**Background**

Individual travellers, businesses and governments globally are incurring significant international call roaming charges. Informa Telecom estimates that mobile operators today bill more than US\$55 billion annually in roaming charges\*, which is forecast to grow to more than \$80 billion by 2018 (source: *Juniper Research report on the Mobile Roaming Market, 2014*).

Norwood Systems’ patent-pending cloud service platforms integrate the international fixed phone network with short-haul Voice over Internet Protocol (VoIP) technologies to optimise roaming business travellers’ telephony experiences.

Australian businesses and individual business travellers are using Norwood’s services today on multiple continents. The Company has built up a significant pipeline of prospects, including global players in the areas of aviation, professional services, banking, telecommunications, engineering and legal services.

## About Norwood Systems

Norwood Systems Ltd (ASX: **NOR**) is revolutionizing the 'Sharing Economy' delivery of high-quality telecommunications services for individual business travellers and organisations on a worldwide basis. The Company listed on the ASX on 16 June 2015.

Norwood Systems was founded in 2011 to develop and supply the best possible global mobility and roaming solutions using Over-The-Top (OTT) technologies. The Company's breakthrough offerings, **CORONA™** and **World Phone™**, deliver the world's most advanced international fixed-line roaming solutions addressing a broad spectrum of customers, from individual business travellers all the way through to large enterprise and government clients.

**CORONA** is an award-winning, enterprise-class cloud services platform that integrates compatible mobile devices securely and seamlessly with the organisation's existing Unified Communication or PBX networks, independent of their location.

**World Phone** is an award-winning, revolutionary communications App, delivering effortless 'Sharing economy' consumer access to leading fixed-line network service providers around the world, providing unparalleled local access to high-quality voice networks in more than 90 countries.
