3. INVESTMENT OVERVIEW

This section is a summary only and not intended to provide full information for investors intending to apply for Securities offered pursuant to this Prospectus. Investors should read this document in its entirety and, if in doubt as to any of the matters set out in the Prospectus, should consult their professional advisers.

3.1 Company History

The Company was incorporated on 1 September 1983 as Boulder Gold NL and was subsequently listed on the ASX. The Company's name was changed to Boulder Group NL during 1994 and the Company's company type was subsequently changed and it adopted its current name, Boulder Steel Ltd, during 2000. The Company is allocated the ASX code "BGD".

The Company, a materials company, is currently engaged in a joint venture (summarised in Section 7.2) for the purpose of the planning and development of the Euroa Steel Plant Project (**Project**), a conceptual integrated steel making plant proposed to be built in Gladstone, Queensland.

The Company has previously sought to progress an incomplete Environmental Impact Study (**EIS**) for the Project. The initial advice statement for the Project was submitted to the Queensland State Government on 12 November 2008. On 6 March 2009, the project was referred to the Commonwealth Minister for the Environment.

The EIS went through a public consultation period from 12 January 2013 to 25 February 2013. Additional information concerning the EIS was required to be provided in order to progress the EIS, which remains incomplete.

3.2 Administration overview

On 22 July 2013, the Company's securities were suspended from Official Quotation.

On or about 22 July 2013, the Company's former Board resolved to place the Company into voluntary administration and appointed Messrs Trevor Pogroske and Said Jahani of Grant Thornton Australia Limited as joint and several administrators of the Company.

On 29 October 2013, at an adjourned second meeting of creditors of the Company, the creditors of the Company resolved to end the voluntary administration and control was handed back to the Company's previous directors.

On or about 30 October 2013, Steven Nicols of Nicols + Brien Business Recovery was appointed as administrator of the Company (**Administrator**). Following appointment of the Administrator, the powers of the Company's officers (including its previous directors) were suspended and the Administrator assumed control of the Company's business, property and affairs.

On 4 February 2014, at an adjourned meeting of creditors with claims against the Company arising on or before 30 October 2013 (**Claims**) those creditors of the Company (**Creditors**) resolved to execute a deed of company arrangement (**DOCA**). The Company, the proponent of the Company's recapitalisation (Otsana Pty Ltd trading as Otsana Capital, **Otsana Capital**) and the Administrator executed the final form of the DOCA on 27 February 2014, which embodied a proposal by Otsana Capital for the reconstruction and

recapitalisation of the Company (**Recapitalisation Proposal**). Under the terms of the DOCA, the Administrator was appointed as deed administrator of the DOCA (**Deed Administrator**). Otsana Capital is a related party of the Company as Otsana Capital is controlled by a Director of the Company, Faldi Ismail who also holds all the shares in Otsana Capital. Another Director of the Company, Mr Nicholas Young, and the Company's Company Secretary, Mr Andrew Rowell, consult to Otsana Capital.

The Company will not need to re-comply with Chapters 1 and 2 of the ASX Listing Rules as a result of the Recapitalisation Proposal.

3.3 Otsana Capital Recapitalisation Proposal

On 10 September 2014, the DOCA was wholly effectuated and control was handed back to the Directors of the Company. Accordingly, the Company is no longer subject to external administration.

In summary, the Recapitalisation Proposal involved:

- (a) a syndicate of investors nominated by and including Otsana Capital, including two of the Directors, Faldi Ismail and Nicholas Young, and a former director of the Company, John Ciganek (and their nominees), being approved by Shareholders to receive Securities pursuant to the General Placement and Promoter Placement as described in Section 3.12 (which parties, along with any other person nominated by Otsana Capital, and their associates, are the **Syndicate**). Shareholders' approval was received for those purposes at a General Meeting held by the Company on 4 September 2014 (**General Meeting**);
- (b) Otsana Capital procured the payment of a non-refundable deposit of \$100,000 to the Administrator (**Deposit**). If, for any reason, the Company was recapitalised by a party other than Otsana Capital or the assets of the Company are sold, then the Deed Administrator would repay Otsana Capital the Deposit from the proceeds of that other recapitalisation proposal or assets sale, in priority to any other payments and immediately after the receipt of those proceeds;
- (c) the Company will pay a further \$100,000 (subject to potential offsets for certain costs which may be incurred by the Company relevant to the DOCA) to the trustee of the trust fund established pursuant to a Creditors' Trust Deed in relation to the DOCA, to hold the Creditor Payment (which is defined below) and any other assets on trust pursuant to the terms of the Creditors' Trust Deed and DOCA (**Creditors' Trust**) within five days of the Company obtaining ASX reinstatement to official quotation on the ASX. The Company has entered into an agreement with Gladstone Steel Pty Ltd (ACN 169 371 028) (**GSPL**) whereby GSPL has agreed to contribute 50% of this amount, being \$50,000;
- (d) the Company consolidating its existing securities on a 1 for 46 basis rounded up to the nearest whole number (**Consolidation**), which has occurred;
- (e) the Company proceeding with the issues of securities the subject of the General Placement and Promoter Placement (on a post-Consolidation basis);
- (f) the Company will use \$250,000 of the funds raised from the General Placement and Promoter Placement to reimburse lenders (summarised

in Section 7.4 of this Prospectus, which lenders will also be paid interest as disclosed in that Section) for paying part of the total amount of \$600,000 which was owing and which has been paid or is payable to Creditors pursuant to the DOCA (**Creditor Payment** which payment is also inclusive of the Deposit, a further \$150,000 of which Otsana Capital previously procured to be paid and the \$100,000 amount described in Section 3.3(c));

- (g) new directors being appointed to the board of directors of the Company and all of the existing directors resigning (which has now occurred);
- (h) the Deed Administrator de-registering or liquidating the existing subsidiaries, including Boulder Steel (UAE) Limited, EFS Holdings Pty Limited and GSPP Limited, which is in the process of occurring; and
- (i) the claims of Creditors of the Company which are subject to the DOCA being compromised pursuant to the DOCA (which has occurred).

Further to the Recapitalisation Proposal, it was agreed that the Company would do the following:

- (j) incorporate or acquire a company to be jointly owned by the Company and GSPL, this company is Euroa Steel Plant Project Pty Ltd (**ESPP**) (which has occurred);
- (k) attend to transfer all of the existing business and assets of the Company to ESPP (which has occurred);
- (l) in consideration for the payment on behalf of the Company of 50% of the Creditor Payment to the Deed Administrator, \$250,000 of which was paid by Mr Paul Sundstrom (a director of ESPP and GSPL and the shareholder of GSPL) and \$50,000 of which is due to be paid by funding from GSPL within five days after the Company obtains reinstatement to official quotation on the ASX, which may or may not occur), GSPL has acquired a 50% interest in an incorporated joint venture company (ESPP) that holds the previous assets of the Company after the DOCA was effectuated (as summarised in Sections 7.1 and 7.2); and
- (m) the Company now holds a 50% interest in ESPP being the incorporated joint venture with GSPL over the pre-existing assets of the Company, which have been transferred to ESPP.

Under the Recapitalisation Proposal, it was agreed that the Creditor Payment would be paid to the Deed Administrator as trustee of the Creditors' Trust to satisfy Creditors' Claims under the DOCA. A Creditors' Trust Deed has been established which will be used to pay the Deed Administrator's fees and costs and the Administrator's fees and costs in his capacity as trustee of the Creditors' Trust and costs arising from the DOCA and administration, with the balance distributed to Creditors as full and final settlement of the Company's outstanding debts arising on or prior to the appointment of the Administrator of the Company on 30 October 2013 and if any funds remain after distribution to the Creditors, the funds will be applied to the Company. No such funds are expected to be received by the Company.

As summarised above, to enable the Company to satisfy its obligations under the DOCA, members of the Syndicate advanced loan funds of \$250,000 to the Company for the payment to the Deed Administrator for the purposes of

satisfying the Creditor Payment (as summarised in section 7.4 of this Prospectus). Accordingly, the Company will repay the loan from members of the Syndicate from the funds raised under the Offers. The Company will be required to pay \$100,000 to the Deed Administrator for the purposes of satisfying Creditors' claims under the Creditors' Trust Deed. Of this amount, \$50,000 will be paid by funding from GSPL to satisfy its obligation summarised above (as further described in Section 7.1).

The Recapitalisation Proposal was set out in the notice of the General Meeting, which notice was dated 7 July 2014. Shareholders voted to approve the necessary resolutions to approve the Recapitalisation Proposal at the General Meeting, including the appointment of a new board of directors.

Following completion of the Offers, the Board intends to review the previous strategy implemented by the Company with a view to the Company seeking to advance its existing business (through the ESPP joint venture) and also pursuing other acquisitions that have a strategic fit for the Company. Thereafter, the business plan going forward will focus on strategies that aim to generate the greatest returns and value for Shareholders (although no forecast is made as to whether that will occur). To this end, the Company has engaged the Lead Manager to explore both complementary and adjacent activity streams as described in Section 7.6.

While no arrangements are currently in place for the Company to acquire new businesses or assets, the Directors propose to seek to attract new business or asset opportunities once the Company has sufficient cash to meet its commitments going forward.

Subject to the successful raising of the minimum raising for the Offers under this Prospectus, and on satisfaction of certain other conditions summarised in Section 3.6 of this Prospectus (which the Company considers to be standard) the Company will seek for the suspension of trading of the Company's Shares and listed Options to acquire a Share (on the terms set out in Section 8.2 of this Prospectus (**Listed Option**)) to be lifted by the ASX.

Project development risks	<p>The Project (as described in Section 6.4 of this Prospectus) has not yet been constructed or approved for construction and is subject to a variety of unfulfilled requirements which currently prevent the Project from being developed or commercialised. Those requirements include, without limitation, governmental and regulatory approvals, feasibility studies, project and construction financing, acquisition of appropriate real estate, access to raw materials to steel production, steel off-take arrangements and sourcing of customers, infrastructure, logistics, labour requirements, export requirements, environmental requirements and technical expertise and advice.</p> <p>The Company makes no representation or forecast as to whether and when any or all of those requirements and others will be fulfilled and there is a likelihood that one or more of them will never be fulfilled and that the Project will never exist or be commercialised.</p> <p>The Project has not been successfully commercialised to date (the Company was previously in voluntary external administration) and the Directors and current management do not have the expertise or experience necessary to develop a steel production project such as the Project.</p> <p>Further, if the Project is constructed, it is proposed to be designed to produce steel in bloom and round billet form (i.e. semi-finished steel) for export to overseas finishing plants. However, no such export arrangements exist currently and there can be no guarantee that such export arrangements will ever be agreed.</p> <p>Consequently, there is a very real risk that the Project will never eventuate and that no value to Security holders will be realised from the Project.</p> <p>This is the reason that the Company has entered into the agreements summarised at Sections 7.1 and 7.2 of this Prospectus, to obtain the assistance of third parties to seek</p>

Risk	Description
Funding Risk	<p>to progress the Project.</p> <p>The effect of the Offers, if they are completed, will be that the Company will have insufficient funds to finance the construction or development of the Project or other costs associated with it.</p> <p>The Company's ability to effectively implement its business and operations plans in the future:</p> <ul style="list-style-type: none"> • to take advantage of opportunities for acquisitions, joint ventures or other business opportunities; and • to meet any unanticipated liabilities or expenses which the Company may incur will depend on whether it can raise additional funds, which may not be achieved. <p>Failure to obtain sufficient financing for the Company's activities and future businesses (if any) may result in delay and indefinite postponement of the Company's business activities or even loss of its assets and undertaking.</p> <p>There can be no assurance that additional finance will be available when needed or, if available, the terms of the financing might not be favourable to the Company and might involve substantial dilution to Shareholders. Further, the Company, in the ordinary course of its operations and developments, may be required to issue financial assurances, such as insurances and bond/bank guarantee instruments.</p>
Financial reporting and AGM breaches	<p>The Company was placed under the control of an external administrator on 22 July 2013. The DOCA was wholly effectuated on 10 September 2014 and control of the Company was returned to the Directors. Furthermore, as at the date of this Prospectus:</p> <ul style="list-style-type: none"> • the Company has failed to hold its annual general meeting for 2013. The Company proposes to issue a notice of meeting of Shareholders for the 2013 annual general meeting, to be held following reinstatement of the Company's quoted Securities to trading on the ASX; • the Company has failed to hold its annual general meeting for 2014. The Company proposes to issue a notice of meeting of Shareholders for the 2014 annual general meeting, to be held following reinstatement of the Company's quoted Securities to trading on the ASX; • the Company failed to lodge its annual report for the financial year ended 30 June 2013 and the half-year report for the 6 months ended 31 December 2013 within the time periods prescribed by the Corporations Act. The Company subsequently released those accounts to the market on 31

Risk	Description
	<p>October 2014 and 3 November 2014; and</p> <ul style="list-style-type: none"> the Company has failed to lodge its annual report for the financial year ended 30 June 2014. The Company subsequently released that annual report on 3 November 2014. <p>The Company cannot guarantee that ASIC will not take enforcement action against the Company in respect of the past breaches outlined above.</p>
Risks associated with the DOCA	<p>Although the DOCA has been wholly effectuated and therefore terminated, and Creditors' Claims now lie against the Creditors' Trust rather than the Company, there remains a risk that Creditors may pursue claims against the Company, even if they lack legal rights to do so. There is a risk that the Company's financial position and financial performance may be detrimentally affected by such events. If that occurs, the Company's Board will take the course of action they consider to be in the best interests of Security holders. The Company's Board is not currently aware of any such claims.</p>
Auditor's opinion	<p><u>Independent Auditor's Reports</u></p> <p>In the independent auditor's opinion set out in the Company's annual financial reports for the period ended 30 June 2013 and the period ended 30 June 2014 and the auditor's review report for the half year ended 31 December 2013 (Outstanding Accounts), due to the Company's records being incomplete the independent auditor was unable to, and did not express, an opinion as to whether the lodged Outstanding Accounts were in accordance with the Corporations Act. Consequently, there is a risk that these accounts may be inaccurate and that the Company's true financial position and performance as at the relevant dates set out above may be materially more adverse than displayed in those accounts.</p> <p>The Company notes, however, that the DOCA process has ensured that all liabilities of the Company up to the date of appointment of the Administrator have now been compromised through the administration process.</p> <p><u>Disclaimers of Opinion</u></p> <p>Ernst & Young, the Company's appointed auditors, have issued a "disclaimer of opinion" on the Company's annual financial report for the period ended 30 June 2014. The "disclaimer of opinion" was due to their inability to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the Company's 30 June 2014 financial report.</p> <p>The Company's annual financial report for the period ended 30 June 2014 was prepared by the Directors, who were not in office at the time the Company entered</p>

Risk	Description
	<p>voluntary administration or for the full period presented in the 30 June 2014 financial report.</p> <p>Due to the above, the Board was unable to conclude without qualification, within its directors' declaration, that the financial statements for the group for the financial year ended 30 June 2014 had been prepared in accordance with the Corporations Act and Australian Accounting Standards, to give a true and fair view of the financial position of the group as at 30 June 2014 and its performance for the year ended on that date.</p> <p>The representation letter provided to the auditors by the Directors was also qualified on the basis that they did not have oversight or control over the group's financial reporting systems for the full period presented in the 30 June 2014 financial report.</p> <p>Similar "disclaimer of opinion" statements were contained in the Company's annual financial report for the period ended 30 June 2013 and the Company's half year report for the period ended 31 December 2013.</p>
Product & Environmental Liability	<p>The Company's business activities could result in claims against the Company including product and environmental liability claims. The Company will seek to maintain adequate liability insurances, however, there can be no assurance that adequate or necessary insurance coverage will be available at an acceptable cost or in sufficient amounts. In the event of product liability claims, insufficient insurance coverage could have a material adverse effect on the Company's results of operations and financial condition. If there is a problem that is attributable to the Company's potential products or services, the market perception of the effectiveness of such products and services could also be harmed. The Company has no current products or services and may never provide any.</p>
Operating risks	<p>As a Company intending to aim to commercialise a business (whilst also assessing new opportunities both in related and unrelated segments), the Company's current and future operations may be affected by a range of factors, including, but not limited to:</p> <ul style="list-style-type: none"> (i) the Project has not yet been commercialised and may never be commercialised; (ii) legal and regulatory requirements and changes in those requirements; (iii) unexpected shortages or increases in the costs of labour, consumables, spare parts, plant and equipment; (iv) inability to obtain necessary licences, consents or approvals; and

Risk	Description
	<p>(v) inability to adequately maintain or fund assets or to obtain goods and services from suppliers.</p> <p>The performance of the Company and its ability to successfully conduct its business activities is not guaranteed. The Company's operations may be affected by a range of factors outside of its control. For example the value of Securities may not keep in pace with inflation.</p>
Risks Associated with Future Acquisitions	<p>The Company may investigate and consider selective acquisitions in its current business area and other industries.</p> <p>There are no assurances that the Company will be able to identify suitable acquisition candidates available for sale at reasonable prices, complete any acquisitions or successfully integrate any acquired business into the Company's operations.</p> <p>Even in the event that future acquisition targets are identified by the Company, there are no assurances of completing these transactions and the due diligence costs and related costs, including the costs of complying with regulatory requirements, could have a material effect on the potential financial viability of the Company.</p> <p>For example, if ASX requires the Company to re-comply with Chapters 1 and 2 of the ASX Listing Rules in the event a future acquisition is proposed, such requirements may be burdensome and carry significant risks, including costs and uncertainty of success.</p> <p>Further, future acquisitions may be outside the scope of the Company's current business model and accordingly the Company may face the additional business risk of integrating disparate operations.</p> <p>Any acquisition will require financing which may create additional risks to the expansion of the Company's business if the proposed allocation of the Company's limited cash resources is required to be varied.</p>
Uncertainty of future profitability	<p>The Company has incurred losses and it is not possible to evaluate the future prospects based on past performance. The Company may never receive revenues or become profitable.</p> <p>Due to the Company's lack of profit history and the immediate lack of any future cash flow from its existing assets, the Company has no current maintainable earnings and its future financial performance and financial position are uncertain.</p>
Dependence on outside parties and contractual risk	<p>The Company has and may continue to pursue a strategy that forms strategic business relationships with other organisations. There can be no assurance that the Company will be able to maintain relationships with or attract such organisations and to negotiate appropriate</p>

Risk	Description
	<p>terms and conditions with these organisations.</p> <p>For example, the Company's disposal of 50% of the Project (pursuant to the agreements summarised in Sections 7.1 and 7.2 of this Prospectus) to GSPL exposes the Company to some risks. For example, if GSPL defaults on its contractual obligations, fails to raise funds to funds the costs of the Project, experiences adverse events such as insolvency or otherwise engages in acts or omissions which are adverse to the Company's interests, the Company may suffer detrimental impacts, including on its financial position and financial performance.</p>
Unforeseen expenditure risk	Expenditure may need to be incurred that has not been taken into account in the preparation of this Prospectus.
Liquidity and price risks	As the Company's Securities have been and are currently suspended from Official Quotation, there is currently no public market for the Company's Securities. The price of its Shares and listed Options sought to be reinstated to ASX quotation is subject to uncertainty and there can be no assurance that an active market for the Company's Shares or listed Options proposed to be reinstated to ASX quotation will develop or continue after the Offers.
Contractors and service providers	The Directors are unable to predict the risk of financial failure, default, insolvency or other managerial failure by any of the contractors or service providers potentially used by the Company in any of its activities and such events could adversely impact on the Company's operations.
Competition risk	The Company's current and future potential competitors include companies with substantially greater resources, in the event the Company is successful in developing any business, which may not occur. There is no assurance that competitors will not succeed in providing services and products that have higher customer appeal.
New Board	<p>The Company has recently appointed a new board of Directors who have limited experience in the industry in which the Company proposes to operate. The Board is aware of the need to have sufficient management to properly supervise its interest in the Project and the Board will continually monitor the management roles in the Company.</p> <p>It will therefore be important that the Company attracts the right personnel to ensure it can appropriately develop the Company's business moving forward. However, there is a risk that the Company may not be able to secure personnel with the relevant experience at the appropriate time which may impact on the Company's interest in the Project.</p>

The above list of risk factors ought not to be taken as exhaustive of the key risks faced by our Company and you should refer to the additional risk factors in

Section 10 of this Prospectus before deciding whether to apply for Securities pursuant to this Prospectus.

3.10 Market price of Shares and quoted Options

The Company is a disclosing entity for the purposes of the Corporations Act and its ASX quoted securities are enhanced disclosure securities. As the Company's Shares and quoted Options have been suspended from trading on ASX since 22 July 2013 there are no market sale prices of the Company's Shares or quoted Options on ASX during the 3 months immediately preceding the date of lodgement of this Prospectus with the ASIC.

The last closing price of Shares on ASX was \$0.016 on 19 July 2013, prior to the consolidation of the Company's capital on a 1 for 46 basis which occurred on 11 September 2014 (**Consolidation**). The last closing price of quoted Options on ASX was \$0.003 on 19 July 2013, prior to the Consolidation. The Directors note that the trading prices above occurred prior to the Recapitalisation Proposal and Consolidation and the Directors make no forecast of any future trading in the Company's Securities or potential future trading prices.

3.11 Directors

The Company's Board comprises the following Directors.

(a) **Shane Tanner – Non-Executive Chairman**

Mr Tanner has extensive commercial and financial experience in a number of industries, including health. Presently he is the Vision Eye Institute Chairman and Chairman of the Nomination & Governance Committee.

During the past three years he has also served as the chairman of Vision Eye Institute (ASX: VEI) (Appointed December 2001), Paragon Care Limited (ASX: PGD) (Appointed December 2005), Funtastic Limited (ASX: FUN) (Appointed March 2009) and served as a director of IPB Petroleum Limited (ASX: IPB) (Appointed October 2010, Resigned May 2014).

The Board has considered Mr Tanner's independence and considers that he is an independent Director as he does not own any Securities in the Company (and his potential participation in the Lead Manager Offer as described in Section 11.3 is not deemed significant enough to prejudice his independence) and he has had no involvement in past management of the Company or as a supplier, customer or adviser of the Company, which could materially interfere with the exercise of his independent judgment.

(b) **Craig Higgins – Non-Executive Director**

Mr Higgins is the Commercial Director at Liverpool Partners Pty Ltd ACN 159 465 193, the lead manager to the General Placement (**Lead Manager**). Craig is not a shareholder or board member of the Lead Manager. He brings extensive senior operational management experience to the team at both CEO and CFO level.

Craig served as both CEO and CFO of Tempo Australia Ltd, an ASX listed facility services company, which grew from \$80 million to \$750 million in revenue and was sold to an industry player / private equity consortium

in a public to private transaction. Craig commenced his career with Price Waterhouse Coopers.

Craig provides board experience through non-executive directorships in the listed mid-market in Australia across the defence, technology, telecommunications and media sectors.

Craig has a Bachelor of Management Studies from the University of Waikato, is a member of the Institute of Chartered Accountants in both Australia and New Zealand.

Mr Higgins is not currently a director of any public company other than the Company.

The Board has considered Mr Higgins' independence and considers that he is an independent Director as he does not own any Securities in the Company (and his potential participation in the Lead Manager Offer as described in Section 11.3 is not deemed significant enough to prejudice his independence) and he has had no involvement in past management of the Company or as a supplier, customer or adviser of the Company, which could materially interfere with the exercise of his independent judgment.

(c) **Faldi Ismail – Non-Executive Director**

Mr Ismail has significant experience working as a corporate advisor specialising in the restructure and recapitalisation of a wide range of ASX-listed companies.

He is also the founder and owner of Otsana Capital, a boutique advisory firm specialising in mergers & acquisitions, capital raisings and Initial Public Offerings (IPO's).

With many years of investment banking experience and significant international experience, Mr Ismail has advised on the structuring of acquisitions and joint ventures in numerous countries.

Mr Ismail is currently a director and CEO of Kalimantan Gold Corporation Limited (TSX-V/AIM Listed), director of ASX listed Style Limited (ASX: SYP), Emergent Resources Limited (ASX: EMG) and WHL Energy Limited (ASX: WHN).

The Board has considered Mr Ismail's independence and considers that he is not an independent Director as he was initially appointed as an Executive Director of the Company and it is expected that upon completion of the Offers, Mr Ismail will hold a substantial shareholding in the Company.

(d) **Nicholas Young – Non-Executive Director**

Mr Young holds a Bachelor of Commerce, majoring in Accounting and Finance and is a Chartered Accountant. Nicholas commenced his career at Pitcher Partners and has gained valuable experience in Australia and Southern Africa in corporate restructuring, across a wide range of industries, including mining and exploration, mining services, renewable energy, professional services, manufacturing and transport. Mr Young has been involved in the recapitalisation of various ASX listed companies.

The Board has considered Mr Young's independence and considers that he is not an independent Director as at the completion of the Offers, it is expected that Mr Young will hold a substantial shareholding in the Company.

3.12 Director interests in Securities

As set out in Section 11.3 of this Prospectus, the Directors do not currently hold any relevant interest in Securities in the Company. Mr John Ciganek (a recent director of the Company) also does not currently hold any relevant interest in Securities in the Company.

At the General Meeting, Shareholders approved the issue of Securities to two of the Directors being Faldi Ismail and Nicholas Young, and a former director John Ciganek (or their nominees) pursuant to the Promoter Placement and General Placement. Those Directors, John Ciganek (being a former director of the Company) and their nominees are therefore entitled to participate in the Promoter and General Placement and their maximum participation in the Offers is set out below (although their participation may be lower).

However, no participant in the Offers is proposed to hold voting power in the Company in excess of 20% as a result of their participation in the Offers.

If some or all of the Lead Manager Options or existing Options on issue in the Company are exercised, the percentage interests in the Company's Shares held by other investors, including the public pursuant to the General Placement, would be reduced by the effect of further Shares being issued upon exercise of such Options. The Company makes no forecast as to whether and when Options may be exercised.
2. As described in Section 11.3, it is proposed that each of Shane Tanner and Craig Higgins (or their nominees) will be issued 2,500,000 Lead Manager Options, subject to the receipt of prior Shareholders' approval in general meeting.
3. The remainder of the Company's issued Shares up to 100% of the issued capital are those already on issue prior to the Offers, which comprise 12,013,675 Shares.

3.13 Agreements with Directors or Related Parties

The Company's policy in respect of related party arrangements is:

- (a) a Director with a material personal interest in a matter is required to give notice to the other Directors before such a matter is considered by the Board; and

- (b) for the Board to consider such a matter, the Director who has a material personal interest is not present while the matter is being considered at the meeting and does not vote on the matter.

The following related party transactions were approved by the Board (excluding any Director with a material personal interest) on the basis of the Board's decision that they each trigger one or more of the exceptions to the requirement in Chapter 2E of the Corporations Act to obtain the prior approval of Shareholders for such transactions.

Summaries of the Recapitalisation Proposal and the DOCA (including as relevant to Otsana Capital, a related party of the Company) are set out in Sections 3.2 and 3.3.

Commercial lease agreement with related party

The Company has entered into a lease with Adamantium Holdings Pty Ltd (ATF Wolf Property Unit Trust) (**Adamantium**). Adamantium is a related party of the Company as it is controlled by a Director, Faldi Ismail, who is a director and the sole shareholder of that Company. The lease entitles the Company to use Adamantium's premises as a registered office and principal place of business, for monthly rent of \$2,000 (plus GST) plus a monthly registered office fee of \$500 (plus GST). The rental amounts are to be adjusted (up or down) annually in line with the consumer price index or as mutually agreed between the parties to the lease.

The term of the lease is for a period of 12 months and then monthly thereafter.

Working capital loan with related party

On 6 October 2014, the Company entered into an unsecured loan agreement by which it has borrowed \$20,000 from Adamantium for the purpose of paying part of the Company's working capital costs during the period in which the Company is seeking reinstatement of its listed Securities to trading on ASX's market. The Adamantium loan has been fully drawn and was not compromised by the DOCA and therefore survives termination of the DOCA.

Interest is payable on the Adamantium loan at a rate of 10.00% per annum, calculated pro rata.

The Adamantium loan must be repaid in full, including interest accrued, on the earlier to occur of:

- (a) Re-quotation of the Company's Shares on the ASX;
- (b) 3 months from the date the Adamantium loan was advanced to the Company (unless extended by mutual agreement), which period ends on 6 January 2015; and
- (c) the date upon which the Lender issues a notice of default to the Company.

Customary warranties and events of default also apply to the Adamantium Loan.

Deeds of indemnity, insurance and access

The Company has entered into a deed of indemnity, insurance and access with each of its Directors. Under these deeds, our Company agrees to indemnify each officer to the extent permitted by the Corporations Act against any liability arising as a result of the officer acting as an officer of the Company. Our Company is also required to maintain insurance policies for the benefit of the relevant officer and must also allow the officers to inspect board papers in certain circumstances.

Non-Executive Directors' Appointment Letters

The Company has entered into a letter agreement with each of its Directors, Mr Shane Tanner, Mr Craig Higgins, Mr Faldi Ismail and Mr Nicholas Young, confirming the terms of their appointment and their roles and responsibilities. Pursuant to the terms of the letter agreements, the Company has agreed to pay to the Directors the fees outlined in Section 11.3 of this Prospectus. Mr Faldi Ismail and Mr Nicholas Young will each be paid an additional fee of \$3,000 per month (exclusive of GST) by the Company for service as the Company's nominees on the board of directors of ESPP, which amount will only be payable whilst the Company maintains an ownership interest in ESPP.

The appointment of Mr Shane Tanner, Mr Craig Higgins, Mr Faldi Ismail or Mr Nicholas Young will cease if the relevant Non-Executive Director:

- (a) is not re-elected as a Director by the Shareholders of the Company;
- (b) resigns as a Director by written notice to the Company;
- (c) becomes disqualified or prohibited by law from being a company director or from being involved in the management of a company; or
- (d) as otherwise required in accordance with the Constitution or the Corporations Act.

Remuneration agreed with former director

Mr John Ciganek was appointed as a director of the Company on 10 September 2014. He resigned as a director of the Company on 25 November 2014 and consequently is still a related party of the Company.

The Company has agreed to pay \$3,000 (plus GST) per month to Mr John Ciganek from the date of his appointment to the Company.

Syndicate Loans

A member of the Syndicate, Romfal Sifat Pty Ltd <The Fizmail Family Account>, which is a related party of the Company due to being controlled by Faldi Ismail, a Director, advanced a \$125,000 loan to the Syndicate. Refer to Section 7.4 for a summary of that loan.

Otsana Capital Letter Agreement

On 19 November 2014, the Company entered into a letter agreement with Otsana Capital (which is a related party of the Company as it is controlled by a Director of the Company, Faldi Ismail, who also holds all the shares in Otsana Capital) pursuant to which the Company agreed to pay Otsana Capital a management fee of \$200,000 (plus GST) in connection with the Recapitalisation

Proposal. The management fee is payable within two days of successful re-quotation of the Company's quoted Securities on ASX.

Otsana Capital Reimbursement of Expenses Letter Agreement

On 20 November 2014 the Company entered into a letter agreement with Otsana Capital pursuant to which the Company agreed to reimburse Otsana Capital in the amount of \$7,757 (inclusive of GST) which Otsana Capital paid:

- (a) for travel and accommodation expenses incurred by Otsana Capital for the purpose of providing marketing services to Boulder during the period since the DOCA was signed; and
- (b) to pay costs on behalf of the Company in relation to the General Meeting.

3.14 Dividend Policy

The Board anticipates that significant expenditure will be incurred as described in Section 5.1 (subject to the possible changes to that expenditure as referred to in that Section). These activities, together with the possible acquisition of interests in other projects, are expected to dominate the two year period following the date of this Prospectus. Accordingly, the Company does not expect to declare any dividends during that period.

Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the availability of distributable earnings and the operating results and financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.

3.15 Corporate Governance

To the extent the Board considers applicable or appropriate, in light of the Company's size and nature, the Company has adopted *The Corporate Governance Principles and Recommendations (3rd Edition)* as published by ASX Corporate Governance Council (**Recommendations**).

The Company's main corporate governance policies and practices as at the date of this Prospectus are outlined in Section 9.1 of this Prospectus and the Company's compliance and departures from the Recommendations are set out in Section 9.2 of this Prospectus. In addition, the Company's full Corporate Governance Plan is available from the Company's website (www.bouldersteel.com.au).

4.2 Priority Offer – Existing Shareholders

The Company is offering all existing Australian resident Shareholders as at the date of this Prospectus (excluding related parties of the Company) a priority allocation of Shares in the General Placement. Existing Australian resident Shareholders may apply for a minimum of 50,000 Shares representing a minimum investment of \$500.

The priority allocation of General Placement Shares is limited to a total of up to and not exceeding 25,000,000 Shares. In the event that existing Australian resident Shareholders do not subscribe for those 25,000,000 General Placement Shares under the Priority Offer, by the Closing Date, any shortfall will be made available to nominees of the Syndicate who are not related parties of the Company or associates of those related parties.

Whilst the Company will endeavour to offer all eligible Australian resident Shareholders a priority, the allocation of General Placement Shares to eligible Shareholders (including any scale-back, in the event of oversubscriptions) will be solely at the Board's discretion. The Directors reserve the right to reject any application or to allocate any applicant fewer Shares than the number applied for. Where the number of Shares issued is less than the number applied for, or where no issue is made, surplus application monies will be refunded without any interest to the Applicant as soon as practicable after the Closing Date.

4.3 Minimum and maximum subscriptions

The minimum subscription in respect of the General Placement and Promoter Placement is \$1,951,000, being a subscription for 195,000,000 General Placement Shares at \$0.01 per General Placement Share and full subscription under the Promoter Placement. The maximum subscription under the General Placement and Promoter Placement is \$2,501,000, being a subscription for 250,000,000 General Placement Shares at \$0.01 per General Placement Share and full subscription under the Promoter Placement.

There is no minimum subscription pursuant to the Lead Manager Offer and the maximum subscription under that Offer is 50,000,000 Lead Manager Options for nil cash consideration.

No Securities will be issued under any of the Offers until the minimum subscription has been received under the General Placement and Promoter Placement. If the minimum subscription is not achieved within 4 months after the date of issue of this Prospectus, the Company will either repay the application monies to the Applicants or issue a supplementary prospectus or replacement prospectus and allow Applicants one month to withdraw their application and be repaid their application monies.

4.4 Oversubscriptions

No oversubscriptions for the Offers will be accepted by the Company.

4.5 Underwriting

The Offers are not underwritten.

4.6 ASX listing

Application for Official Quotation of the Shares offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. The Promoter Options offered under this Prospectus will not be quoted.

If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of 3 months after the date of issue of the Prospectus, (or such period as varied by the ASIC), none of the Securities will be issued pursuant to the Offers and the Company will repay all application monies for the Securities within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the Securities now offered for subscription.

4.7 Issue

Subject to satisfaction of the minimum subscription under the Offers, as described in Section 4.3, Securities offered by this Prospectus will be issued in accordance with the timetable set out at the commencement of this Prospectus (or such other date determined by the Directors). The Company reserves the right to progressively issue Securities.

Pending the issue of the Securities or payment of refunds pursuant to this Prospectus, all application monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

The Directors and the Lead Manager will determine the allottees of the Securities under the Offers.

The Directors reserve the right to issue Securities in minimum parcels of \$500, or to decline any application or to grant any Applicant fewer Securities than the number applied for. Where no issue is made or the number of Securities issued is less than the number applied for, the surplus application moneys will be returned

by cheque to the Applicant as soon as practicable after the Closing Date. Interest will not be paid on monies refunded.

4.8 Restrictions on the distribution of the Prospectus

This Prospectus does not, and is not intended to, constitute an offer of, or invitation to apply for, securities in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer, invitation or to issue this Prospectus. The distribution of this Prospectus outside the Commonwealth of Australia may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe any of these restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

No action has been taken to register or qualify the Securities or otherwise permit a public offering of the Securities the subject of this Prospectus in any jurisdiction outside Australia. Residents of countries outside Australia should consult their professional advisers as to whether any government or other consents are required, or whether any formalities need to be observed should they wish to make an application to take up Securities on the basis of this Prospectus.

If you are outside Australia it is your responsibility to obtain all necessary approvals for the issue of the Shares pursuant to this Prospectus. The return of a duly completed Application Form will be taken to constitute a representation and warranty that there has been no breach of such laws and that all approvals and consents have been obtained.

4.9 Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship

The Company will not be issuing Share certificates. The Company is a participant in CHES, for those investors in Shares who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company. Because the sub-registers are electronic, ownership of securities can be transferred without having to rely upon paper documentation.

Electronic registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with a statement (similar to a bank account statement) that sets out the number of Shares issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

4.10 Taxation

The Company does not propose to give any taxation advice and neither the Company, its Directors nor its officers accept any responsibility or liability for any taxation consequence to Applicants. Applicants should consult their own professional tax advisers in regard to taxation implications of the Offers.

4.11 Privacy Act

If you complete an application for Securities, you will be providing personal information to the Company (directly or by the Company's share registry). The Company collects, holds and will use that information to assess your application,

service your needs as a holder of equity securities in the Company, facilitate distribution payments and corporate communications to you as a Security holder and carry out administration.

The information may also be used from time to time and disclosed to persons inspecting the register, bidders for your securities in the context of takeovers, regulatory bodies, including the Australian Taxation Office, authorised securities brokers, print service providers, mail houses and the Company's share registry.

You can access, correct and update the personal information that we hold about you. Please contact the Company or its share registry if you wish to do so at the relevant contact numbers set out in this Prospectus.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the Privacy Act 1988 (Cth) (as amended), the Corporations Act and certain rules such as the ASX Settlement Operating Rules. You should note that if you do not provide the information required on the application for Securities, the Company may not be able to accept or process your application.

4.12 Enquiries

Any questions concerning the Offers should be directed to the Company Secretary, Andrew Rowell, on +61 8 9486 7244.

5. PURPOSE AND EFFECT OF THE OFFERS

5.1 Purpose of the Offers

The purpose of the Promoter Placement and General Placement is to raise up to \$2,501,000 (before expenses of the Offers). Funds raised under this Prospectus will be used, among other purposes, to settle loans to lenders that permitted the DOCA to be effectuated (as summarised in Section 7.4) and the Company to be recapitalised and able to once again trade as a going concern on the ASX.

The purpose of the Promoter Placement and General Placement is also to carry out the Recapitalisation Proposal as approved by the Company's Shareholders at the General Meeting, which includes the proposed issues of securities to the Syndicate as described in Section 3.12.

The purpose of the Lead Manager Offer is to provide consideration for services proposed to be provided to the Company by the Lead Manager as described in Section 7.6.

GRAND TOTAL¹²	\$1,259,656	\$691,344	\$1,505,134	\$995,866

Notes:

1. Based on a minimum subscription, being the full subscription under the Promoter Placement and a minimum subscription under the General Placement of \$1,950,000.
2. This excludes expenses of the Offers which are listed in Section 11.6 of this Prospectus.
3. The Syndicate has loaned the Company \$250,000, which funds were applied towards satisfying the Company's obligations under the DOCA. This amount includes interest of 10% fixed (\$25,000). Please refer to Section 7.4 of this Prospectus for further details of the Syndicate loans.
4. Adamantium, an entity controlled by Faldi Ismail has loaned the company \$20,000 for working capital purposes (as summarised in Section 3.13). Interest of 10% per annum. is payable on the loan. Interest is estimated to be \$333 (2 months of interest at 10% pa).
5. The Company has agreed to pay a fixed fee of \$200,000 (plus GST) to Otsana Capital as a management fee in relation to the Recapitalisation Proposal. Please refer to Section 3.13 of this Prospectus for further details of this arrangement between the Company and Otsana Capital.
6. The Company has agreed to pay a commission of 8% (exclusive of goods and services tax) of amounts subscribed through the Lead Manager, and the Lead Manager may pay part of the commission to other parties such as Otsana Capital and other retail brokers, in respect of certain valid applications lodged and accepted by the Company as summarised in Section 7.5. Refer to Section 11.6 of this Prospectus for further details regarding expenses of the Offers, including those commissions.
7. This amount includes outstanding Director's fees from 10 September 2014 to 31 October 2014 (as summarised in Section 3.13), accrued company secretarial fees of \$10,000 (exclusive of GST) (as summarised in Section 7.7), one month's office rent (as summarised in Section 3.13) and outstanding expense reimbursement to Otsana Capital (as also summarised in Section 3.13).
8. The Company anticipates reimbursing the Lead Manager for out of pocket expenses in the amount of up to \$50,000 (exclusive of GST pursuant to the Liverpool Mandate summarised in Section 7.5), which amount predominately relates to legal costs incurred by the Lead Manager.
9. Pursuant to the DOCA, the Company is required to pay a further \$100,000 to the trustee of the Creditors' Trust within five days of the Company obtaining ASX reinstatement to official quotation. The Company has an agreement with GSPL whereby GSPL will contribute 50% of this amount, being \$50,000.
10. It is proposed that the budgeted expenditure for "Review and development of existing business" will be aimed, subject to the potential changes noted below and budgeted expenditure on new projects, towards the review and progression of the EIS. If successful, this may allow ESPP to potentially seek project partners and financiers for the construction of the Project, which will involve seeking the tenders for the construction contracts. However, the Project may never be approved, funded or constructed and if it is, there is a likelihood that the Company will not hold an interest in the Project, given the Company will have insufficient money to fund the Project, after the Offers are completed.

In addition to their fees for acting as Directors (described in Section 11.3), the Company has agreed to pay each of its representatives on the board of ESPP (initially being Faldi Ismail and Nicholas Young, two of the Directors) a monthly fee of \$3,000 each (inclusive of any applicable superannuation) to manage the Company's interests in ESPP. The year 1 budget expenses include these costs as well as any travel and administrative expenses incurred by the Company in managing its interest in ESPP.
11. The "Review of new projects" is proposed to include expenditure in sourcing and reviewing both complementary acquisitions which may potentially add to the

existing business model as well as acquisitions or investments in industries which are different to the existing business operated by the Company or otherwise these funds will be applied towards general working capital.

12. The total includes both the sum of the Recapitalisation and Capital Raising Costs and the Post Re-Quotation Expenditure listed in the table above.

On completion of the Offers (including either the minimum or maximum raising pursuant to the General Placement), the Board believes the Company will have sufficient working capital to achieve the objectives described in Section 3.4.

The above table is a statement of current intentions as of the date of this Prospectus. As with any business, the exact application of these funds is likely to develop and evolve over time. The Board reserves the right to alter the way funds are applied on this basis.

5.2 Effect of the Offers

The principal effect of the Offers, assuming all Offers are fully subscribed, will be to:

- (a) increase the cash reserves by \$1,951,000 assuming the minimum subscription is raised under the Offers or \$2,501,000 assuming the maximum subscription is raised (before estimated expenses of the Offers and Recapitalisation) immediately after completion of the Offers;
- (b) increase the number of Shares on issue from 12,013,675 to up to 312,013,675 Shares following completion of the Offers (assuming no Options are exercised) ; and
- (c) increase the number of Options on issue from 6,528,550 to up to 106,528,550 Options following completion of the Offers (assuming none of the existing Options are exercised beforehand).

5.3 Pro-forma balance sheet

The audited balance sheet as at 30 June 2014 and the unaudited pro-forma balance sheet as at 31 October 2014 shown below have been prepared on the basis of the accounting policies normally adopted by the Company.

The pro-forma balance sheet incorporates the effect of the Offers, the Consolidation and the effectuation of the DOCA.

The pro-forma balance sheet has been prepared to provide investors with information on the assets and liabilities of the Company and pro-forma assets and liabilities of the Company as noted below. The historical and pro-forma financial information is presented in an abbreviated form, insofar as it does not include all of the disclosures required by Australian Accounting Standards applicable to annual financial statements.

Notes:

1. The audited figures for the period ended 30 June 2014 covers a period during which the current Board was not in control of the Company's management and affairs. The Directors' qualify this balance sheet on the basis that, to prepare it, the

Directors had to reconstruct the Company's financial records using limited data that could be extracted from the Company's accounting system and the record of receipts and payments made available by the Administrator and Deed Administrator. As disclosed elsewhere in this Prospectus, the Company was subject to a DOCA, which had the effect of extinguishing the Creditors' Claims and facilitating the recapitalisation of the Company. The DOCA has now been effectuated.

2. The movement in the cash assets is reconciled as follows:

Cash assets	Minimum Subscription \$	Maximum Subscription \$
Opening balance	7,647	7,647
Transferred to the creditors trust	(7,647)	(7,647)

Accrued Directors and Company Secretary Fees, Office rent and Otsana Capital expense reimbursement	(34,852)	(34,852)
Closing balance	1,091,344	1,595,866

3. This amount is receivable from GSPL as 50% of the final payment of \$100,000 due to the Creditors Trust, as described in Section 3.3(c).
4. On 4 November 2014, the Company announced that it had entered into an Asset Sale Agreement with ESPP (summarised in Section 7.1, whereby ESPP, a company owned equally by the Company and GSPL, would acquire the business and assets of the Company. The change in Intangible Assets reflects the sale to ESPP.
5. Following the effectuation of the DOCA, Creditors' Claims against the Company were transferred to the Creditors' Trust. The reduction in the Short Term Provisions reflects the impact of this action.
6. The \$100,000 amount at 30 June 2014 reflects the deposit made under the DOCA by the Syndicate. This deposit has been transferred to the Creditors Trust and the remaining \$100,000 liability that exists at re-quotation of the Company's shares represents the Company's obligation to pay \$100,000 to the Creditors Trust to

complete the Creditor Payment.

- Using the Black-Scholes option valuation methodology, the fair value of the Lead Manager Options has been calculated. The Following inputs were used for these options issued:

Lead Manager Options

Life of the options	3 years

6. COMPANY OVERVIEW

6.1 Background

A general background on the Company and the voluntary administration is set out in Sections 3.1 and 3.2 of this Prospectus.

6.2 Group Structure

The structure of the Company's corporate group as at the date of this Prospectus is set out below. The Directors do not consider Boulder Steel (UAE) Limited, EFS Holdings Pty Limited or GSPP Limited to be material to the Company as those subsidiaries have no active or proposed businesses.

* These companies are either proposed to be deregistered or liquidated.

6.3 Business Model

The Company holds a 50% interest in an incorporated joint venture, ESPP. ESPP holds a conceptual study for the construction and development of the Project.

ESPP aims to progress the EIS (as detailed further in Section 6.4(a)), secure funding for development and construction of the Project, enter into raw material supply contracts and sale and off-take agreements, although the Company makes no forecast as to whether any of those events will occur and there are numerous impediments to those goals being achieved. Please refer to Sections 3.9 and 10 for a non-exhaustive list of risk factors concerning development of the Project.

The Project has a number of dependencies, some of which include demand for steel, raw material prices, construction and labour costs, government policy and support for the project, environmental approval, compliance with further legal requirements and regulation, infrastructure access and cost, availability of funding, availability of key management and personnel and the uncertainty of whether sales and off-take agreements can be secured.

The above dependencies also represent barriers to entry for ESPP and the Project.

Under the Shareholders Deed comprising the terms of the incorporated joint venture, ESPP is to be funded for at least the first 6 months by GSPL. Section 7.2 contains a summary of the Shareholders Deed.

It is intended that Company's representatives on the board of ESPP (initially being Faldi Ismail and Nicholas Young) will each be paid a fee of \$3,000 (inclusive of superannuation) in relation to services rendered in managing the

Company's interest in ESPP. This fee is to be paid by the Company and is likely to include any travel and administrative costs incurred with managing the Company's interest in ESPP. Further details of the fees to be paid to Mr Ismail and Mr Young are included in section 3.13 of this Prospectus.

6.4 Proposed business plan and strategy

(a) Environmental Impact Study

The Environmental Impact Study (**EIS**) is one of the remaining hurdles in order for the Project to proceed. On 12 January 2013, the EIS was made public and underwent a 6 week public consultation period.

The EIS addresses infrastructure, land and nature conservation, air quality and greenhouse gases, noise and vibration, waste, transportation, cultural heritage, social and economic benefits, hazard and risk along with a proposed environmental management plan and systems.

The public consultation period has taken place and as a result the Company has a number of queries and questions to address prior to the EIS being finalised. It is open for governmental authorities to either approve the project with or without conditions, or reject it. Subject to this decision and depending on whether key dependencies can be satisfied, such as obtaining of suitable finance (which may never occur), ESPP may make a final investment decision soon afterwards.

(b) Potential Project Raw Material Supply and Off-take

During 2012 and 2013, the Company made various ASX announcements that it had entered into non-binding letters of intent for the supply of various commodity inputs, including iron ore, coking coal and lime. The Company also announced non-binding letters of intent with potential off-take partners for the sale of steel products.

As at the date of this Prospectus, no binding agreements have been entered into with any of these parties and the Company makes no representation as to whether any binding agreement will be entered into in the future for such purposes. ESPP may investigate these and other new opportunities, as required. There is no guarantee that these investigations will lead to a formal agreement.

(c) Proposed Project

ESPP is investigating the feasibility for construction and operation of the Project, being a steel plant designed to produce semi-finished steel slabs and billets and other products such as blooms and round billets for seamless tube, and potentially downstream products such as hot rolled coil.

However, the Project is in its early planning stage and there are many incomplete hurdles which will potentially cause the project to not be completed or commercialised.

The Project, if constructed is proposed to be 5km long and 1.25km wide. The total land area required to be occupied by the Project is 7.3 square km (730 hectares). Neither the Company nor ESPP has any current agreement in place or sufficient funding to acquire interests in land

necessary to develop the Project. Such interests may never be acquired.

Two blast furnaces of 3,200 cubic meters are proposed to be included in the Project though there is a likelihood that the Project may not progress to that stage or if it does that the Company will not hold an interest in it by then.

The Project is still a long way from becoming a reality and there is a strong likelihood that it will never eventuate or become commercialised.

Below is an illustration of a blast furnace.

(d) **Other opportunities**

In addition to the above, the new Board intends to actively seek out and review complementary and non-complementary assets, investments and businesses.

6.5 Directors

Mr Faldi Ismail, Mr Nicholas Young and Mr John Ciganek (the last of whom resigned from the Board prior to the date of this Prospectus) were appointed as Directors as a result of the Recapitalisation Proposal. Mr Craig Higgins and Mr Shane Tanner have also been appointed to the Board. Mr Higgins is an employee of the Lead Manager. Summaries of the background and experience of the Directors are set out in section 3.11 of this Prospectus.

7. MATERIAL CONTRACTS

7.1 Asset Sale Agreement

Following the effectuation of the DOCA, the Company entered into an agreement with ESPP pursuant to which the Company has agreed to sell and ESPP has agreed to purchase the business and assets of the Company (**Asset Sale Agreement**).

Pursuant to the Asset Sale Agreement, the Company has sold and ESPP has acquired all of the business and assets of the Company.

The consideration paid by ESPP for the acquisition of the business and assets of the Company was \$1.00.

The Asset Sale Agreement is subject to customary warranties and other provisions typical of such an agreement.

Separately of the Asset Sale Agreement, Otsana Capital and Paul Sundstrom agreed that half of the Creditor Payment would be paid by Mr Sundstrom to the Deed Administrator (\$50,000 of which has now been agreed to be paid using funding from GSPL, as described in Section 3.3).

The effective consideration for those payments by Mr Sundstrom and GSPL is a 50% interest in the Company's former business (held via GSPL's 50% ownership of ESPP), chiefly comprising the conceptual proposal for the Project.

The directors of GSPL are Mr Paul Sundstrom, Mr Ross Johnson and Mr Graeme Bartlett and the shareholder of GSPL is Mr Paul Sundstrom.

7.2 Shareholders Deed

Following effectuation of the DOCA, the Company and GSPL entered into a shareholders deed dated 4 November 2014 formalising their incorporated joint venture interest in Euroa Steel Plant Project Pty Ltd (**ESPP**) to set out their aims and objects in relation to ESPP and how ESPP will manage its affairs and carry on its business (**Shareholders Deed**). GSPL is not a related party or subsidiary of the Company nor a substantial holder of Shares in the Company nor an associate of such persons.

Each of GSPL's and the Company's initial interest in ESPP is 50%, and they are each entitled to appoint two directors to the board of directors of ESPP (**ESPP Board**). The initial members of the ESPP Board will be appointed by agreement. A representative of GSPL will be appointed to manage the business and operations of ESPP. The Company has appointed Faldi Ismail and Nicholas Young as its initial representatives on the ESPP Board and GSPL has appointed Paul Sundstrom and Geoffrey Johnson as its representatives on the ESPP Board. GSPL is entitled to nominate a manager (**Manager**) to manage the business and operations of ESPP and that Manager is proposed to be paid fees by ESPP which are yet to be agreed, for those services.

Please refer to Sections 6.3 and 6.4 for details of the proposed business of ESPP following settlement of the Shareholders Deed.

Under the Shareholders Deed, if the ESPP Board considers that ESPP requires further funds, the funding may be obtained by way of equity, loans, a cash call or any of them, unless the shareholders of ESPP (**ESPP Shareholders**) agree otherwise.

GSPL has the right to appoint ESPP's chairperson, who has a casting vote at ESPP board meetings.

For at least 6 months following the execution date of the Shareholders Deed (unless the ESPP Board otherwise determines) and thereafter for so long as GSPL nominates to sole finance ESPP's operations (**Sole Financing Period**), all funding of ESPP must be provided by way of debt finance from GSPL (and not equity contributions from the ESPP Shareholders). After at least 6 months following the execution date of the Shareholders Deed (and unless the ESPP Board otherwise determines), any debt or loans provided by GSPL (before or after the date of the Shareholders Deed) may be converted into equity in ESPP.

Following expiry of the Sole Financing Period, the Manager may from time to time as and when required, request from the shareholders contributions of funds in accordance with their respective interests in ESPP (**Cash Call**). If one of the ESPP Shareholders fails to contribute to funding, its equity will be diluted based upon the amount of the Cash Call not met by that ESPP Shareholder divided by the price per share payable pursuant to the cash call. Any dilution of the Company's interest in ESPP below 50% is subject to and conditional upon the Company obtaining any required Shareholder approvals.

The Shareholder Deed also provides that if the Company enters into a transaction that would be regarded as a change in nature and/or scale of Company's activities in accordance with ASX Listing Rule 11.1.2 then, the Company must notify GSPL in writing and is deemed to have granted to GSPL a call option to acquire all of the Company's shares in ESPP at the relevant time exercisable by written notice within 20 business days, for a total sale price of \$1.00 (**Call Option**). If the Call Option is exercised, the Company must obtain Shareholder approval for the sale of shares in ESPP to GSPL.

The Company is also entitled under the Shareholder Deed to require GSPL to purchase all of the shares which the Company holds in ESPP for a total sale price of \$1.00 (**Put Option**) by giving written notice to GSPL. If the Put Option is exercised, completion of the sale of shares in ESPP to GSPL will be subject to the receipt of any necessary regulatory or Shareholder approvals. The Put Option allows the Company to exit the Project at any time should the Company consider it has become not commercially viable.

The Shareholders Deed contains such other terms and conditions as are standard for an agreement of this nature including pre-emptive rights, warranties and termination events.

7.3 Creditors' Trust Deed

Pursuant to the terms of the DOCA, the Company has established a Creditors' Trust to deal with the debts and claims against the Company that, but for the release of claims under the DOCA, would have been payable by the Company.

The Creditors' Trust Deed provides for the establishment of the Creditors' Trust and sets out, amongst other things, the powers of the trustee of the Creditors' Trust and the manner of distribution of trust funds.

7.4 Syndicate Loans

Members of the Syndicate, being Romfal Sifat Pty Ltd <The Fizmail Family Account> (a related party of the Company which is controlled by Faldi Ismail, a Director, and Pheakes Pty Ltd <Senate A/C> an entity controlled by Mr Peter Wall, a Partner of Steinepreis Paganin (the Company's solicitors), have

advanced a total of \$250,000 to the Company as unsecured loans (**Syndicate Loans**). Pheakes Pty Ltd <Senate A/C> advanced a \$125,000 Syndicate Loan and Romfal Sifat Pty Ltd <The Fizmail Family Account> advanced a further \$125,000 Syndicate Loan. The Syndicate Loans were not compromised by the DOCA and therefore survive termination of the DOCA.

Interest is payable on the Syndicate Loans at a flat rate of 10.00%.

The Syndicate Loans must be repaid in full, including interest accrued, on the earlier to occur of:

- (a) 3 months from the date the Syndicate Loans were advanced to the Company (unless extended by mutual agreement), which period ends on 10 December 2014; and
- (b) the date upon which the lender issues a notice of default to the Company.

The loan funds have been applied by the Company as part satisfaction of the Company's requirement to pay the Creditor Payment for the purposes of satisfying Creditors' claims under the Creditors' Trust Deed. Customary warranties and events of default also apply to the Syndicate Loans.

7.5 Corporate Advisor Mandate

On 16 October 2014, the Company entered into a mandate agreement with Liverpool Partners Pty Ltd (**Lead Manager**) pursuant to which the Lead Manager has agreed to act as lead manager to the General Placement and to assist in the raising of capital for the Company (**Liverpool Mandate**).

Under the Liverpool Mandate, the Lead Manager is entitled to be paid a fee of 8% (plus GST) of the capital raised by the Company pursuant to the General Placement, other than under the Priority Offer, (**Capital Raising Fee**). The Lead Manager may pass on some of this commission to parties and brokers who assist with the raising, which may include Otsana Capital.

The Lead Manager may elect to receive up to 50% of the Capital Raising Fee (excluding GST) in the form of ordinary shares, but the Lead Manager has declined that right and will instead be paid the entire Capital Raising Fee in cash.

The Company has also agreed to pay the Lead Manager's out of pocket expenses. The Lead Manager holds the discretion in relation to allocation of General Placement Shares in the event of an oversubscription.

7.6 Management Options Terms Sheet

The Company has entered into a terms sheet with the Lead Manager pursuant to which the Company has agreed to engage the Lead Manager to actively explore potential acquisitions for the Company that are either complementary to the Company's current business or are non-complementary and are outside of the Company's current business. No such potential acquisitions have been identified to date.

The Lead Manager will assist and make recommendations to the Company for the assembly of an advisory committee and new additions to the Company's executive team and Board in order to enhance the management capability of

the Company. No such potential new management or Board candidates have been identified to date.

In consideration for these services, and subject to the Company complying with the ASX Listing Rules (including obtaining approval of the Company's shareholders to the extent required to avoid breaching those rules) the Company has agreed to issue to the Lead Manager (or its nominees) 50,000,000 Options (**Lead Manager Options**). The Company intends to utilise its placement capacity under Listing Rule 7.1 to issue the maximum number of Lead Manager Options permitted by the ASX Listing Rules pursuant to the Lead Manager Offer. To the extent that placement capacity does not cover all 50,000,000 Lead Manager Options, the Company proposes to seek Shareholders' approval for the issue of those remaining Lead Manager Options at a general meeting to be held following reinstatement of the Company's quoted Securities to trading on the ASX. The terms of the Lead Manager Options are set out in Section 8.5.

7.7 Consultancy Agreement – Goldspark Investments Pty Ltd

On 9 October 2014, the Company entered into a consultancy agreement with Goldspark Investments Pty Ltd (**Goldspark**) for the provisions of services to the Company (**Consultancy Agreement**).

Pursuant to the terms of the Consultancy Agreement, Goldspark is engaged to provided company secretarial services on an "as needed basis", providing the services of Andrew Rowell and any other personnel reasonably required to perform Goldspark's duties.

In consideration for the services provided by Goldspark, the Company will pay to Goldspark:

- (a) for services rendered prior to the re-quotation of the Company on the ASX, Goldspark will be paid an amount of \$5,000 (plus GST) per month. This fee is to be accrued and paid upon ASX re-quotation and the Company and Goldspark have agreed that this amount will be capped at \$10,000;
- (b) for ongoing services post re-quotation of the Company, Goldspark will be paid an amount of \$2,000 (plus GST) per month; and
- (c) for *ad hoc* or non-standard services that are outside of the scope of the Consultancy Agreement, including, but not limited to, work associated with re-compliance with the ASX Listing Rules, a separate fee agreement will be entered into on commercial rates. Currently there are no *ad hoc* or non-standard services that are outside of the scope of the Consultancy Agreement.

The engagement is for an initial term of 12 months commencing on 10 September 2014 and may be terminated by four weeks' notice by either Goldspark or the Company during this initial term. The right of termination is expressly subject to the Company making payment of all consultancy fees to Goldspark. The term may be extended without written notice and the same conditions will apply.

In the event a party provides four weeks' notice of termination to the other, Goldspark will be entitled to a termination fee payable on the following basis:

- (a) if:
 - (i) the termination notice is given by the Company to Goldspark and none of the following events occur:
 - (A) Goldspark or Mr Rowell become bankrupt or insolvent as the case may be;
 - (B) Goldspark or Mr Rowell is guilty of any material act, neglect, default or conduct which has the direct effect of causing damage or discredit to the Company and after receiving prior notice, Goldspark or Mr Rowell has failed to rectify that default to the reasonable satisfaction of the Company within 14 days; or
 - (C) Mr Rowell is incapacitated by illness or accident for an accumulated period of four months in any twelve month period; or
 - (ii) Goldspark gives the termination notice to the Company because the Company is in breach of its obligations pursuant to the Consultancy Agreement;

then the Company shall pay Goldspark a termination fee equal to the monthly retainer amount of \$2,000 (plus GST) multiplied by the remaining number of months in the initial period, plus all outstanding moneys due and owing to Goldspark pursuant to the Consultancy Agreement; and

- (b) if Goldspark gives notice to the Company to terminate for a reason other than where the Company is in breach of its obligations pursuant to the Consultancy Agreement, the Company shall pay Goldspark the consultancy fee for the four week notice period together with all outstanding moneys due and owing to Goldspark pursuant to the Consultancy Agreement.

If any of the events in paragraph (a)(i)(A) to (a)(i)(C) above occur, the Company may terminate the Consultancy Agreement without paying a termination fee.

7.8 Further related party agreements

Section 3.13 contains further summaries of agreements between the Company and its related parties.

- (B) If any provision or part of it cannot be so interpreted, then the provision or its part is taken to be void and severable. The remaining provisions of these conditions are not affected or impaired in any way.

The Company is committed to the circulation of relevant materials to Directors in a timely manner to facilitate Directors' participation in Board discussions on a fully-informed basis.

Composition of the Board

Election of Board members is substantially the province of Shareholders in general meeting. However, subject thereto, the Company is committed to working towards the following principles:

- (a) where practical, the majority of the Board is comprised of non-executive Directors, who satisfy the criteria for independence;
- (b) the Directors shall have an appropriate cross section of skills and expertise;
- (c) the Chairman must be a non-executive who satisfies the criteria for independence;
- (d) the same individual must not exercise the roles of Chairman and Chief Executive Officer/Managing Director; and
- (e) all Directors shall bring independent judgement to bear in decision making.

No formal nomination committee or procedures have been adopted for the identification, appointment and review of the Board membership, but an informal assessment process, facilitated by the Chairman in consultation with the Company's professional advisers (if required), has been committed to by the Board.

Independent professional advice

Subject to the Chairman's approval (not to be unreasonably withheld), the Directors, at the Company's expense, may obtain independent professional advice on issues arising in the course of their duties.

Remuneration arrangements

The remuneration of an executive Director will be decided by the Board, without the affected executive Director participating in that decision-making process.

The total maximum remuneration of non-executive Directors is currently set at \$500,000. Any increases will be the subject of a Shareholder resolution in accordance with clause 6.3(a) of the Company's Constitution, the Corporations Act and the ASX Listing Rules, as applicable. The determination of non-executive Directors' remuneration within that maximum amount will be made by the Board, having regard to the inputs and value to the Company of the respective contributions by each non-executive Director.

The Board may award additional remuneration to Directors called upon to perform extra services or who make special exertions on behalf of the Company.

Trading policy

The Board has adopted a policy that sets out the guidelines on the sale and purchase of securities in the Company by its key management personnel (i.e. Directors and, if applicable, any employees reporting directly to the managing director). The policy generally provides that the written acknowledgement of the Chair (or the Board in the case of the Chairman) must be obtained prior to trading.

External audit

The Company in general meetings is responsible for the appointment of the external auditors of the Company, and the Board from time to time will review the scope, performance and fees of those external auditors.

Audit committee

The Company does not have a separately constituted audit committee. The Company will not have a separate audit committee until such time as the Board is of a sufficient size and structure, and the Company's operations are of a sufficient magnitude for a separate committee to be of benefit to the Company. In the meantime, the full Board will carry out the duties that would ordinarily be assigned to that committee under the written terms of reference for that committee, including but not limited to, monitoring and reviewing any matters of significance affecting financial reporting and compliance, the integrity of the financial reporting of the Company, the Company's internal financial control system and risk management systems and the external audit function.

Identification and management of risk

The Board's collective experience will enable accurate identification of the principal risks that may affect the Company's business. Key operational risks and their management will be recurring items for deliberation at Board meetings.

Ethical standards

The Board is committed to the establishment and maintenance of appropriate ethical standards.

Diversity policy

The Board has adopted a diversity policy which provides a framework for the Company to achieve, amongst other things, a diverse and skilled workforce, a workplace culture characterised by inclusive practices and behaviours for the benefit of all staff, improved employment and career development opportunities for women and a work environment that values and utilises the

10. RISK FACTORS

10.1 Introduction

The Securities offered under this Prospectus are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors to consider the risk factors described below and the key risk factors described in Section 3.9, together with information contained elsewhere in this Prospectus and to consult their professional advisers before deciding whether to apply for Securities pursuant to this Prospectus.

There are specific risks which relate directly to the Company's business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this Section 10, in Section 3.9 or other risk factors, may have a material impact on the financial performance of the Company and the market price of the Securities.

The risk factors described in this Section 10 and in Section 3.9 are not intended to be an exhaustive list of the risk factors to which the Company is exposed.

10.2 Industry specific risks

If the Project is developed and commences operations whilst the Company maintains an interest in it, which events are likely to never occur, various risks specific to the steel production industry would apply to the Company (and ESPP), including, without limitation, the following risks.

(a) Steel prices, raw material prices and competition

The success or failure of the Project will be strongly influenced by international steel prices, which can fluctuate significantly over time and are difficult to forecast, and any material and sustained steel price deterioration in the absence of corresponding raw materials price declines could adversely affect the Project and financial performance of entities with interests in it.

Factors that affect international steel prices, such as economic growth, exchange rate fluctuations, changes in global steel production capacity, changes in the cost of raw materials and trade barriers, are outside of the Company's control. Sustained international steel price reductions would have an overall material adverse impact on the Project and the financial results of entities with interests in it.

Steel production requires the use of large volumes of bulk raw materials, in particular iron ore and coking coal. The success or failure of the Project will be strongly influenced by the availability of and international prices for raw materials including iron ore and coal, which fluctuate significantly over time and are difficult to forecast. Any material and sustained increases in the price of such raw materials in the absence of corresponding steel price increases could adversely affect the Project and the financial performance of those with interests in it.

A material movement in electricity pricing could have an adverse impact on the Project and the financial results of entities with interests in it.

Any oversupply of steel and inability for the Project to compete with international steel manufacturers, for example due to higher costs of

production in Australia as compared with foreign jurisdictions, could adversely affect the Project and the financial performance of those with interests in it.

(b) **Exchange rate fluctuations**

As steel production and sale is an internationally competitive business, the viability of the Project, and those entities with interests in it, may be adversely impacted by movements and fluctuations in currency exchange rates.

(c) **Project failures**

The viability of the Project, and those entities with interests in it may be adversely impacted by force majeure events and other failures, such as operational failures at the Project or elsewhere.

Steel manufacturing processes are dependent on critical steelmaking equipment, such as furnaces, steam boilers, continuous casters, rolling mills and electrical equipment (such as transformers), and such equipment may incur downtime as a result of unanticipated failures or other events, such as fires, furnace breakdowns or loss of external power supply.

An interruption of energy supply to the Project, could have an adverse impact of the Project and the financial results of entities with interests in it. Should the Project be developed and if a significant facility or process failure occurs at the Project, it may be shutdown or prevented from commencing or continuing operations.

(d) **Third party relationships and regulatory risks**

If the Project is ever to be constructed and commercialised (which may never occur and is likely to not occur whilst the Company holds an interest in the Project) its viability will depend heavily upon relationships (including contractual relationships) with third parties. Examples of such third parties include, without limitation, government and other regulatory bodies, social stakeholders, financiers, suppliers, transportation service providers, environmental interest groups, customers, trade unions, insurers, advisers, contractors, employees, joint venturers and other groups.

The Project and those with interests in it may be adversely affected by such relationships and third parties and their acts and omissions.

The steel industry is also heavily regulated in Australia and elsewhere by legal and regulatory requirements which may change and may adversely affect the Project and the financial results and other interests of entities with interests in the Project.

(e) **Environmental laws**

Environmental laws impose obligations on steel producers, and violations of these laws could result in penalties and other liabilities, including, without limitation, clean-up costs and remediation.

(f) **Political, social and economic risks**

The Project and entities with interests in it are subject to political, social and economic policy risks and uncertainties in the countries in which they operate or propose to operate. Any deterioration or disruption of the political, social or economic environment and business climate in those countries may have an effect on the Project, such entities and their financial position, results of operations and prospects.

Industrial disputes with employees and unions could disrupt the Project and adversely affect entities with an interest in it. Such entities are also exposed to risks relating to occupational health and safety and potential legal claims.

National trade restrictions could reduce or eliminate the access of entities with interests in the Project to steel markets and they may be exposed to unfair practices.

(g) **Competitive products**

Competition from other materials and competition from steel producers could significantly reduce market prices and demand for steel products and thereby reduce the financial position and financial performance of entities with an interest in the Project.

10.3 General risks

(a) **Economic**

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's activities, as well as on its ability to fund those activities.

(b) **Market conditions**

Share market conditions may affect the value of the Company's quoted Securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) interest rates and inflation rates;
- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(c) **Security Investments**

Applicants should be aware that there are risks associated with any securities investment. Securities listed on the ASX have experienced extreme price and volume fluctuations that have often been unrelated to the operating performances of such companies. These factors may materially affect the market price of the Company's quoted Securities, regardless of the Company's performance.

(d) **Future capital requirements**

The Company's ongoing activities will require substantial expenditure. There can be no guarantee that the funds raised through the Offers will be sufficient to successfully achieve all the objectives of the Company's overall two year business strategy. If the Company is unable to continue to use debt or equity to fund expansion after the substantial exhaustion of the net proceeds of the Offers, there can be no assurances that the Company will have sufficient capital resources for that purpose, or other purposes, or that it will be able to obtain additional fundraising on terms acceptable to the Company or at all. Any additional equity financing may be dilutive to Security holders and any debt financing if available may involve restrictive covenants, which may limit the Company's operations and business strategy.

The Company's failure to raise capital if and when needed could delay or suspend the Company's business strategy and could have a material adverse effect on the Company's activities.

If the Project proceeds, which is unlikely to occur whilst the Company has an interest in it (via ESPP) it will require very substantial expenditure to develop, far in excess of the Company's financial capacity after the Offers. There can be no guarantee given and the Company gives no representation on whether such funding may be raised. There is no currently available source of such funding.

(e) **Force Majeure**

The Company's business now or in the future may be adversely affected by risks outside the control of the Company including labour unrest, civil disorder, war, subversive activities or sabotage, fires, floods, explosions or other catastrophes, epidemics or quarantine restrictions.

(f) **Insurance and uninsured risks**

The Company intends to insure its operations in accordance with industry practice. However, in certain circumstances, the Company's insurance may not be of a nature or level to provide adequate insurance cover. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of the Company.

(g) **Laws, government policy and approvals**

Existing laws, government regulations and policies and changes in the same may adversely affect the financial performance of the Company. The Company's financial performance, financial position and capacity to carry out its activities may be affected by changes in government policy, which are beyond the Company's control.

(h) **Other projects**

The Company may look to complete other investments and acquisitions in the future, the details of which are not known at the date of this Prospectus. Those acquisitions and investments will carry their own set of risks.

(i) **Taxation**

The acquisition and disposal of Securities will have tax consequences, which will differ depending on the individual financial affairs of each investor. All potential investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation viewpoint and generally.

To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Securities under this Prospectus or of acquiring or disposing of Securities.

(j) **Reliance on key personnel**

The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its Directors. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these key personnel cease their employment or appointment to the Company.

10.4 Speculative investment

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Securities offered under this Prospectus.

Therefore, the Securities to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Securities.

Potential investors should- consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for Securities pursuant to this Prospectus.
