STARGROUP SIGNS NEW TECHNOLOGY AGREEMENT

HIGHLIGHTS

- StarPOS signs Collaborative Projects and Development Agreement with Anthem Software Pty Ltd and Claim Co Pty Ltd
- Anthem Software Pty Ltd is an EDI and supply chain software vendor with more than 50,000 users of its software in Australia and New Zealand
- Anthem Software Pty Ltd's software is used by its major customer, a 16,500 member organization in the automotive industry to process 11.4 million member purchases valued at \$1.41 billion in the year ended 30 June 2015
- Claim Co Group Pty Ltd will develop intellectual property for the onboarding, fulfilment and support of the StarPOS, EFTPOS offering

The Board of Stargroup Limited ("**Stargroup**", **ASX:STL**) are pleased to announce that through its wholly owned subsidiary, namely StarPOS Pty Ltd ("**StarPOS**"), that it has signed a Collaborative Projects and Development Agreement with both Anthem Software Pty Ltd ("**AS**") and Claim Co Group Pty Ltd to develop a software channel and accelerate the roll out of EFTPOS devices through its existing and growing customer networks.

AS is an electronic data interchange ("**EDI**") and supply chain software vendor with more than 50,000 users of its software across Australia and New Zealand. Its customers include the Capricorn Society Limited, a member based organization that exclusively uses AS's software to process more than \$1.4billion worth of member purchases via its CAPlink EDI network.

AS are integration experts, having successfully built interfaces to move electronic data from more than 190 systems including Xero and MYOB to SAP and Microsoft Dynamics. AS are specialists in the development of application interfaces that enable trading partners to transact electronically.

Claim Co Group Pty Ltd ("**CCG**") are a mobile and cloud software vendor who have developed a fast, efficient and easy-to-use mobile and desktop application, **Zimble**, that provides businesses with a platform for effective collaboration with their customers to manage claims and returns.

The development team behind Claim Co have developed proprietary cloud - based IP that will assist StarPOS to efficiently onboard, fulfil and support the StarPOS EFTPOS service offering.

CCG and StarPOS have also entered into a reseller agreement whereby StarPOS can resell Zimble and other Claim Co cloud based application solutions in Australia.

The collective skills of the Parties (Stargroup, AS and Claim Co) will enable the creation of a closed network EDI via EFTPOS platform. The resulting technology will enable StarPOS to launch a bulk supply of EFTPOS solutions to buying groups, debtor financiers, franchise organisations and member groups to existing AS customers and those who are already part of AS's customer base.

An illustration of the development is outlined below:

Mr Todd Zani, Stargroup's CEO and Executive Chairman said *"The relationship with AS is an important one to Stargroup. Anthem's software has been deployed to over 50,000 businesses across Australia and New Zealand, providing StarPOS with a unique opportunity to expand its EFTPOS service offering across Anthem's customer base."*

Today the customers must request private credit approval via a software interface and separately administer their EFTPOS account needs which creates duplication in the management of credit and inefficiencies in the customer's business. When the development is complete, customers will be

able to authorize terminal originated transactions via both the private credit gateway and the banking network.

This is a significant agreement for the Group and the development of the IP is likely to be demanded by other member organizations and we are already fielding further enquiries."

About Stargroup

Stargroup Limited is the only ASX listed company deploying ATM machines in Australia and importantly, the only listed ATM company having a direct ownership interest in the manufacturer of its ATM technologies.

Stargroup Limited merged with iCash Payment Systems Limited (ASX:ICP) on 7 August 2015 and as part of the acquisition became the exclusive distributor of the cashPod ATM range including the recycler ATM, back office and payment technologies in Australia for the next 5 years.

Stargroup Limited, via its wholly owned subsidiary, StarPOS, is also an EFTPOS and payWave technologies provider via its leveraged wholesale Visa and Mastercard agreement and the launch of StarPOS occurred on 1 October 2015.
