Strategy

Progress in Strategic Direction - Growth

We are building our business with our clients and expanding our range and reach of ICT solutions.

Continue to grow base and focus on mid to large Enterprise and Government clients.

Develop solutions for the CIO and CFO in the Management of IT to assist innovation in the business. **ServiceNow** and **Apptio** are examples.

Focused on improving earnings especially with improved Project and Risk Management.

250 medium to large projects being run - No major project issues and all prior issues closed. Improved risk and governance framework imbedded into business.

Continue to grow base and focus on mid to large Enterprise and Government clients especially longer term relationships and building the **Annuity Business**.

Geographic expansion progressing as expected.

NA integration with business of Tectura (assets and staff) has gone very well. Strong MS support and market growth encouraging.

WA improving with some strong wins.

SE Asia grows with small steps but ServiceNow provides a potential fast track set of opportunities. New acquisition (June) has SE Asia footprint.

Strategy

Progress in Strategic Direction - Applications

Applications market leadership increases

Existing vendors are providing good opportunities. Strong cloud based CRM uptake. Further growth with ServiceNow, Apptio and others.

Have added to core with 2 small acquisitions in June. No impact on FY14 but will contribute \$7m-\$10m revenue in FY15.

Demand for core ERP solutions still strong but now augmented by SaaS and Cloud based solutions. Success with JDE in mid market (5 new wins), CRM across MS, Office 365, Azure and SAP Business One on Demand (NSEC).

North America provides a compelling market in MS Dynamics AX especially given positive view on integration of Tectura business.

Good progress on building the business. Integration of Tectura (assets and staff) business has gone very well (2mths delayed).

Acquisition currently delivering run rate PBT after 3 months of integration. Minimal contribution to FY14 PBT after integration and acquisition costs.

Balance of NA practice in the Microsoft Dynamics market going to plan.
