FITGENES LIMITED STATUS UPDATE

The Directors of Fitgenes Limited ("Company") provide the following update on the status of the Company and Fitgenes group entities.

As part of the preparation of the Company Prospectus and re-admission to ASX's official list, the Directors are now pleased to announce the following:

Yuuwa Capital invests AU\$1m

Yuuwa Capital LP ("Yuuwa"), after completing its due diligence and approval processes, has taken up an AU\$1m Converting Note as part of the Company's mezzanine capital raising round. This brings the total Converting Notes subscribed for under the mezzanine round to AU\$1.6m.

The primary use of funds under the mezzanine round is further establishment of Company owned and Fitgenes branded personalised preventative healthcare clinics.

Yuuwa is a \$40M early-stage venture capital firm based in Perth, Western Australia, that is co-funded under the Australian Federal Government's Innovation Investment Fund program. The funds main focus is in life sciences and information and communications technology investments. Their portfolio includes a range of technologies that are complementary to the Fitgenes business.

In closure, your Directors thank you for your ongoing support and patience while the Company and Fitgenes Australia prepare for the re-compliance process and we will continue to keep you informed as milestones are reached.

About Fitgenes

Fitgenes is an Australian company delivering genome based, personalised preventative healthcare and making a difference to individuals and the community in achieving Healthy Living and Healthy Ageing™.
