DECEMBER 2014 QUARTERLY ACTIVITIES REPORT

The Carajas Copper Company Limited (“the Company”) is pleased to provide its report for the quarter ended 31 December 2014.

Brazil

During the quarter 200,000,000 Fully Paid Ordinary Shares were issued as part consideration for the Salobo South Copper Project in the Carajas Province of Brazil. The Project is within close proximity to Vale’s Salobo Copper Mine, one of the world’s largest copper development projects which has recently commenced production.

During the quarter, the company was granted an additional exploration licence over an area of 345.5 hectares. The ground related to this licence has excellent geological and structural features characterized by Archean mafic / intermediate volcanic rocks that are cross cut by transcurrent faults that form the Serra do Rabo Range system. The mineral property is located approximately 7.5 km to the north west of Vales giant Cristalino copper gold deposit (+250 Mt). The Company’s current portfolio in the Carajas Province comprises 3,412 hectares under granted exploration licences and 164,274 hectares under application for exploration licences.

Mongolia

The realization process for the projects and assets in Mongolia is continuing with sale and or joint venture partners being sought.

Corporate
