NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended 30 June 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial statements are for the consolidated entity consisting of Eumeralla Resources Ltd and its subsidiaries (the **Group**).

Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001*. Eumeralla Resources Ltd (the **Company**) is a public company limited by shares and incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange. The Company is a for-profit entity for the purpose of preparing the financial statements.

Compliance with IFRS

The consolidated financial statements of the Group also comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

New and amended standards adopted by the Group

None of the new standards and amendments to standards that are mandatory for the first time for the financial year beginning 1 July 2015 affected any of the amounts recognised in the current period or any prior period and are not likely to affect future periods.

Standards and Interpretations issued but not yet effective

None of the new standards and interpretations issued but not yet effective for the current annual reporting period have a material impact on the Group.

Early adoption of standards

The Directors have not elected to apply any pronouncements before their operative date in the annual reporting period beginning 1 July 2015.

Historical cost convention

These financial statements have been prepared under the historical cost convention.

Critical accounting estimates and judgements

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

In preparing this financial report, the significant judgements made by management in applying the consolidated entity's accounting policies and the key sources of estimation uncertainty are noted below:

Impairment

The consolidated entity assesses impairment at each reporting date by evaluating conditions specific to the consolidated entity that may lead to impairment of assets. Where an impairment trigger exists, the recoverable amount of the asset is determined.

Exploration and evaluation expenditure

The write-off and carrying forward of exploration acquisition costs is based on an assessment of an area of interest's viability and/or the existence of economically recoverable reserves.

Deferred taxation

Deferred tax assets in respect of tax losses have not been brought to account as it is not considered probable that future taxable profits will be available against which they could be utilised.

Share-Based Payments

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by an external valuer using a Black and Scholes model, using the assumptions detailed in note 19.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended 30 June 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of preparation (continued)

Comparative information

Comparative information is for the financial year ended 30 June 2015.

Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Eumeralla Resources Ltd as at 30 June 2016 and the results of all subsidiaries for the year then ended. Eumeralla Resources Ltd and its subsidiaries together are referred to in this financial report as the Group or consolidated entity.

The financial statements of the subsidiaries are prepared for the same reporting period as the parent entity, using consistent accounting policies.

In preparing the consolidated financial statements, all intercompany balances and transactions, income and expenses and profit and losses resulting from intra-group transactions have been eliminated in full.

Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity and cease to be consolidated from the date on which control is transferred out of the consolidated entity. Control exists where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing when the consolidated entity controls another entity.

Non-controlling interests represent the portion of profit or loss and net assets in subsidiaries not held by the Company and are presented separately in the statement of comprehensive income and within equity in the consolidated balance sheet. Losses are attributed to the non-controlling interests even if that results in a deficit balance.

The consolidated entity treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the consolidated entity. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity attributable to owners of Eumeralla Resources Ltd.

When the consolidated entity ceases to have control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint controlled entity or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision makers – being the Board of Directors.

Foreign currency translation

Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Australian dollars, which is the parent entity's functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss, except when they are deferred in equity as qualifying cash flow hedges and qualifying net investment hedges or are attributable to part of the net investment in a foreign operation.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign currency translation (continued)

Foreign exchange gains and losses are presented in the statement of comprehensive income on a net basis within other income or other expenses.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

Group companies

The results and financial position of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

-) assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
-) income and expenses for each statement of comprehensive income are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions), and
-) all resulting exchange differences are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign operation is sold or any borrowings forming part of the net investment are repaid, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale.

Revenue recognition

Interest income

Interest income is recognised using the effective interest method.

Impairment of Assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Exploration and evaluation expenditure

Exploration and evaluation costs related to an area of interest are written off as incurred except that they may be carried forward as an item in the statement of financial position where the rights of tenure of an area are current and one of the following conditions is met:

-) the costs are expected to be recouped through successful development and exploitation of the area of interest, or alternatively, by its sale; and
-) exploration and/or evaluation activities in the area of interest have not at the end of each reporting period reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active and significant operations in, or in relation to, the area of interest are continuing.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended 30 June 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Exploration and evaluation expenditure (continued)

Capitalised costs include costs directly related to exploration and evaluation activities in the relevant area of interest. General and administrative costs are allocated to an exploration or evaluation asset only to the extent that those costs can be related directly to operational activities in the area of interest to which the asset relates.

Capitalised exploration and evaluation expenditure is written off where the above conditions are no longer satisfied.

Identifiable exploration assets acquired are recognised as assets at their cost of acquisition, as determined by the requirements of AASB 3 Business Combinations.

Exploration and evaluation expenditure incurred subsequent to the acquisition in respect of an exploration asset acquired is accounted for in accordance with the policy outlined above.

All capitalised exploration and evaluation expenditure is assessed for impairment if facts and circumstances indicate that an impairment may exist. Exploration and evaluation assets are also tested for impairment once commercial reserves are found, before the assets are transferred to development properties.

Trade and other payables

Liabilities are recognised for amounts to be paid in the future for goods or services received, whether or not billed to the consolidated entity. Trade accounts payable are normally settled within 60 days. Trade and other payables are presented as current liabilities unless payment is not due within 12 months from the reporting date. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost.

Issued Capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

Income tax

The income tax expense or benefit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary difference and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance date.

Deferred income tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences:

- (a) except where the deferred income tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- (b) in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, except where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income tax (continued)

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry-forward of unused tax assets and unused tax losses can be utilised:

- (a) except where the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- (b) in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Unrecognised deferred income tax assets are reassessed at each balance date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Income taxes relating to items recognised directly in equity are recognised in equity and not in the Statement of Comprehensive Income.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

The consolidated entity has unused tax losses. However, no deferred tax balances have been recognised, as it is considered that asset recognition criteria have not been met at this time.

Other taxes

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the taxation authority, are presented as operating cash flows.

Earnings/loss per share

Basic earnings/loss per share is calculated by dividing the profit/loss attributable to owners of the Company by the weighted average number of ordinary shares outstanding during the financial year.

EUMERALLA
RESOURCES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended 30 June 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Share-based payment transactions

Equity settled transactions

The Eumeralla Performance Rights Plan provides benefits to directors of the Group in the form of share-based payments, whereby directors render services in exchange for shares or rights over shares (equity-settled transactions).

The cost of these equity-settled transactions with directors is measured by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by an external valuer using a Monte Carlo Simulation method, further details of which are given in Note 19.

In valuing equity-settled transactions, no account is taken of any performance conditions, other than conditions linked to the price of the shares of Eumeralla Resources Limited (market conditions) if applicable.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled, ending on the date on which the relevant directors become fully entitled to the award (the vesting period).

The cumulative expense recognised for equity-settled transactions at each balance date until vesting date reflects (i) the extent to which the vesting period has expired and (ii) the Group's best estimate of the number of equity instruments that will ultimately vest. No adjustment is made for the likelihood of market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date. The statement of comprehensive income charge or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period.

No expense is recognised for awards that do not ultimately vest, except for awards where vesting is only conditional upon a market condition.

If the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payment arrangement, or is otherwise beneficial to the employee, as measured at the date of modification.

If an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect, if any, of outstanding options is reflected as additional share dilution in the computation of earnings per share, refer Note 13.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2016

2. FINANCIAL RISK MANAGEMENT

Overview

Risk management is carried out under policies set by the Board. The Board provides principles for overall risk management, as well as policies covering specific areas.

Financial risk management objectives

The Board monitors and manages the financial risk relating to the operations of the consolidated entity. The group's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk. The overall risk management strategy focuses on the unpredictability of the finance markets and seeks to minimise the potential adverse effects on the financial performance. Risk management is carried out under the direction of the Board.

The Group holds the following financial instruments:

	Consolidated 2016 \$	Consolidated 2015 \$
Financial assets		
Cash and cash equivalents	342,845	761,667
Trade and other receivables	6,434	5,531
	349,279	767,198
Financial liabilities		
Trade and other payables	56,929	32,135
	56,929	32,135

Market risk

Foreign exchange risk

Exposure to foreign currency risk

The Board does not consider the Group to be materially exposed to changes in foreign exchange rates as all financial instruments and transactions are denominated in the functional currency in which they are measured.

Price risk

The Group is involved in the exploration and development of mining tenements for minerals. Should the Group successfully progress to a producer, revenues associated with mineral sales, and the ability to raise funds through equity and debt, will have some dependence upon commodity prices.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2016

2. FINANCIAL RISK MANAGEMENT (continued)

Cash flow and interest rate risk

The Group's income and operating cash flows are not materially exposed to changes in market interest rates.

At the reporting date the interest rate profile of the Group's interest bearing financial instruments was:

	30 June 2016		30 June 2015	
	Weighted average interest rate %	Balance \$	Weighted average interest rate %	Balance \$
Variable rate instruments				
Cash at bank	0.82%	342,845	0.90%	361,667
Fixed rate instruments				
Term deposits	-	-	4.07%	400,000
		342,845		761,667

Cash flow sensitivity analysis for variable rate instruments

A change of 75 basis points in interest rates would increase or decrease the Group's loss by \$2,571, based on the cash at bank at reporting date and calculated on an annual basis. The Board assessed a 75 basis point movement as being reasonably possible based on short term historical movements. This analysis assumes that all other variables remain constant.

Credit risk

There is a limited amount of credit risk relating to the cash and cash equivalents that the Group holds in deposits. The Group's cash reserves are only placed with major Australian and Mongolian banks.

The Group does not presently have customers and consequently does not have credit exposure to outstanding receivables. The Group may in the future be exposed to interest rate risk should it borrow funds for acquisition and development.

Exposure to credit risk

The carrying amount of the Group's financial assets represents the maximum credit exposure. The Group's maximum exposure to credit risk at the reporting date was:

	2016 \$	2015 \$
Cash and cash equivalents	342,845	761,667
Trade and other receivables	6,434	5,531
	349,279	767,198

The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to external credit rating (Standard & Poor's) if available or to historical information about counterparty default rates:

Cash at bank and short-term bank deposits

	2016 \$	2015 \$
A-1+ ¹	237,625	663,540
B ¹	105,220	98,127
	342,845	761,667
Trade and other receivables		
No default	6,434	5,531

¹The equivalent S&P rating of the financial assets represents that rating of the counterparty with whom the financial asset is held rather than the rating of the financial asset itself.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2016

2. FINANCIAL RISK MANAGEMENT (continued)

Allowance for impairment loss

A provision for impairment loss is recognised when there is objective evidence that an individual receivable is impaired.

Balances within trade and other receivables do not contain impaired assets and are not past due. It is expected that these other balances will be received when due.

Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the Board of Directors. The Board has determined an appropriate liquidity risk management framework for the management of the Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves and continuously monitoring budgeted and actual cash flows and matching the maturity profiles of financial assets, expenditure commitments and liabilities.

The following are the contractual maturities of financial liabilities on an undiscounted basis, including estimated interest payments: Cash flows for liabilities without fixed amount or timing are based on conditions existing at year end.

	Carrying amount	Contractual cash flows	Less than 6 months	6 – 12 months	Between 1 and 2 years
30 June 2016					
Trade and other payables	56,929	(56,929)	(56,929)	-	-
	56,929	(56,929)	(56,929)	-	-
30 June 2015					
Trade and other payables	32,135	(32,135)	(32,135)	-	-
	32,135	(32,135)	(32,135)	-	-

Fair value of financial instruments

The fair values of financial assets and liabilities are determined in accordance with generally accepted pricing models based on estimated future cash flows. The Directors consider that the carrying amounts of financial assets and financial liabilities recorded in the financial statements approximate their fair values.

AASB 7 Financial Instruments: Disclosures requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1)
- inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (level 2), and
- inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

None of the Group's assets and liabilities are measured and recognised at fair value on a recurring basis at 30 June 2016 and 30 June 2015.

Capital management

When managing capital, the Board's objective is to ensure the entity continues as a going concern as well as to maintain optimal returns to shareholders and benefits for other stakeholders. The Board also aims to maintain a capital structure that ensures the lowest cost of capital available to the entity.

The Board are constantly adjusting the capital structure to take advantage of favourable costs of capital or high return on assets. As the market is constantly changing, management may issue new shares, sell assets to reduce debt or consider payment of dividends to shareholders.

The Board seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position although there is no formal policy regarding gearing levels.

The Company has no formal financing and gearing policy or criteria during the year having regard to the early status of its development and low level of activity.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. FINANCIAL RISK MANAGEMENT (continued)

The Company is not subject to any externally imposed capital requirements.

The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Group's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

Our audit did not involve an analysis of the prudence of business decisions made by directors or management.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*.

- a) undertake appropriate checks before appointing a person or putting forward to security holders a candidate for election, as a director;
- b) provide security holders with all material information in its possession relevant to a decision on whether or not to elect or re-elect a director.

The Group does not have a Nomination Committee. The role of the Nomination Committee has been assumed by the full Board operating under the Nomination Committee Charter adopted by the Board.

Newly appointed directors must stand for reappointment at the next subsequent AGM. The Notice of Meeting for the AGM provides shareholders with information about each Director standing for election or re-election including details of relevant skills and experience.

Recommendation 1.3 – A listed entity should have a written agreement with each director and executive setting out the terms of their appointment.

New Directors consent to act as a Director and receive a formal letter of appointment which sets out duties and responsibilities, rights, and remuneration entitlements.

CORPORATE GOVERNANCE STATEMENT

Recommendation 1.4 – *The company secretary of a listed entity should be accountable directly to the chair, on all matters to do with the proper functioning of the board.*

Eumeralla Resources Company Secretary fulfils a broad range of management responsibilities in addition to company secretarial duties. As a result, the formal reporting line of the Company Secretary is to the Chair. For any matter relevant to the company secretarial duties or conduct of the Board, the Company Secretary has an indirect reporting line, and is accountable, to the Chair of the Board.

Recommendation 1.5 – *A listed entity should:*

- a) *have a diversity policy which includes requirements for the board to or a relevant committee of the board to set measurable objectives for achieving gender diversity and to assess annually both the objectives and the entity's progress in achieving them;*
- b) *disclose that policy or a summary of it; and*
- c) *disclose as at the end of each reporting period the measurable objectives for achieving gender diversity set by the board or a relevant committee of the board in accordance with the entity's diversity policy and its progress towards achieving them and either:*
 1. *the respective proportions of men and women on the board, in senior executive positions and across the whole organisation (including how the entity has defined "senior executive" for these purposes); or*
 2. *if the entity is a "relevant employer" under the Workplace Gender Equality Act, the entity's most recent "Gender Equality Indicators", as defined in and published under that Act.*

The Group has not disclosed its policy concerning diversity, its measurable objectives for achieving gender diversity and its progress towards achieving those objectives. The Board continues to monitor diversity across the organization however due to the size of the Group, the Board does not consider it appropriate at this time to formally set measurable objectives for gender diversity.

The Group is committed to workplace diversity and to ensuring a diverse mix of skills and talent exists amongst its directors, officers and employees, to enhance Group performance. The Board has adopted a Diversity Policy which addresses equal opportunities in the hiring, training and career advancement of directors, officers and employees.

In accordance with this policy, the Board discloses there were no women employed in the organization or on the Board of the Group as at the date of this report.

The Board will review this position on an annual basis and will implement measurable objectives as and when they deem the Company to require them.

The participation of women in the Company at the date of this report is as follows:

Women employees in the Company	0%
Women in senior management positions	0%
Women on the Board	33%

The Company's Diversity Policy is available on its website.

Recommendation 1.6 – *A listed entity should:*

- a) *have and disclose a process for periodically evaluating the performance of the board, its committees and individual directors;*
- b) *disclose, in relation to each reporting period, whether a performance evaluation was undertaken in the reporting period in accordance with that process.*

Evaluation of Board and individual Directors

The Board of Eumeralla Resources conducts its performance review of itself on an ongoing basis throughout the year. The small size of the Group and hands on management style requires an increased level of interaction between Directors and Executives throughout the year. Board members meet amongst themselves both formally and informally. The Board considers that the current approach that it has adopted with regard to the review of its performance provides the best guidance and value to the Group given its size.

CORPORATE GOVERNANCE STATEMENT

Recommendation 1.7 – A listed entity should:

- a) have and disclose a process for periodically evaluating the performance of its senior executives; and
- b) disclose, in relation to each reporting period, whether a performance evaluation was undertaken in the reporting period in accordance with that process.

The Board of Eumeralla Resources does not conduct performance reviews of senior executives given there are currently no such roles in the organisation.

Principle 2: Structure the Board to add value

Eumeralla Resources Constitution provides for a minimum of three directors and a maximum of nine.

The Directors of Eumeralla Resources at any time during the financial year are listed with a brief description of their qualifications, appointment date, experience and special responsibilities on pages 2 and 3 of the Annual Report.

Recommendation 2.2 – The listed entity should have and disclose a board skills matrix setting out the mix of skills and diversity that the board currently has or is looking to achieve in its membership.

The Group does not have an established board skills matrix on the mix of skills and diversity for Board membership. The Board continues to monitor the mix of skills and diversity on the Board however, due to the size of the Group, the Board does not consider it appropriate at this time to formally set matrix on the mix of skills and diversity for Board membership.

Recommendation 2.3 – A listed entity should disclose:

- a) the names of the directors considered by the board to be independent directors;
- b) if a director has an interest, position, association or relationship of the type described in Box 2.3 but the board is of the opinion that it does not compromise the independence of the director, the nature of the interest, position, association or relationship in question and an explanation of why the board is of that opinion and
- c) the length of service of each director.

The skills, experience and expertise relevant to the position of Director held by each Director in office at the date of the Annual Report is included in the Directors' Report. Directors of the Group are considered to be independent when they are independent of management and free from any business or other relationship that could materially interfere with, or could reasonably be perceived to materially interfere with, the exercise of their unfettered and independent judgement.

-) is free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the Director's ability to act in the best interests of the Group."

In accordance with the definition of independence above, one Director is considered independent. Accordingly, a majority of the Board is not independent. Given the size of the Group the current Board is deemed appropriate. There are procedures in place, as agreed by the Board, to enable Directors to seek independent professional advice on issues arising in the course of their duties at the Group's expense.

The term in office held by each Director in office at the date of this report is as follows:

Name	Term in office

Eumeralla Resources Chairman, David Wheeler is considered an independent Director. The Directors consider that the current Chairman of the Board is appropriate to the size and nature of operations of the Group.

Recommendation 2.6 – *The listed entity should have a program for inducting new directors and provide appropriate professional development opportunities for directors to develop and maintain the skills and knowledge needed to perform their role as directors effectively.*

The Group does not have an Audit and Risk Management Committee. The role of the Audit and Risk Management Committee has been assumed by the full Board operating under the Audit and Risk Management Committee Charter adopted by the Board. The Directors consider this as appropriate to the size and nature of operations of the Group.
