2 JORC RESOURCE

The geological data for 13879X was reviewed and assessed by McElroy Bryan Geological Services ("MBGS") during the reporting period. MBGS estimated an Inferred Resource of approximately 10 million tonnes of coal in accordance with the 2012 JORC Code. The details are summarised in the following table:

Further information was included in the announcement which was made to the ASX on 23 September 2013.

3 EXPLORATION LICENCE RELINQUISHMENTS

Analysis of the data from the exploration activities undertaken during the prior quarter showed that some of the exploration licences were not prospective for coal. Consequently the Board and the Joint Venture Management Committee decided to relinquish exploration licences 12000X, 10566X and 9116X. An announcement to this effect was made to the ASX on 19 September 2013. In early October exploration licence 12789X was also relinquished.

4 CORPORATE

Administration expenditure for the quarter was \$0.254 million which is less than the expenditure in the previous quarter of \$0.281 million, and significantly less than the expenditure of \$1.082 million in the quarter ended 30 September 2012.

The cash balance as of 30 September 2013 was \$3.0 million and there was no debt.
