraged to attend Sphere's Annual General Meeting. The Company's auditor is required to attend its Annual General Meeting.

All Information is available, however, because of the small number of shareholders and the associated costs, the directors decided to close down the Company's website.

Principle 7 - Recognise and manage risk

The Board has established a Risk Management Policy designed to ensure that material business risks are identified, assessed, addressed and monitored to assist the Company to achieve its business objectives.

Material business risks are reviewed at least annually as part of the annual strategic planning, forecasting and budgeting process, and are subject to review on an ongoing basis. Aside from the overriding risks relating to world economic growth, material business risks have been identified as commodity price, equity and financial market shocks, treasury management, political instability/sovereign risk in Mauritania, and general operational risks in exploration and development of mining projects.

The Company has implemented a formal system for managing material business risks. This system includes a risk register that identifies rates, prioritises and delegates the Company's material business risks supported by ongoing review by the nominated manager for each identified material business risk. In addition, detailed internal control questionnaires were completed by the finance department on a six monthly basis.

The categories of risk specifically reported on in the Annual Report are credit risk, liquidity risk, market risk, currency risk and interest rate risk.

The Board has required management to design, implement and maintain risk management and internal control systems to manage the Company's material business risks. The Board also requires management to report to it confirming that those risks are being managed effectively.

The directors of the company have been given the declarations from the Chief Executive Officer and the Chief Financial Officer required by section 295A of the *Corporations Act 2001* and have received assurances that these declarations are

founded on sound systems of risk management and internal control and that these systems are operating effectively in relation to all material financial risks.

Principle 8 - Remunerate fairly and responsibly

Remuneration details are disclosed, as required, separately in the Directors' Report. There are no schemes for retirement benefits other than superannuation in existence.

⁽¹⁾ A copy of the Board and Audit Committee charter can be obtained by contacting the Sphere Company Secretaries.

The directors present their report together with the consolidated accounts of the entity, being the Company and its controlled entities, for the 12 month period ended 31 December 2012 and the independent audit report thereon.

DIRECTORS

The following persons were directors of Sphere Minerals Limited during the 12 month period up to the date of this report:

Peter Freyberg
Mark Eames
Damian Hogue
Earl Melamed
Non-Executive Chairman
Executive Director
Executive Director
Non-Executive Director

Anthony Clark AM Non-Executive Independent Director

Jon Parker Non-executive Independent Director (appointed 12 April 2012)
Robert (Bob) Cornelius Non-executive Independent Director (resigned 30 April 2012)

PRINCIPAL ACTIVITIES

Sphere Minerals Limited is an iron ore company, with a focus in West Africa. The Company has secured three large scale iron ore projects in Mauritania.

Guelb el Aouj (50%)

The Company's flagship project is the Guelb el Aouj Iron Ore (magnetite) Project in Mauritania, West Africa. Sphere is developing the Guelb el Aouj Iron Ore Project in partnership with Société Nationale Industrielle et Minière (SNIM), Mauritania's state-owned iron ore producer.

Lebtheinia (100%)

Sphere has an exploration licence for EL264 which covers the Lebtheinia magnetite-quartzite deposits. The deposit is strategically located 145 km from the iron ore port of Nouadhibou.

Askaf (90%)

The Askaf Project covers the exploration licence EL172, located 35km south of the Guelb el Aouj Project Area and adjacent to SNIM's iron ore railway. The 194km² Askaf exploration licence includes six magnetite-quartzite deposits.

The exploitation licence for the Askaf North Project was approved at the Mauritania Council of Ministers on July 12, 2012.

REVIEW OF OPERATIONS

Operating Results

The consolidated net profit from continuing operations after income tax for the 12 month period ended 31 December 2012 was \$2,620,000 (18 months to 31 December 2011: \$10,074,000 loss). The 2012 profit reflects interest income earned, whilst the 2011 loss reflects the salary and administration costs associated with the old Sphere Perth Corporate office as well as other costs associated with the Xstrata takeover and rights issue. Nearly all other costs currently incurred are associated with the development of Sphere's projects and as such are capitalised.

A review of the Company's operations is contained in the Chairman's report which has been included in the front section of this report.

Dividends

No dividends were declared or paid at the time of this report.

Environmental Regulation

The Company is not currently subject to significant environmental regulation in respect of its activities.

Significant changes in affairs

No significant changes in affairs.

DIRECTORS' AND OFFICERS' QUALIFICATIONS AND EXPERIENCE

Peter Freyberg - Non-Executive Chairman (age 54)

Qualifications: BSc (Mining Engineering)

Experience: Mr Freyberg is an executive committee member of Xstrata plc and is the Chief Executive Office of Xstrata Coal Pty Limited. Mr Freyberg has over 30 years experience in the international mining industry. His mining career began in 1978 with Anglo American Corporation in South Africa where he completed his degree in mining engineering. Mr Freyberg embarked on his international career in 1991, working with Kaltim Prima Coal in Indonesia, followed by Hamersley Iron Ore in Perth, Copelmi Mineracao in Brazil and Carbones del Cerrejon in Colombia. He joined Xstrata Coal in South Africa in 2002.

Mr Freyberg is also a Board member of the Minerals Council of Australia, Director of the Australian Coal Association and a Director of the World Coal Institute.

Mark Eames - Director / Chief Executive Officer (age 51)

Qualifications: MA (Cantab, Metallurgy), MBA

Experience: Mr Eames is currently Chief Operating Officer of Xstrata Iron Ore and has over 25 years experience in the international mining industry. Mr Eames commenced his career with Rio Tinto, following a degree in Metallurgy in the United Kingdom. Mr Eames has worked in the United Kingdom, Australia and Indonesia. He has previously held senior roles at Hamersley Iron, WMC Resources and Coal and Allied. Mr Eames joined Xstrata Coal Pty Limited in 2004 where he held the position of Chief Marketing Officer prior to accepting the role at Xstrata Iron Ore.

Damian Hogue – Director / Chief Financial Officer (age 49)

Qualifications: BCom, CA

Experience: Mr Hogue is a Chartered Accountant and has over 20 years experience in the mining industry, working in Australia, Indonesia and Argentina. Mr Hogue is currently the General Manager of Finance for Xstrata Iron Ore, and was previously General Manager of Marketing Finance for Xstrata Coal Pty Limited. Mr Hogue started his career with Rio Tinto.

Earl Melamed – Non-Executive Director (age 53)

Qualifications: BCom, BAcc, CA

Experience: Mr Melamed is a Chartered Accountant and has over 30 years of experience with general management and financial roles in the information technology, manufacturing, construction and mining industries. He is the Chief Financial Officer and Director of Xstrata Coal Pty Limited and its subsidiaries.

Anthony Clark AM –Non-Executive Independent Director (age 73)

Qualifications: AM, FCA, FAICD

Experience: Mr Clark is a Chartered Accountant and was formerly Managing Partner of KPMG NSW from 1992 – 1998. Mr Clark has 40 plus years accounting, audit, consulting and finance related experienced. In 1995, Mr Clark was awarded membership of the Order of Australia for services to Business, Commerce and Community. Mr Clark is currently a director of the following listed companies: Amalgamated Holdings (appointed 1998), Carlton Investments (appointed 2000) and Ramsay Health Care (appointed 1998).

Jon Parker –Non-Executive Independent Director (age 64)

Qualifications: Physical Chemistry (Hons), Grad Dip Bus Admin.

Experience: Mr Parker is an Industrial Chemist with more than 40 years' experience in the resource and energy sector including 26 years with Rio Tinto in iron ore, energy, kaolin and aluminium sectors. He was formerly CEO of Felix Resources in the coal sector and with its predecessor, Aulron Energy, in coal, iron ore and direct iron smelting; as well as CEO of Norton Gold Fields Limited involving in acquiring, developing and operating gold mines.

Nicholas Talintyre - Company Secretary (age 40)

Qualifications: BCom LLB, CA

Experience: Mr Talintyre is a Chartered Accountant with 18 years of experience in finance roles, including 9 years of experience in the mining industry. Mr Talintyre is currently Executive General Manager of Finance at Xstrata Coal Pty Limited. Mr Talintyre has been admitted as a legal practitioner in the Supreme Court of NSW and has completed a General Management Program at Harvard Business School in 2008.

Anthony Durbin - Company Secretary (age 68)

Qualifications: Accounting Certificate

Experience: Mr Durbin has over 45 years experience in senior positions within the construction and mining industry, working for Ulan Coal, Lemington Coal and Exxon Coal before joining Xstrata in 2001.

Mr Durbin was previously served as company secretaries on various ASX listed companies.

DIRECTORS' INTERESTS

As at the date of this report, no director had a direct or indirect interest in the Company via ordinary shares or unlisted options.

DIRECTORS' MEETINGS

The number of meetings of the Company's Board of Directors and Audit Committee held during the year and the number of meetings attended by each director was:

	Number of Meetings Attended	Entitled to Attend
Peter Freyberg	4	4
Earl Melamed (a)	7	7
Mark Eames	4	4
Damian Hogue	4	4
Anthony Clark (a)	7	7
Jon Parker (a)	5	5
Robert (Bob) Cornelius	2	2

(a) Messrs Clark, Parker and Melamed are all members of the Audit Committees. Mr Clark is Chairman for the Audit Committee. During the financial period there were 3 meetings of the Audit Committee where Messrs Clark and Melamed attended 3 meetings and Mr Parker attended the 2 meetings subsequent to his appointment.

REMUNERATION REPORT (Audited)

This remuneration report outlines the arrangements in place for directors and key management personnel (KMP) of the Company, in connection with the management of the affairs of the entity and its subsidiaries, during the 12 months ended 31 December 2012.

Directors and key management personnel have authority and responsibility for planning, directing and controlling the activities of the Company and the consolidated entity, including directors of the Company and other executives. Key management personnel comprise the directors of the Company and executives of the Company and the consolidated entity.

Details of directors and KMPs are set out below:

Directors

Peter Freyberg Non-Executive Chairman (appointed 16 November 2010)

Mark Eames Executive Director (appointed 16 November 2010)

Damian Hogue Executive Director (appointed 16 November 2010)

Earl Melamed Non-Executive Director (appointed 16 November 2010)

Anthony Clark AM

Jon Parker

Robert (Bob) Cornelius

Non-Executive Independent Director (appointed 16 November 2010)

Non-executive Independent Director (appointed 12 April 2012)

Non-executive Independent Director (resigned 30 April 2012)

Executives

Nicholas Talintyre Company Secretary
Anthony Durbin Company Secretary

The remuneration report is set out under the following main headings:

Principles used to determine the nature and amount of remuneration

Details of remuneration

Service agreements

Share-based compensation

Principles used to determine the nature and amount of remuneration

It is the Company's objective to provide maximum stakeholder benefit from the retention of higher quality Board and executive team by remunerating directors and key executives fairly and appropriately with reference to relevant employment market conditions.

The Company's remuneration policy is to establish competitive remuneration (including performance incentives) consistent with long term development and success, to ensure remuneration is fair and reasonable (taking into account all relevant factors, and within appropriate controls or limits), that performance and remuneration are linked, that all remuneration packages are reviewed annually or on an ongoing basis in accordance with management's remuneration packages, and that retirement benefits or termination payments (other than notice periods) will not be provided or agreed other than in exceptional circumstances. Note – apart from superannuation guarantee contributions required by the governments, neither directors nor other senior executives receive any other form of retirement benefits.

Currently the remuneration of the Company's Key Management Personnel including any component of the remuneration that consists of securities in the Company is not formally linked to the performance of the Company. The rationale for this approach is that the Company is in exploration phase, and it is not currently appropriate to link remuneration factors such as profitability or share price. It is anticipated that this will change once the Company generates revenue.

Independent Directors' Remuneration

The Board policy is to remunerate Independent non-executive directors at market rates for time, commitment and responsibilities. The Board determines payments to the Independent Directors and reviews their remuneration annually, based on market factors, duties, accountability, comparable companies as well as additional time commitment of directors who serve on one or more sub committees. Independent external advice is sought when required. The maximum aggregate amount of fees that can be paid to Independent Non-executive Directors is currently \$200,000 and was approved by shareholders at a General Meeting held on August 31, 2005. Fees for Non-executive Directors are not linked to the performance of the economic entity.

The following fees for each Independent non-executive director have applied:

From 1 March 2010

Fees (per annum)

\$50,000

Superannuation contributions required under the Australian superannuation guarantee legislation are made in addition to this fee entitlement.

Executive and Non-Executive (Non Independent) Directors' Remuneration

The Company aims to reward executives with a level and mix of remuneration commensurate with their position and responsibilities within the Company so as to:

- align the interests of executives with those of shareholders;
- link reward with the strategic goals and performance of the Company; and
- ensure total remuneration is competitive by market standards.

Executive remuneration comprises:

- base pay and benefits; and
- long term incentives through equity based compensation

Details of remuneration

Details of the remuneration of the directors and the key management personnel who are paid and employed by Sphere Minerals Limited and its subsidiaries are set out in the following table:

Notes

- (a) Mr Cornelius resigned 30 April 2012
- (b) Mr Parker was appointed 12 April 2012
- (c) Non-monetary benefits include motor vehicles, spouse travel and expatriate taxation obligations

Related entities, Xstrata Coal Pty Limited, Xstrata Iron Ore Services AG and Xstrata France SAS (Xstrata) provides executive management services to the company for which a management fee is charged as disclosed in note 26. This management fee includes payment for the services provided by the Xstrata employed directors. As these directors and KMPs are not employed by the Company, the specific remuneration for these individuals are not disclosed above.

C Service agreements

The current Board members have not entered into any service agreements with the Company.

D Share-based compensation

No options were granted to directors or KMPs during the 12 month period ended 31 December 2012.

Policy for trading in Company Securities

The board has adopted a Policy which prohibits dealing the Company's securities by directors, officers and employees when those persons possess inside information. The Policy also stipulates blackout periods during which directors, officers and employees are prohibited from trading. The Policy prohibits short-term or speculative trading of the Company's securities. Directors, officers and employees are required to obtain appropriate clearance prior to trading.

Directors must disclose details of changes in securities of the Company they hold (directly or indirectly) to the company secretary as soon as reasonably possible after the date of the contract to buy and sell the securities. The company secretary must report all notifications of dealings in the Company's securities to the next board meeting of the Company.

The directors are responsible for disclosure to the market of all transactions or contracts involving the Company's shares in compliance with s. 205G of the *Corporations Act 2001*.

This is the end of the Audited Remuneration Report.

LOANS TO DIRECTORS AND EXECUTIVES

During the period, no loans have been provided to directors and / or executives of the Group.

SHARES UNDER OPTION

No options were granted during the period.

The following options were exercised during the period ended 31 December 2012. All options were held and exercised by Sidero Pty Limited (a subsidiary of Xstrata).

Date options exercised	Issue price of shares	Number of shares issued	
26 October 2012	\$1.80	2,900,000	
26 October 2012	\$1.80	300,000	
26 October 2012	\$2.40	1,500,000	
26 October 2012	\$2.40	1,750,000	
	26 October 2012 26 October 2012	26 October 2012 \$1.80 26 October 2012 \$1.80 26 October 2012 \$2.40	

There are no unissued ordinary shares of Sphere Minerals Limited under option at the date of this report

INDEMNIFICATION AND INSURANCE OF OFFICERS

During the financial year the Group maintained appropriate insurance arrangements in respect of Directors' and Officers' Liability Insurance. The insurance policy precludes us from disclosing the amount of the coverage. These insurance premiums relate to insurance of directors of the Company and its controlled entities named in this report and former directors and executive officers of the Company and its controlled entities. The policy does not specify the premium for individual directors and executive officers.

The Directors' and Officers' Liability Insurance provides cover against costs and expenses involved in defending legal actions and any resulting payments arising from a liability to persons (other than the Company or a related body corporate) incurred in their position as director or executive officer unless the conduct involves a wilful breach of duty or an improper use of inside information or position to gain advantage.

No liability has arisen under this indemnity as at the date of this report.

PROCEEDINGS ON BEHALF OF COMPANY

No person has applied for leave of Court to bring proceedings on behalf of the Group, nor was the Group party to any such proceedings during the year.

AUDITOR'S INDEPENDENCE DECLARATION

The lead auditor's Independence Declaration for the 12 month period ended 31 December 2012 has been received and can be found following this Directors' Report.

ROUNDING OF AMOUNTS

The Company is an entity to which the ASIC Class Order 98/100 applies and accordingly, amounts in the financial statements and directors' report have been rounded to the nearest thousand dollars.

This report is signed in accordance with a resolution of the Board of Directors.

Peter Freyberg (Chairman)

For the 12 month period ended 31 December 2012

The financial report of the Company for the 12 month period ended 31 December 2012 was authorized for issue in accordance with a resolution of the Directors on 12 March 2013.

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

Statement of Compliance

The financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards, Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the *Corporations Act 2001*.

The financial report also complies with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.

The financial statements cover the economic entity of Sphere Minerals Limited and controlled entities (the 'Group'). Sphere Minerals Limited is a listed public company, incorporated and domiciled in Australia.

The comparative financial period was 18 months from 1 July 2010 to 31 December 2011. Therefore the consolidated financial statements are not entirely comparable. The Company changed its financial year end from 30 June to 31 December to synchronise with the Xstrata plc financial year end of the ultimate parent entity. The consolidated financial statements of the Group are as at and for the financial period from 1 January 2012 to 31 December 2012.

The following is a summary of the material accounting policies adopted by the Consolidated entity in the preparation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

Basis of measurement

The financial report has been prepared on an accruals basis and is based on historical costs modified by the revaluation of selected non-current assets, and financial assets and financial liabilities for which the fair value basis of accounting has been applied.

Accounting Policies

No new standards or interpretations have been issued which are considered to have a material impact on the financial statements or performance of the Company during the financial period.

Accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period.

a. New standards and interpretations not yet adopted

The following new/amended accounting standards and interpretations have been issued, but are not mandatory for financial years ended 31 December 2012. They have not been adopted in preparing the consolidated financial statements for the year ended 31 December 2012 and are expected to impact the entity in the period of initial application. In all cases the entity intends to apply these standards from application date as indicated below.

- AASB 2011-4 Amendments to Australian Accounting Standards to Remove Individual Key Management Personnel Disclosure Requirements (effective for financial reporting periods commencing on or after 1 July 2013). The amendments remove the requirements to include individual key management personnel disclosures in the notes to the financial statements. However these disclosures are still required in the Remuneration report under s300 of the Corporations Act 2001. The Group has assessed no impact to the financial performance or position of the Company. The Group is expected to apply the amendment from 1 January 2014.
- AASB 10 Consolidated Financial Statements (effective for financial reporting periods commencing on or after 1 January 2013). The new standard introduces a new approach to determining which investees should be consolidated. An investor controls an investee when the investor is exposed or has rights to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. The Group has assessed no impact to the Company. The Group is expected to apply the new standard from 1 January 2013.
- AASB 127 Separate Financial Statements (effective for financial reporting periods commencing on or after 1 January 2013). This standard carries forward the existing accounting and disclosure requirements for separate financial statements which some minor clarifications. The Group is expected to apply the amendment from 1 January 2013.

SPHERE MINERALS LTD AND ITS CONTROLLED ENTITIES NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS For the 12 month period ended 31 December 2012

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- AASB 11 Joint Arrangements (effective for financial reporting periods commencing on or after 1 January 2013). The standard states if the parties have rights to and obligations for underlying assets and liabilities, the joint arrangement is considered a joint operation and partial consolidation is applied. Otherwise the joint arrangement is considered a joint venture and use the equity method to account for their interest. Based on preliminary analysis performed, AASB 11 is not expected to impact the treatment of the Group's existing joint arrangements.
 - AASB 128 Investments in Associates and Joint Ventures (effective for financial reporting periods commencing on or after 1 January 2013). There has been limited amendment to AASB 128 including the application of AASB 5 Noncurrent Assets Held for Sale and Discontinued Operations to interests in associates and joint ventures and how to account for changes in interests in joint ventures and associates. The Group has assessed that there would be no material impact on the financial performance or position. The Group is expected to apply the amendments from 1 January 2013.
 - AASB 12 Disclosures of Interests in Other Entities (effective for financial reporting periods commencing on or after 1 January 2013). The new standard contains the disclosure requirements for entities that have interest in subsidiaries, joint arrangements, associates and/or unconsolidated structure entities. A number of new disclosures will be required as a result of adopting this standard but this will have no impact on the financial performance or position of the Group. The Group will apply the new standard from 1 January 2013.
 - AASB 2011-7 Amendments to Australian Accounting Standards arising from the Consolidation and Joint Arrangements Standards (effective for financial reporting periods commencing on or after 1 January 2013). This standard gives effect to many consequential changes to a number of standards arising from the new consolidation and joint arrangements standards. Based on preliminary analysis performed, this standard is not expected to have a material impact on the financial performance or position of the Group. The Group is expected to apply the amendments from 1 January 2013.
 - AASB 13 Fair Value Measurement and AASB 2011-8 Amendments to Australian Standards arising from AASB 13 (effective for financial reporting periods commencing on or after 1 January 2013). The new standard explains how to measure fair value when required to by other Australian Accounting Standards. The Group has assessed that there will be no material impact on the financial performance or position. The Group is expected to apply the new standard from 1 January 2013.
 - Interpretation 20 Stripping Costs in the Production Phase of a Surface Mine (effective for financial reporting periods commencing on or after 1 January 2013). The interpretation requires the capitalisation and amortisation of certain production stripping costs based upon the expected useful life of the ore body that becomes directly assessable as a result. The Group has assessed that there will be no material impact on the financial performance or position. The Group is expected to apply the interpretation from 1 January 2013.
 - AASB 2011-9 Amendments to Australian Accounting Standards Presentation of Items of Other Comprehensive income (effective for financial reporting periods commencing on or after 1 July 2012). The amendments includes presenting separately those items that would be reclassified to profit or loss in the future and those that would never be reclassified to profit or loss and the impact of tax on those items. Amendments to the presentation of Items of Other Comprehensive Income will be required as a result of adopting this standard, but this will have no impact on the financial performance or position of the Group. The Group will apply the amendments from 1 January 2013.

b. Principles of Consolidation

Subsidiaries

A controlled entity is any entity Sphere Minerals Limited has the power to control the financial and operating policies to obtain benefits from its activities.

A list of controlled entities is contained in Note 11 to the financial statements. All controlled entities have a December financial year-end since Sphere Minerals closing reporting date was changed to December in 2011.

All inter-company balances and transactions between entities in the Consolidated group, including any unrealised profits or losses, have been eliminated on consolidation. Accounting policies of subsidiaries have been changed where necessary to ensure consistencies with those policies applied by the parent entity.

Where controlled entities have entered or left the Consolidated group during the year, their operating results have been included/excluded from the date control was obtained or until the date control ceased.

Minority equity interests in the equity and results of the entities that are controlled are shown as a separate item in the consolidated financial report.

For the 12 month period ended 31 December 2012

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Jointly Controlled Entities

Jointly controlled entities are those entities over whose activities the Group has joint control, established by contractual agreement and requiring unanimous consent for strategic financial and operating decisions.

The consolidated financial statements include the assets that the Group controls and the liabilities that it incurs in the course of pursuing the joint entity and the expenses that the Group incurs and its share of the income that it earns from the joint entity. In this case, 50% of the net assets and 50% of the net result from El Aouj Mining Company is included in the consolidated figures.

c. Income Tax

AIUO BSN IBUOSIBO -

Income tax expense comprises current and deferred tax. Current and deferred tax is recognised directly in equity or in profit for the period.

The current tax is the expected tax payable or receivable on the taxable income or loss for the year using tax rates enacted or substantively enacted at the end of the reporting period in the countries where the Group's subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred tax is accounted for using the liability method in respect of temporary differences arising between the tax base of assets and liabilities and their carrying amounts in the financial statements. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised or liability is settled. Deferred tax is credited in the statement of comprehensive income except where it relates to items that may be credited directly to equity, in which case the deferred tax is adjusted directly against equity.

Deferred income tax assets are not recognised until it is probable that future tax profits will be available against which deductible temporary differences can be utilised.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

The Group and its wholly owned Australian resident entities are part of a tax-consolidated group. As a consequence, all members of the tax consolidated group are taxed as a single entity. The head entity within the tax consolidated group is Sphere Minerals Limited.

d. Property, Plant and Equipment

Each class of property, plant and equipment is carried at historical cost or fair value less, where applicable, any accumulated depreciation and impairment losses.

Property

Freehold land and buildings are shown at their fair value (being the amount for which an asset could be exchanged between knowledgeable willing parties in an arm's length transaction), based on periodic, but at least triennial, valuations by external independent valuers, less subsequent depreciation for buildings.

Where there is an indication that the property should be revalued, the asset is written down to the recoverable amount.

Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

Plant and Equipment

Plant and equipment is stated at historical cost less accumulated depreciation and any accumulated impairment losses.

For the 12 month period ended 31 December 2012

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

The cost of fixed assets constructed within the Consolidated entity includes the cost of materials, direct labour, borrowing costs and an appropriate proportion of fixed and variable overheads.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future consolidated benefits associated with the item will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the profit or loss during the financial period in which they are incurred.

Depreciation

The depreciable amount of all fixed assets including building and capitalised lease assets, but excluding freehold land, is depreciated on a straight-line basis over their useful lives to the Consolidated entity commencing from the time the asset is held ready for use.

The depreciation rates used for each class of depreciable assets are:

Class of Fixed Asset	Depreciation Rate
Land	0%
Office and computer equipment	10% - 20%
Plant and equipment	10% - 20%
Motor vehicles	20%
Leased plant and equipment	20%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each statement of financial position date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the profit or loss. When revalued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to retained earnings.

Exploration and Evaluation Expenditure e.

Exploration, evaluation and development expenditure incurred is accumulated in respect of each identifiable area of interest. These costs are only carried forward to the extent that they are expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves.

Accumulated costs in relation to an abandoned area are written off in full against profit in the year in which the decision to abandon the area is made.

When production commences, the accumulated costs for the relevant area of interest are amortised over the life of the area according to the rate of depletion of the economically recoverable reserves.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest, and at each reporting date, the Group assesses whether there is any indication that an asset may be impaired. Where an indicator of impairment exists, the Group makes a formal estimate of recoverable amount.

f. Leases

Finance leases are capitalised by recording an asset and a liability at the lower of the amounts equal to the fair value of the leased property or the present value of the minimum lease payments, including any guaranteed residual values. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

SPHERE MINERALS LTD AND ITS CONTROLLED ENTITIES NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS For the 12 month period ended 31 December 2012

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Leased assets are depreciated on a straight-line basis over the shorter of their estimated useful lives or the lease term. Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.

Leases of fixed assets where substantially all the risks and benefits incidental to the ownership of the asset, but not the legal ownership that is transferred to entities in the Consolidated entity, are classified as finance leases.

g. Segment Reporting

The Consolidated entity has identified its operating segments based upon the internal reports that are reviewed and used by the Chief Executive Officer and the Board of Directors (the Chief Operating Decision makers) in assessing performance and determining the allocation of resources. The Principal Activity and sole operating segment identified is that of Mineral Exploration in Mauritania, West Africa.

Financial information, being expenditure incurred, is reported to the Chief Executive Officer and Management on a monthly basis.

h. Financial Instruments

Recognition

Financial instruments are initially measured at cost on trade date, which includes transaction costs, when the related contractual rights or obligations exist. Subsequent to initial recognition these instruments are measured as set out below.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are stated at amortised cost using the effective interest rate method. Loans and receivables are included within trade and other receivables (Note 10).

Fair value

Fair value is determined based on current bid prices for all quoted investments. Valuation techniques are applied to determine the fair value for all unlisted securities, including recent arm's length transactions, reference to similar instruments and option pricing models.

Impairment

At each reporting date, the group assesses whether there is objective evidence that a financial instrument has been impaired. In the case of available-for-sale financial instruments, a prolonged decline in the value of the instrument is considered to determine whether an impairment has arisen. Impairment losses are recognised in the profit or loss.

i. Impairment of Assets

At each reporting date, the Group reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the profit or loss.

Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

j. Foreign Currency Transaction and Balances

Functional and presentation currency

The functional currency of each of the Group's entities is measured using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars which is the parent entity's functional and presentation currency.

For the 12 month period ended 31 December 2012

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Transaction and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in the profit or loss, except where deferred in equity as a qualifying cash flow or net investment hedge.

Exchange differences arising on the translation of non-monetary items are recognised directly in equity to the extent that the gain or loss is directly recognised in equity, otherwise the exchange difference is recognised in the profit or loss.

Group Companies

The financial results and position of foreign operations whose functional currency is different from the Group's presentation currency are translated as follows:

- assets and liabilities are translated at year-end exchange rates prevailing at that reporting date;
- income and expenses are translated at average exchange rates for the period; and
- all resulting exchange differences are recognised in other comprehensive income and presented in the foreign currency translation reserve in equity.

On consolidation, exchange differences arising on translation of foreign operations are transferred directly to the Group's foreign currency translation reserve in the statement of financial position. When a foreign operation is sold or any borrowings forming part of the net investment are repaid, a proportionate share of such exchange differences are recognised in the statement of comprehensive income, as part of the gain or loss on sale where applicable.

k. Employee Benefits

Provision is made for the Group's liability for employee benefits arising from services rendered by employees to balance date. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled, plus related on-costs. Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits.

l. Provisions

Provisions are recognised when the Group has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

m. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks and other short-term highly liquid investments with original maturities of six months or less.

n. Trade and other Payables

These amounts represent liabilities for goods and services provided to the group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

o. Revenue

Interest revenue is recognised on a proportional basis taking into account the interest rates applicable to the financial assets.

p. Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

For the 12 month period ended 31 December 2012

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

q. Earnings per Share

(i) Basic earnings per share

Basic earnings per share is determined by dividing net profit after income tax attributable to members of the Group, excluding any costs of servicing of equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with diluted potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

r. Share Based Payments

Share Options

The Group has taken the issue of options to account by using the valuation determined by the Black-Scholes option pricing model as the basis for charging the expense to the statement of comprehensive income and the corresponding entry to the share based payments reserve.

The fair value of options granted is recognised as an employee benefit expense with a corresponding increase in equity. The fair value is measured at grant date and recognised over the period during which the employees become unconditionally entitled to the options.

The fair value at grant date is independently determined using a Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the vesting and performance criteria, the impact of dilution, the non-tradable nature of the option, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk-free interest rate for the term of the option.

The fair value of the options granted excluded the impact of any non-market vesting conditions. Non-market vesting conditions are included in assumptions about the number of options that are expected to become exercisable. At each statement of financial position date, the entity revises its estimate of the number of options that are expected to become exercisable. The employees benefit expense recognised each period takes into account the most recent estimate. Upon exercise of options, the balance of the share-based payments reserve relating to those options is transferred to share capital.

Shares

Where shares are issued as consideration for goods or services received the valuation is determined by difference between any price payable for the shares and their closing value market price on the day the recipient becomes entitled. The expense is charged to the profit or loss or capitalised to equity and the transaction reflected in an increase in Contributed Equity.

s. Rounding of Amounts

The parent entity has applied the relief available to it under ASIC Class Order 98/100 and accordingly, amounts in the financial report and directors' report have been rounded off to the nearest \$'000.

t. Contributed Equity

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares or options for the acquisition of a business are not included in the cost of acquisition as part of the purchase consideration.

If the entity reacquires its own equity instruments, for example as the result of a share buy-back, those instruments are deducted from equity and the associated shares are cancelled. No gain or loss is recognised in the profit or loss and the consideration paid including any directly attributable incremental costs (net of income taxes) is recognised directly in equity.

For the 12 month period ended 31 December 2012

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

u. Critical Accounting Estimates and Judgments

The directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the group. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Exploration and Evaluation Expenditure

Following impairment analysis on capitalised exploration and evaluation expenditure, including assumptions on maintenance of title, ongoing expenditure and prospectivity, expenditure has been carried forward. This is in accordance with accounting policy Note 1(e) whereby, at this stage either costs are expected to be recouped through successful development and exploitation of the area of interest, or alternatively by its sale; or exploration and/or evaluation activities in the area have not reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves. In the event that either of these assumptions no longer hold then this expenditure may, in part or full, be expensed through the profit or loss in future periods.

In evaluating if expenditures meet the criteria to be capitalized, several different sources of information are utilised. The information that is used to determine the probability of future benefits depends on the extent of exploration and evaluation that has been performed.

NOTE 2: FINANCIAL INSTRUMENT RISK EXPOSURE AND MANAGEMENT

In common with all other businesses, the Group is exposed to risks that arise from its use of financial instruments. This note describes the Group's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these financial statements. There have been no substantive changes in the Group's exposure to financial instrument risks, its objectives, policies and processes for managing those risks or the methods used to measure them from previous periods unless otherwise stated in this note.

Principal financial instruments

The principal financial instruments used by the Group, from which financial instrument risk arises, are as follows:

- a. receivables
- b. cash at bank
- c. bank at call deposits
- d. bank term deposits

General objectives, policies and processes

The Board has overall responsibility for the determination of the Group's risk management objectives and policies and, whilst retaining ultimate responsibility for them, it has delegated the authority for designing and operating processes that ensure the effective implementation of the objectives and policies to the Group's finance function.

The overall objective of the Board is to set polices that seek to reduce risk as far as possible without unduly affecting the Group's competitiveness and flexibility.

The Group and the parent entity hold the following financial instruments:

,		31 Dec 12	31 Dec 11
Financial Assets	Note	\$'000	\$'000
Cash and cash equivalents	9	47,482	101,917

SPHERE MINERALS LTD AND ITS CONTROLLED ENTITIES NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS For the 12 month period ended 31 December 2012

NOTE 2: FINANCIAL INSTRUMENT RISK EXPOSURE AND MANAGEMENT (continued)

Further details regarding these policies are set out below:

Fair Value

Fair Value versus carrying amount

Set out below is a comparison by category of carrying amounts and fair values of all of the Group's financial instruments that are carried in the financial statements.

	Carrying Amount \$'000s	Fair Value \$'000s	Average Interest Rate %
31 December 2012			
Financial Assets			
Cash and cash equivalents	47,482	47,482	4.44
Other Receivables and Prepayments	3,087	3,087	
Other non-current assets	7,273	7,273	
Financial Liabilities			
Trade and other payables	(8,622)	(8,622)	
Borrowings	(6,593)	(6,593)	
•			
31 Dec 2011			
Financial Assets			
Cash and cash equivalents	101,917	101,917	4.11
Other Receivables and	3,707	3,707	
Prepayments			
Financial Liabilities			
Trade and other payables	(6,979)	(6,979)	
Borrowings	- · · · · · · · · · · · · · · · · · · ·	_	

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values due to their short-term nature. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

Credit Risk

Credit risk is managed on a Group basis and arises principally from the Group's cash and receivables.

As the Group's primary activity is exploration, it has no trading risk. The majority of receivables are held with related parties or within the Group.

All cash balances are held at internationally recognised institutions either at call or at terms of less than 1 year.

Maximum exposure to credit risk at the reporting date is the carrying amount of the financial assets summarised in the table above.

Given this the credit quality of financial assets that are neither past due nor impaired can be assessed by reference to historical information about default rates.

Liquidity risk

Liquidity risk arises from the Group's management of working capital and the finance charges and principal repayments on its debt instruments. It is the risk that the Group will encounter difficulty in meeting its financial obligations as they fall due. The Group's policy is to ensure that it will always have sufficient cash to allow it to meet its liabilities when they become due. To achieve this aim, it seeks to maintain cash balances (or agreed facilities) to meet expected requirements for a period of at least 12 months.

The Board receives information regarding cash balances on a monthly basis, as well as a rolling 12-month cash flow projection every 6 months. At the statement of financial position date, these projections indicated that the Group expected to have sufficient liquid resources to meet its obligations under all reasonably expected circumstances.

SPHERE MINERALS LTD AND ITS CONTROLLED ENTITIES NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS For the 12 month period ended 31 December 2012

NOTE 2: FINANCIAL INSTRUMENT RISK EXPOSURE AND MANAGEMENT (continued)

The table below summarises the maturity profile of the Group's financial liabilities based on contractual undiscounted payments:

Year ended 31 December 2012	On demand \$'000	< 1 year \$'000	1-2 years \$'000	2-5 years \$'000	> 5 years \$'000	Total \$'000
Trade and other payables	-	8,622	-	-	-	8,622
Borrowings	6,593	-	-	-	-	6,593
Sub Total	6,593	8,622	-	-	-	15,215
Year ended 31 December 2011	On demand	< 1 year	1-2 years	2-5 years	>5 years	Total
	\$'000	\$'000	\$'000	\$'000	\$,000	\$'000
Trade and other payables	-	6,979	-	-	-	6,979
Borrowings		-	-	-	-	-
Sub Total	-	6,979	-	-	-	6,979

Market risk

Market risk arises from the Group's use of interest bearing and foreign currency financial instruments. It is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in interest rates (interest rate risk), foreign exchange rates (currency risk) or other market factors (other price risk). Market risk is managed on a Group basis now.

Currency Risk

As the Group's operations are centered in Mauritania, the Group holds assets in US dollars, Euro and local Mauritanian currency. The Group also has a history of entering into significant contracts payable in foreign currency. The Board considers the currency risk associated with operating in Mauritania to be acceptable, and no attempt is made to hedge this risk. When significant contracts in foreign currency are entered into, the currency risk is managed by the direct purchase of the relevant currency prior to the required payment date(s), based on management appraisal of foreign currency markets.

The Group exposure to foreign currency risk at the reporting date was as follows:

	31-Dec-12			31-Dec-11		
	USD	EUR	MRO	USD	EUR	MRO
	\$'000	\$'000	8,000	\$'000	8,000	\$'000
Cash and Cash Equivalents	4,485	206	371	1,700	114	345

Trade and Other Payables	-	-	-	-	-	(818)
Borrowings	(6,593)	-	-	-	-	-
Sub Total	(6,593)	-	-	-	-	(818)
Net	5,354	206	1,050	4,954	114	(452)

For the 12 month period ended 31 December 2012

FINANCIAL INSTRUMENT RISK EXPOSURE AND MANAGEMENT (continued) NOTE 2:

Sensitivity analysis illustrating the effect of a reasonably possible 10% movement in foreign exchange rates on Financial Assets at 31 December 2012 is as follows:

A = a4 21 Danamban 2012		+ 10%		- 10%	
As at 31 December 2012	Carrying Value \$'000	Profit / Loss \$'000	Equity \$'000	Profit / Loss \$'000	Equity \$'000
Net foreign financial assets (Group)	6,610	661	-	(661)	-
As at 31 December 2011	Carrying Value \$'000	+ 10% Profit / Loss \$'000	Equity \$'000	- 10% Profit / Loss S'000	Equity \$'000
Net foreign financial assets (Group)	3,141	314	-	(314)	-

Interest rate risk

The Group carries no material debt.

The Group invests surplus cash in At-Call or Term Deposit accounts with AA rated banks. No more than 30% of funds are held at any one financial institution. Interest rate risk is managed by the selection of term deposit interest rates and terms that reflect management's market expectations, to terms not exceeding 12 months. Funds are only held at call when it is reasonably expected that those amounts will be required prior to existing term deposits reaching maturity.

The Group's exposure to interest rate risk and the effective weighted interest rate for each class or financial assets and financial liabilities is shown below:

	Weighted Average Interest Rate	Floating Interest Rate	Fixed Interest Maturing in one year or less	Non-Interest Bearing	Total
2012	%	\$'000	\$'000	\$'000	\$'000
Cash and Cash Equivalents	4.44	7,084	33,000	7,398	47,482
2011 Cash and Cash Equivalents	5.08	4,767	95,000	2,150	101,917

Sensitivity analysis illustrating the effect of a 1% movement in Interest rates on Financial Assets at 31 December 2012 are as follows:

		+ 1%		- 1%	
As at 31 December 2012	Carrying Value S'000	Profit / Loss S'000	Equity \$'000	Profit / Loss \$'000	Equity \$'000
Cash and Cash Equivalents (Group)	47,482	401	-	(401)	-
As at 31 December 2011					
Cash and Cash Equivalents (Group)	101,917	998	-	(998)	-

1% is considered to be a conservative estimate on likely interest rate movements in the next 12 months.

For the 12 month period ended 31 December 2012

CAPITAL RISK MANAGMENT NOTE 3:

The Group considers its capital to comprise its ordinary share capital, share-based payment and foreign currency translation reserves, as well as accumulated losses.

In managing its capital, the Group's primary objective is to maintain its status as a going concern and ensure a long-term return for its equity shareholders through developing mining assets. In order to achieve this objective, the Group seeks to remain debt free, using equity contributions only to meet its working capital and strategic needs. In making decisions to adjust its capital structure to achieve these aims by new share issues, the Group considers not only its short-term position but also its long-term operational and strategic objectives.

The prima facie tax on loss before income tax is reconciled to the income tax as follow	ws:	
Profit (Loss) before income tax	2,620	(10,074)
Tax at the Australian tax rate of 30% (2011 - 30%)	786	(3,022)
Tax effect of amounts which are not deductible (taxable) in calculating taxable incom	e:	
Sundry items	15	2
Share-based payments	6	566
Deferred tax asset in respect to foreign losses not brought to account	74	862
Deferred tax asset in respect to Australian losses not brought to account	0	1,592
Use of tax losses not previously recognised	(881)	-

The group made an election in order that the Australian companies will form a tax-consolidated group from 1 July 2006. As a consequence, transactions between the member entities will be ignored.

On 12 September 2011, the Australian tax consolidated group was granted a substituted accounting period to align with the 31 December financial year end. A transitional income tax return has been lodged for the period 1 July 2011 to 31 December 2011.

Unrecognised deferred tax benefits / (liabilities) for Australia at 30%	12 months to 31 Dec 12 \$'000	18 months to 31 Dec 11 \$'000
Deductible timing difference	529	685
Taxable timing difference	(215)	(317)
Unused revenue tax loss	4,565	5,393
Sub-total	4,879	5,761
Foreign Losses at 25%*	4,179	4,105
Potential tax benefit	9,058	9,866

Deferred income tax assets have not been recognised as it is not probable that future profit will be available against which tax losses and deductible temporary differences can be utilised.

18 months to

^{*}Mauritanian income tax applicable to mining interests is taxed at the rate of 25% under the applicable Mining Code.

For the 12 month period ended 31 December 2012

NOTE 7: REMUNERATION OF AUDITORS

Total of all remuneration received or due and receivable by the auditors of the business:

	12 months to 31 Dec12 \$	18 months to 31 Dec 11 \$
Ernst & Young		
Audit or review of the financial reports	107,303	111,773
Subsidiary audits in Mauritania	22,841	22,000
	130,144	133,733

NOTE 8: EARNINGS/(LOSS) PER SHARE

	12 months to 31 Dec 12 \$'000	18 months to 31 Dec 11 \$'000
Basic and diluted loss per share Net profit (loss)	2,620	(10,074)
Weighted average number of shares Weighted average number of ordinary shares used as the denominator in calculating basic loss per share	212,985,597	182,700,713
Basic earnings (loss) per share	1.23 cents	(5.51) cents
Diluted earnings (loss) per share	1.20 cents	(5.51) cents

Additional information

None of the options have been included in the determination of the diluted earnings/(loss) per share for the prior year because they are not considered dilutive as they decrease the loss per share.

The weighted average number of ordinary shares used in calculating the basic earnings/(loss) per share is derived from the fully paid shares on issue.

For the 12 month period ended 31 December 2012

NOTE 9: CASH AND CASH EQUIVALENTS

	31 Dec 12 S'000	31 Dec 11 \$'000

a) Impaired loans

As at 31 December 2012, no other receivables were considered impaired (2011: Nil).

b) Past due but not impaired

Trade and other receivables do not contain any past due not impaired balances.

c) Fair Value and Credit risk

Due to the nature of these receivables, their carrying amount is assumed to approximate their fair value.

The maximum exposure to credit risk at the reporting date is the carrying amount of each class of receivables mentioned above. The fair value of securities held for certain trade receivables is insignificant, as is the fair value of any collateral sold or re-pledged.

Refer to note 2 for more information on the risk management policy of the group and the credit quality of the entities trade receivables.

For the 12 month period ended 31 December 2012

- (1) Controlled entity that is a small proprietary company not required to prepare financial statements.
- (2) Formerly Sphere Exchange Pty Ltd.
- (3) Formally incorporated 18 August 2010

(4) Pursuant to the Mauritanian Mining Code 2008, as modified by article 38(§2) of law No 2009/26 passed on 7 April 2009, an exploitation permit can only be granted to a Mauritanian legal entity in which the Mauritanian State holds a 10% free carry stake. Following Sphere Mauritania SA having been granted an exploitation permit for the Askaf project it has transferred 10% of the share capital of the company to the Islamic Republic of Mauritania for no consideration. In addition the mining code provides The Islamic Republic of Mauritania with an option to increase its share up to 20% of the share capital at a strike computed based on the share capital nominal value. A Sphere Mauritania SA Shareholders Agreement that will stipulate the terms of the 10% option is as at the date of this report being discussed with the Islamic Republic of Mauritania.

NOTE 12: PARENT COMPANY DISCLOSURES

The following details information related to the parent entity, Sphere Minerals Limited, at 31 December 2012. The ultimate Australian parent of the group is Ploutos Pty Limited. The ultimate group parent is Xstrata plc. The information presented here has been prepared using consistent accounting policies as presented in Note 1.

Depreciation and amortisation is capitalised as exploration and evaluation assets where the property, plant and equipment are directly related to the activities or the assets.

NOTE 15: EXPLORATION AND EVALUATION EXPENDITURE

	12 months to 31 Dec 12 \$'000	18 months to 31 Dec 11 \$'000
Opening balance	125,100	79,425
Capitalised during the period	71,215	60,350
Foreign Exchange Translation on Capitalised Explo	ration Expenditure (5,687)	(14,675)
Closing balance	190,628	125,100

Capitalised exploration and evaluation expenditure represents the accumulated cost of acquisition and subsequent cost of exploration and evaluation of the properties. In the opinion of the Directors the value of the properties is at least that at which they are carried in the financial report.

Ultimate recoupment of these costs is dependent on the successful development and commercial exploitation, or alternatively sale of the respective areas of interest.

NOTE 21: CONTINGENT LIABILITY

From time to time, the Group is subject to claims and litigation during the normal course of business. The Board has given consideration to such matter, which are or may be subject to litigation at year end and is of the opinion that no material liability exists.

NOTE 22: SEGMENT INFORMATION

The consolidated entity operates predominately in the minerals exploration sector. The principal activity of the consolidated entity is exploration for iron ore. The consolidated entity classifies this activity under a single operating segment; the Mauritanian exploration project.

Regarding the exploration operating segment, the Chief Operating Decision Maker (determined to be the Board of Directors) receives information on the exploration expenditure incurred. No segment revenues are disclosed as each exploration tenement is not at a stage where revenues have been earned. Furthermore, no segment costs are disclosed as all segment expenditure is capitalised.

NOTE 25: EVENTS AFTER STATEMENT OF FINANCIAL POSITION DATE

On 20 November 2012 Xstrata's non-Glencore shareholders voted to approve the proposed all-share merger of Xstrata plc and Glencore International plc.

Completion of the Merger remains conditional upon the receipt of the outstanding regulatory approval in China, completion of the Xstrata court process as further set out in the New Scheme Document in connection with the Merger and Glencore giving effect to the commitments required by the European Commission.

No other matter or circumstances have arisen since the end of the financial year that have significantly affected or may significantly affect the operations of the consolidated entity, the results of those operations, or the state of affairs of the consolidated entity in the subsequent financial years.

SPHERE MINERALS LTD AND ITS CONTROLLED ENTITIES NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS For the 12 month period ended 21 December 2012

RELATED PARTY TRANSACTION

For the 12 month period ended 31 December 2012

NOTE 26:

During the period considerable restructuring has occurred resulting in a number of the management services previously been conducted by Xstrata Coal Pty Limited (Xstrata) now being conducted by employees of Iron Ore Services AG (XIOSAG) and Xstrata France SAS (XFr). As a result of these changes the Xstrata management service agreement was revised and two new management agreements with XIOSAG and XFr were entered into. Pursuant to the agreements, Sphere Minerals Limited will receive a comprehensive range of management services from XIOSAG and XFr in consideration for a management fee of cost plus a 10% mark-up on Value Added Services as per the respective service agreements. The agreements were independently reviewed and approved by the Board.

The Sphere Group has also entered into service agreements with Xstrata Project Services (UK) and Xstrata France. The service agreements allow direct costs which Xstrata Project Services and Xstrata France incur on behalf of the Group to be recharged accordingly. The agreements were independently reviewed and approved by the Board.

As disclosed in Note 24, Sidero Pty Limited (an indirect subsidiary of Xstrata) exercised the outstanding options held in the name of the Company during the financial year.

The following is a summary of transactions with related parties:

Independent audit report to members of Sphere Minerals Limited

Report on the financial report

We have audited the accompanying financial report of Sphere Minerals Limited, which comprises the consolidated statement of financial position as at 31 December 2012, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' responsibility for the financial report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal controls as the directors determine are necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 1 the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with *International Financial Reporting Standards*.

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit we have complied with the independence requirements of the Corporations Act 2001. We have given to the directors of the company a written Auditor's Independence Declaration, a copy of which is included in the directors' report.

Opinion

In our opinion:

- a. the financial report of Sphere Minerals Limited is in accordance with the *Corporations Act* 2001, including:
 - i giving a true and fair view of the consolidated entity's financial position as at 31 December 2012 and of its performance for the year ended on that date; and
 - ii complying with Australian Accounting Standards and the *Corporations Regulations* 2001; and
- b. the financial report also complies with *International Financial Reporting Standards* as disclosed in Note 1.

Report on the remuneration report

We have audited the Remuneration Report of the directors' report for the year ended 31 December 2012. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Opinion

In our opinion, the Remuneration Report of Sphere Minerals Limited for the year ended 31 December 2012, complies with section 300A of the *Corporations Act 2001*.
