It is recommended that the half-year financial report be read in conjunction with the annual report for the year ended 30 June 2015 and considered together with any public announcements made by Schaffer Corporation Limited during the half-year ended 31 December 2015 in accordance with the continuous disclosure obligations of the ASX listing rules.

AASB 2015-3 Amendments to Australian Accounting Standards arising from the Withdrawal of AASB 1031 Materiality

The Standard completes the AASB's project to remove Australian guidance on materiality from Australian Accounting Standards. The standard does not result in any change to the accounting policies as disclosed in the 30 June 2015 annual financial statements.

8. GOODWILL

Goodwill at cost	1,299	1,299
------------------	--------------	-------

The Group tests goodwill annually for impairment or more frequently if there are indications that goodwill might be impaired. The majority of the goodwill relates to the Automotive Leather division.

The recoverable amount of the Automotive Leather division has been determined based on a value in use calculation using cash flow projections based on financial budgets approved by senior management. In the opinion of management, the goodwill typically is supported by less than one year's trading at current levels hence discounting is not necessary. The recoverable amount was in excess of the carrying amount, and therefore no impairment was recognised during the half-year ending 31 December 2015.

9. FINANCIAL INSTRUMENTS

Foreign exchange contracts, available for sale investments, and interest rate swaps are carried on the balance sheet at net fair value.

The Group uses various methods in estimating the fair value of a financial instrument. The methods comprise:

- Level 1 – the fair value is calculated using quoted prices in active markets.
- Level 2 – the fair value is estimated using inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices).
- Level 3 – the fair value is estimated using inputs for the asset or liability that are not based on observable market data.

The fair value of the financial instruments carried at fair value, as well as the methods used to estimate the fair value, are summarised in the table below:

	(Level 1) \$'000	(Level 2) \$'000	(Level 3) \$'000	Total \$'000

9. FINANCIAL INSTRUMENTS (continued)

Quoted market price represents the fair value determined based on quoted prices on active markets as at the reporting date without any deduction for transaction costs. The fair value of the listed equity investments are based on quoted market prices.

For unlisted investments the fair value is determined by the calculation of the Group's percentage ownership in unlisted unit trusts multiplied by the total net assets of the unit trusts at fair value. The effect of these reassessments of fair value on other comprehensive income for the period is an increase of \$127,000.

10. CONTRIBUTED EQUITY

On 5 January 2016, the Group, through its subsidiary Gosh Capital Pty Ltd, applied for units in a property unit trust to the value of \$1,000,000. A deposit of \$250,000 has been paid in February 2016, with the balance expected to be paid by the end of March 2016.

There has not been any other matter or circumstance in the interval between the end of the half-year and the date of this report that has significantly affected or may significantly affect the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial periods.

15. SEGMENT INFORMATION

(a) Identification of reportable segments

The Group has identified its operating segments based on the internal reports that are reviewed and used by the executive management team (the chief operating decision makers) in assessing performance and in determining the allocation of resources.

The operating segments are identified by management based on the nature of the product and customer supplied, and services provided and the identity of service line manager. Discrete financial information about each of these operating businesses is reported to the executive management team on a monthly basis.

The reportable segments are based on aggregated operating segments determined by the similarity of economic characteristics, the products produced and sold and/or the services provided, as these are the sources of the Group's major risks and have the most effect on the rates of return.

The Group comprises the following reportable segments:

The **Automotive Leather** segment is a manufacturer and supplier of leather in the automotive industries.

The **Building Materials** segment comprises Delta Corporation Limited and Urbanstone Pty. Ltd. and produces and sells concrete paving, pre-cast and pre-stressed concrete elements and natural and reconstituted limestone products.

The **Investment Property** segment includes the Group's share of syndicated property investments and the 100% owned investment property of the Group, excluding those investments and property owned by Gosh Capital. The activities of the segment include the leasing of office and retail properties, and the development and sale of property assets.

The **Gosh Capital** segment manages the assets of the previously operated Gosh Leather business, and invests profits earned from those assets in investment opportunities.

(b) Accounting policies and inter-segment transactions

The accounting policies used by the Group in reporting segments internally are the same as those discussed in note 2 to the accounts and in the prior period. There are no inter-segment transactions.

15. SEGMENT INFORMATION (continued)

(c) Allocation of Assets

It is the Group's policy that if items of revenue and expense are not allocated to operating segments, then any associated assets are also not allocated to segments. This is to avoid asymmetrical allocations within segments which management believe would be inconsistent.

(d) Basis of segmentation and measurement of segment profit

There has been no change in the basis of segmentation or in the basis of measurement of segment profit from those used in the last annual financial statements.

To the members of Schaffer Corporation Limited,

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of Schaffer Corporation Limited which comprises the statement of financial position as at 31 December 2015, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal controls as the directors determine are necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2015 and its performance for the half-year on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Schaffer Corporation Limited and the entities it controlled during the period, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We have given to the directors of the company a written Auditor's Independence Declaration, a copy of which is included in the Directors' Report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Schaffer Corporation Limited is not in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2015 and of its performance for the half-year ended on that date; and
- b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.
