Entitlement Offer and completed placement

Elders Limited (**Elders**) is pleased to announce a fully underwritten \$47 million 3 for 5 traditional non-renounceable entitlement offer to all eligible shareholders at \$0.15 per share (**Entitlement Offer**). The Company has also completed a Placement to institutional and sophisticated investors at the same price raising \$10.2 million. Placement shares will participate in the Entitlement Offer. Funds from the Placement and Entitlement Offer will be used to repay term debt.

Completion of the equity raising and recently completed asset sales will see proforma term debt as at 31 March 2014 reduce from \$118 million to \$21 million on a proforma basis. Following the expected receipt of proceeds from the recent sale of Elders' investment in AWH, Elders' term debt may reduce to zero. Elders' new banking facilities provide sufficient flexibility and headroom to grow the business during normal seasonal fluctuations.

The recapitalisation of Elders provides a sound platform to generate value for all stakeholders. The Board and management will now be totally focused on efficiency improvements, growth and improved ROC.

Elders Chief Executive Officer Mark Allison says "We welcome to our share register a range of local and offshore institutions."

"Elders is no longer the complex and highly geared conglomerate it once was and the recapitalisation and new banking facilities will help management optimize future performance. Elders balance sheet now provides us the funding flexibility to deliver our capital light business model and will allow us to take advantage of the tremendous opportunities in the Australian and international agricultural sector."

"The equity raising and new banking facilities will have a very significant positive impact on Elders. Unlike the past few years, all future cash flows can now be directed to improving and growing our rural services business. It will also be a tremendous boost to staff and customer confidence."

"We will no longer be distracted by a conglomerate asset structure, asset sales or debt repayments".

"Our strengthened financial position enables us to continue our turnaround and work towards our strategic target of achieving \$60 million EBIT and 20% return on capital by 2017," Mr Allison said.

Elders FY14 underlying EBIT outlook is in a range of \$23 million to \$28 million, reflecting a turnaround of up to \$77 million on the FY13 results.

"The underlying EBIT improvement in FY14 highlights the benefits of changes already underway at Elders. We look forward to delivering on the earnings potential of this 175 year old business in the years ahead."

Elders will announce its FY14 results on Monday, 17 November 2014.
