Denver 1600 hours April 3rd, 2016, Perth 0800 hours April 4th, 2016

Foreman Butte Transaction

Samson Oil and Gas USA, Inc (a wholly owned subsidiary of Samson Oil and Gas Limited) has closed the transaction to acquire the Foreman Butte acquisition.

The acquisition includes oil and gas leases, producing oil and gas wells, currently shut-in wells and associated facilities in North Dakota and Montana for consideration of \$16.0 million.

Samson's existing primary lender has funded \$11.5 million of the acquisition price as part of an expanded debt facility. This facility will initially bear an interest rate equal to 6% plus the monthly LIBOR interest rate. The seller has accepted a \$4 million promissory note secured by a second lien with a 12 month term and a 10% interest rate.

This acquisition includes the potential for further growth opportunities for Samson through the continued production of the currently producing wells, the workover and stimulation targets of the PDNP wells and, as the oil price continues to improve, the development of numerous PUD locations. The growth potential of this asset is evidenced by the previously disclosed reserve information:
