CORPORATE GOVERNANCE

IAG Finance (New Zealand) Limited (Company) has responsibility for the management of all treasury functions of Insurance Australia Group Limited's (IAG) operations in New Zealand. The New Zealand Branch of the Company employs a Branch Manager to manage the performance of these functions.

The Company utilises and is subject to IAG's corporate governance framework, including risk, compliance and capital management policies, procedures and controls. Except as noted below, the key corporate governance practices followed by the Company are the same as those of IAG. The corporate governance framework and practices of IAG are on the IAG website at www.iag.com.au/about-us/corporate-governance.

The Company's Corporate Governance Statement has been approved by the Board. The Company has complied with most, but not all, of the Australian Securities Exchange (ASX) Corporate Governance Council's Principles and Recommendations 3rd edition (CGC Principles). Where the Company has not complied, it is the Company's view that this non-compliance is appropriate given that the corporate governance practices and framework adopted are not separable from the corporate governance practices of IAG and the Company is a wholly owned subsidiary of IAG.

PRINCIPLE 1. LAY SOLID FOUNDATIONS FOR MANAGEMENT AND OVERSIGHT

1.1. THE BOARD

The Company's Board (Board) is responsible for protecting the interests of security holders, collectively overseeing and appraising the strategies, policies and performance of the Company's operations, and specifically:

- monitoring the Company's financial performance and reporting;
- reviewing the adequacy of systems to comply with all laws and regulations which apply to the Company;
- monitoring the Company's key risk areas by ensuring the implementation of a suitable risk management and internal controls framework;
- ensuring the integrity of the accounting and reporting systems, including the external audit process;
- ensuring that the Company's reporting and disclosure processes include compliance with all relevant and applicable legal and commercial requirements; and
- ensuring that proper governance practices (including appropriate standards of ethical behaviour, corporate governance, work place health and safety, and social responsibility) are established, and processes exist to ensure they are adhered to at all times by the Company.

The Branch Manager is responsible for the day-to-day operations of the Company and reports directly to the IAG Deputy Group Treasurer and the relevant finance Executives in the IAG Group's New Zealand operations. The Company does not have a Chief Executive Officer (CEO).

1.2. APPOINTMENT OF DIRECTORS

The Board currently comprises two Non-Executive Directors who are also Non-Executive Directors of IAG, and two Executive Directors. The Chairman, Elizabeth Bryan, is also Chairman of IAG.

The Company has taken the view that this is an appropriate Board structure for the Company and that the appointment to the Board of a majority of Non-Executive Directors is not warranted for the reasons set out in the introduction to this section of the report.

The names of Directors in office at the date of this report, their year of appointment, their designation as a Non-Executive Director or Executive Director, and their experience, expertise and biographical details are set out in the Directors' Report.

1.3. APPOINTMENT TERMS

Elizabeth Bryan and Hugh Fletcher will remain Non-Executive Directors of the Company while they remain Non-Executive Directors of IAG, the Company's sole shareholder.

1.4. COMPANY SECRETARY

The Company Secretary is responsible to the Board for ensuring Board procedures are complied with and also providing advice and counsel to the Board in relation to the Company's constitution, corporate governance and other matters.

The Company Secretary has responsibility for the timely dispatch of Board papers and the accurate recording of business discussed at the Board meetings in the minutes. The qualifications and experience of the Company Secretary are set out in the IAG 2016 Annual Report.

1.5. DIVERSITY

The Company does not maintain a separate diversity policy and it is the Company's view that this non-compliance is appropriate given the diversity practices and framework adopted are not separable from the diversity practices of IAG and the Company is a wholly owned subsidiary of IAG. Full details of the IAG diversity policies are set out on the IAG website at www.iag.com.au/about-us/corporate-governance/codes-and-policies#Diversitypolicy.

1.6. MEASURING THE PERFORMANCE OF DIRECTORS

The Company does not measure the performance of the Directors and it is the Company's view this non-compliance is appropriate given the Director measurement framework adopted is not separable from the Director measurement practices of IAG and the Company is a wholly owned subsidiary of IAG. The Company Directors are Directors and Group Executives of IAG and full details of the IAG measurement policy are set out in the IAG 2016 Annual Report.

2 IAG FINANCE (NEW ZEALAND) LIMITED

1.7. PERFORMANCE ASSESSMENT – CEO AND GROUP EXECUTIVES

It is the Company's view non-compliance with this principle is appropriate given the Company does not have a CEO or Executive team. The IAG CEO and Group Executive team are responsible for the day-to-day operations of the Company and details of the performance assessment for IAG are shown in the 2016 IAG Annual Report.

PRINCIPLE 2. STRUCTURE THE BOARD TO ADD VALUE

2.1. NOMINATION COMMITTEE (NC)

The Company does not maintain a separate NC and it is the Company's view that this non-compliance is appropriate given the Company is a wholly owned subsidiary of IAG.

The establishment of a NC or, indeed, empowering the IAG NC to act for the Company in this capacity, would not add value to the Company's corporate governance practices given the Directors appointed to the Board receive no additional remuneration from the Company or any related parties for their service on the Board. The IAG NC evaluates the performance of the IAG Board, its committees, individual Directors and IAG key management personnel. The IAG People and Remuneration Committee (PARC) also reviews the composition and the performance of IAG subsidiary company boards, including the Board, at least annually.

2.2. BOARD SKILLS

The Board's policy is to ensure the Board comprises Directors who collectively have the relevant experience, knowledge, diversity and skills required for the Company. This takes into account the Company's current size, market position, complexity and strategic focus. In reviewing its composition, skills, and requirements for Director succession, the Board is also mindful of the corporate governance practices and requirements for Directors of general insurance companies.

A review of Board skills for IAG was undertaken during 2016 and the collective skills of the current IAG Board are shown in the 2016 IAG Annual Report.

2.3. BOARD OF DIRECTORS

Details of the current Board of Directors are shown as part of the Directors' Report on pages 5 and 6 of this Annual Report.

2.4. DIRECTOR INDEPENDENCE

Elizabeth Bryan and Hugh Fletcher have been deemed by the Company to be Non-Executive Directors. All Directors are free of any business or other relationship that could materially interfere with the exercise of their judgement. All current Non-Executive Directors have confirmed their continued independence.

2.5. THE CHAIRMAN

The Chairman is a Non-Executive Director and is responsible for ensuring the Board fulfils its responsibilities to the Company and stakeholders. The Chairman provides leadership to the Board, and promotes constructive and respectful relations between Directors.

2.6. DIRECTOR INDUCTION, EDUCATION AND TRAINING

The Company encourages continuing professional education for each of its Directors. All Directors are expected to remain up to date in relation to issues affecting the Company, the general insurance industry, and their duties as Directors.

All Directors appointed to the Company are offered and encouraged to undertake training to ensure they can continue to effectively and competently perform their roles as Directors.

PRINCIPLE 3. PROMOTE ETHICAL AND RESPONSIBLE DECISION MAKING

The Directors and the sole employee of the Company are expected to comply with IAG's Code of Conduct, Continuous Disclosure and Security Trading Policies, which are set out in further detail in the Corporate Governance Section of the IAG website at www.iag.com.au/about-us/corporate-governance. A copy of the Codes and Policies can be found on the IAG website at www.iag.com.au/about-us/corporate-governance. The IAG Security Trading Policy applies to trading by the Company's Directors and sole employee in Reset Exchangeable Securities (RES) issued by the Company and other IAG securities.

IAG's Code of Ethics and Continuous Disclosure Policy also set out the policies and procedures for how Directors and management are encouraged to assist in the process of the Board identifying, evaluating and reporting on matters to comply with the provisions of the Corporations Act 2001 and the ASX Listing Rules in relation to continuous disclosure so as to keep the market fully informed.

PRINCIPLE 4. SAFEGUARD INTEGRITY IN FINANCIAL REPORTING

4.1. AUDIT COMMITTEE (AC)

The Company does not have any standing committees, but has empowered the IAG AC to perform the same role for the Company as it does for IAG and for most of its authorised insurer subsidiary companies. The AC Charter can be found on the IAG website at www.iag.com.au/about-us/corporate-governance. The Charter also sets out procedures for the appointment, reappointment and monitoring of the effectiveness and independence of the external auditor including rotation of the lead audit partner.

The names and qualifications of the members of the AC and the meetings held in the year are set out in the IAG 2016 Annual Report, which is also available on the IAG website. The Company has taken the view that it is appropriate for the AC to perform this task as long as it is composed of Directors that are considered to be independent.

4.2. ASSURANCES

The Board has received assurance from the IAG CEO and CFO that the declaration provided in accordance with section 295A of the Corporations Act 2001 is founded on a sound system of risk management and internal control and that the system is operating effectively in all material respects in relation to financial reporting risks.

4.3. EXTERNAL AUDITOR

The external auditor is available to answer security holders' questions concerning the conduct of the audit, the preparation and content of the Auditor's Report, the accounting policies adopted and auditor independence.

PRINCIPLE 5. MAKE TIMELY AND BALANCED DISCLOSURE

The Company does not maintain a separate policy and it is the Company's view that this non-compliance is appropriate given the practices and framework adopted are not separable from the practices of IAG and the Company is a wholly owned subsidiary of IAG. Full details of the IAG policy are set out on the IAG website at www.iag.com.au/about-us/corporate-governance.

PRINCIPLE 6. RESPECT THE RIGHTS OF SECURITY HOLDERS

The Company makes quarterly announcements to the ASX regarding interest payments and the interest rate for the following quarter. Security holders, who elect to do so, also receive a copy of the Company's Annual Report. ASX announcements and any half year, annual, financial and Directors' Reports are also posted on the IAG website.

The Company is not required to hold annual general meetings. Security holders may raise any issues or concerns at any time by contacting the Company. Security holders should email their questions or comments to investor.relations@iag.com.au or write to the Chairman or Company Secretary at IAG Finance (New Zealand) Limited, Level 26, 388 George Street, Sydney NSW 2000.

PRINCIPLE 7. RECOGNISE AND MANAGE RISK

7.1. RISK COMMITTEE (RC)

The Company forms part of the overall IAG Risk Management Strategy (RMS), as such it does not maintain a separate RMS or RC. It is the Company's view that this non-compliance is appropriate given the practices and framework adopted are not separable from the practices of IAG and the Company is a wholly owned subsidiary of IAG. Full details of the IAG RC charter are on the IAG website at www.iag.com.au/about-us/corporate-governance.

7.2. REVIEW RISK MANAGEMENT FRAMEWORK

The Company has delegated its risk management function to the IAG RC and the Board receives information on matters of particular significance and regular updates from the Chair of the RC.

7.3. INTERNAL AUDIT FUNCTION

The Company forms part of the overall IAG Risk Management Strategy (RMS), as such it does not maintain a separate AC. It is the Company's view that this non-compliance is appropriate given the practices and framework adopted are not separable from the practices of IAG and the Company is a wholly owned subsidiary of IAG. Full details of the IAG policy are set out in the IAG 2016 Annual Report.

The Board has established the Group Internal Audit function as a key component of the Company's governance framework. The Group Internal Audit function's objective is to evaluate and improve the effectiveness of internal controls, governance processes and overall risk management, via its independent and objective review program.

The Group General Manager, Internal Audit reports functionally to the AC and administratively to the Chief Risk Officer. The Group General Manager, Internal Audit has direct access to the IAG CEO and the AC.

The Company is subject to a number of additional external and internal reporting requirements:

- quarterly reports are prepared for the Trustee and ASIC pursuant to Section 283BF of the Corporations Act; and
- quarterly compliance reports setting out the compliance by the Company's New Zealand Branch with various legal, tax and risk management requirements in New Zealand are prepared for the Group General Manager, Internal Audit.

7.4. ECONOMIC ENVIRONMENTAL AND SOCIAL SUSTAINABILITY RISK

The Company recognises that its business has an impact on the community, the environment and the wider economy, and believes it must operate in a way that takes into account and responds to these impacts effectively to meet its commitments. The Company complies with the IAG Code of Conduct to guide compliance with legal and other obligations to legitimate stakeholders. Further details are provided in the IAG 2016 Annual Report, and are also available on the IAG website.

PRINCIPLE 8. REMUNERATE FAIRLY AND RESPONSIBLY

8.1. PEOPLE AND REMUNERATION COMMITTEE

Remuneration practices of the Company form part of the overall IAG PARC responsibilities and as such it does not maintain a separate PARC. It is the Company's view that this non-compliance is appropriate given the practices and framework adopted are not separable from the practices of IAG and the Company is a wholly owned subsidiary of IAG. Full details of the IAG policy are set out in the IAG 2016 Annual Report.

The PARC Charter can be found on the IAG website at www.iag.com.au/about-us/corporate-governance. The names and qualifications of the members of the PARC and the meetings held in the year are set out in the IAG 2016 Annual Report which is also available on the IAG website. The sole employee of the Company is not a member of key management personnel of the Company under the Corporations Act or generally accepted accounting standards and, accordingly, disclosure of remuneration received by this employee is not required.

C. BASIS OF PREPARATION

The financial statements have been prepared on the basis of historical cost principles, as modified by certain exceptions noted in the financial report. All values are rounded to the nearest thousand dollars, unless otherwise stated, in accordance with ASIC Corporations Instrument 2016/191.

The balance sheet is prepared with the assets and liabilities presented broadly in order of liquidity. The assets and liabilities comprise both current amounts (expected to be recovered or settled within 12 months after the reporting date) and non-current amounts (expected to be recovered or settled more than 12 months after the reporting date).

I. Presentation and foreign currency

The financial report is presented in Australian dollars, which is the functional currency of the Company. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at reporting date are translated to the functional currency using reporting date exchange rates. Resulting exchange differences are recognised in profit or loss.

II. Changes to comparatives

As a result of the reorganisation of the financial report, certain comparative items have been reclassified from the Company's prior year financial report to conform to the current period's presentation.

D. SIGNIFICANT ACCOUNTING POLICIES ADOPTED

The accounting policies adopted in the preparation of this financial report have been applied consistently and are the same as those applied for the previous reporting year, unless otherwise stated. 2. FINANCING DISCLOSURE

SECTION INTRODUCTION

This section provides information about the performance of the Company during the year. The Company performs treasury functions of IAG's New Zealand operations. It issues Reset Exchangeable Securities (RES) to external investors and loans the entire amount to a related body corporate, a wholly-owned subsidiary of IAG. The Company operates as a single segment and accordingly the information presented in the financial statements represents the segment reporting information.

NOTE 2.1 ANALYSIS OF INTEREST INCOME AND EXPENSES

	2016 \$000	2015 \$000
Interest revenue		
Related bodies corporate - interest income on loans to IAG (NZ) Holdings Limited	25,818	27,118
Other corporations	4	14
Total interest revenue	25,822	27,132
Interest expense		
Reset exchangeable securities	(24,647)	(25,966)
Net interest income	1,175	1,166

A. RECOGNITION AND MEASUREMENT

I. Interest income

Interest income on the loan to a related body corporate and external parties is brought to account on an accrual basis.

II. Interest expense

Interest expense on the RES is brought to account on an accruals basis and payable quarterly subject to the terms of issue.

NOTE 2.2 RESET EXCHANGEABLE SECURITIES

	2016 Carrying value \$000	2016 Fair value \$000	2015 Carrying value \$000	2015 Fair value \$000
A. COMPOSITION				
5,500,000 reset exchangeable securities	550,000	550,000	550,000	567,050

The listed offer price as at reporting date was \$100.00 per \$100.00 of face value (2015-\$103.10).

B. TERMS AND CONDITIONS

- Face value of \$550 million, issued by the Company's New Zealand Branch and traded on the ASX;
- Non-cumulative floating rate distribution payable quarterly and expected to be fully franked;
- Distribution rate equals the sum of the three month bank bill rate plus RES margin of 4.00% per annum multiplied by (1-tax rate);
- Payments of distributions can only be made subject to meeting certain conditions. If no distribution is made, no dividends can be paid and no returns of capital can be made on IAG ordinary shares unless IAG takes certain actions; and
- The RES may be exchanged by IAG or the holder on a reset date, or upon certain events. The next reset date is 16 December 2019. On exchange, IAG may convert RES into IAG ordinary shares, arrange a third party to acquire RES for their face value or redeem RES for their face value (subject to APRA approval).

C. RECOGNITION AND MEASUREMENT

I. Interest bearing liabilities

The RES was initially measured at fair value (net of transaction costs) and subsequently measured at amortised cost. Based on market conditions at any point in time, the carrying value of the liabilities may not be representative of the fair value of the liabilities. The fair value for all interest bearing liabilities is calculated using their quoted market price (fair value hierarchy level 1).

NOTE 2.3 RELATED PARTY DISCLOSURES

A. INTRAGROUP BALANCE SHEET TRANSACTIONS

	2016 \$	2015 \$
Assets		
Amounts receivable - from IAG Limited (controlling entity)	-	12,378,604
Loan to other bodies corporate - IAG (NZ) Holdings Limited*	551,086,661	551,109,469
Liabilities		
Amounts payable - to other related parties of the IAG Group	12,529	20,632

* The balance at reporting date included accrued interest of \$1,086,661 (2015 \$1,109,469) which is due in three months.

B. OTHER INTRAGROUP PROFIT/(LOSS) TRANSACTIONS

	2016	2015
	\$	\$
Interest income on loans to IAG (NZ) Holdings Limited	25,817,634	27,117,812
Services fee received or receivable	77,244	77,170

C. RECOGNITION AND MEASUREMENT

Intragroup transactions are charged to the relevant entities on normal commercial terms and conditions, on a direct and actual cost recovery basis or time allocation basis. All intragroup balances outstanding at reporting date are considered highly liquid and of negligible credit risk and so the carrying amount is a reasonable estimation of the fair value of the balances.

3. RISK

NOTE 3.1 RISK MANAGEMENT

The Company is exposed to interest rate risk, foreign exchange risk, credit risk, and liquidity risk from its business.

A. INTEREST RATE RISK

Interest rate risk is the risk of loss arising from an unfavourable movement in market interest rates. The Company's exposure to interest rate risk arises primarily from the RES and the loan to a related body corporate. Both the financial asset and financial liability are denominated in Australian dollars and bear a variable rate of interest, which is reset and paid quarterly.

The interest rate on the loan to a related body corporate is calculated at the interest rate payable on the RES plus a margin. Net interest income will not be materially affected by either an increase or a decrease in interest rate.

B. FOREIGN EXCHANGE RISK

Foreign exchange risk is the risk of loss arising from an unfavourable movement in market exchange rates. The Company is exposed to insignificant foreign exchange risk arising from translation of operational costs denominated in New Zealand dollars.

C. CREDIT RISK

Credit risk is the risk of loss from a counterparty failing to meet their financial obligations. The credit risk exposures of the Company are in respect of the non-repayment of receivables and loans with related parties and the amounts are as indicated by the carrying amount of the financial assets. Credit risk is mitigated as all significant transactions are undertaken with IAG Group entities. The Company complies with the credit risk management policies of the IAG Group. The policies outline the framework and procedures in place to ensure an adequate and appropriate level of monitoring and management of credit quality.

D. LIQUIDITY RISK

Liquidity risk is concerned with the risk that sufficient cash resources will not be available to meet payment obligations as they become due (without incurring significant additional costs). The liquidity position is derived from operating cash flows and access to liquidity through related bodies corporate. The Company complies with the liquidity risk management policies of the IAG Group. The policies outline the framework and procedures in place to ensure an adequate and appropriate level of monitoring and management of liquidity.

The Company's exposure to liquidity risk arises primarily from the RES. The Company manages this risk by matching the quarterly interest payments to the RES holders with the quarterly interest income from the loan to a related body corporate. Other financial liabilities of the Company are normally due within 12 months and they will in general be covered by the quarterly interest income received which is set with a margin over the interest payment to the RES holders.

The RES has a reset date of 16 December 2019 which is the same as the reset date of the loan to a related body corporate. The following table provides information about the residual maturity periods of RES based on the contractual maturity dates of undiscounted cash flows.

	MATURITY DATES OF CONTRACTUAL UNDISCOUNTED CASH FLOWS			
	Within 1 year	1 - 2 years	2 - 5 years	Total
	\$000	\$000	\$000	\$000
2016				
Contractual undiscounted interest payments*	<u>23,196</u>	<u>23,196</u>	<u>69,589</u>	<u>115,981</u>
2015				
Contractual undiscounted interest payments*	<u>23,709</u>	<u>23,709</u>	<u>71,129</u>	<u>118,547</u>

* Contractual undiscounted interest payments are calculated based on prevailing market floating rates as applicable at the reporting date. Interest payments have not been included beyond five years.

E. CAPITAL MANAGEMENT STRATEGY

The funds raised through the issue of the RES are in effect the capital of the Company. This capital is managed in consultation with the Company's ultimate parent entity, IAG.

4. CAPITAL STRUCTURE

NOTE 4.1 NOTES TO THE STATEMENT OF CHANGES IN EQUITY

As at reporting date, the Company had 1 ordinary share on issue (2015 - 1).

NATURE AND PURPOSE OF EQUITY

Ordinary shares

All ordinary shares on issue are fully paid and have no par value. Ordinary shares entitle the holder to a vote at a general meeting of the Company and to participate in the dividends and the proceeds on winding up of the Company in proportion to the number of, and amounts paid on, the shares held. Dividends, if declared, are subject to there being distributable profits available.

Shares are classified as equity when there is no obligation to transfer cash or other assets to the holder. Transaction costs directly attributable to the issue of equity instruments are shown in equity as a deduction from the proceeds, net of tax.

C. RECOGNITION AND MEASUREMENT

I. Income tax

Income tax expense for a reporting year comprises current and deferred tax. Income tax is recognised in profit or loss, except to the extent that it relates to items recognised directly in either equity or other comprehensive income.

II. Current tax

Current tax assets and liabilities are the expected tax recoverable or payable on the taxable income for the year, using tax rates for each jurisdiction, and any adjustment to tax payable in respect of previous financial periods. These include any rates or laws enacted or substantially enacted as at the balance sheet date.

III. Deferred tax

Deferred tax liabilities are recognised for all taxable temporary differences between the carrying amount and tax bases. Deferred tax assets (deductible temporary differences, carried forward unused tax assets and unused tax losses) are recognised to the extent it is probable that future taxable profit will be available to utilise them before the unused tax losses or credits expire. In making this assessment, IAG considers historical trends of profit generation, future business plans, the causation of the tax losses and any available tax planning opportunities.

IV. Tax consolidation

IAG and its Australian resident wholly owned subsidiaries adopted the tax consolidation legislation with effect from 1 July 2002 and are therefore taxed as a single entity from that date. IAG is the head entity within the tax-consolidated group.

V. New Zealand Branch

The New Zealand Branch of the Company is a resident in New Zealand for tax purposes and is liable for all taxes on income generated in New Zealand. These liabilities or refunds are recognised by the New Zealand Branch and disclosed as current tax liabilities or assets in the Company's balance sheet.

C. SIGNIFICANT NON-CASH TRANSACTIONS RELATING TO FINANCING AND INVESTING TRANSACTIONS

There were no financing or investing transactions during the year which have had a material effect on the assets and liabilities that did not involve cash flows.

D. RECOGNITION AND MEASUREMENT

Cash and cash equivalents represent cash at bank and on hand, deposits at call and short term money held in investments, net of any bank overdraft. Money held in investments is readily convertible to cash within two working days and subject to insignificant risk of change in value.

The majority of the amounts bear variable rates of interest based on daily bank deposit rates. Those balances bearing a fixed rate of interest mature in less than one year.

NOTE 6.3 KEY MANAGEMENT PERSONNEL

DETAILS OF COMPENSATION

Key management personnel (KMP) are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any Director (whether Executive or otherwise) of that entity. It is important to note that the Company's Non-Executive Directors are specifically required to be included as KMP in accordance with AASB 124 Related Party Disclosures. However, the Non-Executive Directors do not consider that they are part of 'management'. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial report.

We performed the procedures to assess whether in all material respects the financial report presents fairly, in accordance with the Corporations Act 2001 and Australian Accounting Standards, a true and fair view which is consistent with our understanding of the Company's financial position and of its performance.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
