Liquidity Portfolio

Basel 3 Liquidity Rules

- In January 2013, the Basel Committee announced revised details on the Liquidity Coverage Ratio ("LCR") including amendments to the outflow assumptions
- APRA is yet to finalise the LCR requirements for Australian banks, although this is expected shortly
- As a result of the shortage of HQLA (including Government bonds) in Australia, banks will be permitted to meet some of their liquidity requirement via the Committed Liquidity Facility ("CLF")
- The size and availability of the CLF has yet to be agreed with APRA and the RBA

Credit quality in line with expectations

Credit Quality trends

- The 1H13 Provision charge of \$599m represents a 13% reduction HOH
- This lower Provision charge driven by reduction in both new individual provisions and top-up provisions to existing impaireds
- ANZ remains appropriately provided for the collective provision ratio at 1.01% following the introduction of APRA Basel III standards (1.06% on a Basel II basis)
- This coverage level reflects the ongoing improvement in credit quality of the Group's portfolio
- New impaired assets declined 15% HOH to \$1.6b, with all divisions seeing HOH reductions in new impaireds
- Gross impaired assets reduced 10% HOH to \$4.7b
