## **Global Lithium Exploration and Mining Expert Appointed**

Metalicity Limited (**ASX:MCT**) ("**MCT**" or "**Company**") is pleased to report that, complementary to its in-house mining and exploration expertise, the Company has appointed Dr Andrew Scogings from CSA Global Pty Ltd, who is widely considered a global expert in the field of industrial minerals exploration, mining and marketing, including Lithium and Graphite minerals.

Dr Andrew Scogings is a highly experienced geologist, with expert knowledge of industrial mineral exploration, mining and processing, product development, market applications and commercialisation processes, where he has undertaken technical evaluation of exploration and acquisition targets, geological modelling and resource estimation.

During his time with CSA Global, Dr Andrew Scogings has undertaken project management and technical advice for a diverse range of industrial minerals exploration and mining projects including lithium, graphite, chromite, potash, mineral sands, silica, and REE in Australia, Africa, Greenland, Indonesia, and Norway.

He has also undertaken reviews of global drilling grade barite and natural graphite supply, demand, markets and trends for Industrial Minerals Research, UK; publication of numerous technical articles in Industrial Minerals Magazine, SME Mining Engineering, Geobulletin, AIG News and AusIMM Bulletin and has co-authored various papers in the lithium and graphite industry including as co-author of "**Unusual Spodumene Pegmatites from the Late Kibaran of southern Natal, South Africa**" in 1994. Andrew is a Registered Professional Geologist (RP Geo) specializing in industrial minerals.

Dr Andrew Scogings will initially be undertaking technical evaluation of exploration and acquisition targets within the Company's South Pilgangoora Lithium Project and Munglinup North Graphite Project as well as supporting the exploration and development efforts of the Metalicity team for these projects over the coming months.

### **About Metalicity Limited**

*Metalicity Limited is an Australian mining exploration company with a primary focus on base metals sector and the development of the world class Admiral Bay Zinc Project, located in the north west of Australia. The company is currently undertaking a scoping study on Admiral Bay due to be completed by March 2016. The Company's secondary focus is the rare metals sector with the recent addition of the Pilgangoora South Lithium Project and the Munglinup North Graphite Project where early stage exploration has commenced. The Company is supported by a management team with over 200 years collective experience in the resources sector.*
