1 PURPOSE AND EFFECT OF THE OFFER

1.1 Purpose of the Offer

On 3 August 2015 Estrella Resources Limited (**Estrella**) announced that it proposed to undertake a share placement of 400 million Shares at \$0.003 to raise \$1.2 million. The capital raising consisted of an issue of 12,000,000 Placement Shares at an issue price of \$0.003 on 8 September 2015 and a further issue of 388,000,000 Placement Shares at an issue price of \$0.003 on 18 September 2015 (**Placement**).

The funds raised from the Placement will be used by the Company for general working capital for existing assets, business and administration costs (including the costs of the capital raising) and to assess further new venture opportunities.

The Placement Shares were issued without disclosure under Chapter 6D of the Corporations Act.

Generally, section 707(3) of the Corporations Act requires that a prospectus is issued in order for a person to whom securities were issued without disclosure under Part 6D of the Corporations Act to offer those securities for sale within 12 months of their issue.

Section 708A(11) of the Corporations Act provides an exemption from this general requirement where:

- (a) the relevant securities are in a class of securities of the company that are quoted securities of the body; and
- (b) a prospectus is lodged with ASIC on or after the day on which the relevant securities were issued but before the day on which the sale offer is made.

The purpose of this Prospectus and the Offer made under it is to comply with section 708A(11) of the Corporations Act so that the Placement Shares can be offered for sale within 12 months of their issue. That section requires that this Prospectus include an offer of securities in the same class as the Placement Shares.

1.2 New Shares offered for subscription

By this Prospectus the Company offers for subscription 1,000 New Shares at an issue price of \$0.03 per New Share to raise \$30. The Offer is made to unrelated persons identified by the Board at its sole discretion. Applications for New Shares must be made using the Application Form attached to this Prospectus.

The rights and liabilities of the New Shares offered under this Prospectus are summarised at section 2.

1.3 Capital structure

At the close of the Offer, the capital structure of the Company will be:

Shares	
Shares currently on issue	158,249,959
Shares offered under this Prospectus	1,000
Total Shares on issue following the Offer	158,250,959

Options	
Options currently on issue	40,537,857
New Options offered under this Prospectus	0
Total Options on issue following the Offer	40,537,857

Offer	
Full amount to be raised under the Offer	\$30

1.4 Effect on control

There will be no effect on control as a result of the Offer.

1.5 Effect on financial position of the Company

The effect of the Offer after costs is not material.

1.6 Opening and Closing Dates

The Opening Date of the Offer will be 22 September 2015 and the Closing Date will be determined by the Board.

1.7 Application money held in trust

All Application Moneys will be deposited into a separate bank account of the Company and held in trust for Applicants until the New Shares are issued or Application Moneys returned. Any interest that accrues will be retained by the Company and will not be paid to Applicants.

1.8 Quotation

The Company will, in the event the Offer is still open, apply to ASX within 7 days after the date of this Prospectus for quotation of the New Shares offered by this Prospectus on ASX. If ASX does not grant permission for the quotation of the New

Shares offered under this Prospectus within 3 months after the date of this Prospectus, or such longer period as modified by ASIC, none of the New Shares offered by this Prospectus will be allotted or issued. In these circumstances, all Applications will be dealt with in accordance with the Corporations Act including the return of all Application Moneys without interest. A decision by ASX to grant official quotation of the New Shares is not to be taken in any way as an indication of ASX's view as to the merits of the Company or of the New Shares.

Quotation, if granted, of the New Shares offered by this Prospectus will commence as soon as practicable after statements of holdings of the New Shares are dispatched.

1.9 Enquiries

Any queries regarding the Offer should be directed to Mr Guy Robertson, Company Secretary, on +61 2 9078 7671.

2 RIGHTS AND LIABILITIES ATTACHING TO NEW SHARES

Full details of the rights and liabilities attaching to the New Shares are:

- detailed in the Company's Constitution a copy of which can be inspected, free of charge, at the registered office of the Company during normal business hours; and
- in certain circumstances, regulated by the Corporations Act, the Listing Rules and the general law.

The following is a summary of the more significant rights and liabilities attaching to the New Shares. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

(a) Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at a general meeting of members every member has one vote on a show of hands and one vote per Share on a poll. Voting may be in person or by proxy, attorney or representative.

(b) Dividends

Subject to the rights of holders of shares issued with any special rights (at present there are none), the profits of the Company which the Board may from time to time determine to distribute by way of dividend are divisible to each share of a class on which the Board resolves to pay a dividend in proportion to the amount for the time being paid on a share bears to the total issue price of the share.

(c) Future issues of securities

Subject to the Corporations Act and the Listing Rules, the Directors may issue, grant options over, or otherwise dispose of unissued shares in the Company at the times and on the terms that the Directors think proper and a share may be issued with preferential or special rights.

(d) Transfer of Shares

A shareholder may transfer Shares by a market transfer in accordance with any computerised or electronic system established or recognised by ASX for the purpose of facilitating transfers in Shares or by an instrument in writing in a form approved by ASX or the Board.

(e) Meetings and notices

Each shareholder is entitled to receive notice of, and to attend, general meetings for the Company and to receive all notices, accounts and other

For personal use only

documents required to be sent to Shareholders under the Constitution, the Corporations Act or the Listing Rules.

Shareholders may requisition meetings in accordance with the Corporations Act.

(f) Election of Directors

There must be a minimum of 3 but not exceeding 10 Directors. At every annual general meeting one third of the Directors (rounded up to the nearest whole number) must retire from office. Any Director who would have held office for more than 3 years if that Director remains in office until the next general meeting must retire. These retirement rules do not apply to certain appointments including the managing director.

(g) Indemnities

To the extent permitted by law the Company must indemnify each past and present Director and secretary against any liability incurred by that person as an officer of the Company and any legal costs incurred in defending an action in respect of such liability.

(h) Winding up

If the Company is wound up, the liquidator may, with the sanction of a special resolution of the Shareholders:

- (i) divide the assets of the Company among the members in kind;
- (ii) for that purpose fix the value of assets and decide how the division is to be carried out as between the members and different class of members; and
- (iii) vest assets of the Company in trustees on any trusts for the benefit of the members as the liquidator thinks appropriate.

(i) Shareholder liability

As the Shares under the Prospectus are fully paid shares, they are not subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(j) Alteration to the Constitution

The Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. At least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

(k) Listing Rules

If the Company is admitted to trading on the Official List, then despite anything in the Constitution, if the Listing Rules prohibit an act being done,

For personal use only

the act must not be done. Nothing in the Constitution prevents an act being done that the Listing Rules require to be done. If the Listing Rules require an act to be done or not to be done, authority is given for that act to be done or not to be done (as the case may be). If the Listing Rules require the Constitution to contain a provision and it does not contain such a provision, the Constitution is deemed to contain that provision. If the Listing Rules require the Constitution not to contain a provision and it contains such a provision, the Constitution is deemed not to contain that provision. If a provision of the Constitution is inconsistent with the Listing Rules, the Constitution is deemed not to contain that provision to the extent of the inconsistency.

3 RISK FACTORS

The New Shares offered under the Prospectus are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors to consider the risk factors described below and together with information contained elsewhere in this Prospectus and to consult with your professional advisers before deciding whether to apply for New Shares pursuant to this Prospectus.

There are specific risks which relate directly to the Company's business. In addition, there are general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this section, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the New Shares.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

3.1 Company and industry risks

The risks outlined below are specific to the Company's operations and to the resource exploration industry in which the Company operates.

- (a) Payments due under agreements with Sociedad Quimica y Minera de Chile S.A. (SQM) (NYSE:SQM)

The Company is, with respect to parts of its Chilean assets (known as the Altair Project), a party to two option agreements with SQM. Under those agreements the Company is required to pay option fees to SQM and undertake minimum expenditure obligations, with the amounts determined by the number of hectares the subject of the option and the date of the payment/expenditure. Further payments are required if the Company wishes to exercise the option over parts of the project area.

Further details on the amounts to be paid and methods of calculation are set out in the Company's announcements to ASX on 6 December 2012, 18 February 2013, 20 January 2015 and 15 June 2015.

Whilst the total annual to be paid to SQM and minimum exploration expenditure the project area depends upon the number of hectares the subject of the Option Agreement, following revision of the agreement as outline in the ASX announcement on 15 June 2015 the Company estimates that it will be up to approximately US\$375,000 for the period to 31 March 2016.

Whilst the Company has an unfettered right to reduce some or all of the option fees and exploration commitments at any time by reducing part or all of the concession area within the Option Agreement area, there is a risk

that in doing so the Company may relinquish areas of value and which the Company has incurred significant amounts on.

(b) Exploration

The Company is an exploration company with various concessions and projects located in Chile that are in the exploration phase and with no known resources or reserves. Investors should understand that mineral exploration is a high risk activity. The Company does not provide any assurances that its exploration activities will guarantee the discovery and/or economic exploitation of a significant mineral resource.

The exploration and operating costs of the Company are based on certain assumptions with respect to exploration methods and the timing of exploration activities undertaken. By their nature, these estimates and assumptions are subject to uncertainties and as such, actual costs may materially differ from the estimates and assumptions. No assurances can be provided that cost estimates and their underlying assumptions will be realised in practice which could adversely affect the Company.

(c) Future capital needs and additional funding

The Company recorded an unaudited net loss of \$1,308,757 and a net outflow from operating and investing activities of \$1,406,338 for the full year ending 30 June 2015. As at 30 June 2015, it had \$399,378 cash on hand.

The funds raised by the Offer will primarily be used to undertake further exploration at the Company's Chilean projects. There is a risk that these funds will not be sufficient to complete the proposed exploration and that further funding will be required.

The Company's ability to raise further capital (equity or debt) within an acceptable time, of a sufficient amount and on terms acceptable to the Company will vary according to a number of factors, including prospectivity of projects (existing and future), the results of exploration, subsequent feasibility studies, development and mining, stock market and industry conditions and the price of relevant commodities and exchange rates.

No assurance can be given that future funding will be available to the Company on favourable terms (or at all). If adequate funds are not available on acceptable terms the Company may not be able to further develop its projects and it may impact on the Company's ability to continue as a going concern.

(d) Operations are in Chile

The Company's projects are located in Chile, which is a less developed country than Australia, and has associated political, economic, legal and social risks. There can be no assurance that its government and political

systems will remain stable or that there will not be any changes to government regulations regarding foreign investment, repatriation of foreign currency, taxation or mining laws in Chile.

(e) Copper and gold and other commodity prices

As an explorer for copper and gold and potentially other minerals, any earnings of the Company are expected to be closely related to the price of copper and gold and other commodities.

Commodities prices fluctuate and are affected by numerous factors beyond the control of the Company. These factors include worldwide and regional supply and demand for commodities, general world economic conditions and the outlook for interest rates, inflation and other economic factors on both a regional and global basis. These factors may have a positive or negative effect on the Company's exploration, project development and production plans and activities, together with the ability to fund those plans and activities.

(f) Title and application risk

The Company's mining concessions are governed by the Government of Chile. The tenements pertaining to Antucoya West, Altair, Dania and Ivannia are registered in SQM's name and duly maintained by SQM. Estrella is the primary title holder of 6,700 ha of tenements (Saturno 1 to 17 and Mercurio A, B, 26 to 35), which Estrella has paid its annual fees in March 2015. Each concession is for a specific term and carries with it an annual lease payment and reporting commitments as well as other conditions requiring compliance. There is a risk that the Company could lose title to one or more of its concessions if concession conditions or annual lease commitments are not met or if SQM (as concession holder) is in breach of the terms of the concessions. Furthermore, there is a risk that any breach by SQM of the terms of the concessions may result in those concessions being lost. All tenements under Option Agreements with SQM are registered with Sernageomin (Chilean mines department) and are protected by the Chilean Mining Code.

(g) Joint venture, acquisitions or other strategic investments

The Company may in the future become a party to joint venture agreements governing the exploration and development of its projects. There is a risk that one of the Company's joint venture partners may default in their joint venture obligations or not act in the best interests of the joint venture. This may have an adverse effect on the interests and prospects of the Company.

The Company may enter into strategic investments in complementary businesses, or enter into strategic alliances or partnerships with third

parties in order to enhance its existing or new businesses. Such arrangements involve a wide range of risks.

There can be no assurance that the Company, upon any acquisition, will be successful in realising the anticipated benefits and synergies. The ability to realise these benefits will depend upon a range of factors and risks.

3.2 Operating risks

The Company's operations may be affected by various factors including failure to locate or identify mineral deposits; failure to achieve predicted grades in exploration and mining; operational and technical difficulties encountered in mining; difficulties in operating plant and equipment; mechanical failures or breakdowns; unanticipated metallurgical problems which may affect extraction costs; adverse weather conditions; industrial and environmental accidents; industrial disputes; and unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment.

No assurances can be provided that the Company will achieve commercial viability through the successful exploration and/or mining of its concession interests. Until the Company is able to extract value from its projects, the Company is likely to incur ongoing operating losses.

(a) Resource estimates

Whilst the Company has announced a JORC Code compliant exploration target for its Colupo project, the Company has not announced resource estimates. Resource estimates are expressions of judgement based on knowledge, experience and industry practice (refer to the JORC Code for further information on resource estimation). In addition, by their very nature, resource estimates are imprecise and depend on interpretations which may prove to be inaccurate, and whilst the Company will employ industry-standard techniques including compliance with the JORC Code to reduce the resource estimation risk, there is no assurance that this approach will alter the risk. As further information becomes available through additional fieldwork and analysis, resource estimates may change. This may result in alterations to mining and development plans which may in turn adversely affect the Company.

(b) Environmental

The exploration and operational activities of the Company are subject to Chilean laws concerning the environment. The Company is required under the laws to obtain environmental approval to commence drilling.

The Company's activities are expected to have an impact on the environment particularly if advanced exploration or mine site recommissioning or development proceeds. It is the Company's intention to continue to conduct its operations and activities to the highest standard of

environmental obligation including but not limited to compliance with all environmental laws and regulations.

(c) Access risk

The Company's concession interests are governed by legislation and are evidenced by the granting of licences or leases. Each licence or lease is for a specific term and carries with it expenditure and reporting commitments. The Company could lose title to its interests in its concessions if expenditure and reporting commitments are not met when they arise.

Adverse weather conditions may also restrict access to land for the purpose of carrying out activities such as drilling.

(d) Uninsured loss and liability

Exploration for and development of minerals involves hazards and risks that could result in the Company incurring losses and liabilities to third parties. There is a risk that the Company may not be insured against all potential losses or liabilities that could arise from its activities. If the Company incurs losses or liabilities that are not covered by its insurance policies, the funds available for exploration will be reduced and could create risk for the value of the Company's assets.

3.3 General investment risks

The risks outlined below are some of the general risks that may affect an investment in the Company.

(a) Securities investments and share market conditions

There are risks associated with any securities investment. The prices at which the securities trade may fluctuate in response to a number of factors.

Furthermore, the stock market, and in particular the market for exploration and mining companies may experience extreme price and volume fluctuations that may be unrelated or disproportionate to the operating performance of such companies. These factors may materially adversely affect the market price of the securities of the Company regardless of the Company's operational performance. Neither the Company nor the Directors warrant the future performance of the Company, or any return of an investment in the Company.

(b) Liquidity risk

The market for the Company's Shares may be illiquid. As a consequence investors may be unable to readily exit or realise their investment.

(c) Economic risk

Changes in both Australia, Chile and world economic conditions may adversely affect the financial performance of the Company. Factors such as

inflation, currency fluctuations, interest rates, industrial disruption and economic growth may impact on future operations and earnings. The Company's possible revenues and price of its securities can be affected by these factors which are beyond the control of the Company and its Directors.

4 ADDITIONAL INFORMATION

4.1 Disclosing entity

The Company is a 'disclosing entity' (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the period from lodgment of the Company's annual financial statements of the Company for the financial year ended 30 June 2014 to the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the Closing Date:
 - (i) the annual financial report of the Company for the financial year ended 30 June 2014 being the last financial report for a financial year, of the Company lodged with the ASIC before the issue of this Prospectus;

- (ii) any half-year financial report lodged with ASIC by the Company after the lodgment of that annual report and before the lodgment of this Prospectus; and
- (iii) any continuous disclosure notices given by the Company after the lodgment of that annual report and the lodgment of this Prospectus.

Copies of all documents lodged with the ASIC in relation to the Company can be obtained free of charge from the Company's registered office during normal office hours. The Company has lodged the following announcements with ASX since the 30 June 2014 audited financial statements:

ASX maintains files containing publicly available information from all listed companies. The Company's file is available for inspection at ASX during business hours.

4.2 No prospective financial forecasts

The Directors have considered the matters outlined in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings because the proposed future operations of the Company do not have an operating history from which reliable forecasts can be made. Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection.

Notwithstanding the above, this Prospectus includes, or may include, forward looking statements including, without limitation, forward looking statements regarding the Company's financial position, business strategy, and plans and objectives for its business and future operations (including development plans and objectives), which have been based on the Company's current expectations. These forward-looking statements are, however, subject to known and unknown risks, uncertainties and assumptions that could cause actual results, performance or achievements to differ materially from future results, performance or achievements expressed or implied by such forward-looking statements. Such forward looking statements are based on numerous assumptions regarding the Company's present and future business strategies and environment in which the Company will operate in the future.

Matters not yet known to the Company or not currently considered material to the Company may impact on these forward looking statements. These statements reflect views held only as at the date of this Prospectus. In light of these risks, uncertainties and assumptions, the forward-looking statements in this Prospectus

might not occur. Investors are therefore cautioned not to place undue reliance on these statements.

4.3 CHESS

The Company will apply to participate in the Clearing House Electronic Subregister System (CHESS). CHESS is operated by ASX Settlement, a wholly owned subsidiary of ASX.

Under CHESS, the Company will not issue certificates to investors. Instead, security holders will receive a statement of their holdings in the Company. If an investor is broker sponsored, ASX Settlement will send a CHESS statement.

4.4 Privacy

The Company collects information about each Applicant provided on an Application Form for the purposes of processing the Application and, if the Application is successful, to administer the Applicant's security holding in the Company.

By submitting an Application Form, each Applicant agrees that the Company may use the information provided by an Applicant on the Application Form for the purposes set out in this privacy disclosure statement and may disclose it for those purposes to the Share Registry, the Company's related body corporates, agents, contractors and third party service providers, including mailing houses and professional advisors, and to ASX and regulatory authorities.

If an Applicant becomes a Shareholder, the Corporations Act requires the Company to include information about the Shareholder (including name, address and details of the Shares held) in its public register. The information contained in the Company's public register must remain there even if that person ceases to be a Shareholder. Information contained in the Company's register is also used to facilitate distribution payments and corporate communications (including the Company's financial results, annual reports and other information that the Company may wish to communicate to its security holders) and compliance by the Company with legal and regulatory requirements.

If you do not provide the information required on the Application Form, the Company may not be able to accept or process your Application. An Applicant has the right to gain access to the information that the Company holds about that person subject to certain exceptions under law. A fee may be charged for access. Such requests must be made in writing to the Company's registered office.

Notes:

1 Inclusive of short-term benefits and superannuation.

Non-executive Directors are entitled to directors' fees of \$40,000 per annum inclusive of superannuation.

No person has paid or agreed to pay any amount or has given any benefit to any Director to induce them to become, or qualify as a Director or for services provided by the Director, in connection with:

- (a) the formation or promotion of the Company; or
- (b) the offer of New Shares under this Prospectus, except asset out below or elsewhere in this Prospectus.

Information regarding the remuneration received by Directors for the preceding two financial years can be found in the 2014 Annual Report.

The Company has entered into indemnity, insurance and access deeds with each of the Directors (**Deeds**). Under the Deeds, the Company agrees to indemnify each of the Directors to the extent permitted by the Corporations Act against certain liabilities incurred by the Directors whilst acting as an officer of the Company, and to insure each Director against certain risks to which the Company is exposed as an officer of the Company. The Deeds also grant each Director a right of access to certain records of the Company for a period of up to 7 years after the Director ceases to be an officer of the Company.

The Deeds were entered into as part consideration for the Directors agreeing to hold office as directors of the Company.

The Constitution of the Company provides that the Directors may be paid for their services as Directors. Non-executive directors may only be paid a sum not exceeding such fixed sum per annum as may be determined by the Company in general meeting, to be divided among the non-executive directors as they from time to time agree and in default of agreement then in equal shares.

The Company also pays premiums to insure all of the Directors against liabilities for costs and expenses incurred by them in defending legal proceedings arising from their conduct whilst acting in the capacity as a Director of the Company.
