Victorian Taxi Industry Inquiry

The Victorian Government has today released its response to the Victorian Taxi Industry Inquiry Final Recommendations.

The Victorian Government has indicated its support of a recommendation to regulate the service fee charged for processing electronic payments at a level that reflects the resource cost of providing the service. The Victorian Inquiry recommended that the service fee be set at 5%. This compares to Cabcharge's service fee of 10%.

Cabcharge will study the document released today in its entirety and make a considered response in due course.
