30 October 2014

CCA ANNOUNCES RESULTS OF STRATEGIC REVIEW

Coca-Cola Amatil (CCA) is today presenting the results of its strategic review to investors. The strategic review, announced at the Company's Annual General Meeting in May, was conducted in response to deteriorating market conditions across the Group with the objective of restoring CCA to sustainable earnings growth.

Concrete progress has been made implementing strategies to strengthen the market leadership position of the Company in its two major markets, Australasia and Indonesia:

- » CCA and The Coca-Cola Company announce another world-first Coca-Cola campaign in Australia and New Zealand with #colouryoursummer which kick starts a continuous cycle of up-weighted marketing investment aimed at "bringing back the magic" of Coca-Cola;
- » The commitment to bringing innovative new products to the market comes to life in April 2015 with the launch of Coke Life in Australia and New Zealand;
- » A next-generation digital technology platform will significantly enhance the route-to-market model and deliver a step change in customer service in Australia and New Zealand; and
- » In Indonesia, CCA and The Coca-Cola Company have developed a plan to accelerate the growth of the Indonesian business to strengthen the Company's market leadership position. TCCC will inject US\$500 million into CCA Indonesia, taking a 29.4% equity interest in CCA Indonesia. Capex will be up-weighted to ~A\$150m pa for the next 3-4 years to fund infrastructure expansion to enable the business to broaden its product offering, develop new consumption occasions and offer a greater range of affordable packages.

CCA's Group Managing Director, Alison Watkins said, "The strategic review process has been comprehensive, structured and well-resourced and has confirmed our significant strengths and clarified our competitive advantages. We are very pleased to be able to present strong and material plans to our shareholders today which we believe will enable us to return to growth and generate attractive and sustainable returns for our shareholders.

"The plans have been developed reflecting three broad Group strategic themes:

- » Strengthening our category leadership position in each of our markets;
- » Making a step change in our productivity and in-market execution; and
- » Building better alignment with The Coca-Cola Company.

"In parallel we've made changes to our organisational structure, leadership and to our partnership with The Coca-Cola Company. We now have a flatter organisation structure and more accountable Group Leadership Team. Each business has recent new leadership with sound experience and strong values. We have refreshed our vision and values within the organisation to provide a clear sense of direction and purpose to our employee base."

The outcomes of the review for each business unit are as follows:

Stabilise earnings in Australasia and return to growth

The Australian beverage business will strengthen its category leadership position by rebuilding brand equity in Coca-Cola and with innovation geared toward "better for you" products in both CSDs and stills. Together with our partner The Coca-Cola Company, we are materially up-weighting marketing investment and developing more targeted recruitment strategies. Our new product development pipeline is strong and well developed with Coke Life, a lower calorie and naturally sweetened Coca-Cola offering, to be launched in April 2015.

We are reengineering the price pack architecture across channels with new frequency and entry level packs aimed at increasing affordability and meeting the desire for smaller packages while providing greater differentiation of packages across the channels. We are rolling out a next-generation digital technology platform which will significantly enhance the route-to-market model and deliver a step change in customer service. At the same time we are restructuring the cost base to deliver ongoing productivity gains and continue to expect to achieve savings of over \$100 million over the next three years which will be deployed to fund increased brand building and revenue management initiatives.

We have commenced implementation with the major change initiatives to be in place by mid-2015 and we are confident of returning the business to delivering sustainable earnings growth.

Expand our market presence in Indonesia to realise the market's potential

Indonesia is an exciting growth market for CCA. With consistent growth in demand from Indonesia's emerging middle class we now have the opportunity to increase our appeal to a broader range of consumers to ensure we continue to be a leading player in the market over the longer-term. To achieve that position will require significant levels of investment into the market to capitalise on the growing demand.

In order to strengthen our market position, CCA has developed a joint system plan with The Coca-Cola Company to broaden its product offering with new products, new consumption occasions and a greater range of affordable packs. At the same time we will transform our route-to-market model to increase our relevance and availability to the traditional trade and broaden our customer base. We will also be targeting improved productivity and efficiency from our production and logistics by better leveraging our scale.

The Coca-Cola Company will inject US\$500 million into CCA Indonesia, taking a 29.4% equity interest in CCA Indonesia and capex will be up-weighted to fund expansion of our production, warehousing and cold drink infrastructure. The objective is for CCAI to be able to self-fund growth from operating cash flows from 2020.

The plan has targets to progressively improve returns on capital over and above CCA Indonesia's cost of capital over the medium term.

Continue to build our alcoholic beverage portfolio in Australia and New Zealand

We will continue to build our alcoholic beverage portfolio by strengthening our product offering and customer servicing capability to the licensed channel. We will do this by leveraging CCA's large-scale sales, manufacturing and distribution infrastructure assets. We have a number of strong alcoholic beverage brand owner partners as well as the opportunity to develop our CCA brands. Growth needs to be paced and our medium term focus will be to build credibility by winning with our existing partners.

Invest to restore SPC to a profitable, modern food business

We have a transformation plan to revitalise the brand portfolio and return the business to growth. We have a strong pipeline of innovative fruit-based snack products backed by a disciplined capex plan that will modernise our production facilities and establish a lower cost position.

Financial outlook

CCA is targeting to return to mid single-digit growth in earnings per share over the next few years with no further decline expected after 2014. Ms Watkins said, "We are confident that the combination of revenue and cost initiatives we have underway will restore the business to growth. The pace of recovery will however depend on the success of revenue initiatives in Australia and Indonesian economic factors.

"With free cash flow generation expected to remain strong, the business is well-placed to target a dividend payout ratio of over 80% over the next three years. We expect to maintain a conservative balance sheet position which provides us with flexibility to fund future growth opportunities."

Capex is expected to be around \$310 million pa for the next three years, below the level of Group depreciation. The core Australian and New Zealand business have been well capitalised with a base of high quality existing assets and excess production capacity as a result of high levels of capital investment over the last five years. Indonesian capex is expected to be around A\$150 million pa for 3-4 years supported by The Coca-Cola Company's US\$500m capital injection. As previously announced, SPC will invest \$100 million over next three years comprising a \$78 million CCA investment and \$22 million in funding from the Victorian government.

CCA will provide a trading update in early December.

CCA Investor Briefing Strategic Review

30 October 2014

Alison Watkins Group Managing Director

1

Overview

- » Comprehensive strategic review focused on generating attractive, sustainable returns for shareholders
- » Plans to restore performance completed and implementation underway
- » Heads of agreement executed with The Coca-Cola Company (KO) to accelerate Indonesia's growth strategy, under which KO will invest US\$500m in return for a 29.4% equity interest in CCA Indonesia
- » Strong balance sheet and cash flow to reward shareholders with strong dividends plus flexibility to invest in growth in the medium term

2

Comprehensive review of corporate structure and business units to ensure CCA returns to generating attractive, sustainable returns for shareholders

Strengthened the leadership team

Defined reality for each business unit

Plans to restore performance completed

Long-term portfolio and corporate vision

- » Flatter structure, experienced leadership
- » Barry O'Connell - MD Australia – Non-Alcoholic Beverages
- » Shane Richardson – MD Alcohol & Coffee
- » Chris Litchfield – MD New Zealand & Fiji
- » Changes to local KO management team

- » Confirmation of strong competitive advantages and sources on long-term value
- » However, challenging headwinds for our businesses, particularly Australia & NZ, Indonesia and SPC

- » Group strategic themes:
 - Strengthen category leadership position
 - Step change in productivity and in-market execution
 - Better alignment with KO
- » Agreed investment plan for Indonesia with KO

- » Strong, core developed market franchise territories – Australia & NZ – generating strong free cash flows
- » Delivering on developing market potential – Indonesia & PNG
- » Incremental growth from Alcohol and SPC
- » Strong balance sheet to fund growth opportunities

3

The strategic review confirms CCA has compelling competitive advantages in each of our markets

- » Coca-Cola franchisee with leading brands in each major NARTD category in Australia, NZ, Indonesia, PNG, Fiji & Samoa
- » Route to market that provides scale and direct reach to many customers, providing diversification and an ongoing opportunity to add value and own relationships
- » Large-scale, modern, low-cost manufacturing, sales and distribution capability underpinned by over \$1.7bn investment (or 1.7x depreciation) since 2010 encompassing all major markets
- » Growth businesses including Indonesia and Alcohol providing upside in our portfolio

4

However, our businesses have come under significant pressure in recent years driven by structural changes in the marketplace

Australasia

Indonesia

SPC

Consumer-driven shifts

Channel structure

Competition

Cost inflation / structure

5

Our plans have been developed reflecting three broad Group strategic themes

Strengthening category leadership position

- » Leading brands in each major NARTD category in each market
- » Up-weighted levels of innovative marketing to continually strengthen brand equity
- » Evolving portfolio that adapts to changing consumer preferences

Step change in productivity and in-market execution

- » World-class customer servicing capability
- » Route to market that provides customer diversification and real competitive advantage
- » Effective leverage of our large-scale, low-cost manufacturing, sales and distribution capability

Better alignment with The Coca-Cola Company

- » Shared vision of success and aligned objectives
- » Joint plans for growing system profitability
- » Balanced share of risk and rewards

6

Our plans will strengthen the competitive position of each business with implementation underway

Australasia – Stabilise earnings and return to growth

- » Strengthen our brand portfolio to increase our appeal to a wider range of consumers
- » Optimise our revenue management by optimising price, pack architecture and strengthening our promotional management
- » Redesign the route to market model to improve cost to serve and better leverage our scale
- » Restructure our cost base to deliver ongoing productivity gains
- » New Zealand – deliver steady earnings and volume growth

Indonesia – Expand our market presence in Indonesia to realise the market's potential

- » Improve product availability and affordability across different channels
- » Build brand strength and channel relevance through multi-category portfolio
- » Drive cost competitiveness from operating leverage, transformed route-to-market and reduced complexity
- » Agreement for a US\$500m equity investment by KO into CCA Indonesia to accelerate growth plan with aligned volume and return targets

Alcohol – Continue to build our alcoholic beverage portfolio in Australia and New Zealand

- » Strengthen our product offering and customer servicing capability to the licensed channel by leveraging CCA's large-scale sales, manufacturing and distribution infrastructure assets

SPC – Invest to restore SPC to a profitable, modern food business

- » Strong transformation plan to revitalise the brand portfolio and return the business to growth

7

Strengthen our category leadership position

Build brand equity and “bring back the magic” of Coke

- » Increased marketing investment
- » Targeted recruitment strategies
- » Continued focus on occasions and portion control
- » New packs to increase affordability and provide great channel differentiation

Innovation geared toward “better for you” products

- » Big new product launches - Coke Life in 2015
- » Focus on driving share of stills categories

#colouryoursummer

8

Step change in productivity and in-market execution

Excellence in customer service

- » Technology enabled route-to-market tools driving effectiveness and efficiency by simplifying the Sales Call and providing real time information in the Field

A next generation
Sales and Mobility
app to support Field
Sales Execution

Restructure our cost base to deliver ongoing productivity gains

- » Targeting savings of over \$100 million over the next three years
- » Improved procurement, streamlined support costs and driving greater efficiencies from the significant investment made in our supply chain over the past five years

Deliver steady earnings and volume growth in New Zealand

Grow SPARKLING transactions

Accelerate share growth in STILLS

CUSTOMER Service as a differentiator

- EQUITY
- RECRUITMENT
- AFFORDABILITY
- INNOVATION

- WATER
- JUICE
- SPORTS
- NEW CATEGORIES

- CUSTOMER PROMISE
- MARKET ASSETS
- SERVICE OFFERING
- CAPABILITY

Fast, Flexible and Efficient Supply Chain

Our plans will strengthen the competitive position of each business with implementation underway

Australasia – Stabilise earnings and return to growth

- » Strengthen our brand portfolio to increase our appeal to a wider range of consumers
- » Optimise our revenue management by optimising price, pack architecture and strengthening our promotional management
- » Redesign the route to market model to improve cost to serve and better leverage our scale
- » Restructure our cost base to deliver ongoing productivity gains
- » New Zealand – deliver steady earnings and volume growth

Indonesia – Expand our market presence in Indonesia to realise the market's potential

- » Improve product availability and affordability across different channels
- » Build brand strength and channel relevance through multi-category portfolio
- » Drive cost competitiveness from operating leverage, transformed route-to-market and reduced complexity
- » Agreement for a US\$500m equity investment by KO into CCA Indonesia to accelerate growth plan with aligned volume and return targets

Alcohol – Continue to build our alcoholic beverage portfolio in Australia and New Zealand

- » Strengthen our product offering and customer servicing capability to the licensed channel by leveraging CCA's large-scale sales, manufacturing and distribution infrastructure assets

SPC – Invest to restore SPC to a profitable, modern food business

- » Strong transformation plan to revitalise the brand portfolio and return the business to growth

11

Indonesia represents an exciting long-term growth opportunity

GDP per capita rapidly increasing

...with material growth in disposable income

Rapidly growing affluent & middle classes

...and 63m people in the key 15-29yr old market

Source: Economist Intelligence Unit, Bank Indonesia and AC Nielsen. * Population split by Household expenditure measured over 11 key cities

12

Industry dynamics have changed with strong and consistent growth in demand from Indonesia's emerging middle class

CCA's strategy over the past 5-6 years has been shifting focus towards the wealthier income demographic

- » Rapid emergence of modern foodstore retailing during the early to mid 2000s provided CCA with a platform to engage with the wealthier income demographic (representing 20-40m consumers). CCA benefitted from selling higher margin products to less price sensitive consumers

With consistent growth in demand from Indonesia's emerging middle class we have the opportunity to increase our appeal to a broader range of consumers to ensure we continue to be a leading player in the market

- » Strong GDP growth has seen the emergence of new competitors and stimulated strong demand for beverages in the middle income demographic (representing >100m consumers)
- » We have tested the market by launching some lower priced packs – cups, multi-serve PET, smaller pack sizes and other products – with demand exceeding expectations
- » However, to realise the opportunity will require up-weighted levels of capital investment over the medium term

13

Joint system plan to strengthen Indonesian competitive position and drive attractive shareholder returns

CCA has developed a plan with KO to expand our offering across the market to target these consumers. KO will inject US\$500m equity into CCA Indonesia (CCAI) and capex will be up-weighted to ~A\$150m pa for the next 3-4 years to fund infrastructure expansion

- » Improve product availability and affordability across different channels
- » Build brand strength and channel relevance through multi-category portfolio
- » Drive cost competitiveness from operating leverage, transformed route-to-market and reduced complexity
- » Accelerated capex for production, warehousing and cold drink infrastructure of around A\$150m pa for around the next 3-4 years supported by KO US\$500m equity injection
- » Achieves closer alignment of interests between CCA and KO through joint ownership and the plan includes specific targets for:
 - » Targeting a strong market position in non-alcoholic ready to drink beverages and a market leadership position in sparkling beverages; and
 - » Generating returns progressively to reach the cost of capital for CCAI by 2020.

14

Transaction overview

- » KO to invest US\$500 million in new equity in CCA Indonesia which provides financial headroom to implement the growth plan
 - » CCAI to accelerate investment in production, warehousing and cold drink infrastructure in Indonesia for around the next 3-4 years
 - » CCAI targeting to be able to self-fund growth from operating cash flows from 2020
- » KO to take 29.4% equity interest in CCA Indonesia with CCA to retain 70.6% ownership as well as management control
- » KO investment in CCA Indonesia implies enterprise valuation of A\$1.6 billion (US\$1.38 billion)¹
- » New Board to be formed with majority representation from CCA, including the Chairman
 - » Certain reserve matters requiring unanimous Board approval include changes to the objectives or plan
 - » CCA to appoint Managing Director, subject to KO consent right
- » Other conditions typical of a joint ownership structure, including pre-emptive rights and rights regarding changes to share capital

Notes:

1. Based on estimated CCA Indonesia net debt of US\$180 million at 31 December 2014

15

Deal specifics – next steps

Process to completion

- » Conditions precedent to completion include
 - » CCA shareholder approval
 - » KO Board approval
 - » Indonesian regulatory approvals
- » An Extraordinary General Meeting of CCA shareholders will be called for February 2015
 - » KO excluded from voting on the relevant resolution
 - » Shareholders to be provided with a notice of meeting, explanatory memorandum and independent expert's report setting out the key considerations for CCA shareholders

16

Our plans will strengthen the competitive position of each business with implementation underway

Australasia – Stabilise earnings and return to growth

- » Strengthen our brand portfolio to increase our appeal to a wider range of consumers
- » Optimise our revenue management by optimising price, pack architecture and strengthening our promotional management
- » Redesign the route to market model to improve cost to serve and better leverage our scale
- » Restructure our cost base to deliver ongoing productivity gains
- » New Zealand – deliver steady earnings and volume growth

Indonesia – Expand our market presence in Indonesia to realise the market's potential

- » Improve product availability and affordability across different channels
- » Build brand strength and channel relevance through multi-category portfolio
- » Drive cost competitiveness from operating leverage, transformed route-to-market and reduced complexity
- » Agreement for a US\$500m equity investment by KO into CCA Indonesia to accelerate growth plan with aligned volume and return targets

Alcohol – Continue to build our alcoholic beverage portfolio in Australia and New Zealand

- » Strengthen our product offering and customer servicing capability to the licensed channel by leveraging CCA's large-scale sales, manufacturing and distribution infrastructure assets

SPC – Invest to restore SPC to a profitable, modern food business

- » Strong transformation plan to revitalise the brand portfolio and return the business to growth

17

Continue to build our alcoholic beverage portfolio in Australia and New Zealand

- » Alcoholic beverages strengthens our product offering and customer servicing capability to the licensed channel
- » Leverages CCA's large-scale sales, manufacturing and distribution infrastructure assets into an adjacent category
- » Opportunity to partner with strong alcoholic beverage brand owners as well as to develop CCA's alcohol brands
- » Growth needs to be paced – build credibility by winning with existing partners

18

Our plans will strengthen the competitive position of each business with implementation underway

Australasia – Stabilise earnings and return to growth

- » Strengthen our brand portfolio to increase our appeal to a wider range of consumers
- » Optimise our revenue management by optimising price, pack architecture and strengthening our promotional management
- » Redesign the route to market model to improve cost to serve and better leverage our scale
- » Restructure our cost base to deliver ongoing productivity gains
- » New Zealand – deliver steady earnings and volume growth

Indonesia – Expand our market presence in Indonesia to realise the market's potential

- » Improve product availability and affordability across different channels
- » Build brand strength and channel relevance through multi-category portfolio
- » Drive cost competitiveness from operating leverage, transformed route-to-market and reduced complexity
- » Agreement for a US\$500m equity investment by KO into CCA Indonesia to accelerate growth plan with aligned volume and return targets

Alcohol – Continue to build our alcoholic beverage portfolio in Australia and New Zealand

- » Strengthen our product offering and customer servicing capability to the licensed channel by leveraging CCA's large-scale sales, manufacturing and distribution infrastructure assets

SPC – Invest to restore SPC to a profitable, modern food business

- » Strong transformation plan to revitalise the brand portfolio and return the business to growth

19

Invest to restore SPC to a profitable, modern food business

- » Strong transformation plan to revitalise the brand portfolio and return the business to growth
- » Early wins with increased consumer and customer uptake translating to improving cash flow and returns profile

Our vision for CCA gives us a clear and optimistic picture of success

CCA
COCA-COLA AMATIL

INITIATIVE OWNERSHIP

STRAIGHT FORWARD OPEN

TODAY TOMORROW

CCA
COCA-COLA AMATIL

2015-2017 Financial targets

Group EPS

- » No further decline in EPS after 2014
- » Targeting to return to mid single-digit EPS growth levels
- » The pace of recovery will depend on the success of revenue initiatives in Australia and Indonesian economic factors

Capital expenditure

- Group capex – ~\$310m pa for next 3 years
- » Australia & NZ – at or below depreciation
- » Indonesia – KO US\$500m capital injection supports capex of ~\$150m pa for 3-4 years
- » SPCA – \$100m over next 3 years comprising \$78m CCA investment and \$22m funding from Vic govt

Dividend outlook

- » Well placed to target dividend payout ratio of over 80% given strength of cash flow generation

Balance sheet

- » Maintain conservative debt levels to provide flexibility to fund future growth opportunities
- » Potential to pursue capital management initiatives
- » Bolt-on acquisitions only

CCA Investor Briefing Financial Review

30 October 2014

Nessa O'Sullivan Group Chief Financial Officer

1

2015-2017 Financial targets

Group EPS

- » No further decline in EPS after 2014
- » Targeting to return to mid single-digit EPS growth levels
- » The pace of recovery will depend on the success of revenue initiatives in Australia and Indonesian economic factors

Capital expenditure

- Group capex – ~\$310m pa for next 3 years
- » Australia & NZ – at or below depreciation
- » Indonesia – KO US\$500m capital injection supports capex of ~\$150m pa for 3-4 years
- » SPCA – \$100m over next 3 years comprising \$78m CCA investment and \$22m funding from Vic govt

Dividend outlook

- » Well placed to target dividend payout ratio of over 80% given strength of cash flow generation

Balance sheet

- » Maintain conservative debt levels to provide flexibility to fund future growth opportunities
- » Potential to pursue capital management initiatives
- » Bolt-on acquisitions only

2

Capital investment over past 5 years has added material capability and provides a strong platform for future growth

Major investments:

Australia & NZ

- » PET blowfill has light-weighted bottles, reduced freight movements, increased production capacity by ~20% and reduced conversion costs
- » Automated and semi-automated warehousing

Indonesia

- » Increased production and warehousing capacity and cold drink penetration

Group

- » State-of-the-art end to end IT platform
- » Upgraded cold drink equipment fleet – younger fleet with lower maintenance costs

3

The disciplined approach to capital investment has also delivered strong returns – well in excess of WACC

» 5 years of up-weighted capex with average capex/depreciation of 1.7x

» Capital investment consistently delivering returns well in excess of the cost of capital

» ROCE has remained over 20% throughout a period of ongoing high capital investment

» Business now well placed for growth with strong cold drink presence in developed markets, modern infrastructure and high tech warehousing, plant and equipment

4

Strong cash flow generation with reducing capital spend profile enabled by historic investment in high quality assets

- » Growing free cash flow generation despite high levels of capital investment over the past 5 years
- » Major investments completed across all parts of the supply chain in Australia and NZ with opportunity to sweat the assets harder
- » We have excess capacity, high tech equipment and the ability to reduce fixed costs in Australia
- » Strong cash generation expected to continue with outlook for reduced Group capex over next three years
- » KO US\$500m equity injection to support A\$150m annual capex across 2015-2017 in Indonesia

5

Conservative debt maturity profile and management of debt maturities

- » Management of debt profile has avoided any significant refinancing risk in any particular year
- » Borrowing maturities pre-funded until March 2016 (A\$727 million)
- » No net interest cost for pre-funding of debt maturities
- » Average debt maturity of 4 years

6

Diversified funding sources

- » Funding sourced in a number of different capital markets and currencies to generate optimal mix of lower borrowing margins and maximum tenor
- » Maintain access to a number of capital markets through the establishment of debt programs
- » All foreign currency debt issues are fully hedged into the required local currency

7

Strong financial management has enabled the funding of growing dividends over time

- » While dividends have dropped with recent earnings decline, strong free cash flow generation has supported the high payout ratio
- » Well placed to continue to target dividend payout ratio of over 80% over the next 3 years given strength of cash flow generation

Appropriate gearing levels to fund dividends, capex investment and maintain strong credit ratings, with flexibility to fund growth opportunities

- » Balance sheet, debt book and interest cover all in a strong position
- » Capital investment has added material capability to the business. Opportunity now to further sweat the asset base
- » Despite material investment in capex and increase in dividend payout ratio, net debt remained broadly flat over the past 6 years
- » Conservative debt book with A3/BBB+ credit rating and maturities fully funded to mid 2015
- » Capability to fund high dividend payout and future growth opportunities

9

CCA Investor Briefing Strategic Review

30 October 2014

Barry O'Connell Managing Director – Australian Beverages

1

Perspective

Addressing fundamental structural challenges, stabilising earnings & setting CCA up for sustainable growth

There are no silver bullets but rather a strategic plan based on "doing what's right for the business" over the long term

- Consumer driven and customer focused
- Intelligent cost out, reallocated against growth prioritise
- Building organisational capability, culture & engagement

Leveraging our significant strengths

- Portfolio & brands
- Infrastructure (Manufacturing, RTM & Chilled Equipment)
- People & customer relationships

Recognising the need move quickly and consider other options

- Scale & nimbleness
- Different business models

Extensive change management approach

- Aligning stakeholders around our journey
- Establish a professional Project Management Office
- Continuous focus on engagement

In the face of key challenges, we're planning significant changes to our strategy

Key challenges

Health & artificiality
+
Affordability
+
Engagement & relevance
+
Customer concentration
+
Revenue & cost imbalance

Driving fundamental shifts in our strategy across our whole business

From...

...To

Volume & Price-led revenue growth

Transaction & Mix-led revenue growth

Declining loyal consumer base

Increased product and brand relevance to key consumers

Declining/dispersed marketing investment and impact

Up-weighted, focused marketing investment

Lost outlet execution and revenue management discipline

People and technology-led route to market and RGM discipline

High fixed cost investment / slowing growth

Balanced revenue growth / cost optimisation

5

Broadening our Base

Our strategy recognises the importance of broadening our consumer base and re-engaging with key target groups - including teens

Past 4 weeks teen consumption

47%

+10ppt

Incremental
3 million consumption occasions

A focus on new entry and frequency packs using proprietary formats and targeting magic price points

Mid-size PET frequency pack

Small size PET entry pack

250ml can entry pack

ILLUSTRATIVE EXAMPLES

- Extensive consumer research to determine optimal pack/price.
- Launch of new 250ml entry pack at single gold coin price point
- Further in-market trials of several options, starting next month.
- A focus on entry (portion size & affordability) and frequency packs
- Next step planned for mid 2015 marked by 100 year anniversary of the contour bottle

7

We're already making good progress with new entry 250ml can packs

Entry pack
250ml can at \$2.00
55 days in...

- 16% of 250ml can consumers have not bought a CSD in the last 3 months. 5% are completely new CSD consumers*
- Single serve transactions have grown by 6.6% since launch of the 250ml can
- Flavours and Vanilla Coke are over indexing
- Early indications of a positive halo effect over the rest of the range

250ml can is 4th highest selling cold drink SKU*

UPSPW

* CCA sample customer data

In the face of key challenges, we're planning significant changes to our strategy

22

Accelerating our leadership of Flavoured CSDs, leveraging price elasticity and product/flavour innovation

ILLUSTRATIVE EXAMPLES ONLY

- Flavours is a key entry point into the CSD category, particularly clear lemonades
- CCA'S combined portfolio has the highest market share and household penetration of all players in the Flavoured CSD segment
- Our insights from our promotional analysis work allows us to target higher elasticity of Flavoured CSDs with at a sustained competitive "sweet spot"
- Flavoured CSDs also respond to variety and novelty. We have a strong pipeline of product and flavour innovation across all brands

23

Expanded participation across all key segments of the water category – focused on category value growth

ILLUSTRATIVE EXAMPLES ONLY

Low Cost Value Water

- We'll partner with customers in value water segments where this will drive sustained category value growth
- We will develop Pure Springs as a branded value water where affordability is a purchase driver

Premium Branded Water

- We will up-weight brand investment behind Australia's leading premium branded water
- We will launch a range of packaging and flavour innovations during 2015-17

Enhanced Water

- We have identified untapped category value potential in an enhanced premium water segment
- We will bring new innovations to this segment during 2015-17.

24

Continued momentum

We will continue the momentum in the sports and energy categories

- In 2014 we've grown volume by 7.7% and increased category share by 2.0% through up-weighted media and pack innovation
- During 2015-17 we will launch new product and pack innovations, further enhancing functionality for the consumer

- In 2014 we've grown our energy volume by 11.8% and increased category share by 3.2% through improved media, pricing and product innovation
- During 2015-17 we'll continue our challenger strategy and expand our brand presence by targeting growing needs and occasions

Source: Volume growth CCA ex factory YTD October; Aztec volume share calendar YTD 12/10/14, weighted combined grocery/convenience

25

Early momentum

We'll continue to roll-out the Barista Bros. brand - building on the initial launch momentum

Weekly volume growth

Physical cases

Week 0
(Queensland launch)

Week 9
(National launch)

Week 17

- Already we've gained penetration in nearly 11,000 outlets with close to 70% re-ordering
- 2015 will see an expanded range of flavours and formats

Source: CCA internal data

26

Accelerating
other
segments

We have prioritised a few key segments to enter or accelerate over the next 3-5 years*

ILLUSTRATIVE EXAMPLES ONLY

- We have access to a large range of innovative NPD options through the global TCCC network
- Together with TCCC we are testing various approaches to successfully enter and grow in new and emerging categories, including "light-touch" import models such as for Zico

* Not necessarily those shown

27

Reducing
calories

We'll continue to take the lead in reduced kJ, optimal portion sizes and increased beverage choice

- 100% of our core brands have a low/no cal. option
- More than 1/3rd of total volume is in no/low cal. options
- kJ per L have reduced by 8% since 2004
- We will increase our industry leadership role in continuing to innovate and communicate around portfolio choice

Changes in CCA's total portfolio

In the face of key challenges, we're planning significant changes to our strategy

29

We plan a significant increase in media spend
and overall marketing spend impact

- Significant up-weight of media spend on both TCCC and CCA brands
 - Key strategy streams (e.g teens, medium families) with 52 week support
 - Increased action standards on quality of communication
 - TCCC and CCA jointly working on driving productivity out of total pooled marketing resource

* Combined CCA and TCCC

In the face of key challenges, we're planning significant changes to our strategy

Key challenges

Health & artificiality
+
Affordability
+
Engagement & relevance
+
Customer concentration
+
Revenue & cost imbalance

Driving fundamental shifts in our strategy across our whole business

From...

...To

Volume & Price-led revenue growth

Transaction & Mix-led revenue growth

Declining loyal consumer base

Increased product and brand relevance to key consumers

Declining/dispersed marketing investment and impact

Up-weighted, focused marketing investment

Lost outlet execution and revenue management discipline

People and technology-led route to market and RGM discipline

High fixed cost investment / slowing growth

Balanced revenue growth / cost optimisation

Disciplined allocation & management

Introducing Sales Force Effectiveness (SFE)

A simple, disciplined and pragmatic process that focuses the efforts of the frontline sales force against driving the critical metrics that enhance business performance and enable sales managers to:

Focus on real time performance management at route & national level

Real time visibility of Sales achievement versus target

- ✓ Your Performance compared to your Sales Team
- ✓ Full visibility of Field Sales progress to Sales Management
- ✓ All transactions timed and geo-coded for further analysis

Identifying opportunities at outlet level with accompanying profit stories

Profit Story functionality allows BDEs to create win-win profit outcomes for any customer

- ✓ Visual display of customer profit and volume
- ✓ Comparisons based on best in segment volumes to show size of opportunity
- ✓ Ability to manipulate volumes by product category & show customer profit potential

35

From Q1 2015 we will put our mobile technology in the hands of our customers

SaM Capability, myCCA Simplicity

- ✓ Full mobile capability
- ✓ In the hands of the customer
- ✓ On a mobile device
- ✓ Supported by the call centre and sales

36

RTM

Targeted insights, self service upsell, cross sell and product ranging

37

RTM

Customer service enhancements

38

Technology will also enable a range of improvements to our current pricing architecture

Improve route discount architecture

- Re-design route discount architecture to ensure more disciplined pricing, rewarding customers for execution and performance, via IT enabled compliance tracking and a value-linked discount qualification model

Limit sub-wholesaling

- Limit sub-wholesaling from national accounts via systems and processes to identify extraordinary ordering spikes, block 'illegitimate' orders, and provide alternate offers

Address can leakage

- Address route promotions/pricing to reduce can leakage from grocery by introducing systems and processes to identify, target and provide alternate offers to relevant customers

39

The next phase of development "Making the complex simple & the simple compelling"

Order Taker

- High Touch
- Manual
- Sales Army
- Bricks and mortar
- Doing business with ourselves

Business Partner

- Low touch
- Automated / Self Serve
- Account Professional
- Virtualised
- Growing our customers business

40

A comprehensive approach to identifying productivity opportunities and a structured change management programme to realise

Optimise supply chain

- Streamline operations and drive continuous improvement
- Optimise supply chain support model
- Significantly reduce SKU's/portfolio complexity

Maximise value from third party spend

- Buy better: drive to lowest cost of supply across all spend
- Spend smarter: implement best practice supplier relationship management principles

Optimise support model

- Simplify, standardise and automate support model
- Build talent and organisational capability for a "low touch" high-value-add support model
- Better leverage our scale

Targeted reduction of cost base by ~\$100m over 3 years

Coordinated with Systems Development & Exploitation

Dedicated Project Management Office to track

43

What's changing

We've a renewed focus on the most important enabler of our new strategy – our people

Key challenges

- Health & artificiality
- + Affordability
- + Engagement & relevance
- + Customer concentration
- + Revenue & cost imbalance

Driving fundamental shifts in our strategy across our whole business

From...

...To

Volume-led revenue growth

Transaction-led revenue growth

Declining loyal consumer base

Increased product and brand relevance to key consumers

Declining/dispersed marketing investment and impact

Up-weighted, focused marketing investment

Lost outlet execution and revenue management discipline

People and technology-led route to market and RGM discipline

High fixed cost investment / slowing growth

Balanced revenue growth / cost optimisation

Unrivalled Capability

Winning Culture

Inspired Leadership

44

Australia – Australian Beverages

Executive Team

Confidence

Why we have every reason to be confident in our plan

128 years of hydration, energy, uplift and optimism wrapped up in one of the world's most powerful brands

We will re-engage with this universal desire and renew the magic of Coca-Cola

A business that has evolved its portfolio to meet changing consumer and customer needs

We will continue to evolve our portfolio further within a strategic framework, leveraging the power of a global Coca-Cola System and adopting a flexible and agile approach to each opportunity

A business that has been built on route to market strength and executional discipline

We will re-define our route to market by combining executional discipline with break through selling solutions

Unrivalled manufacturing and distribution and cold drink capability

We will leverage our infra-structure advantage whilst building a lean and agile supply chain

4500 passionate people who care very deeply about CCA's success

A renewed energy and drive with an experienced & fresh leadership perspective

CCA Investor Briefing Indonesia

30 October 2014

Kadir Gunduz Managing Director, Indonesia & PNG

Indonesian Strategy Update

- **Indonesia is a big, long-term opportunity**
 - Large population, favourable demographics, strong GDP growth
 - Large manufacturing footprint, extensive distribution network and wide product range, puts us in a strong position to capture this opportunity
- **The operating environment however continues to be challenging**
 - Increasingly fragmented competitive landscape
 - Difficult but typical emerging market macro conditions putting significant pressure on costs, e.g. inflation, FX
- **We are investing (as a system) in Indonesia to win, transforming our business to further leverage our existing footprint, to be in a leading position and to be leaner and more competitive**
 - Transform route-to-market model
 - Refine revenue management
 - Cost-out, drive efficiency and productivity
- **We are following a road map strategy. Early signs are positive**

World's largest archipelago nation – over 17,500 islands, population of ~255m. Java, population of ~145m, is the most densely populated island in the world

3

Strong economic fundamentals are driving growth in GDP per capita, resulting in material growth in disposable income and consumer spending

GDP per capita rapidly increasing

...with material growth in disposable income

Rapidly growing affluent & middle classes

...and 63m people in the key 15-29yr old market

Assuming Indonesia follows a similar GDP per capita trajectory to its neighbours, it could see sustained economic growth for decades

Malaysia GDP per capita is currently 15 years of growth ahead of Indonesia...

... while GDP per capita of some advanced Asian economies are ahead of Malaysia by over 20 years

Source: The World Bank

5

Our manufacturing and route-to-market footprint gives us a solid foundation to capture this growth opportunity

National Manufacturing & Distribution network:

- 9 manufacturing sites
- 38 production lines (with capacity of ~1.6bn litres of beverages) and ~60% self sufficient on Preforms via self manufacture
- Over 1,300 distribution vehicles

National Salesforce of ~4,000 people:

- Selling a full range NARTD beverage portfolio
- We reach ~1.6million customers both directly and indirectly
- With ~300,000 pieces of Cold Drink Equipment in the market

Our strong product portfolio across all commercial beverage categories supports our position to capture growth in the NARTD market

Sparkling

Tea

Juice

Dairy

Isotonic

Water

Cold drink investment allows us to create / own significant cold space in a highly fragmented market

- 300,000 CCA coolers in the market
- Supported by a complete beverage portfolio vs competitors
- Space in outlet and electricity challenges - equipment innovation has delivered optimal coolers for Indonesian market

Cooler Units per 10k Population

Indonesian Strategy Update

- Indonesia is a big, long-term opportunity
 - Large population, favourable demographics, strong GDP growth
 - Large manufacturing footprint, extensive distribution network and wide product range, puts us in a strong position to capture this opportunity
- The operating environment however continues to be challenging
 - Increasingly fragmented competitive landscape
 - Difficult but typical emerging market macro conditions putting significant pressure on costs, e.g. inflation, FX
- We are investing (as a system) in Indonesia to win, transforming our business to further leverage our existing footprint, to be in a leading position and to be leaner and more competitive
 - Transform route-to-market model
 - Refine revenue management
 - Cost-out, drive efficiency and productivity
- We are following a road map strategy. Early signs are positive

9

The significant growth potential of the market has attracted many new players across each of the key product categories

NARTD industry structure (early 2000s)

Generally one company dominated each category, market's low-end highly fragmented

NARTD industry structure (2013)

New and credible players in each category, only Aqua has sustained in category dominance

These new entrants include both local and international beverage suppliers often with a strong product offering focused in 1 or 2 categories

Major recent developments	<ul style="list-style-type: none"> New category entry 	<ul style="list-style-type: none"> Major capacity investment 	<ul style="list-style-type: none"> Sparkling entry 	<ul style="list-style-type: none"> Affordable offering in Tea category 	<ul style="list-style-type: none"> Cross category promotions 	<ul style="list-style-type: none"> Acquired #2 water player Capacity investment

CCAI Share of NARTD Market: Volume 8.5% Value 18.1%

* Source: AC Nielsen & CCA Estimates

11

Resulting in accelerated NARTD growth that came predominantly with affordable offerings and further fragmentation

CCA Buavita Sosro Otsuka
 Pepsi Wings Group Tekita Other
 AJE Indonesia Danone The Gelas

NARTD market (excl. water and dairy), 2003

Total volume = 243m unit cases, CCA = 40% of volume

NARTD market (excl. water and dairy), 2013

Total volume = 743m unit cases, CCA = 20% of volume

While market fundamentals remain strong, current headwinds from high inflation and exchange rate movements creates volatility

Inflation driven partly by reduction of fuel subsidies

With depreciation of the Rupiah

- Indonesia is an emerging market
- Growth is expected to be volatile
 - Depreciation in IDR relative to USD impacted input costs by A\$19m in 1H14
 - Minimum wage has grown 14% pa on average for the past 3 years
- Market fundamentals remain strong

And high growth in minimum wages

Source: Bank Indonesia. Minimum wage sourced from Badan Pusan Statistik

13

Indonesian Strategy Update

- Indonesia is a big, long-term opportunity
 - Large population, favourable demographics, strong GDP growth
 - Large manufacturing footprint, extensive distribution network and wide product range, puts us in a strong position to capture this opportunity
- The operating environment however continues to be challenging
 - Increasingly fragmented competitive landscape
 - Difficult but typical emerging market macro conditions putting significant pressure on costs, e.g. inflation, FX
- We are investing (as a system) in Indonesia to win, transforming our business to further leverage our existing footprint, to be in a leading position and to be leaner and more competitive
 - Transform route-to-market model
 - Refine revenue management
 - Cost-out, drive efficiency and productivity
- We are following a road map strategy. Early signs are positive

Our Mission : To become the leading NARTD beverage company in Indonesia by value with unsurpassed brand strength and segmented execution capabilities, capturing the emerging middle class consumer opportunities

	Objectives	Plan Metrics
Market Leadership	Obtain and maintain a leading market position by achieving above market growth	<ul style="list-style-type: none"> Target annual growth in excess of market growth rates for the next 10 years
Returns	Provide economic returns to shareholders that exceed the cost of capital of CCAI	<ul style="list-style-type: none"> CCAI returns progressing to be greater than WACC by 2020
	Ensure sufficient profitability to provide business investment and shareholder returns	<ul style="list-style-type: none"> EBIT margin progressing to 10% by 2023 Cost growing less than inflation through increasing scale and productivity improvements

Our Mission Statement is driven by 4 strategic priorities....

....and supported by 3 key enablers

Transform route-to-market model

Refine revenue management

Cost-out, while also leveraging scale and efficiency

Transform
route-to-
market
model

Opportunities exist within existing CCAI stockists to increase product range and penetration and in existing NARTD outlets that are yet to stock CCAI products

CCAI Outlet Coverage by Category

Our new RTM model will leverage the efficiency of third party distribution while retaining and enhancing our competitive edge from owning the account development and order generation

Our new RTM model will drive portfolio availability by increasing direct coverage and actively managing the wholesaler network

Our new RTM model will allow us to rationalise our distribution / warehousing network

2014

- **85 Distribution Centres**
- **~1,300 distribution vehicles**

2017

- **~55 Distribution Centres**
- **~600 distribution vehicles**

We will refine our revenue management through product, geography and channel mix to reduce reliance on pricing

Refine
revenue
management

Strengthen pack-price architecture

- Packaging initiatives to target affordability to maintain overall profitability
- Promote recruitment into higher margin categories and packs

Optimize channel and cross-channel execution

- Channel specific pack/price architecture
- Cross channel execution to be complimentary to each other
- Occasion specific channel execution

Capture regional opportunities

- Right pack at the right price in the right location
- Rationalise SKU's by region
- Improve trade marketing programs to target regional area's with key regional packs

We are refining our pack-price architecture to address affordability and increase penetration by reaching through to emerging customers

23

Cost out,
while
leveraging
scale and
efficiency

Reinvent our cost base to be a leaner, more competitive organisation

Localised Production

- Reduction in out of stock issues
- Improved customer service
- Improving supply chain efficiencies
- Freight cost savings
- Cost advantage over non-localised competitors

Reduce Manufacturing complexity and harness efficiencies

- Reduce the numbers of SKU's
- Drive cost savings through primary and secondary packaging initiatives
- Improve operational efficiency and labour productivity

Shifting to localised production will substantially reduce service lead times and provide freight cost savings

Example: Medan Hotfill line (Juice & Tea)

- Installed in 2013
- Service lead times improved from ~22 days to 1-3 days
- Out of Stocks reduced from 6.9% in 2012 to 0.9% in 2013

Cost-out through reducing manufacturing complexity and packaging initiatives in the short-term, followed by harnessing productivity benefits over time as the business grows

Cost-out over time

Efficiency

Scale

Reduce complexity by delisting ~30% of SKUs

Light-weight packaging and energy saving initiatives

Improve operational efficiency

Improve labour productivity

Cost savings of up to IDR300bn over 3 years

OEE (%)

55%

2014

We are regaining share momentum across all key categories

*Juice and Tea market share charts do not show volume share of the leading competitor (Juice: Ale Ale @49.9% & Tea: Teh Gelas @28.8% respectively) as cups are their predominant SKU

In 2013 our revenue per case was in decline. We have arrested this trend in 2014

Trading revenue per unit case, 2013 - YTD 2014

35

Transformation will be driven by Route to Market, Revenue Management and Scale Driven Productivity Efficiencies which will deliver sustainable earnings growth

Summary

2014-2017

Transform Route to Market model

- Delivery/warehousing rationalisation
- Increase salesforce selling skills
- Improve market execution

Directly Served Outlets +250,000 by end of 2016

Portfolio Coverage +10%

Volume in excess of market growth

Refine Revenue Management

- Strengthen pack price architecture
- Optimize execution within and across channels
- Capture more regional opportunities

Rate per case is maintained despite negative mix impact

Cost-out, while also leveraging scale and efficiency

- Localized manufacturing to improve customer service, reduce costs
- Drive manufacturing efficiencies via portfolio and process rationalization
- Packaging initiatives to take cost out of the business

Cost increase is less than rate of inflation,
Cost per case is declined

CCA Investor Briefing Alcoholic Beverages

30 October 2014

Shane Richardson Managing Director – Alcohol & Coffee

REKORDERIG

THE MOLSON BREW
COMPANY INC.

1

CCA's alcohol plan provides a strong platform for growth

- » CCA's large scale sales and customer service model provides a competitive advantage to leverage further into complimentary alcoholic beverage categories
 - A powerful non-alcoholic beverage offering
 - Strong partners in alcoholic beverages
 - Experienced team with success in developing both partner and CCA owned brands
- » Strategy is to strengthen the base business and expand into targeted segments
 - Continue to innovate to grow in Spirits and RTD's
 - Drive exports from Paradise Beverages
 - Continue to re-establish CCA's presence in beer and aggressively grow in targeted segments
 - Strengthen and grow our Cider portfolio

Alcohol provides great opportunity for CCA

Expanding in complementary categories increases the opportunity for contestable profitability.

Note: Profit Pools reflect net contribution and are indicative estimates only; *Licensed Channel only; **Total Coffee – includes Grocery
Source: CCA Data; Hot Drinks In Australia; Euromonitor March 2012; Aztec; AC Nielsen; projected on 5 yr CAGR.

3

CCA has a large scale sales and customer service platform to leverage into alcoholic beverages

A powerful non-alcoholic beverage platform

- ~20,000 Licensed outlets
- Full non-alcoholic beverage and coffee range
- Fountain and packaged

- CCA representative share of Non Alc fountain

5

And strong partners in alcoholic beverages and a portfolio of CCA owned brands

THE BOSTON BEER COMPANY INC.

Australian BEER Co
FROM THE LAND OF SUNSHINE AUSTRALIAN BEERS

6

CCA Alcohol will strengthen its base and expand into targeted segments

Consolidate and grow the core established businesses

Continue to innovate to grow the Spirits and RTD portfolio

Drive the export market opportunity for Paradise Beverages

Accelerate emerging categories and segments to achieve scale

Re-establish CCA's presence in beer and aggressively grow in targeted segments

Strengthen and grow our cider portfolio – A two pronged strategy to win

7

CCA has a leading portfolio of must-stock spirits

- » Anchored by Jim Beam White – the largest selling spirit in Australia supported with a heavyweight through the line program
- » Canadian Club continuing its meteoric growth on the back of an excellent media campaign with more to come
- » CCA spirits range covers all 1st pour categories
- » A Comprehensive back-of-bar range with Strong premium credentials in key categories
- » The introduction of 'The Exchange', our in-house premium brand experts
- » Continued innovation within the RTD category

8

Strong plan to continue to grow the Spirit and RTD portfolio

Jim Beam

Maintain and enhance Jim Beam's #1 position in spirits & RTDs

Canadian Club

Continue to accelerate the growth of Canadian Club

Core Spirits

Increase penetration of core spirits

Premium Spirits

Accelerate the growth of our premium portfolio

THE EXCHANGE

9

Drive exports from Paradise Beverages

Paradise Beverages dominates its local markets. Growth opportunities lie in 4 key export regions – especially in our highly awarded Rum

Asia

Australia

North America

Europe

FIJI RUM CO

Awarded 14 Gold, 20 Silver and 3 Bronze medals from Major Shows around the World

10

Re-establish our presence in beer and aggressively grow in targeted segments

Market forces favour the continuing growth of International Premium and Craft Beers

Australians are drinking differently...

...resulting in very significant growth in Premium Imported and Craft – a trend expected to continue...

...supported by macro consumer trends...

...and facilitated by pricing convergence

Source: Roy Morgan Single Source (Australia) Alcohol Drinkers 18+ (2010-2014) average annual n=19,322; Aztec, AC Nielsen; Euromonitor

11

CCA has a portfolio of Premium International and Craft brands well positioned in growth segments
