

Investor Presentation

March 2015

Disclaimers

This presentation has been prepared by Sundance Energy Australia Limited (ABN 76 112 202 883).

Summary information

The following disclaimer applies to this document and any information contained in it (the "Information"). The Information in this presentation is of general background and does not purport to be complete. It should be read in conjunction with Sundance's other periodic and continuous disclosure announcements lodged with ASX Limited, which are available at www.asx.com.au. You are advised to read this disclaimer carefully before reading or making any other use of this document or any information contained in this document. In accepting this document, you agree to be bound by the following terms and conditions including any modifications to them.

Not financial or product advice

This presentation is for information purposes only and is not a prospectus, product disclosure statement or other offer document under Australian law or the law of any other jurisdiction. This presentation is not financial product or investment advice or a recommendation to acquire Sundance shares, legal or tax advice. This presentation has been prepared by Sundance without taking into account the objectives, financial situation or needs of individuals. You are solely responsible for forming your own opinions and conclusions on such matters and the market and for making your own independent assessment of the Information. You are solely responsible for seeking independent professional advice in relation to the Information and any action taken on the basis of the Information. Before making an investment decision prospective investors should consider the appropriateness of the information having regard to their own objectives, financial and tax situation and needs and seek legal and taxation advice appropriate to their jurisdiction. Sundance is not licensed to provide financial product advice in respect of Sundance shares. Cooling off rights do not apply to the acquisition of Sundance shares.

Financial data

All share price information is in Australian dollars (A\$) and all other dollar values are in United States dollars (US\$) unless stated otherwise.

Sundance's results are reported under Australian International Financial Reporting Standards.

Past performance

Past performance information given in this presentation is given for illustrative purposes only and should not be relied upon as (and is not) an indication of the Company's views on its future financial performance or condition. Investors should note that past performance, including past share price performance, of Sundance cannot be relied upon as an indicator of (and provides no guidance as to) future Sundance performance including future share price performance.

Investment risk

An investment in Sundance shares is subject to investment and other known and unknown risks, some of which are beyond the control of Sundance. Sundance does not guarantee any particular rate of return or the performance of Sundance, nor does it guarantee the repayment of capital from Sundance or any particular tax treatment. Persons should have regard to the risks outlined in the Information.

Disclaimers (cont'd)

Disclaimer

Except as required by law, no representation or warranty (express or implied) is made as to the fairness, accuracy, completeness, reliability or correctness of the information, opinions and conclusions, or as to the reasonableness of any assumption contained in this document. By receiving this document and to the extent permitted by law, you release Sundance and its officers, employees, agents and associates from any liability (including, without limitation, in respect of direct, indirect or consequential loss or damage or loss or damage arising by negligence) arising as a result of the reliance by you or any other person on anything contained in or omitted from this document.

Forward Looking Statements

This presentation includes forward-looking statements. These statements relate to Sundance's expectations, beliefs, intentions or strategies regarding the future. These statements can be identified by the use of words like "anticipate", "believe", "intend", "estimate", "expect", "may", "plan", "project", "will", "should", "seek" and similar words or expressions containing same.

The forward-looking statements reflect the Company's views and assumptions with respect to future events as of the date of this presentation and are subject to a variety of unpredictable risks, uncertainties, and other unknowns. Actual and future results and trends could differ materially from those set forth in such statements due to various factors, many of which are beyond our ability to control or predict. Given these uncertainties, no one should place undue reliance on any forward-looking statements attributable to Sundance, or any of its affiliates or persons acting on its behalf. Although every effort has been made to ensure this presentation sets forth a fair and accurate view, we do not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Reserves

This presentation contains information on Sundance Energy's reserves and resources which has been reviewed by David Ramsden-Wood, Professional Engineer, who is licensed in Alberta Canada and is qualified in accordance with ASX Listing Rule 5.11. Mr. Ramsden-Wood, VP of Reservoir Engineering and Business Development, has consented to the inclusion of this information in the form and context in which it appears.

Reserve Estimates

The Company's Reserve estimates are calculated by Netherland, Sewell & Associates, Inc. as at 1 January 2015 in accordance with SEC guidelines. Although current market prices have fallen significantly, under SEC guidelines, the commodity prices used in the December 31, 2014 and December 31, 2013 reserve estimates were based on the 12-month unweighted arithmetic average of the first day of the month prices for the period January 1, 2014 through December 1, 2014, and for the period January 1, 2013 through December 1, 2013, respectively, adjusted by lease for transportation fees and regional price differentials. For crude oil volumes, the average West Texas Intermediate posted price of \$91.48 per barrel used to calculate PV-10 at December 31, 2014 was down \$1.94 per barrel from the average price of \$93.42 per barrel used to calculate PV-10 at December 31, 2013. For natural gas volumes, the average Henry Hub spot price of \$4.35 per million British thermal units ("MMBTU") used to calculate PV-10 at December 31, 2014 was up \$0.68 per MMBTU from the average price of \$3.67 per MMBTU used to calculate PV-10 at December 31, 2013. All prices were held constant throughout the estimated economic life of the properties.

Company overview

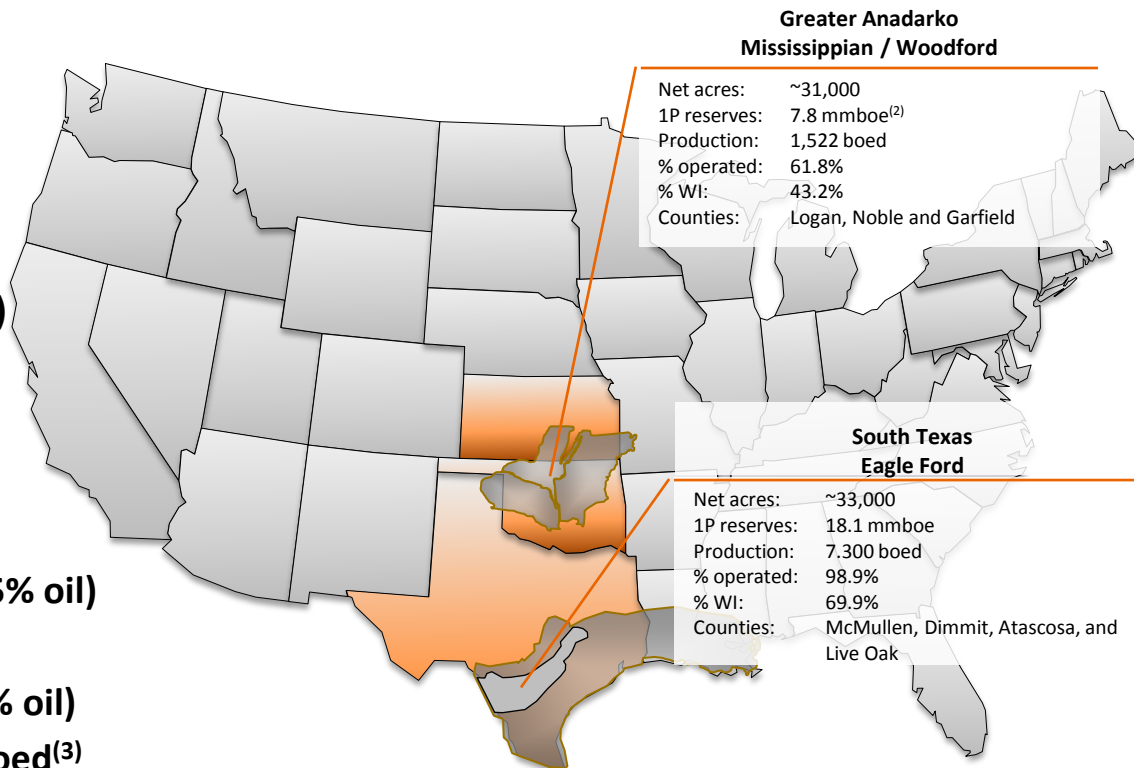

Eagle Ford focused asset base

SUNDANCE
energy

Licensee only

Ticker: SEA (ASX Listed)
Share count: 549.4 million
Market capitalization: A\$308 million
Enterprise value: US\$301 million
2015 Consensus EBITDAX: \$105 million⁽¹⁾
Proved reserves: 26.0 mmboe (65% oil)
SEC Pre-tax 1P PV-10: \$532 million
4Q14 daily production: 8,932 boed (71% oil)
2015 Full year production: 7,850 – 8,500 boed⁽³⁾
2015 Capital expenditures: \$70-\$90MM⁽³⁾

Superior performance through commodity cycles

Note: Above based on Company filings, press releases and 1 January 2015 NSAI reserve report. Market capitalization and enterprise value shown as of 4 March 2015, based on debt of \$130mm and cash of \$69mm; Production numbers represent 4Q14 average daily production
(1) Based on analysts' consensus estimates
(2) Excludes evaluation of the majority of the Company's potential Woodford locations
(3) 2015 Company guidance

Operating strategy

Cost driven strategy that will create superior shareholder returns

- Maximize balance sheet flexibility
 - Low leverage profile (**<1.1x debt to EBITDA at year-end**)
 - Limited drilling obligations to hold Eagle Ford acreage (**3 net well commitments in 2015**)
 - No current long-term service commitments (**last rig released by mid-March 2015**)
 - \$85 million in liquidity at year end 2014 (**year-end borrowing base redetermination expected to materially increase debt availability**)
- Maintain/improve top quartile operational performance
 - Apply technology to continue improving well results (**20% improved performance per foot on gen 3 vs gen 1 Eagle Ford wells**)
 - Maintain top tier cost structure (**cash costs less than \$18.50/boe in 2014 and less than \$15.00/boe in Q414**)
- Capitalize on opportunities manageable within our balance sheet
 - Capture and leverage cost deflation (**35% reduction to \$5 - \$6MM for new Eagle Ford wells in past 4 months**)
 - Lease expiring acreage in core Eagle Ford areas (**added 13,500 acres contiguous to Dimmit project for \$1,000/acre**)
 - Limit focus to acquisition of small producing assets within existing balance sheet capacity

Management team

Management

Eric McCrady, Managing Director & CEO

Eric was appointed CEO in April 2011 and Managing Director of the Board in November 2011. He served as CFO from June 2010 until becoming CEO. Eric has over 15 years' of entrepreneurial experience with an extensive track record in investment evaluation and management, acquisitions and divestitures, strategic planning, general management, risk management, and capital formation with companies including The Broe Group, a private investment firm, GE Capital and American Coin Merchandising.

Cathy Anderson, Chief Financial Officer

Cathy was appointed CFO in December 2011. Cathy is a Certified Public Accountant with over 25 years' experience, primarily in the oil and gas industry, in budgeting and forecasting, regulatory reporting, corporate controls, and financial analysis and management reporting with companies including Key Production (predecessor of Cimarex), OptiGas and Arthur Andersen.

Grace Ford, Vice President, Exploration and Development

Grace was appointed VP of Exploration and Development in March 2013. She served as VP of Geology from September 2011. Grace has over 15 years' of technical experience focused on geology resource play evaluation and development, exploration, well and completion design, and reservoir characterization with companies including EOG Resources, Baytex Energy USA and Marathon.

Mike Wolfe, Vice President, Land

Mike was appointed VP of Land in March 2013. He served as Senior Land Manager from December 2010. Mike has over 30 years' of senior land management experience including field leasing, acquisitions and divestitures, title, lease records, and management of a multi-rig drilling program with companies such as Cimarex and Texaco.

David Ramsden-Wood, Vice President, Reservoir Engineering & Business Development

David was appointed VP of Reservoir Engineering & Business Development in May 2014. He has consulted for Sundance in a similar role since January 2013. David is a Professional Engineer licensed in Canada with more than 15 years' engineering experience across all engineering disciplines with a focus on reservoir engineering, strategic & financial planning and production engineering with companies including Enerplus, Anadarko, and Canadian Hunter.

John Whittington, Vice President, Operations

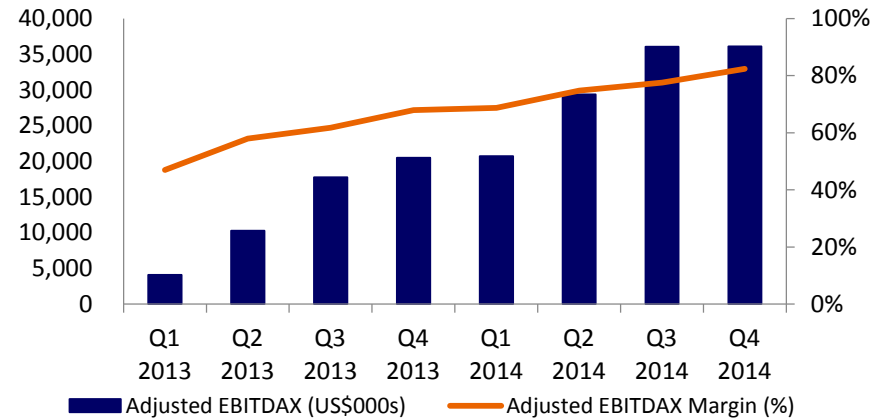

John was appointed VP of Operations in May 2014. He has over 20 years' experience focused on the development and optimization of onshore US resource plays with a particular focus on completion optimization and production operations with companies including Triangle Petroleum, EOG, Schlumberger, and Apex Petroleum Engineering.

Core Eagle Ford assets drive growth through cycles

~33,000 net mineral acres targeting the Eagle Ford

Eagle Ford operator with substantial, high-quality drilling inventory and significant production growth profile

- ~38,500 net acre position targeting the Eagle Ford and Georgetown formations
 - ~33,000 net acres targeting the Eagle Ford formation
 - ~14,000 net acres in McMullen county and ~19,000 net acres in Dimmit county
 - ~5,500 net acres in Maverick county targeting the Georgetown formation
- Q414 production of 7,300 boed from over 50 operated wells
- 18.1 mmboe of proved reserves⁽¹⁾
- ~372 gross (291 net) undrilled 3P Eagle Ford locations representing a 10+ year drilling inventory⁽²⁾
- Offset operators include: Anadarko, EOG, Chesapeake, Murphy, Pioneer, and Talisman
- ~3 net lease obligation wells in 2015

(1) Based on 1 January 2015 NSAI reserve report

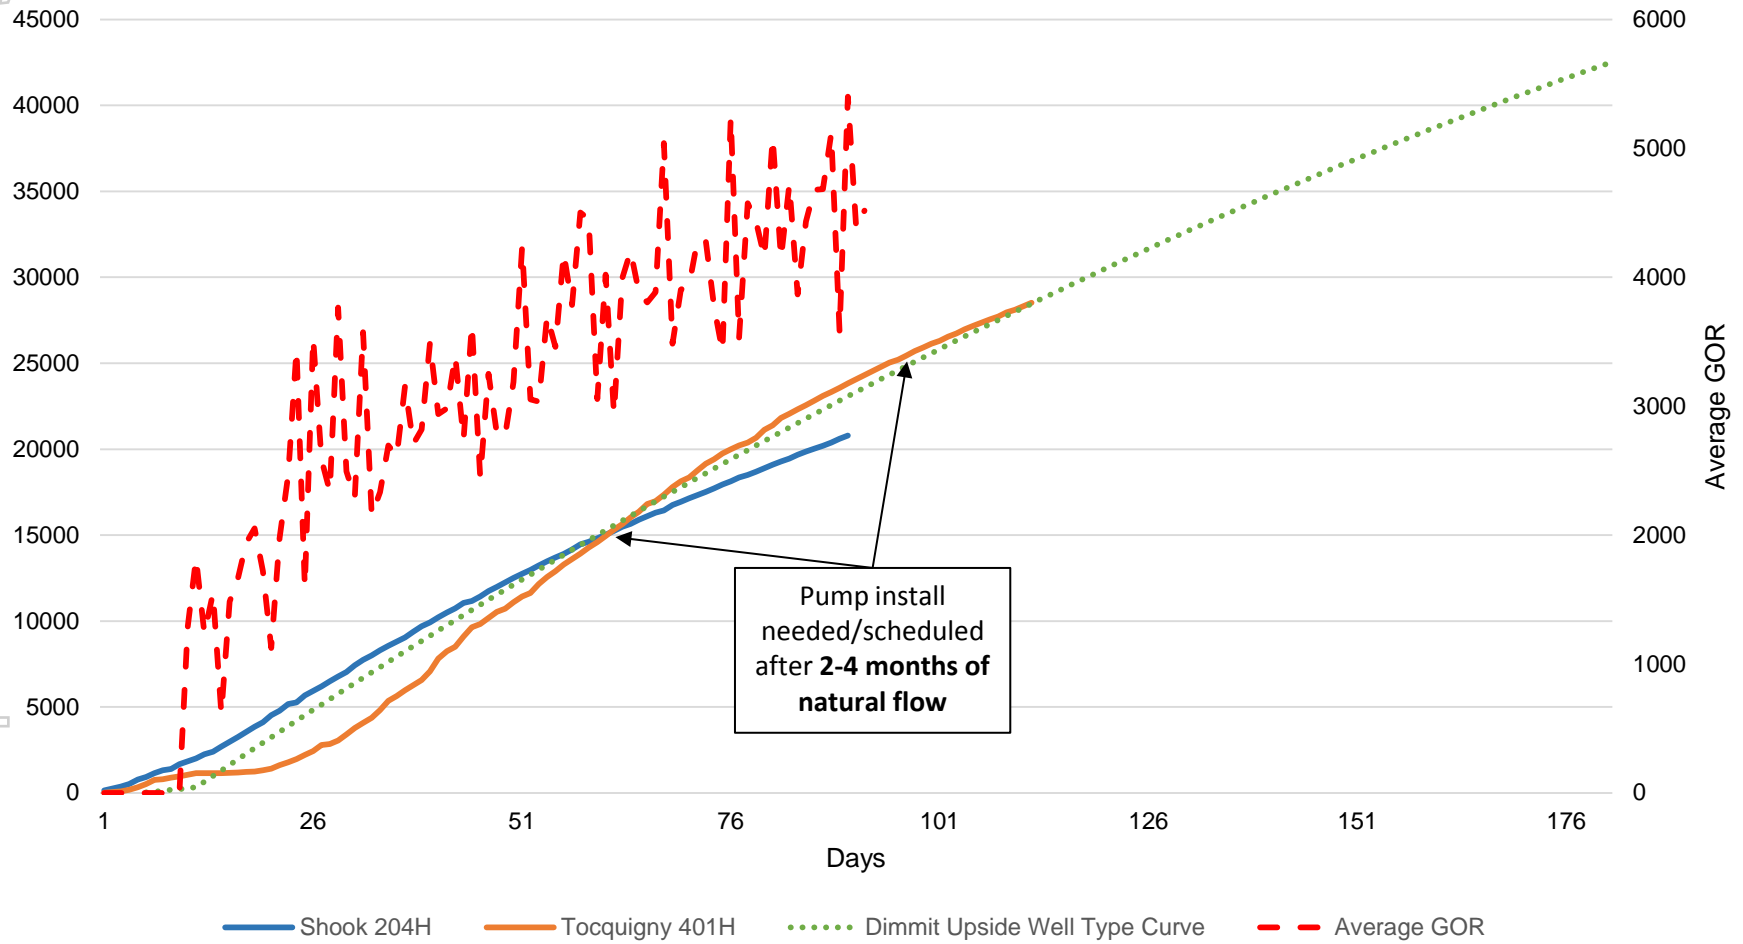

(2) Drilling year inventory based on two rig program drilling 36 net wells per year assuming 40-80 acre spacing

Reserve report footnotes and definitions

- Operating costs used in this report are based on operating expense records of Sundance.
- Capital costs used in this report were provided by Sundance and are based on authorizations for expenditure and actual costs from recent activity.
- Future net revenue is after deductions for Sundance's share of production taxes, ad valorem taxes, capital costs, and operating expenses but before consideration of any income taxes. "PV10" is defined as the discounted Net Revenues of the Company's reserves using a 10% discount factor.
- Reserves are estimated in US dollars. US dollars are converted at 1.2258 USD/AUD.
- "1P Reserves" or "Proved Reserves" are defined as Reserves which have a 90% probability that the quantities actually recovered will equal or exceed the estimate.
- "Probable Reserves" are defined as Reserves that should have at least a 50% probability that the actual quantities recovered will equal or exceed the estimate.
- "2P Reserves" are defined as Proved Reserves plus Probable Reserves.
- "Possible Reserves" are defined as Reserves that should have at least a 10% probability that the actual quantities recovered will equal or exceed the estimate.
- "3P Reserves" are defined as Proved Reserves plus Probable Reserves plus Possible Reserves.
- "boe" is defined as barrel of oil equivalent, using the ratio of 6 mcf of Natural Gas to 1 bbl of Crude Oil. This is based on energy conversion and does not reflect the current economic difference between the value of 1 MCF of Natural Gas and 1 bbl of Crude Oil.
- "m" is defined as a thousand.
- "mmb" is defined as a million barrels of oil equivalent.

AUD to USD Conversion at 0.78136 on 2/24/2015

¹ As of 2/24/15

² Instead of using the energy conversion of 6:1 mcf to boe, we used the price conversion of 21.3:1

³ For 6 mo ended 12/31/14, since year end is 6/30/15.

⁴ LOE and Production taxes were lumped together.

⁵ EBITDA is calculated as revenues minus operating expenses (excl DDA, interest, gain/loss on sale of assets, impairments, exploration expense)

⁶ FY2014 financials have not been released, so used Q3 YTD financials instead and annualized the EBITDA calc for Debt to EBITDA.

⁷ For year ended 8/31/14.

⁸ For 9 mo ended 10/31/14, since year end is 1/31/15.

⁹ For 6 mo ended 10/31/14, since year end is 4/30/15.
