VOTING BY PROXY

To vote by proxy, please complete and sign the enclosed Proxy Form and return by the time and in accordance with the instructions set out on the Proxy Form.

In accordance with section 249L of the Corporations Act, members are advised that:

- each member has a right to appoint a proxy;

- the proxy need not be a member of the Company; and
- a member who is entitled to cast 2 or more votes may appoint 2 proxies and may specify the proportion or number of votes each proxy is appointed to exercise. If the member appoints 2 proxies and the appointment does not specify the proportion or number of the member's votes, then in accordance with section 249X(3) of the Corporations Act, each proxy may exercise one-half of the votes.

New sections 250BB and 250BC of the Corporations Act came into effect on 1 August 2011 and apply to voting by proxy on or after that date. Shareholders and their proxies should be aware of these changes to the Corporations Act, as they will apply to this Meeting. Broadly, the changes mean that:

- if proxy holders vote, they must cast all directed proxies as directed; and
- any directed proxies which are not voted will automatically default to the Chair, who must vote the proxies as directed.

Further details on these changes is set out below.

Proxy vote if appointment specifies way to vote

Section 250BB(1) of the Corporations Act provides that an appointment of a proxy may specify the way the proxy is to vote on a particular resolution and, **if it does:**

- the proxy need not vote on a show of hands, but if the proxy does so, the proxy must vote that way (i.e. as directed); and
- if the proxy has 2 or more appointments that specify different ways to vote on the resolution – the proxy must not vote on a show of hands; and
- if the proxy is the chair of the meeting at which the resolution is voted on – the proxy must vote on a poll, and must vote that way (i.e. as directed); and
- if the proxy is not the chair – the proxy need not vote on the poll, but if the proxy does so, the proxy must vote that way (i.e. as directed).

Transfer of non-chair proxy to chair in certain circumstances

Section 250BC of the Corporations Act provides that, if:

- an appointment of a proxy specifies the way the proxy is to vote on a particular resolution at a meeting of the Company's members; and
- the appointed proxy is not the chair of the meeting; and
- at the meeting, a poll is duly demanded on the resolution; and
- either of the following applies:
 - the proxy is not recorded as attending the meeting;
 - the proxy does not vote on the resolution,

the chair of the meeting is taken, before voting on the resolution closes, to have been appointed as the proxy for the purposes of voting on the resolution at the meeting.

BY ORDER OF THE BOARD

**TREVOR HARRIS
COMPANY SECRETARY**

EXPLANATORY STATEMENT

This Explanatory Statement has been prepared to provide information which the Directors believe to be material to Shareholders in deciding whether or not to pass the Resolutions which are the subject of the business of the Meeting.

1. BACKGROUND

1.1 General

As announced to the ASX, the Company has recently undertaken a number of capital raisings to help secure its financial position, and is now looking to undertake a non-renounceable rights issue to raise sufficient funds to reduce and simplify its debt position and fund key operational improvements at the Texas Silver operations.

Details of these capital raisings are provided below.

1.2 First Bergen Global and YA Global Convertible Securities

The Company initially raised \$2,500,000 in capital on 26 February 2013 through the issue of two convertible securities, on identical terms, to Bergen Global and YA Global, each with a face value of \$1,312,500, maturing 24 February 2015 (the **First Bergen Global Convertible Security** and the **YA Global Convertible Security** respectively).

These two convertible securities were issued under the Bergen Global Convertible Securities Agreement and the YA Global Convertible Securities Agreement respectively.

As part of these arrangements, the Company issued each of Bergen Global and YA Global with:

- (a) 3,879,310 Shares (at a deemed issue price of 2.9 cents each);
- (b) 13,000,000 unlisted Options (exercisable at 4.96 cents each, expiring 26 February 2016) as capital raising fees; and
- (c) 12,400,000 Shares (for nil cash consideration) as collateral for further convertible securities that were to be issued under those two agreements.

On 22 March 2013:

- (a) Bergen Global converted \$250,000 of the First Bergen Global Convertible Security, resulting in the issue to Bergen Global of 17,800,856 Shares, at a deemed issue price of 1.404 cents each, and the reduction of the face value of the First Bergen Global Convertible Security to \$1,062,500; and
- (b) YA Global converted \$200,000 of the YA Global Convertible Security, resulting in the issue to YA Global of 14,240,685 Shares, at a deemed issue price of 1.404 cents each, and the reduction of the face value of the YA Global Convertible Security to \$1,112,500.

The Bergen Global Convertible Securities Agreement and YA Global Convertible Securities Agreement have been terminated by the parties, however the First Bergen Global Convertible Security and the YA Global Convertible Security issued under those agreements remain current.

1.3 Further Capital Raisings

As a result of further capital shortfalls, the Board of the Company changed in mid March 2013 and the Company restructured its financing and undertook further capital raisings as detailed below.

On 26 March 2013, the Company:

- (a) raised \$250,000 through the issue of a secured debt security to Bergen Global (face value of \$250,000, maturing on 26 March 2015) (**\$250,000 Bergen Security**) with conversion into Shares being subject to Shareholder approval (which is being sought in this Notice). If Shareholder approval is obtained, the \$250,000 Bergen Security will become, and be deemed to be issued as, a convertible security (**Second Bergen Global Convertible Security**);
- (b) issued Bergen Global with a secured debt security with a face value of \$750,000, maturing on 26 March 2015, with conversion into Shares being subject to shareholder approval (which is being sought in this Notice) (**\$750,000 Bergen Security**) in consideration for forbearance by Bergen Global in relation to the Company's alleged defaults under the Bergen Global Convertible Securities Agreement. If Shareholder approval is obtained, the \$750,000 Bergen Security will become, and be deemed to be issued as, a convertible security (**Third Bergen Global Convertible Security**); and
- (c) raised \$225,000 through the issue to sophisticated investors introduced by Empire Equity Limited of a total of 17,647,059 Shares at an issue price 1.275 cents per Share, and 8,823,529 free attaching quoted AYN Options exercisable at 6 cents each, expiring 14 May 2015 (**Placement Options**).

Under the terms of the \$750,000 Bergen Security, the Company also agreed, subject to Shareholder approval, to issue Bergen Global with 88,000,000 unlisted Options (exercisable at the lower of the VWAP for Shares on 26 March 2013 (being 1.55 cents) and the date before the Options are issued, expiring 60 months after their date of issue) in consideration for forbearance by Bergen Global in relation to the Company's alleged defaults under, and the termination of, the Bergen Global Convertible Securities Agreement. The Company is seeking Shareholder approval to issue these Options in this Notice of Meeting.

On 10 April 2013, the Company entered into the following agreements with Celtic Capital:

- (a) a convertible note agreement (**Celtic Capital Convertible Note Agreement**) under which, on 15 April 2013, the Company issued Celtic Capital with 1,800,000 debt securities, each with a face value of \$1.00, maturing 11 October 2013, with conversion into Shares being subject to shareholder approval (which is being sought in this Notice) (**Celtic Capital Securities**) in consideration for a subscription amount of \$1,200,000. If Shareholder approval is obtained, the Celtic Capital Securities will become, and be deemed to be issued as, 1,800,000 convertible notes) (**Celtic Capital Convertible Notes**); and

- (b) an equity placement facility (**Equity Placement Facility**) under which Celtic Capital agreed to invest up to \$10,000,000 in the Company over 3 years subject to various conditions, including the Company obtaining necessary Shareholder approvals.

As announced on 15 April 2013, the Company entered into the Equity Placement Facility as a stand-by line of credit that the Company may rely upon if needed. The Company previously announced that the Company does not expect to retain the facility after completion of the Right Issue. To clarify this statement, the Company will retain the Equity Placement Facility but does not intend to drawdown on the Equity Placement Facility after completion of the Rights Issue as it believes the Company will have sufficient funds to meet its obligations and expenditure requirements. The Company will retain the Equity Placement Facility as a stand by line of credit that may be available to the Company if other sources of finance cannot be obtained.

Under the Equity Placement Facility and the Celtic Capital Convertible Note Agreement, the Company agreed to issue Celtic Capital (subject to necessary Shareholder approvals), with:

- (a) as a capital raising fee for the Celtic Capital Convertible Notes:
- (i) 9,000,000 Shares for nil cash consideration. These Shares were issued on 15 April 2013 and the Company is seeking Shareholder approval to ratify the issue; and
 - (ii) 36,000,000 listed Options (exercisable at 1 cent each, expiring 31 July 2015) as part of a capital raising fee (**Celtic Capital Options**). The Company is seeking Shareholder approval to issue these Options in this Notice of Meeting;
- (b) as collateral under the Celtic Capital Convertible Note Agreement, 141,176,471 Shares (at a deemed issue price of 0.425 cents each). The Company is seeking Shareholder approval to issue these Shares in this Notice of Meeting; and
- (c) in satisfaction of \$10,000 in legal fees incurred by Celtic Capital in relation to the Celtic Capital Convertible Note Agreement, 2,352,941 Shares (at a deemed issue price of 0.425 cents each). The Company is seeking Shareholder approval to issue these Shares in this Notice of Meeting;
- (d) in satisfaction of a 3% capital raising fee in relation to the execution of the Equity Placement Facility, 70,588,235 Shares (at a deemed issue price of 0.425 cents each). The Company issued 39,591,370 of these Shares on 15 April 2013 and is seeking Shareholder approval in this Notice of Meeting to ratify this issue and to approve the issue of the remaining 30,996,865 Shares; and
- (e) in satisfaction of \$10,000 in legal fees incurred by Celtic Capital in relation to the Equity Placement Facility, 2,352,941 Shares (at a deemed issue price of 0.425 cents each). The Company is seeking Shareholder approval to issue these Shares in this Notice of Meeting.

As announced on 3 May 2013, the Company issued promissory notes with a total face value of \$1,200,000 to Bergen Global, in consideration for an amount of \$700,000 repayable on or before 15 August 2013.

As announced on 6 June 2013, the Company has entered into the following agreements:

- (a) a convertible promissory note agreement (**Celtic Capital Promissory Note Agreement**) with Celtic Capital under which the Company has agreed to issue Celtic Capital with 1,400,000 promissory debt securities, each with a face value of \$1.00, maturing 5 October 2013, with conversion into Shares being subject to shareholder approval (which is being sought in this Notice) (**Celtic Capital Promissory Notes**), in consideration for a subscription amount of \$700,000. If Shareholder approval is obtained, the Celtic Capital Promissory Notes will become, and be deemed to be issued as, 1,400,000 convertible promissory notes) (**Celtic Capital Convertible Promissory Notes**); and

2. RESOLUTION 1 – RATIFICATION OF ISSUES TO BERGEN GLOBAL

2.1 General

Resolution 1 seeks Shareholder ratification under ASX Listing Rule 7.4 for the issue to Bergen Global of:

- (a) the First Bergen Global Convertible Security;
- (b) a total of 16,279,310 Shares as detailed in Section 1.5 of this Explanatory Statement; and
- (c) 13,000,000 unlisted Options as detailed in Section 1.5 of this Explanatory Statement,

(together the **Ratification**).

The Company issued the First Bergen Global Convertible Security and the above Shares and unlisted Options without prior Shareholder approval under its 15% annual placement capacity.

As a result, the First Bergen Global Convertible Security can be converted into Shares, in accordance with its terms, which are summarised in Schedule 1 of this Notice, without using the Company's placement capacity, in reliance on the exception in ASX Listing Rule 7.2(4). On 22 March 2013 the Company issued 17,800,856 Shares to Bergen Global upon conversion of \$250,000 under the First Bergen Global Convertible Security which relied upon this exception. The current face value of the First Bergen Global Convertible Security is \$1,062,500.

To assist Shareholders, an estimate of the maximum number of Shares that may be issued to Bergen Global (or its nominee) on conversion of the First Bergen Global Convertible Securities is set out in Section 3.3 of this Explanatory Memorandum.

ASX Listing Rule 7.1 provides that a company must not, subject to specified exceptions, issue or agree to issue more equity securities during any 12 month period than that amount which represents 15% of the number of fully paid ordinary securities on issue at the commencement of that 12 month period.

ASX Listing Rule 7.4 sets out an exception to ASX Listing Rule 7.1. It provides that where a company in general meeting ratifies the previous issue of securities made pursuant to ASX Listing Rule 7.1 (and provided that the previous issue did not breach ASX Listing Rule 7.1) those securities will be deemed to have been made with shareholder approval for the purpose of ASX Listing Rule 7.1.

By ratifying this issue, the Company will retain the flexibility to issue equity securities in the future up to the 15% annual placement capacity set out in ASX Listing Rule 7.1 without the requirement to obtain prior Shareholder approval.

2.2 Technical information required by ASX Listing Rule 7.4

In accordance with ASX Listing Rule 7.5, the following information is provided in relation to the Ratification:

- (a) the Company has issued Bergen Global with:

 - (iii) 13,000,000 unlisted Options, for nil cash consideration, in accordance with the Bergen Global Convertible Securities Agreement;
- (b) the terms of the First Bergen Global Convertible Security are set out in Schedule 1 of this Notice;
- (c) the Shares issued were all fully paid ordinary shares in the capital of the Company issued on the same terms and conditions as the Company's existing Shares;

- (d) the Options are exercisable at 4.96 cents each, expire on 26 February 2016 and are otherwise on the terms and conditions set out in Schedule 2, Part A of this Notice of Meeting;
- (e) Bergen Global is not a related party of the Company; and
- (f) the funds raised from these issues were used to reduce the Company's debts and provide additional working capital to support the continued development of the Company's Texas Silver Mine Operations in south-east Queensland.

3. RESOLUTION 2 – APPROVAL FOR ISSUE OF SECURITIES TO BERGEN GLOBAL

3.1 General

Resolution 2 seeks Shareholder approval, for the purpose of ASX Listing Rule 7.1 and for all other purposes, for:

- (a) the issue to Bergen Global of the Second Bergen Global Convertible Security and Third Bergen Global Convertible Security; and
- (b) for the issue of 88,000,000 unlisted Options (exercisable at the lower of the VWAP for Shares on 26 March 2013 (being 1.55 cents) and the date before the Options are issued, expiring 60 months after their date of issue) in accordance with the terms of the \$750,000 Bergen Security.

The Company has issued Bergen Global with the \$250,000 Bergen Security and the \$750,000 Bergen Security, being debt securities, which are convertible into Shares subject to Shareholder approval.

The Company is seeking this Shareholder approval in Resolution 2. If Shareholders approve Resolution 2:

- (a) the \$250,000 Bergen Security will become, and be deemed to be issued as, a convertible security on the same terms as the \$250,000 Bergen Security (**Second Bergen Global Convertible Security**); and
- (b) the \$750,000 Bergen Security will become, and be deemed to be issued as, a convertible security on the same terms as the 750,000 Bergen Security (**Third Bergen Global Convertible Security**).

The Second Bergen Global Convertible Security and the Third Bergen Global Convertible Security will be convertible in whole or in part, into Shares, at the election of Bergen Global at any time prior to the maturity date (being 26 March 2015) at a conversion price equal to, at Bergen's election, either:

- (a) 81% of the average of three daily VWAPs per Share during the twenty consecutive actual trading days immediately prior to the date a conversion notice is given to the Company; or
- (b) the average of the two daily VWAPs per Share for the 2 trading days prior to 26 March 2013 (being 1.53 cents).

An estimate of the maximum number of Shares that may be issued to Bergen Global (or its nominee) on conversion of the Second and Third Bergen Global Convertible Securities is set out in Section 3.3 of this Explanatory Memorandum.

ASX Listing Rule 7.1 provides that a company must not, subject to specified exceptions, issue or agree to issue more equity securities during any 12 month period than that amount which represents 15% of the number of fully paid ordinary securities on issue at the commencement of that 12 month period.

The effect of Resolution 2 will be to allow the Company to issue Bergen Global the Second and Third Bergen Global Convertible Securities as convertible equity securities, and the 88,000,000 Options, during the period of 3 months after the Meeting (or a longer period, if allowed by ASX), without using the Company's 15% annual placement capacity.

In addition, if Shareholders approve Resolution 2, the Second and Third Bergen Global Convertible Securities will be convertible into Shares, in accordance with their terms, without using the Company's placement capacity, in reliance on the exception in ASX Listing Rule 7.2(4).

3.2 Technical information required by ASX Listing Rule 7.1

In accordance with ASX Listing Rule 7.3, the following information is provided in relation to the issue of the Second and Third Bergen Global Convertible Securities and the 88,000,000 unlisted Options:

- (a) a maximum of two convertible securities will be issued, being the Second Bergen Global Convertible Security and the Third Bergen Global Convertible Security;
- (b) the Second Bergen Global Convertible Security and the Third Bergen Global Convertible Security are convertible into that number of Shares calculated by the following formula:

$$A = B / P$$

Where:

- A is the number of Shares issued on conversion;
 - B means the face value of the Second Bergen Global Convertible Security or the Third Bergen Global Convertible Security being converted, as applicable; and
 - P means either (at the election of Bergen Global) 81% of the average of three daily VWAPs per Share (as selected by Bergen Global) during the 20 consecutive trading days immediately prior to the date that a conversion notice is given to the Company; or the average of two daily VWAPs per Share for the 2 consecutive trading days immediately prior to 26 March 2013 (being 1.53 cents);
- (c) the maximum number of Shares to be issued to Bergen Global (or its nominee) on conversion of the Second and Third Bergen Global Convertible Securities is calculated as set out in Section 3.3 of this Explanatory Memorandum;
 - (d) the maximum number of Options to be granted to Bergen Global (or its nominee) is 88,000,000 Options;

- (e) the Second and Third Bergen Global Convertible Securities and 88,000,000 Options will be issued no later than 3 months after the date of the Meeting (or such later date to the extent permitted by any ASX waiver or modification of the ASX Listing Rules);
- (f) the terms of the Second and Third Bergen Global Convertible Securities are set out in Schedule 1 of this Notice;
- (g) the Options will be granted on the terms and conditions set out in Schedule 1, Part B of this Notice of Meeting;
- (h) the Second and Third Bergen Global Convertible Securities and Options will be issued to Bergen Global. Bergen Global is not a related party of the Company; and
- (i) no funds will be raised from these issues as the Second and Third Bergen Global Convertible Securities are being issued on conversion of the \$250,000 Bergen Security and the \$750,000 Bergen Security, and the Options are being issued as consideration for forbearance by Bergen Global in relation to the Company's alleged defaults under, and the termination of, the Bergen Global Convertible Securities Agreement. The \$250,000 raised from the \$250,000 Bergen Security was used for working capital to pay suppliers. No funds were raised from the issue of the \$750,000 Bergen Security as it was issued in consideration for forbearance by Bergen Global in relation to the Company's alleged defaults under, and the termination of, the Bergen Global Convertible Securities Agreement.

3.3 Maximum Number of Shares and Dilution on conversion of Bergen Global Convertible Securities

The maximum number of Shares that may be issued on conversion of the First, Second and Third Bergen Global Convertible Securities (together the **Bergen Global Convertible Securities**) depends on the VWAP price of Shares prior to the conversion date and so cannot be determined at the date of this Notice of Meeting.

The last closing price of the Company's Shares before its Shares were suspended from trading on the ASX was 1.2 cents per Share.

Set out below is a worked example of the potential maximum number of Shares that may be issued on conversion of the Bergen Global Convertible Securities (assuming face values of \$1,062,500, \$250,000 and \$750,000 respectively) based on an assumed Share price of 0.3 cents, 0.5 cents and 1.2 cents per Share (assuming no other Shares are issued or Options exercised).

Share Price	Maximum number of Shares	Current Shares on issue	Total Shares on issue	Dilution of existing Shareholders
0.3 cents	805,041,152 ¹	1,625,092,716	2,430,133,868	49.54%
0.5 cents	483,024,691 ²	1,625,092,716	2,108,117,407	29.72%
1.2 cents	201,260,288 ³	1,625,092,716	1,826,353,004	12.38%

Notes

1. Comprising 393,518,518 Shares issued under the First Bergen Global Convertible Security (at a conversion price of 0.27 cents per Share, being 90% of the Share price; and 102,880,658 Shares and 308,641,975 Shares issued under the Second Bergen

- Global Convertible Security and the Third Bergen Global Convertible Security respectively (at a conversion price of 0.243 cents per Share, being 81% of the Share price).
2. Comprising 236,111,111 Shares issued under the First Bergen Global Convertible Security (at a conversion price of 0.45 cents per Share, being 90% of the Share price; and 61,728,395 Shares and 185,185,185 Shares issued under the Second Bergen Global Convertible Security and the Third Bergen Global Convertible Security respectively (at a conversion price of 0.405 cents per Share, being 81% of the Share price).
 3. Comprising 98,379,629 Shares issued under the First Bergen Global Convertible Security (at a conversion price of 1.08 cents per Share, being 90% of the Share price; and 25,720,164 Shares and 77,160,493 Shares issued under the Second Bergen Global Convertible Security and the Third Bergen Global Convertible Security respectively (at a conversion price of 0.972 cents per Share, being 81% of the Share price).

The above workings are an example only and the actual conversion price may differ. This will result in the maximum number of Shares to be issued and the dilution percentage to also differ.

As at the date of this Notice of Meeting, Bergen Global holds 34,080,166 Shares representing a shareholding of 2.10%.

Under the terms of the Bergen Global Convertible Securities, if the conversion would result in Bergen Global holding more than 19.99% of the Company's issued Shares, the conversion cannot take place and the Company must instead redeem the face value of the Convertible Security that would otherwise be converted.

4. RESOLUTION 3 – RATIFICATION OF ISSUES TO YA GLOBAL

4.1 General

As noted in Section 1 above, the Company has issued YA Global with:

- (a) the YA Global Convertible Security;
- (b) a total of 16,279,310 Shares comprising:

- (c) 13,000,000 unlisted Options (exercisable at 4.96 cents each, expiring 26 February 2016) as part of the capital raising fee for the YA Global Convertible Securities Agreement.

The Company issued the YA Global Convertible Security and the above Shares and unlisted Options without prior Shareholder approval out of its 15% annual placement capacity.

As a result, the YA Global Convertible Security can be converted into Shares, in accordance with its terms, which are summarised in Schedule 1 of this Notice, without using the Company's placement capacity, in reliance on the exception in ASX Listing Rule 7.2(4). On 22 March 2013 the Company issued 14,240,685

Resolution 3 seeks Shareholder ratification under ASX Listing Rule 7.4 for the issue of the YA Global Convertible Security and the above Shares and unlisted Options (**Ratification**).

A summary of ASX Listing Rules 7.1 and 7.4 is set out in section 2.1 above.

By ratifying this issue, the Company will retain the flexibility to issue equity securities in the future up to the 15% annual placement capacity set out in ASX Listing Rule 7.1 without the requirement to obtain prior Shareholder approval.

In accordance with ASX Listing Rule 7.5, the following information is provided in relation to the Ratification:

 - (iii) 13,000,000 unlisted Options, for nil cash consideration;
- (b) the terms of the YA Global Convertible Security are set out in Schedule 1 of this Notice;
- (c) the Shares issued were all fully paid ordinary shares in the capital of the Company issued on the same terms and conditions as the Company's existing Shares;
- (d) the Options are exercisable at 4.96 cents each, expire on 26 February 2016 and are otherwise on the terms and conditions set out in Schedule 2, Part A;
- (e) YA Global is not a related party of the Company; and
- (f) the funds raised from these issues were used to reduce the Company's debts and provide additional working capital to support the continued development of the Company's Texas Silver Mine Operations in south-east Queensland.

4.3 Maximum Number of Shares and Dilution on conversion of YA Global Convertible Security

The maximum number of Shares that may be issued on conversion of the YA Global Convertible Security depends on the VWAP price of Shares prior to the conversion date and so cannot be determined at the date of this Notice of Meeting.

The last closing price of the Company's Shares before its Shares were suspended from trading on the ASX was 1.2 cents per Share.

Set out below is a worked example of the potential maximum number of Shares that may be issued on conversion of the YA Global Convertible Security (assuming face value of \$1,112,500) based on an assumed Share price of 0.3 cents, 0.5 cents and 1.2 cents per Share (assuming no other Shares are issued or Options exercised).

Share Price	Maximum number of Shares	Current Shares on issue	Total Shares on issue	Dilution of existing Shareholders
0.3 cents	412,037,037	1,625,092,716	2,037,129,753	25.35%
0.5 cents	247,222,222	1,625,092,716	1,861,203,827	14.53%
1.2 cents	103,009,259	1,625,092,716	1,723,472,346	6.05%

Notes

1. At a conversion price of 0.27 cents per Share, being 90% of the Share price.
2. At a conversion price of 0.45 cents per Share, being 90% of the Share price.
3. At a conversion price of 1.08 cents per Share, being 90% of the Share price.

The above workings are an example only and the actual conversion price may differ. This will result in the maximum number of Shares to be issued and the dilution percentage to also differ.

As at the date of this Notice of Meeting, YA Global holds 30,519,995 Shares representing a shareholding of 1.88%.

Under the terms of the YA Global Convertible Security, if the conversion would result in YA Global holding more than 19.99% of the Company's issued Shares, the conversion cannot take place and the Company must instead redeem the face value of the YA Global Convertible Security that would otherwise be converted.

The Company has issued Celtic Capital with the Celtic Capital Securities and the Celtic Capital Promissory Notes, being convertible debt securities, which are convertible into Shares subject to Shareholder approval. The Company is seeking this Shareholder approval in Resolution 6.

If Shareholders approve Resolution 6, the Celtic Capital Securities will become, and be deemed to be issued as, the Celtic Capital Convertible Notes, on the same terms as the 1,800,000 Celtic Capital Securities.

If Shareholders approve Resolution 6, the Celtic Capital Promissory Notes will become, and be deemed to be issued as, the Celtic Capital Convertible Promissory Notes, on the same terms as the 1,400,000 Celtic Capital Promissory Notes.

An estimate of the maximum number of Shares that may be issued to Celtic Capital (or its nominee) on conversion of the Celtic Capital Convertible Notes, on conversion of the Celtic Capital Convertible Promissory Notes, on drawdown under the Equity Placement Facility, and in satisfaction of the monthly Interest Repayments under the Capital Convertible Promissory Notes is set out in Section 7.3 of this Explanatory Memorandum.

7.3 Maximum Number of Shares and Dilution

The maximum number of Shares that may be issued on conversion of the Celtic Capital Convertible Notes and Celtic Capital Convertible Promissory Notes, in satisfaction of the Interest Payments, or on a drawdown under the Equity Placement Facility, depends on the VWAP price of Shares prior to the conversion date or drawdown date, as applicable, and so cannot be determined at the date of this Notice of Meeting.

The last closing price of the Company's Shares before its Shares were suspended from trading on the ASX was 1.2 cents per Share.

Set out below is a worked example of the potential maximum number of Shares that may be issued on conversion of the Celtic Capital Convertible Notes (assuming a total face value of \$1,800,000) and the Celtic Capital Convertible Promissory Notes (assuming a total face value of \$1,400,000), in satisfaction of the Interest Repayments, and issued on drawdown of the Equity Placement

Facility (assuming a total drawdown of \$10,000,000) if Resolution 6 is approved based on an assumed Share price of 0.3 cents, 0.5 cents and 1.2 cents per Share (assuming no other Shares are issued or Options exercised).

Share Price	Maximum number of Shares	Current Shares on issue ¹	Total Shares on issue	Dilution of existing Shareholders ²
0.3 cents	5,502,450,979	1,625,092,716	7,127,543,695	338.59%
0.5 cents	3,301,470,587 ²	1,625,092,716	4,926,563,303	203.16%
1.2 cents	1,685,392,157 ³	1,625,092,716	3,310,484,873	103.71%

Notes

1. Comprising 705,882,353 Shares issued under the Celtic Capital Convertible Notes and 3,921,568,627 Shares issued under the Equity Placement Facility (at a conversion price/issue price of 0.255 cents per Share, being 85% of the Share price); 583,333,333 Shares issued under the Celtic Capital Convertible Promissory Notes (at a conversion price of 0.24 cents per Share, being 80% of the Share price); and 291,666,666 Shares issued in satisfaction of the Interest Repayments assuming the Celtic Capital Convertible Promissory Notes retain a face value of \$1,400,000 until maturity (at a conversion price of 0.24 cents per Share, being 80% of the Share price).
2. Comprising 423,529,411 Shares issued under the Celtic Capital Convertible Notes and 2,352,941,176 Shares issued under the Equity Placement Facility (at a conversion price/issue price of 0.425 cents per Share, being 85% of the Share price); 350,000,000 Shares issued under the Celtic Capital Convertible Promissory Notes (at a conversion price of 0.4 cents per Share, being 80% of the Share price); and 175,000,000 Shares issued in satisfaction of the Interest Repayments assuming the Celtic Capital Convertible Promissory Notes retain a face value of \$1,400,000 until maturity (at a conversion price of 0.4 cents per Share, being 80% of the Share price).
3. Comprising 180,000,000 Shares issued under the Celtic Capital Convertible Notes (at a conversion price of 1.0 cents per Share, being the maximum conversion price) ; 980,392,157 Shares issued under the Equity Placement Facility (at an issue price of 1.02 cents per Share, being 85% of the Share price); 350,000,000 Shares issued under the Celtic Capital Convertible Promissory Notes (at a conversion price of 0.4 cents per Share, being 80% of the Right Issue Share price); and 175,000,000 Shares issued in satisfaction of the Interest Repayments assuming the Celtic Capital Convertible Promissory Notes retain a face value of \$1,400,000 until maturity (at a conversion price of 0.4 cents per Share, being 80% of the Rights Issue Share price).

The above workings are an example only and the actual conversion price may differ. This will result in the maximum number of Shares to be issued and the dilution percentage to also differ.

As at the date of this Notice of Meeting, Celtic Capital holds 48,591,370 Shares representing a shareholding of 2.99%.

Under the terms of the Celtic Capital Convertible Notes and the Celtic Capital Convertible Promissory Notes, if the conversion would result in Celtic Capital holding more than 19.99% of the Company's issued Shares, the conversion cannot take place and the Company must instead redeem the face value that would otherwise be converted.

The Company will manage any drawdown under the Equity Placement Facility to avoid Celtic Capital holding above 19.99%. The Company intends to repay the Celtic Capital Convertible Notes and Celtic Capital Convertible Promissory Notes if the minimum subscription of \$6,000,000 is raised under the Rights Issue.

8. RESOLUTION 7 – APPROVAL FOR ISSUE OF SHARES TO POWERLINE

- P means either (at the election of Powerline) 81% of the average of three daily VWAPs per Share (as selected by Powerline in its sole discretion) during the 20 consecutive trading days immediately prior to the date of payment of the Powerline Commitment Fee, or 1.53 cents.

9. RESOLUTION 8 - APPROVAL OF RIGHTS ISSUE

9.1 General

Resolution 8 seeks Shareholder approval to undertake the Rights Issue. The Company is seeking this approval to satisfy a condition of the ASX Waiver granted to the Company in relation to the Rights Issue.

Listing Rule 7.11.3 provides that the ratio of securities offered by a listed entity for a pro rata issue must not be greater than one security for each security held, unless the offer is renounceable and the issue price is not more than the average market price for the securities in that class, calculated over the last 5 days on which the sales in securities were recorded before the day on which the pro rata issue was announced.

The Company has obtained the ASX Waiver to allow the Rights Issue to be non-renounceable despite the offer being at a ratio of greater than one Share for every one Share held at the Record Date. The waiver is conditional on Shareholders approving the Rights Issue (which is sought in this Resolution 8).

9.2 Offer Terms

The Company proposes to conduct a non-renounceable rights issue to raise up to approximately \$16.25 million, at an offer price of \$0.005 per Share, on a two for one (2:1) basis, plus a one for two (1:2) free attaching quoted Option, exercisable at \$0.01 each and expiring 31 July 2015 (**Rights Issue** or **Offer**).

The terms of the Rights Issue are contained in a prospectus lodged with ASIC and ASX on 29 May 2013 and replaced by a replacement prospectus lodged with ASIC and ASX on 13 May 2013 (**Prospectus**). The Offer under the Prospectus is conditional on Shareholders' approving the Rights Issue under this Resolution 8. If Shareholders do not approve the Resolution, the Company will not be able to proceed with the Rights Issue as intended.

Proceeds raised under the Rights Issue will be used to:

- (a) pay down outstanding debt (including part or all (depending on the amount raised) of the Bergen Global Convertible Securities, the YA Global Convertible Security, the Celtic Capital Convertible Notes and the Celtic Capital Promissory Convertible Notes) and consolidate the Company's funding arrangements;
- (b) fund key operational improvements at the Texas Silver Operations, including:

- (i) upgrade of the of crushing circuit to allow greater throughput;
- (ii) construction of a new power line to access cheaper grid power; and
- (iii) purchase of key mining equipment; and
- (c) to strengthen the Company's overall working capital position.

Further details of the proposed use of funds from the Rights Issue are set out in the Prospectus issued by the Company.

AYN's Board is of the view that the Rights Issue will provide the most certain outcome for AYN in the present circumstances and is preferable because it allows existing Shareholders the opportunity to participate in the recapitalisation of the Company at the substantial discount the Company must offer to attract sufficient funding.

The Company considers that the Offer must be on a 2:1 basis to enable sufficient funds to be raised to stabilise the Company's financial position. A raising on a one for one (1:1) basis or less is considered insufficient to achieve this objective.

The Company has appointed Patersons as lead broker for the Offer. For further details in relation to the fees payable to Patersons in consideration for their services, please refer to Section 10 of the Explanatory Statement.

Eligible Shareholders who do not take their full entitlement under the Offer will not receive any value in respect of entitlements they do not take up. Shareholders who are not eligible to receive entitlements under the Offer will not receive any value in respect of entitlements they would have received had they been eligible.

9.3 Conditions of the Offer

The Rights Issue is conditional upon:

- (a) Shareholders approving the Rights Issue at this General Meeting;
- (b) the Company obtaining \$2,500,000 in additional financing prior to the closing date of the Rights Issue (the Company has at the date of this Notice secured \$700,000 under the Celtic Capital Promissory Note Agreement); and
- (c) the Company entering into a \$10,000,000 off-take agreement or silver streaming agreement (details of which have been recently announced) and having at least \$2,000,000 of funding drawn down or unconditionally available under one of those agreements at the closing date of the Rights Issue. The Company has entered into the Off-take agreement under which \$2,000,000 is conditionally available. In order for the \$2,000,000 to become unconditional, the Company must satisfy the condition precedents set out in Schedule 4.

If these conditions are not met then the Rights Issue will not proceed and the Company will refund all application money received (without interest) in accordance with the Corporations Act.

For the Company's Shares to be reinstated to official quotation following the Rights Issue, the ASX will need to be satisfied that the Company's financial position is adequate to warrant continued quotation under Listing Rule 12.2.

The Company has set a minimum subscription of \$6,000,000 under the Rights Issue.

*The Directors may extend the Closing Date by giving at least 6 Business Days notice to ASX prior to the Closing Date, and other dates without prior notice. As such the date the Securities are expected to commence trading on ASX may vary.

9.5 Maximum number of Shares and Options to be issued

The maximum number of Shares to be issued pursuant to the Offer is 3,250,185,432 and the maximum number of Options to be issued pursuant to the Offer is 1,625,092,716 Options (based on there being 1,625,092,716 Shares on issue on the date of this Notice of Meeting and assuming no other Options or Convertible Securities are exercised or Shares issued).

9.6 Date by which the Company will issue the new Shares and Options under the Offer

Subject to completion of the Offer, the Company expects to issue the new Shares and Options to applicants under the Offer on or about 2 August 2013.

9.7 Issue price of the new Shares and Options

The issue price of the new Shares under the Offer will be \$0.005 per Share.

The Options have a nil issue price as they are free attaching Options.

9.8 Persons to whom the new Shares and Options will be issued

New Shares and Options will be issued to:

- (a) Shareholders who take up their Entitlement in the Offer (either fully or in part);
- (b) Shareholders who apply for additional Shares (in the event of a shortfall in applications due to other Shareholders not taking up their entitlement); and
- (c) other investors identified by the Company (also in the event of a shortfall in applications due to other Shareholders not taking up their entitlement).

9.9 Terms of the new Shares

The Shares issued pursuant to the Offer will rank equally with the Shares with all existing Shares.

The Options will be a new class of Option exercisable at \$0.01 each and expiring 31 July 2015 and otherwise on the terms and conditions set out in Schedule 2, Part D of this Notice of Meeting (**Rights Issue Options**). The Company will apply for the Rights Issue Options to be quoted on the ASX.

9.10 Intended use of the funds raised

The funds raised from the Offer are planned to be used in accordance with the table set out below:

	\$6M Raising (minimum)	\$10M Raising	\$16.25M Raising (maximum)
	\$M	\$M	\$M
Repay Promissory Notes ¹	3.0	3.0	3.0
Redeem outstanding Convertible Securities ²	-	-	3.20
Plant and Equipment upgrades ³	0.50	3.00	3.00
Creditor Payments ⁴	-	0.22	2.89
Costs of the Offer	0.53	0.78	1.16
Working Capital	1.97	3.00	3.00
TOTAL	6.00	10.00	16.25

Notes:

1. This refers to the repayment/redemption of a \$1,200,000 debt security issued to Bergen Global in May 2013 and the Celtic Capital Securities with total face values of \$1,800,000. The Company intends repaying/redeeming the \$1,400,000 Celtic Convertible Promissory Notes from its cash reserves rather than from proceeds of the Offer.
2. This refers to redemption of the remaining outstanding Convertible Securities (being the First Bergen Convertible Security, Second Bergen Convertible Security, Third Bergen Convertible Security, and YA Global Convertible Securities). The outstanding Convertible Securities will be redeemed if the maximum subscription (\$16.25 million) is raised under the Offer.

3. The Company intends to spend a minimum of \$500,000 towards increasing the crushing circuit capacity at the Texas Silver Project, with any additional funds for plant and equipment upgrades being applied towards cost saving initiatives.
4. These funds will be used to reduce existing royalty and trade creditor liabilities and improve the Company's payment terms.

The above table is a statement of current intentions as of the date of this Notice of Meeting. As with any budget, intervening events and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the way funds are applied on this basis.

On completion of the Rights Issue, the Board believes the Company will have sufficient working capital to meet its objectives and expenditure obligations.

However, if only the minimum subscription is raised (\$6,000,000) under the Rights Issue then the Company will be reliant upon additional funding. The Rights Issue is therefore conditional on:

- (a) the Company obtaining \$2,500,000 in additional financing prior to the closing date of the Rights Issue (of which \$700,000 has been secured at the date of this Notice of Meeting); and
- (b) the Company entering into a \$10,000,000 off-take agreement or silver streaming agreement (details of which have been recently announced) and having at least \$2,000,000 of funding drawn down or unconditionally available under one of those agreements at the closing date of the Rights Issue (\$2,000,000 under the Off-take is not yet unconditional available as it is subject to the conditions set out in Schedule 4).

9.11 Directors' recommendation and intention

Having regard to all the considerations discussed in this document, your Directors consider that, in the absence of superior proposal, the expected advantages of the Rights Issue outweigh its potential disadvantages and risks.

After considering all of these factors, in the absence of a superior proposal:

- (a) your Directors recommend that Shareholders **VOTE IN FAVOUR** of Resolution 8 to approve the Rights Issue; and
- (b) the Directors entitled to vote intend to **VOTE IN FAVOUR** of Resolution 8 with respect to all the Shares they personally hold.

Shareholders should be advised that if Resolution 8 is not passed by the required majority and the Rights Issue does not proceed, AYN is likely to be unable to meet its payment obligations to its creditors. The failure to implement the Rights Issue and pay creditors may have significant implications for AYN, empowering creditors to take enforcement action, including appointing an administrator and the Company may become insolvent. The implementation of the Rights Issue significantly reduces this risk for AYN.

9.12 Possible advantages of the Rights Issue and reasons to vote in favour of the Rights Issue

9.12.1 Necessity to raise equity otherwise AYN is at risk of insolvency

The Board considers it necessary that AYN raise additional equity to stabilise AYN's financial position and pay its existing creditors and to meet the Company's short-term working capital requirements. Shareholders should note that, in the absence of implementing the Rights Issue, AYN's ability to remain a going concern is likely to be dependent on its ability to pay its creditors and meet short-term working capital requirements.

The Board is of the view that the Rights Issue will provide the most certain outcome for Shareholders in the circumstances.

9.12.2 Reduce AYN current debt and provide working capital

The Rights Issue, when implemented, will result in the raising of equity totalling up to approximately \$16.25 million (before costs) which will fund a reduction in the amount owed to creditors and, depending on the amounts raised, provide AYN with funds required for the ongoing care and maintenance of the Company's ongoing production and further development of AYN's Twin Hills silver mine and general working capital. See paragraph 9.10 for further details.

Shareholders should be advised that if Resolution 8 is not passed by the required majority and the Rights Issue does not proceed, it is possible that AYN will be unable to meet its payment obligations to its creditors. The failure to implement the Rights Issue and pay creditors is likely to have significant implications for AYN, empowering creditors to take enforcement action, including appointing an administrator, and the Company may become insolvent. The implementation of the Rights Issue significantly reduces this risk for AYN.

9.12.3 Opportunity to make a further investment in Shares and share in AYN's future

The proposed Rights Issue provides Shareholders an opportunity to acquire further Shares, at an issue price of \$0.005 per Share, along with free attaching Options. The Rights Issue is conditional upon Shareholders approving Resolution 8.

The Board believes that the capital injection from the Rights Issue will result in AYN being in a stronger position to meet its obligations to creditors and will stabilise the Company's financial position. The Company will also have sufficient working capital going forward to maintain the Company's ongoing production of the Company's Twin Hills silver mine.

By taking up their Entitlements under the Rights Issue, Shareholders will be able to maintain or increase the extent of their participation in any upside in AYN's performance in the future and will avoid or reduce the extent of dilution that may occur to their Shareholding following implementation of the Rights Issue.

However, AYN and the Directors cannot make any assurance as to the price at which Shares will trade after the Rights Issue is completed and consider that the last recorded trading price on ASX (at \$0.012 per Share) is not an accurate reflection of the likely trading price of Shares after implementation of the Rights Issue.

9.12.4 Re-quotation of Shares on ASX

It is expected that if the Rights Issue is implemented, trading in the Shares on ASX is anticipated to recommence on 7 August 2013. If the Rights Issue is not implemented, the Directors are unsure as to when trading in the Shares on ASX will recommence. In order for trading of Shares on ASX to recommence, ASX will need to be satisfied that the Company's financial position is adequate to warrant continued quotation under Listing Rule 12.2.

9.13 Possible disadvantages and risks of the Rights Issue and reasons to vote against the proposed resolution

9.13.1 Potential for significant dilution

If the Rights Issue is fully subscribed, the number of Shares on issue will increase from 1,625,092,716 to 4,875,278,148, and the number of Options on issue will increase from 88,839,105 to 1,713,931,821. This means that each Share will represent a significantly lower proportion of the ownership of AYN and Shareholders who do not take up their full entitlement in the Rights issue will have a substantially diluted percentage Shareholding in AYN.

Shareholders should note that their Share holdings may be further diluted by the securities to be issued by the Company under other Resolutions in this Notice of Meeting. Please refer to section 1.5 of this Explanatory Memorandum for further details in relation to the possible dilution effect of all these securities.

9.14 Risks associated with an investment in AYN

If Resolution 8 is passed, Shareholders will have to consider whether to take up their Entitlements under the Rights Issue. Further details of the risks associated with an investment in AYN are detailed in the Prospectus for the Rights Issue.

9.15 Other material information

Except as set out in this Explanatory Statement, in the opinion of Directors, there is no other information material to the making of a decision in relation to the Rights Issue, being information that is within the knowledge of any Director, which has not been previously disclosed to Shareholders.

10. RESOLUTION 9 – APPROVAL FOR ISSUE OF BROKER OPTIONS UNDER THE BROKER OFFER

10.1 General

Resolution 9 seeks Shareholder approval for the issue to Patersons Securities Limited (or its nominees) of that number of Options equal to 6% of the total number of Shares issued under the Rights Issue in consideration for broker services provided by Patersons in relation to the Rights Issue (**Broker Offer**).

On top of the Broker Offer, the Company as agreed to pay Patersons \$80,000, plus 6% of the gross dollar amount raised under the Rights Issue and any shortfall to the Rights Issue (being up to \$1,055,056 assuming maximum subscription).

A summary of ASX Listing Rule 7.1 is set out in section 1.2.

The effect of Resolution 9 will be to allow the Company to issue the Options under the Broker Offer during the period of 3 months after the Meeting (or a longer period, if allowed by ASX), without using the Company's 15% annual placement capacity.

Resolution 9 is conditional on Shareholders approving the Rights Issue under Resolution 8.

10.2 Technical information required by ASX Listing Rule 7.1

Pursuant to and in accordance with ASX Listing Rule 7.3, the following information is provided in relation to the Broker Offer:

- (a) the maximum number of Options to be issued is that number of Options equal to 6% of the total number of Shares issued under the proposed Rights Issue, which will equal 195,011,126 Options if the Rights Issue is fully subscribed;
- (b) the Options will be issued no later than 3 months after the date of the Meeting (or such later date to the extent permitted by any ASX waiver or modification of the ASX Listing Rules). It is anticipated the Options will be issued when the Rights Issue is completed, which is currently scheduled for 2 August 2013;
- (c) the Options will be issued for nil cash consideration in satisfaction of services provided by Patersons (and its nominees);
- (d) the Options will be issued to Patersons (or its nominees), who is not a related party of the Company;
- (e) the Options will be issued on the terms and conditions set out in 2 Part D of this Notice of Meeting; and
- (f) no funds will be raised from the Broker Offer as the Options are being issued in consideration for services provided by Patersons (and its nominees).

11. RESOLUTION 10 – RE-ELECTION OF DR PAUL D'SYLVA AS DIRECTOR

Clause 13.4 of the Constitution allows the Directors to appoint at any time a person to be a Director as an addition to the existing Directors, but only where the total number of Directors does not at any time exceed the maximum number specified by the Constitution.

Any Director so appointed holds office only until the next following general meeting and is then eligible for re-election but shall not be taken into account in determining the Directors who are to retire by rotation (if any) at that meeting.

Dr Paul D'Sylva was appointed a Director on 13 March 2013 after the retirement of former Directors Messrs Charles Morgan and Ian McCubbing on 8 March 2013. Dr D'Sylva has substantial mining and energy capital market experience through his employment at independent advisory firm, Empire Equity Limited. Dr D'Sylva has helped fund a diverse range of resource companies in equity, debt and structured financing arrangements.

Dr Paul D'Sylva will retire in accordance with clause 13.4 of the Constitution and being eligible seeks re-election.

12. RESOLUTION 11 – RE-ELECTION OF MR TIMOTHY MORRISON AS DIRECTOR

Clause 13.4 of the Constitution allows the Directors to appoint at any time a person to be a Director as an addition to the existing Directors, but only where the total number of Directors does not at any time exceed the maximum number specified by the Constitution.

Any Director so appointed holds office only until the next following general meeting and is then eligible for re-election but shall not be taken into account in determining the Directors who are to retire by rotation (if any) at that meeting.

Mr Timothy Morrison was appointed a Director on 13 March 2013 after the retirement of former Directors Messrs Charles Morgan and Ian McCubbing on 8 March 2013. Mr Timothy Morrison has substantial mining and energy capital market experience through his employment at independent advisory firm, Empire Equity Limited. Mr Timothy Morrison has helped fund a diverse range of resource companies in equity, debt and structured financing arrangements.

Mr Timothy Morrison will retire in accordance with clause 13.4 of the Constitution and being eligible seeks re-election.

13. RESOLUTION 12 – RE-ELECTION OF MR MICHAEL REED AS DIRECTOR

Clause 13.4 of the Constitution allows the Directors to appoint at any time a person to be a Director as an addition to the existing Directors, but only where the total number of Directors does not at any time exceed the maximum number specified by the Constitution.

Any Director so appointed holds office only until the next following general meeting and is then eligible for re-election but shall not be taken into account in determining the Directors who are to retire by rotation (if any) at that meeting.

Mr Michael Reed was appointed an executive Director on 15 March 2013 following the retirement of former managing Director Mr Andrew King on 13 March 2013. Mr Reed formerly held the position of Company Operations Manager and has managed the Company's Texas Silver Mine for the last two years. Mr Reed is a metallurgist with over 20 years experience within the Australian mining industry.

Mr Michael Reed will retire in accordance with clause 13.4 of the Constitution and being eligible seeks re-election.

14. RESOLUTIONS 13 AND 15 – PERFORMANCE RIGHTS PLANS

The Company adopted an employee and executive director performance rights plan (**Employee Performance Rights Plan**) at its AGM on 25 November 2010.

Resolution 13 seeks Shareholders approval for the re-adoption of the Employee Performance Rights Plan in accordance with ASX Listing Rule 7.2 (Exception 9(b)).

Resolution 15 seeks Shareholder approval to adopt a non-executive Director performance rights plan (**Non-Executive Director Performance Rights Plan**) on materially the same terms as the Employee Performance Rights Plan.

ASX Listing Rule 7.1 provides that a company must not, subject to specified exceptions, issue or agree to issue more equity securities during any 12 month period than that amount which represents 15% of the number of fully paid ordinary securities on issue at the commencement of that 12 month period.

ASX Listing Rule 7.2 (Exception 9(b)) sets out an exception to ASX Listing Rule 7.1 which provides that issues under an employee incentive scheme are exempt for a period of 3 years from the date on which shareholders approve the issue of securities under the scheme as an exception to ASX Listing Rule 7.1.

If Resolution 13 is passed, the Company will be able to issue Performance Rights under the Employee Performance Rights Plan to eligible participants over a period of 3 years without impacting on the Company's ability to issue up to 15% of its total ordinary securities without Shareholder approval in any 12 month period.

A total of 1,000,000 Performance Rights have been issued under the Employee Performance Rights Plan since it was last approved by Shareholders on 25 November 2010. These Performance Rights were issued to Mr Ian McCubbing on 4 July 2012.

If Resolution 15 is passed, the Company will be able to issue Performance Rights under the Non-Executive Director Performance Rights Plan to eligible participants over a period of 3 years without impacting on the Company's ability to issue up to 15% of its total ordinary securities without Shareholder approval in any 12 month period.

No Performance Rights have previously been issued under the Non-Executive Director Performance Rights Plan.

It is considered by the Directors that the re-adoption of the Employee Performance Rights Plan, and the adoption of the Non-Executive Director Performance Rights Plan (together the **Performance Rights Plans**), and the future issue of Performance Rights under the Performance Rights Plans will provide selected employees and directors with the opportunity to participate in the future growth of the Company.

A summary of the terms and conditions of the Performance Rights Plans is set out in Schedule 5. In addition, copies of the Performance Rights Plans are available for review by Shareholders at the registered office of the Company until the date of the Meeting. Shareholders are invited to contact the Company if they have any queries or concerns.

Any future issues of Performance Rights under the Performance Rights Plans to a related party or a person whose relation with the company or the related party is, in ASX's opinion, such that approval should be obtained will require additional Shareholder approval under ASX Listing Rule 10.14 at the relevant time.

For this reason, the Company is also seeking approval under Resolution 14 for the issue of Performance Rights to Mr Michael Reed, the Managing Director under the Employee Performance Rights Plan, and approval under Resolutions 16 and 17 for Dr Paul D'Sylva and Mr Tim Morrison, under the Non-Executive Director Performance Rights Plan.

15. RESOLUTIONS 14, 16 AND 17 – ISSUE OF PERFORMANCE RIGHTS TO RELATED PARTIES

15.1 General

The Company has agreed, subject to obtaining Shareholder approval, to grant Performance Rights to each of Messrs Michael Reed, Paul D'Sylva and Timothy Morrison (**Eligible Participants**) under the Performance Rights Plans in accordance with the terms and conditions set out below.

Resolutions 14, 16 and 17 seek Shareholder approval for the Company to issue each of the Eligible Participants with that number of Performance Rights equal to 2.5% of the number of Shares on issue on completion of the Rights Issue that will vest and convert into Shares (on the basis of 1 Share for every 1 Performance Right) subject to the following performance hurdles:

- (a) 50% of the Performance Rights will vest and be convertible into Shares on completion of the Rights Issue;
- (b) 25% of the Performance Rights will vest and be convertible into Shares upon the Company achieving production of 100,000oz of silver in any 1 month, at any time up to 12 months after Shareholder approval is obtained; and
- (c) 25% of the Performance Rights will vest and be convertible into Shares upon the Company achieving production of 500,000oz of silver in any 6 month period, at any time up to 12 months after Shareholder approval is obtained.

15.2 ASX Listing Rule 10.14

Resolutions 14, 16 and 17 are being put to Shareholders to seek approval for the issue of Performance Rights to the Eligible Participants at any time up to 12 months after Shareholder approval is obtained pursuant to ASX Listing Rule 10.14.

ASX Listing Rule 10.14 requires shareholder approval to be obtained where an entity issues, or agrees to issue, securities under an employee incentive scheme to a director of the entity, an associate of the director, or a person whose relationship with the entity, director or associate of the director is, in ASX's opinion, such that approval should be obtained.

15.3 Chapter 2E

Chapter 2E of the Corporations Act requires that for a public company, or an entity that the public company controls, to give a financial benefit to a related party of the public company, the public company or entity must:

- (a) obtain the approval of the public company's members in the manner set out in sections 217 to 227 of the Corporations Act; and
- (b) give the benefit within 15 months following such approval,

unless the giving of the financial benefit falls within an exception set out in sections 210 to 216 of the Corporations Act.

The issue of Performance Rights constitutes giving a financial benefit as the Eligible Participants are related parties of the Company by virtue of being Directors.

The Board has considered the application of Chapter 2E of the Corporations Act and has resolved that the reasonable remuneration exception provided by Section 211 of the Corporations Act is relevant in the circumstances and accordingly, the Company will not seek approval for the issue of Performance Rights pursuant to Section 208 of the Corporations Act.

15.4 Technical information required ASX Listing Rule 10.15

Pursuant to and in accordance with ASX Listing Rule 10.15, the following information is provided in relation to the proposed issue of Shares to the Eligible Participants:

- (a) the related parties are Messrs Reed, D'Sylva and Morrison and they are related parties by virtue of being Directors;
- (b) the Company intends to issue the Performance Rights to the Related Parties. Each of the Related Parties will be issued 2.5% of the number of Shares on issue on completion of the Rights Issue, with the Performance Rights vesting in accordance with the performance hurdles outlined at 15.1 above;
- (c) the maximum number of Performance Rights to be issued to each of the Eligible Participants (or their nominees) is 126,303,934 (assuming full subscription under the Rights Issue and Shares to be issued to Celtic Capital pursuant to Resolution 6 (excluding the issue of the 125,000,000 Shares to be issued as collateral under the Celtic Promissory Note) are issued prior to completion of the Rights Issue). The maximum will not increase in the event any additional Shares are issued prior to the completion of the Rights Issue;
- (d) the Performance Rights will be issued for nil cash consideration;
- (e) a total of 1,000,000 Performance Rights have been issued under the Employee Performance Rights Plan since it was last approved on 25 November 2010 as follows:
 - (i) 500,000 Performance Rights issued to Mr Ian McCubbing, of which 166,666 Performance Rights have vested. 333,334 of these Performance Shares lapsed upon Mr Ian McCubbing resigning as a Director; and
 - (ii) 500,000 Performance Rights issued to Mr Andrew Richards. These have now lapsed;
- (f) no Performance Rights have previously been issued under the Non-Executive Director Performance Rights Plan;
- (g) no loans have been provided to Messrs Reed, D'Sylva and Morrison in relation to the acquisition of the Performance Rights;

- (h) the Performance Rights will be issued to the Eligible Participants no later than 12 months after the date of the Meeting (or such later date as permitted by any ASX waiver or modification of the ASX Listing Rules); and
- (i) all executive Directors of the Company (being currently the Managing Director) are eligible to participate in the Employee Performance Rights Plan. All non-executive Directors of the Company (being currently Dr Paul D'Sylva and Mr Tim Morrison) are eligible to participate in the Non-Executive Director Performance Rights Plan.
