The interim financial report of Dyesol Ltd for the half-year ended 31 December 2014 is subject to an emphasis of matter in the Independent Auditor's Review Report.

The emphasis of matter relates to the Group's ability to continue as a going concern given the statement by directors in Note 2 in the Financial Report that additional capital will be required to do so.

The Group's independent auditor, Grant Thornton Audit Pty Ltd has stated that these requirements indicate the existence of a material uncertainty that may cast doubt on the Company's ability to continue as a going concern.

The Independent Auditor's Review Report is contained on page 24 of the interim financial report.

Mr A Shirfan <i>Non-Executive Director</i>	Non-executive Director since 2 May 2014
Mr Gerry Grove-White <i>Non-Executive Director</i>	Non-executive Director (resigned 27 November 2014)

2. RESULTS

The result of the consolidated entity for the half-year ended 31 December 2014 was a loss after income tax of \$4,427,742 (2013: \$4,273,740).

3. REVIEW OF ACTIVITIES

The first half of FY2015 saw the completion of the 4th quarterly Technical Advisory Board milestone and fulfilment of 12 months of development work on the new Perovskite DSC. We believe the performance of the Dyesol global R&D team was outstanding. In a short period of time the new technology is being laid down on industrial scale files and efficiency, deposition, durability and active area milestones have all been achieved. Importantly, there is scientific and commercial integrity in this process as the entire programme is scrutinised by a Technology Advisory Board which includes Professor Michael Graetzel as chairperson and representatives from Tasnee, Dyesol's 26.5% strategic investor. Rightly, the progress of the technology now drives business development and Dyesol remains on target to meet its schedule for a prototype by 2016, pilot-line by 2017 and mass manufacture by 2018.

Operational Highlights for the First Half Fiscal Year 2015

- Dyesol re-engaged with Tata Steel U.K. to sign a 5 year distribution option. That agreement provides a very significant potential channel for distribution of steel Building Integrated Photovoltaic (BIPV) products that Dyesol intends to develop over the period. More significantly, it demonstrates the benefit of long-term collaboration through challenging economic circumstances.
- After 18 months of discussion, Dyesol and SPECIFIC, a world-class industrial consortium managed by the University of Swansea, agreed to industrial partnership at Baglan in South Wales. Contracts have now been signed which will allow each party to benefit from materials and processes developed within the open innovation centre. Dyesol has historical relationships with Pilkington and Tata, both key industrial partners of the consortium.
- Possibly the most exciting development of the half-year is material progress of activities in Turkey where a heads of agreement was signed with Nesli DSC. Already a US1.9 million prototype contract has commenced with detailed plans now in place to take the commercialisation activity to pilot-line and mass manufacture should preliminary conditions be met, which include financial assistance from the Turkish Government, which also remains appraised of any significant developments. The first site for exploitation and mass manufacture of the Perovskite technology is expected to be at Mersin, a port city on the Mediterranean Sea.

Directors' Report

DYESOL LIMITED AND ITS CONTROLLED ENTITIES FOR THE HALF-YEAR ENDED 31 DECEMBER 2014

- Dyesol signed a €5 million contract with EFACEC of Portugal to gain exclusive access to laser assisted, glass frit sealing technology considered to be important in delivering long-term durability to its glass substrate products. The structured royalty and purchase agreement has a number of technical milestones or conditions to be achieved before Dyesol is unconditionally bound by the commercial terms. Entering this agreement occurred after a detailed evaluation of global hermetic glass sealing technologies.

Financial Results for the Half-Year Fiscal Year 2015

- The result for the half-year shows a small increase in the loss after income tax from continuing operations compared to the same period last year. The major contributing factors included:
 - ✓ gross margin contribution increase by \$90k resulting from higher revenues of sale of products and services;
 - ✓ a decrease in finance cost of \$698k (last year included the notional interest expense of \$704k relating to Tasnee's convertible note) ;
 - ✓ a decrease in share-based payment expense (non-cash) of \$84k relating to securities issued under the Dyesol Limited Performance Rights Plan; offset mainly by
 - ✓ an increase in technical costs of \$1.1m in line with management expectations as the Company energetically implements its Technology Development Plan which has an aggressive programme to achieve the scale up of its solid state DSC products.
 - ✓ an increase of \$236k for FY 2015 R&D rebate accrual compared to same period last year.
- During the half year, the Company received a \$2.48m cash rebate from the Federal Government for its R&D activities during FY 2014. An accrual of \$1.5m (Note 9) under the FY2015 R&D Tax Incentive program has been made based on the Company's R&D expenditures for the last six months.
- Net cash usage from operating and investing activities for the 6 months excluding R&D tax rebates (\$2.48m) was \$900k average per month in line with budgets, however with R&D tax rebates recovery included the net cash usage decreased to \$500k average per month.
- The Company's balance sheet at the end of the half-year reporting period shows total net assets of \$9.7m, a decrease of \$3.5m during the six months from the last annual financial year end, mainly due to lower cash and cash equivalent balances. The Board of Directors continues to assess long term funding options to provide the working capital to implement its Technology Development Plan to full commercialisation.

4. AUDITOR'S INDEPENDENCE DECLARATION

A copy of the independence declaration by the lead auditor under section 307C is included on page 4 to these half-year financial statements.

Notes to the Consolidated Financial Statements

DYESOL LIMITED AND ITS CONTROLLED ENTITIES FOR THE HALF-YEAR ENDED 31 DECEMBER 2014

1. BASIS OF PREPARATION OF HALF-YEAR FINANCIAL STATEMENT

These general purpose financial statements for the half-year reporting period ended 31 December 2014 have been prepared in accordance with Australian Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Act 2001. The historical cost basis has been used.

These half-year financial statements do not include all the notes of the type normally included in annual financial statements and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the consolidated entity as the full financial statements. Accordingly, these half-year financial statements are to be read in conjunction with the annual financial statements for the year ended 30 June 2014 and any public announcements made by Dyesol Limited during the half-year reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The same accounting policies and methods of computation have generally been followed in these half-year financial statements as compared with the most recent annual financial statements.

These half-year financial statements were approved by the Board of Directors on 27 February 2015.

2. GOING CONCERN

The financial statements have been prepared on a going concern basis.

The Group incurred an operating loss after income tax for the half-year of \$4,427,742 (2013: \$4,273,740) and an operating net cash outflow of \$2,744,356 (2013: \$1,953,460) for the half-year ended 31 December 2014. At the end of the half-year reporting period, cash balances totalled \$3,533,824 (30 June 2014: \$5,178,902), with an additional \$1 million (30 June 2014: \$2,200,000) in term deposits.

The financial statements have been prepared on a going concern basis, which contemplates continuity of normal activities and realisation of assets and settlement of liabilities in the normal course of business. In order for Dyesol to continue as a going concern and further progress the development of its technology and intellectual property, and in particular the accelerated development of solid state - DSC for scale up activities, additional capital will be required. Dyesol has previously raised capital when required and the Directors expect the Company will be successful in raising the required additional capital in future.

The Directors have initiated the following strategies to secure the going concern status and have determined that these financial statements should be prepared on a going concern basis as these strategies are expected to be successful:

(a) Tasnee strategic investment

The National Industrialisation Company of Saudi Arabia (Tasnee) has an exclusive option, under the Subscription Agreement to subscribe for a maximum of \$6 million of Dyesol shares at any time before 31 May 2015 (extended by 6 months).

(b) Potential funding support

The Company has submitted a revised application to be evaluated for Australian Government funding of an estimated \$3.5 million over 18 months period. If the application is successful it is anticipated the funding would commence during the final quarter of the financial year ending 30 June 2015 and assist Dyesol in accelerating the commercialisation of solid-state DSC technology, enabling a first mover advantage to be achieved.

(c) R & D rebates cash advance

The Company may obtain cash advances of an estimated \$2 million using a finance facility offered by a reputable credit institution secured by its expected R&D rebates for the financial year ending 30 June 2015.

(d) Other funding mechanisms

In addition to the initiatives set out above, the Board of Directors continues to look at other avenues of capital raising including short and longer-term investment options to provide the working capital to implement its technology roadmap and commercialisation strategies. The Board believes that the Group will be successful in transforming operations to achieve positive cash flow, however until this is achieved additional funding will continue to be required from investors from time to time.

Based on the factors outlined above the Directors have prepared this financial report on a going concern basis. Accordingly the financial statements do not include any adjustments relating to the recoverability or classification of recorded asset amounts or classification of liabilities that might be necessary should the Company not be able to continue as a going concern.

Notes to the Consolidated Financial Statements

3. ESTIMATES

When preparing the interim financial statements, management undertakes a number of judgements, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgements, estimates and assumptions made by management, and will seldom equal the estimated results.

The judgements, estimates and assumptions applied in the interim financial statements, including the key sources of estimation uncertainty were the same as those applied in the Group's last annual financial statements for the year ended 30 June 2014.

4. BUSINESS COMBINATION

On 10th September 2014, the Group acquired 49.9% of the issued share capital and voting rights of Dyesol-Timo Co. Ltd held by Neoarena (formerly Timo Technology), thus becoming a 100% wholly owned subsidiary of the Group. This enables Dyesol to consolidate its position in Korea, building on the existing engineering expertise in prototype, demonstrate and pilot line activities to create a processing engineering centre. 500,000 Dyesol shares were issued to Neoarena as consideration for the transaction – 250,000 shares will be escrowed for 6 months and 250,000 for 12 months. The new corporate structure continues to provide ongoing access to Korean Government financial assistance programs. The goodwill that arose on the combination has been recognised as an intangible asset. The goodwill that arose from this business combination is not expected to be deductible for tax purposes. Provisional accounting has been applied to the below acquisition.

Details of the business combination are as follows:

	Note	\$
Fair value of consideration transferred		
Amount settled in shares		105,000
Fair value of previously held ownership interest		105,421
Total		210,421

4.1 Consideration transferred

Acquisition-related costs are minimal and are not included as part of consideration transferred and have been recognised as an expense in the consolidated statement of profit or loss and other comprehensive income, as part of other expenses.

4.2 Identifiable net assets

With the exception of the customer contracts, the fair value of all other identifiable net assets have been determined as of the acquisition date to be not materially different from the carrying book values.

5. SEGMENT REPORTING

Operating segments have been determined on the basis of reports reviewed by the executive management committee. The executive management committee ("committee") is considered to be the chief operating decision maker of the group. The committee considers the business from both a product and geographic perspective and assesses performance and allocates resources on this basis.

Managing Director Performance Rights

During the half-year the Company granted 2,000,000 performance rights to Mr Richard Caldwell in relation to the Dyesol Performance Rights Plan as approved by shareholders at the 2014 AGM meeting.

All performance rights were granted for nil consideration over unissued ordinary shares.

The vesting period is 36 months from date of grant and vesting will be dependent on meeting relative and absolute Dyesol TSR performance hurdles.

The vesting conditions applicable to the 2,000,000 performance rights issued to Mr Richard Caldwell are as follows:

Tranche 1: Up to 1,200,000 Performance Rights will vest on 5 May 2017 if Dyesol's Total Shareholder Return achieves the following percentile ranking against the companies within the S&P/ ASX Small Ordinaries Index over the measurement period of 5 May 2014 to 5 May 2017.

DYE TSR Ranking	Number of Performance Rights
Below the 55 th percentile	Zero
At or above the 55 th percentile	600,000 plus 30,000 for every percentile ranking above the 55 th
At or above the 75 th percentile	1,200,000 (maximum number)

Tranche 2: Up to 800,000 Performance Rights will vest on 5 May 2017 if Dyesol's Total Shareholder Return doubles over the measurement period 5 May 2014 to 5 May 2017.

The circumstances under which Mr Richard Caldwell is entitled to retain these performance rights if he should leave the company before the vesting date is controlled by the terms of the Dyesol Performance Rights Plan and is at the discretion of the Board. Change of control clauses exist.

In addition to the performance vesting conditions above, the performance rights will only vest if there is uninterrupted employment with Dyesol from grant date until vesting date.

15. SHARE-BASED PAYMENTS (CONTINUED)

Fair value of performance rights granted

The fair value of the 2,000,000 performance rights granted to Mr Richard Caldwell was calculated at the date of grant using the Monte Carlo valuation approach and charged entirely to the reporting period in which they were issued. In valuing the performance rights, market conditions have been taken into account. The following table gives the assumptions made in determining the fair value of these performance rights on grant date:

Description	Tranche 1	Tranche 2
Grant date	27 th November 2014	27 th November 2014
Number of performance rights	1,200,000	800,000
Vesting date	5 May 2017	5 May 2017
Exercise price	\$0.00	\$0.00
Price of shares on grant date	\$0.245	\$0.245
Estimated volatility	70.00%	70.00%
Risk-free interest rate	2.67%	2.67%
Dividend yield	0%	0%

The expected price volatility is estimated using Dyesol's share price daily rolling 3 year standard deviation.

Based on the approach and assumptions detailed above, the estimated fair value of Mr Richard Caldwell's performance rights is as follows:

Tranche 1	Tranche 2
\$0.1819	\$0.1262

DYESOL LIMITED AND ITS CONTROLLED ENTITIES FOR THE HALF-YEAR ENDED 31 DECEMBER 2014

16. CONTINGENT LIABILITIES

- The Company has received a claim in previous periods from Dr Gavin Tulloch alleging wrongful termination of his role as Director of Technology and seeking payment of a significant unsubstantiated amount. In the Directors opinion this claim is without basis and the Company continues to defend this matter in the courts.
- Dyesol is in preparations for the proceedings of an unquantified defamation claim that arose in the previous reporting period. Dyesol considers the claim as spurious and will continue to defend it. A mediation process has been scheduled during March 2015.
- In July 2014, Dyesol attended a hearing in Tokyo for the arbitration between NIMS and Dyesol. NIMS is claiming a dispute contract amount estimated at \$364,704 together with interest thereon at the rate of 6% per annum from the date of receipt by Dyesol the request of arbitration until such amount has been fully paid, and Dyesol has refuted with a counter-claim against NIMS of an estimated \$461,539 together with interest at the rate of 6% per annum from the date of payment from Dyesol to NIMS. Dyesol has vigorously defended the action to achieve the best possible outcome for Dyesol. A decision by the Tribunal is expected during March 2015.

The Directors believe that there are no other material contingent liabilities related to the parent entity or the group at the end of the reporting period.

17. CAPITAL COMMITMENTS

There are no material capital commitments related to the parent entity at the end of the reporting period.

18. EVENTS SUBSEQUENT TO THE END OF REPORTING PERIOD

- On 8th January 2015, Dyesol has signed a contract with Nesli DSC to introduce and commercialise its perovskite DSC Photovoltaic technology in Turkey. The contract involves the establishment of a prototype facility in Turkey underpinned by a USD1.9 million Contract for supply of Prototype Equipment.
- On 22nd January 2015, Dyesol and EFACEC of Portugal have signed an agreement to exploit proprietary, laser assisted, glass fit sealing technology developed by EFACEC and the University of Porto in the manufacture of glass substrate, solid-state DSC solar panels. As a first instalment, Dyesol will pay EFACEC €500,000 over a 15 month period during which the technology will be modified for use in perovskite based photovoltaics. Staged payments will be milestone based with successful achievement of the final technical specification triggering a further payment schedule of €1.7 million over 24 months. A further €2.8 million is payable as a royalty pending the commercialisation of the process in Dyesol's proposed solar panels and modules. The structured financial transaction has a potential maximum total consideration of €5 million after which the ownership of the IP will be fully assigned to Dyesol. The first payment of €150,000 was completed during February 2015, on signing of the agreement.

Directors' Declaration

DYESOL LIMITED AND ITS CONTROLLED ENTITIES FOR THE HALF-YEAR ENDED 31 DECEMBER 2014

The Directors of the Company declare that:

1. the financial statements, comprising the Consolidated Statement of Profit or Loss and Other Comprehensive Income, Consolidated Statement of Financial Position, Consolidated Statement of Cash Flows, Consolidated Statement of Changes in Equity and accompanying notes, are in accordance with the Corporations Act 2001 and:
 - (a) comply with Accounting Standard AASB 134 *Interim Financial Reporting* and the Corporations Regulations 2001; and
 - (b) give a true and fair view of the consolidated entity's financial position as at 31 December 2014 and of its performance for the half-year ended on that date.
2. In the directors' opinion, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Independent Auditor's Review Report To the Members of Dyesol Limited

We have reviewed the accompanying half-year financial report of Dyesol Limited ("Company"), which comprises the consolidated financial statements being the statement of financial position as at 31 December 2014, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising a statement or description of accounting policies, other explanatory information and the directors' declaration of the consolidated entity, comprising both the Company and the entities it controlled at the half-year's end or from time to time during the half-year.

Directors' responsibility for the half-year financial report

The directors of Dyesol Limited are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such controls as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on the consolidated half-year financial report based on our review. We conducted our review in accordance with the Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2014 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of Dyesol Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

Liability limited by a scheme approved under Professional Standards Legislation. Liability is limited in those States where a current scheme applies.

For personal use only

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we complied with the independence requirements of the Corporations Act 2001.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Dyesol Limited is not in accordance with the Corporations Act 2001, including:

- a giving a true and fair view of the consolidated entity's financial position as at 31 December 2014 and of its performance for the half-year ended on that date; and
- b complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

Emphasis of Matter

Without qualification to the conclusion expressed above, we draw attention to Note 2 to the financial report which sets out the basis on which the Directors have determined that the consolidated entity is a going concern.

The consolidated entity incurred a net loss after income tax of \$4,427,742 and an operating net cash outflow of \$2,744,356 during the half-year ended 31 December 2014. As at 31 December 2014 cash and cash equivalents amount to \$3,533,824 and terms deposits maturing on 1 February 2015 total \$1,000,000.

In Note 2, it is stated that the consolidated entity requires additional capital in order to continue as a going concern and further progress the development of its technology and intellectual property.

These conditions, along with other matters set forth in Note 2, indicate the existence of a material uncertainty which may cast significant doubt about the Company's and the consolidated entity's ability to continue as a going concern and therefore, the Company and the consolidated entity may be unable to realise their assets and discharge their liabilities in the normal course of business, and at the amounts stated in the financial report.
