## GOOD ENERGY SIGNS WITH GENTRACK FOR NEW BILLING AND CUSTOMER MANAGEMENT SOLUTION

Gentrack Group (NZX/ASX: GTK), a specialist in software for utilities and airports, is pleased to announce the signing of a contract with Good Energy, a leading renewable energy retail utility in the UK, to implement its Gentrack Velocity Billing and CRM software.

Gentrack CEO Ian Black said the contract represents a significant milestone for the Gentrack business in the UK energy sector.

“The UK energy sector is rapidly evolving with retailers like Good Energy, a provider of 100% renewable energy, challenging the Big 6 energy providers. This contract to deliver our proven billing and customer management solution supports our continued investment in the UK as a core growth market for Gentrack.”

Gentrack is also pleased to advise the re-signing of the Fiji Electricity Authority (FEA) for an upgrade of its Gentrack Velocity billing and CRM software. This project continues a 17 year partnership with FEA, Fiji’s incumbent supplier of electricity services to over 200,000 households and businesses.

### About Gentrack

Auckland-based Gentrack is a developer of specialist software for energy utilities, water companies and airports around the world. It employs over 200 people in offices in New Zealand, Australia and the UK, and services utility and airport sites across four continents. Gentrack is comprised of two leading software products - Gentrack Velocity and Airport 20/20. Gentrack Velocity is a specialist billing and CRM product designed for energy utilities and water companies in competitive and regulated utilities markets. Airport 20/20 is a comprehensive Airport Operational System engineered to optimise an airport’s operations through intelligent collaboration, streamlining airport information flows and transforming the passenger experience.
