Directors' report

The Directors present their report together with the financial statements of Seafarms Group Limited (referred to hereafter as the Group) consisting of Seafarms Group Limited and the entities it controlled at the end of or during the 9 months ended 30 June 2016.

Directors

The following persons were Directors of Seafarms Group Limited during the whole of the financial period and up to the date of this report:

Ian Norman Trahar
 Harley Ronald Whitcombe
 Dr Christopher David Mitchell
 Paul John Favretto

Principal activities

The Group's principal continuing activities during the 9 months consisted of aquaculture project development, aquaculture operations, carbon project management (Australia, New Zealand and Vietnam), the provision of environmental services (advisory in ecosystem offsets and carbon farming projects), and trading environmental credits.

Review of operations

The Group has reported a loss for the period after taxation of \$18,360,319 (2015: loss \$15,959,969).

A summary of consolidated revenues and results for the period by significant industry segments is set out below:

Consolidated	Segment revenues		Segment results	
	2016	2015	2016	2015
	\$	\$	\$	\$
Aquaculture	19,244,586	18,356,832	(16,754,660)	(11,281,087)
Carbon services	3,786,946	6,419,678	(229,116)	(250,929)
Other	497,754	1,438,905	(1,666)	702,433
Total segment revenue/result	23,529,286	26,215,415	(16,985,442)	(10,829,583)

Segment results are earnings before interest and tax, which is the measure of segment result that is reported to the strategic steering committee to assess the performance of the operating segments.

Comments on the operations and the results of those operations are set out below:

Aquaculture

Seafarms commenced its first prawn farming operations in 2014 in North Queensland.

The grow out production during the 9 month period increased from approximately 1,000 tonnes of fresh and cooked prawns sold into Australian markets to over 1,100 tonnes.

Seafarms produces two types of prawns: bananas and black tigers sold under the unique Crystal Bay™ Prawns brand which are available in supermarkets, seafood markets and wholesalers and can be found on the menus at many fine restaurants across Australia.

Seafarms has taken the opportunity to test stocking rates and feed mixtures and suppliers during the year as well as commence the domestication program for the black tiger prawns.

Seafarms has continued to develop plans to leverage from our Queensland operations platform into a world-class greenfield development in northern Australia via the company's Project Sea Dragon. The company has continued to progress Project Sea Dragon, a 100,000 tonne per annum prawn farming operation.

Review of operations (continued)

Aquaculture (continued)

Seafarms Bankable Feasibility Study for Stage 1 of Project Sea Dragon is well advanced. Field trials on the Legune Pastoral Lease have confirmed the suitability of the soils for the proposed construction of ponds and tests also. The required environmental investigations are nearing completion.

Seafarms completed plans for the upgrade of the quarantine/founder stock centre at Exmouth with final arrangements under way to commence refurbishment and construction activities to be ready for the first intake of founder prawns anticipated second quarter of FY 17.

A formal Notice of Intent for aquaculture operations for the company's preferred site for the breeding and maturation centres has been lodged and is under consideration by relevant authorities. Formal processes to acquire the site are under way. A Scared Site Clearance certificate has been obtained for this site.

After further due diligence the company has identified its final preferred site for the proposed processing plant. An expression of interest to acquire the site has been lodged and discussions have commenced.

The company continues to engage with governments who continue to demonstrate support for the project through their facilitation services, and most recently through announcement of financial support for upgrading the public road from Western Australia to the Legune property boundary. Seafarms has been advised that it is the preferred tenderer for a dormant workers village located in the environs of Kununurra; this should enable a more rapid ramp-up in the initial construction phase of the project.

The Australian Research Council's Industrial Transformation Research Hub for Advanced Prawn Breeding is now into its second year with all agreements in place and investigations are under way at its facilities in Queensland. was launched during the year.

Carbon services

Carbon and environmental services under the well accepted CO2 Australia brand performed as expected during the year.

The company followed its initial success at the government's emission reduction fund auction with success at the subsequent auctions with 10 year contracts secured. CO2 Australia also entered into an agreement to act as agent for the NSW Office of Environment and Heritage in relation to their Emissions Reduction Fund strategies and projects with gross value to OEH of \$792,240 over 10 years and, through the revenue share deal we have with them, gross value to CO2 Australia of \$144,000 (this on top of revenue through tree-planting and regrowth management).

As well as delivering these revenue outcomes, we experimented with a few different bid structures/strategies through this latest auction and the learnings we have gained will put us in a great position for bidding at the fourth auction, by which time we will be aiming to have signed up a number of large-scale regrowth projects.

Subsequent to being appointed as a large-scale service provider under the Government's 20 million trees program the company successfully secured additional contracts under that program. The company continues to develop an enviable track-record in the delivery of carbon, biodiversity and revegetation projects across a range of environments.

Other

CO2 Australia's team of environmental professionals continues to extend its range of service offerings substantive expansion in the variety of engagements secured within the environmental services sector. The Advisory team continues to secure repeat business from its key blue-chip client base.

Significant changes in the state of affairs

Significant changes in the state of affairs of the Group during the financial period were as follows.

Contributed equity increased by \$9,421,233 (2015: \$15,248,092) as the result of a rights issue. Details of the changes in contributed equity are disclosed in note 29 to the financial statements.

Significant changes in the state of affairs (continued)

At the AGM in February 2016, members approved the change of accounting date for the Group to 30 June. Accordingly, these financial statements cover the 9 months to 30 June 2016, whilst the comparative figures are for the year to 30 September 2015.

Likely developments and expected results of operations

The major development focus of the Group continues to be the prosecution of Project Sea Dragon - a major aquaculture development in Northern Australia. Stage 1 of the Project will take a minimum of two dry seasons to complete, so construction can be expected to take place across a number of years. The company has commenced its breeding program with wild broodstock expected to enter the program in the next financial year. The development of the first pathogen-free animals suitable for Project Sea Dragon is scheduled to coincide with pond construction operations recognising that Project Sea Dragon is a multi-year development project that is designed to be rolled out in stages.

The company continues its improvement program at its operating facilities in north Queensland with a focus on continuing improvement in performance. This includes increased yield and outputs, increasing growth rates, better utilisation of assets including optimisation of stocking strategies to eliminate requirements for third party hatcheries, and continued development of genetics.

Information on directors

Ian Norman Trahar B.Ec, MBA. *Executive Chairman (since 13 November 2001)*

Experience and expertise

Mr Trahar has a resource and finance background. He is a director and significant shareholder of Avatar Industries Pty Ltd, an unlisted public company. Ian is a member of the Australian Institute of Company Directors.

	Full meetings of directors		Meetings of committees			
			Audit		Remuneration	
	A	B	A	B	A	B
Ian Norman Trahar	7	8	2	2	-	-
Harley Ronald Whitcombe	8	8	-	-	-	-
Dr Christopher David Mitchell	8	8	2	2	-	-
Paul John Favretto	8	8	2	2	-	-

A = Number of meetings attended

B = Number of meetings held during the time the Director held office or was a member of the committee during the 9 months

Remuneration report (audited)

The Directors are pleased to present your Company's 2016 remuneration report which sets out remuneration information for Seafarms Group Limited's non-executive Directors, executive Directors and other key management personnel.

Non-executive director remuneration policy

The shareholders of Seafarms Group Limited on 24 February 2012 approved, for the purposes of the ASX Listing Rules and the Group's Constitution, an increase in the maximum aggregate directors' fees to \$400,000, with such fees to be allocated to the directors as the board of directors may determine.

The Remuneration Committee determines the remuneration of all non-executive directors, none of whom have service contracts with the company.

Executive remuneration policy and framework

The objective of the Group's executive reward framework is to ensure reward for performance is competitive and appropriate for the results delivered. The framework aligns executive reward with achievement of strategic objectives and the creation of value for shareholders, and conforms with market practice for delivery of reward. The board ensures that executive reward satisfies the following key criteria for good reward governance practices:

- competitive and reasonable, enabling the company to attract and retain key talent;
- aligned to the company's strategic and business objectives and the creation of shareholder value;
- performance linkage / alignment of executive compensation;
- transparent; and
- acceptable to shareholders.

Alignment to shareholders' interests:

- attracts and retains high calibre executives.

Alignment to program participants' interests:

- rewards capability and experience; and
- provides recognition for contribution.

The board has established a remuneration committee which makes recommendations to the board on remuneration and incentive policies and practices and specific recommendations on remuneration packages and other terms of employment for executive directors, other senior executives and non-executive directors. The Corporate Governance Statement provides further information on the role of this committee.

The executive remuneration and reward framework has two components:

For personal use only

Remuneration report (audited) (continued)

Executive remuneration policy and framework (continued)

- base pay and benefits, including superannuation; and
- short-term performance incentives.

The combination of these comprises an executive's total remuneration. The Group intends to conduct a review of the incentive plans during the year ending 30 June 2017 to ensure continued alignment with financial and strategic objectives.

(a) Elements of remuneration

Base pay and benefits

Executives receive their base pay and benefits structured as a total employment cost (TEC) package which may be delivered as a combination of cash and prescribed non-financial benefits at the executives' discretion.

Executives are offered a competitive base pay that comprises the fixed component of pay and rewards. Base pay for executives is reviewed annually to ensure the executive's pay is competitive with the market. An executive's pay is also reviewed on promotion.

There are no guaranteed base pay increases included in any executives' contracts.

Short-term incentives

If the Group achieves a pre-determined profit target set by the remuneration committee, a short-term incentive (STI) pool is available to executives and other eligible participants. Cash incentives (bonuses) were payable on 15 November each year, with the change of accounting date to 30 June this will be 15 August in future years. Using a profit target ensures variable reward is only available when value has been created for shareholders and when profit is consistent with the business plan. The distribution of the STI pool is at the discretion of the Executive Chairman.

(b) Details of remuneration

Amounts of remuneration

Details of the remuneration of the directors, the key management personnel of the Group (as defined in AASB 124 *Related Party Disclosures*) of Seafarms Group Limited and the Group are set out in the following tables.

The key management personnel of Seafarms Group Limited includes the directors as listed below:

- Ian Norman Trahar (Chairman and Executive Director)
- Harley Ronald Whitcombe (Executive Director and Company Secretary)
- Dr Christopher David Mitchell (Executive Director)
- Paul John Favretto (Non-executive Director)

In addition to the directors the following executives that report directly to the Board are key management personnel:

- Aaron Soanes (Director and General Manager of Operations, CO2 Australia Limited)
- Dr James Bulinski (Director, CO2 Australia Limited)
- Dallas Donovan (Chief Operating Officer, Seafarms Operations Limited)

The following table shows details of the remuneration expense recognised for the Group's executive key management personnel for the current and previous financial year measured in accordance with the requirements of the accounting standards.

Changes in the wealth of the business prior to the 2012 financial year bore no relationship to the remuneration of key management personnel. On 31 August 2011, shareholders approved the Seafarms Group Limited Employee Incentive Plan. Under the Plan, eligible participants were granted Performance Rights to acquire ordinary shares in Seafarms Group Limited, subject to satisfying any vesting conditions. The Plan commenced on 30 September 2011, and terminated 1 February 2014.

At the 2015 Annual General Meeting of Seafarms Group Limited, held on 1 February 2016, shareholders approved the "Seafarms Group Employee Incentive Plan" under which the Board may grant equity securities (including performance rights and options) to eligible participants under the plan, which may, subject to the discretion of the Board, include executive directors or key management personnel. No equity securities have been granted to date by the Group pursuant to this plan.

(iii) *Voting and comments made at the company's Annual General Meeting*

Seafarms Group Limited received more than 99% of "yes" votes on its remuneration report for the 2015 financial period. The company did not receive any specific feedback at the AGM or throughout the period on its remuneration practices.

(e) *Equity instrument disclosures relating to key management personnel*

(i) *Option holdings*

No options were held or issued at any time to Directors of Seafarms Group Limited and other key management personnel during the financial year (2015: Nil).

(ii) *Share holdings*

The numbers of shares in the Company held during the financial period by each Director of Seafarms Group Limited and other key management personnel of the Group, including their personally related parties, are set out below. There were no shares granted during the reporting period as compensation.

Loans to key management personnel

There are no loans made to directors of Seafarms Group Limited and other key management personnel.

Shares under option

There are no unissued ordinary shares of Seafarms Group Limited under option at the date of this report.

The company has in issue 30,150,190 convertible preference shares that have not been exercised. For further information relating to the convertible preference shares, please refer to note 29(d).

Insurance of officers

(a) *Insurance of officers*

During the financial year, the Group paid a premium in respect of a contract insuring the directors of the company (as named above), the company secretary, Mr H R Whitcombe, and all executive officers of the company and of any related body corporate against a liability incurred as such a director, secretary or executive officer to the extent permitted by the Corporations Act 2001. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

Insurance of officers (continued)

The Group has not otherwise, during or since the financial year, except to the extent permitted by law, indemnified or agreed to indemnify an officer or auditor of the company or of any related body corporate against a liability incurred as such an officer or auditor.

Non-audit services

The Company may decide to employ the auditor on assignments additional to their statutory audit duties where the auditor's expertise and experience with the Company and/or the Group are important.

Details of amounts paid or payable to the auditor for non-audit services provided during the year are outlined at note 32 to the financial statements.

Dividends - Seafarms Group Limited

The Directors of Seafarms Group Limited do not recommend the payment of a dividend for the year ending 30 June 2016 (2015: Nil).

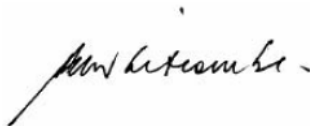

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 14.

Auditor

Deloitte Touche Tohmatsu continues in office in accordance with section 327 of the *Corporations Act 2001*.

This report is made in accordance with a resolution of Directors, pursuant to section 298(2) of the *Corporations Act 2001*.

The Board of Directors
Seafarms Group Limited
Unit 6, Ground Floor
31-47 Joseph Street
Blackburn North, VIC 3130

28 September 2016

Dear Board Members

Auditor's Independence Declaration to Seafarms Group Limited

In accordance with section 307C of the Corporations Act 2001, I am pleased to provide the following declaration of independence to the directors of Seafarms Group Limited.

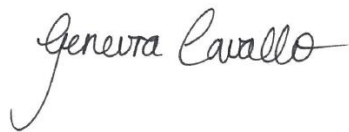

As lead audit partner for the audit of the financial statements of Seafarms Group Limited for the financial period ended 30 June 2016, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- (i) the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- (ii) any applicable code of professional conduct in relation to the audit.

Yours sincerely,

DELOITTE TOUCHE TOHMATSU

1 Summary of significant accounting policies

The principal accounting policies adopted in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the period presented, unless otherwise stated.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001*. Seafarms Group Limited is a for-profit entity for the purpose of preparing the financial statements.

At the Annual General Meeting of the Company held in February 2016 the members voted to change the accounting date to 30 June. Accordingly, these financial statements comprise the 9 month period to 30 June 2016. The comparative period is the year to 30 September 2015.

The financial statements comprise the consolidated financial statements of the Group.

(i) Compliance with IFRS

The financial report is a general purpose financial report prepared in accordance with the *Corporations Act 2001*, Accounting Standards and Interpretations, and comply with other requirements of the law. Accounting Standards include Australian Accounting Standards. Compliance with Australian Accounting Standards ensures that the financial statements and notes of the company and the Group comply with International Financial Reporting Standards ("IFRS").

(ii) New and amended standards adopted by the group

The Group has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the AASB) that are relevant to their operations and effective for the current 9 months.

New and revised Standards and amendments thereof and Interpretations effective for the current period that are relevant to the Group include:

- AASB 2015-3 'Amendments to Australian Accounting Standards arising from the Withdrawal of AASB 1031 Materiality'

Impact of the application of AASB 2015-3

Completes the withdrawal of references to AASB 1031 in all Australian Accounting Standards and Interpretations.

The adoption of amending Standards does not have any impact on the disclosures or the amounts recognised in the Group's condensed consolidated financial statements.

(iii) Standards and Interpretations in issue not yet adopted

At the date of authorisation of the financial statements, the Standards and Interpretations that were issued but not yet effective are listed below.

1 Summary of significant accounting policies (continued)

Standard/Interpretation	Effective for annual reporting periods beginning on or after	Expected to be initially applied in the financial year ending
AASB 9 'Financial Instruments', and the relevant amending standards	1 January 2018	30 June 2019
AASB 15 'Revenue from Contracts with Customers', AASB 2014-5 'Amendments to Australian Accounting Standards arising from AASB 15', AASB 2015-8 'Amendments to Australian Accounting Standards - Effective date of AASB 15'	1 January 2018	30 June 2019
AASB 16 'Leases'	1 January 2019	30 June 2020
AASB 2014-3 'Amendments to Australian Accounting Standards - Accounting for Acquisitions of Interests in Joint Operations'	1 January 2016	30 June 2017
AASB 2014-6 'Amendments to Australian Accounting Standards - Agriculture: Bearer Plants'	1 January 2016	30 June 2017
AASB 2014-9 'Amendments to Australian Accounting Standards - Equity Method in Separate Financial Statements'	1 January 2016	30 June 2017
AASB 2014-10 'Amendments to Australian Accounting Standards - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture', AASB 2015-10 'Amendments to Australian Accounting Standards - Effective Date of Amendments to AASB 10 and AASB 128'	1 January 2018	30 June 2019
AASB 2015-1 'Amendments to Australian Accounting Standards - Annual Improvements to Australian Accounting Standards 2012-2014 Cycle'	1 January 2016	30 June 2017
AASB 2015-2 'Amendments to Australian Accounting Standards - Disclosure Initiative: Amendments to AASB 101'	1 January 2016	30 June 2017
AASB 2015-5 'Amendments to Australian Accounting Standards - Investment Entities: Applying the Consolidation Exception'	1 January 2016	30 June 2017
AASB 2016-1 'Amendments to Australian Accounting Standards - Recognition of Deferred Tax Assets for Unrealised Losses'	1 January 2016	30 June 2017
AASB 2016-2 'Amendments to Australian Accounting Standards - Disclosure Initiative: Amendments to AASB 107'	1 January 2016	30 June 2017

There are no other standards that are not yet effective and that would be expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

1 Summary of significant accounting policies (continued)

(a) Impact of changes to Australian Accounting Standards and Interpretations

(i) AASB 9 'Financial Instruments', and the relevant amending standards

AASB 9 issued in December 2009 introduced new requirements for the classification and measurement of financial assets. AASB 9 was subsequently amended in December 2010 to include requirements for the classification and measurement of financial liabilities and for derecognition, and in December 2013 to include the new requirements for general hedge accounting. Another revised version of AASB 9 was issued in December 2014 mainly to include a) impairment requirements for financial assets and b) limited amendments to the classification and measurement requirements by introducing a 'fair value through other comprehensive income' (FVTOCI) measurement category for certain simple debt instruments.

Key requirements of AASB 9:

- all recognised financial assets that are within the scope of AASB 9 are required to be subsequently measured at amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are generally measured at FVTOCI. All other debt investments and equity investments are measured at their fair value at the end of subsequent accounting periods. In addition, under AASB 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognised in profit or loss.
- with regard to the measurement of financial liabilities designated as at fair value through profit or loss, AASB 9 requires that the amount of change in fair value of the financial liability that is attributable to changes in the credit risk of that liability is presented in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value attributable to a financial liability's credit risk are not subsequently reclassified to profit or loss. Under AASB 139 'Financial Instruments: Recognition and Measurement', the entire amount of the change in the fair value of the financial liability designated as fair value through profit or loss is presented in profit or loss.
- in relation to the impairment of financial assets, AASB 9 requires an expected credit loss model, as opposed to an incurred credit loss model under AASB 139. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised.
- the new general hedge accounting requirements retain the three types of hedge accounting mechanisms currently available in AASB 139. Under AASB 9, greater flexibility has been introduced to the types of transactions eligible for hedge accounting, specifically broadening the types of instruments that qualify for hedging instruments and the types of risk components of non-financial items that are eligible for hedge accounting. In addition, the effectiveness test has been overhauled and replaced with the principle of an 'economic relationship'. Retrospective assessment of hedge effectiveness is also no longer required. Enhanced disclosure requirements about an entity's risk management activities have also been introduced.

AASB 9 applies to annual periods beginning on or after 1 January 2018. The directors of the Company anticipate that the application of AASB 9 in the future may have a material impact on amounts reported in respect of the Group's financial assets and financial liabilities. However, it is not practicable to provide a reasonable estimate of the effect of AASB 9 until the Group undertakes a detailed review.

1 Summary of significant accounting policies (continued)

(a) Impact of changes to Australian Accounting Standards and Interpretations (continued)

(ii) AASB 15 'Revenue from Contracts with Customers'

AASB 15 establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. AASB 15 will supersede the current revenue recognition guidance including AASB 118 'Revenue,' AASB 111 'Construction Contracts' and the related Interpretations when it becomes effective.

The core principle of AASB 15 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the Standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Under AASB 15, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customer.

AASB 15 applies to annual periods beginning on or after 1 January 2018. The directors of the Company anticipate that the application of AASB 15 in the future may have a material impact on the amounts reported and disclosures made in the Group's consolidated financial statements. However, it is not practicable to provide a reasonable estimate of the effect of AASB 15 until the Group performs a detailed review.

(iii) AASB 16 'Leases'

AASB 16 provides a comprehensive model for the identification of lease arrangements and their treatment in the financial statements of both lessees and lessors.

The accounting model for lessees will require lessees to recognise all leases on balance sheet, except for short-term leases and leases of low value assets.

AASB 16 applies to annual periods beginning on or after 1 January 2019. The directors of the Company anticipate that the application of AASB 16 in the future may have a material impact on the amounts reported and disclosures made in the Group's consolidated financial statements. However, it is not practicable to provide a reasonable estimate of the effect of AASB 16 until the Group performs a detailed review.

(iv) AASB 2014-3 'Amendments to Australian Accounting Standards – Accounting for Acquisitions of Interests in Joint Operations'

The amendments to AASB 11 provide guidance on how to account for the acquisition of a joint operation that constitutes a business as defined in AASB 3 'Business Combinations'. Specifically, the amendments state that the relevant principles on accounting for business combinations in AASB 3 and other standards (e.g. AASB 112 'Income Taxes' regarding the recognition of deferred taxes at the time of acquisition and AASB 136 'Impairment of Assets' regarding impairment testing of a cash generating unit to which goodwill on acquisition of a joint operation has been allocated) should be applied. The same requirements should be applied to the formation of a joint operation if, and only if, an existing business is contributed to the joint operation by one of the parties that participate in the joint operation.

A joint operator is also required to disclose the relevant information required by AASB 3 and other standards for business combinations.

The amendments should be applied prospectively to acquisitions of interests in joint operations (in which the activities of the joint operations constitute businesses as defined in AASB 3) occurring from the beginning of annual periods beginning on or after 1 January 2016. The directors of the Company anticipate that the application of these amendments to AASB 11 may have an impact on the Group's consolidated financial statements in future periods should such transactions arise.

1 Summary of significant accounting policies (continued)

(a) Impact of changes to Australian Accounting Standards and Interpretations (continued)

(v) *AASB 2014-4 'Amendments to Australian Accounting Standards – Clarification of Acceptable Methods of Depreciation and Amortisation'*

The amendments to AASB 116 prohibit entities from using a revenue-based depreciation method for items of property, plant and equipment. The amendments to AASB 138 introduce a rebuttable presumption that revenue is not an appropriate basis for amortisation of an intangible asset. This presumption can only be rebutted in the following two limited circumstances:

- when the intangible asset is expressed as a measure of revenue; or
- when it can be demonstrated that revenue and consumption of the economic benefits of the intangible asset are highly correlated.

The amendments apply for annual periods beginning on or after 1 January 2016. Currently, the Group uses the straight-line method for depreciation and amortisation for its property, plant and equipment, and intangible assets respectively. The directors of the Company believe that the straight-line method is the most appropriate method to reflect the consumption of economic benefits inherent in the respective assets and accordingly, the directors of the Company do not anticipate that the application of these amendments to AASB 116 and AASB 138 will have a material impact on the Group's consolidated financial statements.

(vi) *AASB 2014-6 'Amendments to Australian Accounting Standards – Agriculture: Bearer Plants'*

The amendments to AASB 116 and AASB 141 define a bearer plant and require biological assets that meet the definition of a bearer plant to be accounted for as property, plant and equipment in accordance with AASB 116, instead of AASB 141. The produce growing on bearer plants continues to be accounted for in accordance with AASB 141.

The amendments apply for annual periods beginning on or after 1 January 2016. The directors of the Company do not anticipate that the application of these amendments to AASB 116 and AASB 141 will have a material impact on the Group's consolidated financial statements as the Group is not engaged in agricultural activities.

(vii) *AASB 2014-9 'Amendments to Australian Accounting Standards – Equity Method in Separate Financial Statements'*

The amendments to AASB 127 allow entities to use the equity method of accounting for investments in subsidiaries, joint ventures and associates in their separate financial statements.

The amendments apply for annual periods beginning on or after 1 January 2016. The directors of the Company do not anticipate that the application of these amendments to AASB 127 will have a material impact on the parent entity financial information as the Company does not intend to change its accounting policy.

(viii) *AASB 2014-10 'Amendments to Australian Accounting Standards - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture' and AASB 2015-10 'Amendments to Australian Accounting Standards – Effective Date of Amendments to AASB 10 and AASB 128'*

The amendments to AASB 10 and AASB 128 deal with situations where there is a sale or contribution of assets between an investor and its associate or joint venture. Specifically, the amendments state that gains or losses resulting from the loss of control of a subsidiary that does not contain a business in a transaction with an associate or a joint venture that is accounted for using the equity method, are recognised in the parent's profit or loss only to the extent of the unrelated investors' interests in that associate or joint venture. Similarly, gains and losses resulting from the remeasurement of investments retained in any former subsidiary (that has become an associate or a joint venture that is accounted for using the equity method) to fair value are recognised in the former parent's profit or loss only to the extent of the unrelated investors' interests in the new associate or joint venture.

The amendments apply to transactions occurring in annual periods beginning on or after 1 January 2018. The directors of the Company anticipate that the application of these amendments to AASB 10 and AASB 128 may have an impact on the Group's consolidated financial statements in future periods should such transactions arise.

1 Summary of significant accounting policies (continued)

(a) Impact of changes to Australian Accounting Standards and Interpretations (continued)

(ix) AASB 2015-1 'Amendments to Australian Accounting Standards - Annual Improvements to Australian Accounting Standards 2012-2014 Cycle'

The Annual Improvements to Australian Accounting Standards 2012-2014 Cycle include a number of amendments to various AASB's, which are summarised below.

The amendments to AASB 5 introduce specific guidance in AASB 5 for when an entity reclassifies an asset (or disposal group) from held for sale to held for distribution to owners (or vice versa). The amendments clarify that such a change should be considered as a continuation of the original plan of disposal and hence requirements set out in AASB 5 regarding the change of sale plan do not apply. The amendments also clarify the guidance for when held for distribution accounting is discontinued.

The amendments to AASB 7 provide additional guidance to clarify whether a servicing contract is continuing involvement in a transferred asset for the purpose of the disclosures required in relation to transferred assets.

The amendments to AASB 119 clarify that the rate used to discount post-employment benefit obligations should be determined by reference to market yields at the end of the reporting period on high quality corporate bonds. The assessment of the depth of a market for high quality corporate bonds should be at the currency level (i.e. the same currency as the benefits are to be paid). For currencies for which there is no deep market in such high quality corporate bonds, the market yields at the end of the reporting period on government bonds denominated in that currency should be used instead.

The amendments apply to annual periods beginning on or after 1 January 2016. The directors of the Company do not anticipate that the application of these amendments will have a material effect on the Group's consolidated financial statements.

(x) AASB 2015-2 'Amendments to Australian Accounting Standards – Disclosure Initiative: Amendments to AASB 101'

The amendments to AASB 10, AASB 12 and AASB 128 clarify that the exemption from preparing consolidated financial statements is available to a parent entity that is a subsidiary of an investment entity, even if the investment entity measures all its subsidiaries at fair value in accordance with AASB 10. The amendments also clarify that the requirement for an investment entity to consolidate a subsidiary providing services related to the former's investment activities applies only to subsidiaries that are not investment entities themselves.

The directors of the Company do not anticipate that the application of these amendments to AASB 10, AASB 12 and AASB 128 will have a material impact on the Group's consolidated financial statements as the Group is not an investment entity and does not have any holding company, subsidiary, associate or joint venture that qualifies as an investment entity.

(xi) AASB 2016-1 'Amendments to Australian Accounting Standards – Recognition of Deferred Tax Assets for Unrealised Losses'

Amends AASB 112 'Income Taxes' to clarify the requirements on recognition of deferred tax assets for unrealised losses on debt instruments measured at fair value.

The amendments apply to annual periods beginning on or after 1 January 2017. The directors of the Company do not anticipate that the application of these amendments to will have a material impact on the Group's consolidated financial statements.

(xii) AASB 2016-2 'Amendments to Australian Accounting Standards – Disclosure Initiative: Amendments to AASB 107'

Amends AASB 107 'Statement of Cashflows' to require entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes.

The amendments apply to annual periods beginning on or after 1 January 2017. The directors of the Company do not anticipate that the application of these amendments to will have a material impact on the Group's consolidated financial statements.

1 Summary of significant accounting policies (continued)

(iv) Early adoption of standards

The Company has not elected to early adopt any Standards that are not required to be applied in this accounting period.

(v) Historical cost convention

These financial statements have been prepared under the historical cost convention, as modified by the revaluation of available-for-sale financial assets, financial assets and liabilities (including derivative instruments) at fair value through profit or loss.

(b) Principles of consolidation

(i) Subsidiaries

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Seafarms Group Limited ('Company' or 'Parent entity') as at 30 June 2016 and the results of all subsidiaries for the 9 months then ended. Seafarms Group Limited and its subsidiaries together are referred to in this financial report as the Group or the consolidated entity.

Subsidiaries are all entities (including special purpose entities) over which the Group has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one-half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group (refer to note 1(i)).

Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Investments in subsidiaries are accounted for at cost in the separate financial statements of Seafarms Group Limited.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated income statement, statement of comprehensive income, statement of changes in equity and balance sheet respectively.

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable AASBs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under AASB 139, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

(ii) Associates

Associates are all entities over which the Group has significant influence but not control or joint control. This is generally the case where the Group holds of between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting (see (iii) below), after initially being recognised at cost.

1 Summary of significant accounting policies (continued)

The Group's share of its associates' post-acquisition profits or losses is recognised in profit or loss, and its share of post-acquisition other comprehensive income is recognised in other comprehensive income. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. Dividends receivable from associates are recognised as reduction in the carrying amount of the investment.

(iii) Equity method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in profit or loss, and the Group's share of movements in other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

(iv) Changes in ownership interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in a separate reserve within equity attributable to owners of Seafarms Group Limited.

When the Group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, jointly controlled entity or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

If the ownership interest in a jointly-controlled entity or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

(v) Joint ventures

Jointly controlled assets

The proportionate interests in the assets, liabilities and expenses of a joint venture activity have been incorporated in the financial statements under the appropriate headings. Details of the joint venture are set out in note 37.

Joint venture entities

The interest in a joint venture partnership is accounted for using the equity method after initially being recognised at cost. Under the equity method, the share of the profits or losses of the partnership is recognised in profit or loss, and the share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income. Details relating to the partnership are set out in note 37.

Profits or losses on transactions establishing the joint venture partnership and transactions with the joint venture are eliminated to the extent of the Group's ownership interest until such time as they are realised by the joint venture partnership on consumption or sale. However, a loss on the transaction is recognised immediately if the loss provides evidence of a reduction in the net realisable value of current assets, or an impairment loss.

1 Summary of significant accounting policies (continued)

(c) Segment reporting

The 'management approach', under which segment information is presented is the same basis as that used for internal reporting purposes. The segments are reported in a manner that is consistent with the internal reporting provided to the chief operating decision maker.

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker has been identified as the board of directors.

Information reported to the Board of Directors for the purposes of resource allocation and assessment of performance is currently more specifically focused on 3 key reportable segments, being Carbon Services, Aquaculture, and Other.

(d) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Australian dollars (\$), which is Seafarms Group Limited's functional and presentation currency.

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into Australian dollars using exchange rates prevailing at the end of the reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuated significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity (attributed to non controlling interests as appropriate).

(e) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances, rebates and amounts collected on behalf of third parties.

The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Group's activities as described below. The Group bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

Revenue is recognised for the major business activities as follows:

(i) Project development fees and carbon sink project management fees

Carbon sink project revenue is recognised in proportion to the work performed in relation to the product development and the various stages of completion of the carbon sinks. Work performed that has not been invoiced is recognised as revenue and the balance is held as accrued income. If payment has been received in excess of the stage of completion of the project, the liability is recognised in deferred income.

Management related income is recognised on an accrual basis in accordance with the substance of the relevant contract.

(ii) Sale of environmental credits

Revenue from the sale of environmental credits is recognised when the Group has transferred to the buyer the significant risks and rewards of the ownership of the environmental credits.

(iii) Fee for services

Revenue from a contract to provide services is recognised by reference to the stage of completion of the contract. The stage of completion of the contract is determined as follows:

- Installation fees are recognised by reference to the stage of completion of the installation, determined as the proportion of the total time expected to install that has elapsed at the end of the reporting period;
- servicing fees included in the price of products sold are recognised by reference to the proportion of the total cost of providing the servicing for the product sold; and

1 Summary of significant accounting policies (continued)

- revenue from time and material contracts is recognised at the contractual rates as labour hours are delivered and direct expenses are incurred.

(iv) Sale of Goods Revenue

Revenue from the sale of prawns is recognised when the Group has transferred to the buyer the significant risks and rewards of the ownership of the prawns.

(v) Interest income

Interest income is recognised using the effective interest method. When a receivable is impaired, the Group reduces the carrying amount to its recoverable amount, being the estimated future cash flow discounted at the original effective interest rate of the instrument, and continues unwinding the discount as interest income. Interest income on impaired loans is recognised using the original effective interest rate.

(f) Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to costs are deferred and recognised in profit or loss over the period necessary to match them with the costs that they are intended to compensate.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets.

(g) Income tax

The income tax expense or benefit for the period is the tax payable or recoverable on the current period's taxable income based on the income tax rate that has been enacted or substantially enacted by the balance sheet date adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in foreign operations where the company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

(i) Tax consolidation legislation

Seafarms Group Limited and its wholly-owned Australian controlled entities have implemented the tax consolidation legislation.

The head entity, Seafarms Group Limited, and the controlled entities in the tax consolidated group account for their own current and deferred tax amounts. These tax amounts are measured as if each entity in the tax consolidated group continues to be a stand alone taxpayer in its own right.

1 Summary of significant accounting policies (continued)

In addition to its own current and deferred tax amounts, Seafarms Group Limited also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from controlled entities in the tax consolidated group.

Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as amounts receivable from or payable to other entities in the Group. Details about the tax funding agreement are disclosed in note 8.

Any difference between the amounts assumed and amounts receivable or payable under the tax funding agreement are recognised as a contribution to (or distribution from) wholly owned tax consolidated entities.

(h) Leases

Leases of property, plant and equipment where the Group, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases (note 20). Finance leases are capitalised at the lease's inception at the fair value of the leased asset or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in other short-term and long-term payables. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the income statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The property, plant and equipment acquired under finance leases is depreciated over the shorter of the asset's useful life and the lease term.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Group as lessee are classified as operating leases (note 33). Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease.

(i) Business combinations

The acquisition method of accounting is used to account for all business combinations, including business combinations involving entities or businesses under common control, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the fair values of the assets transferred, the liabilities incurred and the equity interests issued by the Company. The consideration transferred also includes the fair value of any contingent consideration arrangement and the fair value of any pre-existing equity interest in the subsidiary. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. On an acquisition by acquisition basis, the Company recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net identifiable assets.

The excess of the consideration transferred and the amount of any non-controlling interest in the acquiree over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the subsidiary acquired and the measurement of all amounts has been reviewed, the difference is recognised directly in profit or loss as a bargain purchase.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

Transaction costs associated with business combinations (excluding the costs of issuing equity instruments or raising new borrowings) are expensed as incurred.

1 Summary of significant accounting policies (continued)

(j) Impairment of assets

Intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

(k) Cash and cash equivalents

For the purpose of presentation in the consolidated statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the consolidated balance sheet.

(l) Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less allowance for impairment. Trade receivables are generally due for settlement within 30 days.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectable are written off by reducing the carrying amount directly. An allowance account (provision for impairment of trade receivables) is used when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired. The amount of the impairment allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial.

The amount of the impairment loss is recognised in the income statement within 'other expenses'. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against 'other expenses' in the income statement.

(m) Inventories

Agricultural produce harvested from the Group's biological assets is measured at its fair value less costs to sell at the point of harvest. Such measurement is the cost at that date when applying AASB 102 *Inventories*.

Inventory is stated at the lower of cost and net realisable value. Costs are assigned to individual items of inventory on basis of weighted average costs. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

The Group's asset development activities involve the development and management of carbon sinks under contract to third parties. It also involves the acquisition of forestry rights and other assets which are held to offer for resale to third parties.

1 Summary of significant accounting policies (continued)

(n) Biological assets

Live prawns are valued at fair value less estimated point of sale costs. This fair value is the amount which could be expected to be received from the disposal of the asset in an active and liquid market less the costs expected to be incurred in realising the proceeds of such disposal. The net increment/(decrement) in the fair value of prawns is recognised as income/(expense) in the reporting period.

Where an active and liquid market is not available, fair value is determined using the present value of expected net cash flows from the asset discounted at a current market-determined rate. The net cash flows are reduced for harvesting costs and freight costs to market. Further the expected net cash flows take into account the expected weight of the prawns at harvest, expected costs and sale prices, and incorporates expected possible variations in the net cash flows.

The change in estimated fair value is recognised in the income statement and is classified separately.

Historic cost is used as an estimate of fair value where little or no biological transformation has taken place.

(o) Investments and other financial assets

Classification

The Group classifies its investments in the following categories: environmental credits at FVTPL, loans and receivables and available-for-sale financial assets. The classification depends on the purpose for which the investments were acquired. Management determines the classification of its investments at initial recognition and re-evaluates this designation at each reporting date.

(i) Environmental credits at fair value through profit or loss

Environmental credits at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short-term. Assets in this category are classified as other current assets.

(ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for those with maturities greater than 12 months after the reporting period which are classified as non-current assets. Loans and receivables are included in trade and other receivables (note 10) and receivables in the balance sheet.

(iii) Available-for-sale financial assets

Available-for-sale financial assets, comprising principally marketable equity securities, are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the investment matures or management intends to dispose of the investment within 12 months of the end of the reporting period. Investments are designated as available-for-sale if they do not have fixed maturities and fixed or determinable payments and management intends to hold them for the medium to long-term.

Recognition and derecognition

Regular purchases and sales of financial assets are recognised on trade date - the date on which the Group commits to purchase or sell the asset. Investments are initially recognised at fair value plus transaction costs. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

Reclassifications are made at fair value as of the reclassification date. Fair value becomes the new cost or amortised cost as applicable, and no reversals of fair value gains or losses recorded before reclassification date are subsequently made. Effective interest rates for financial assets reclassified to loans and receivables and held to maturity categories are determined at the reclassification date. Further increases in estimates of cash flows adjust effective interest rates prospectively.

Loans and receivables are carried at amortised cost using the effective interest method.

1 Summary of significant accounting policies (continued)

When securities classified as available-for-sale are sold, the accumulated fair value adjustments recognised in other comprehensive income are reclassified to profit or loss as gains and losses from investment securities.

Subsequent measurement

Available-for-sale financial assets are subsequently carried at fair value. Gains or losses arising from changes in the fair value of available for sale assets are recorded through equity, unless there is an impairment.

Environmental credits at fair value through profit or loss are subsequently carried at fair value. Gains or losses arising from changes in the fair value of the 'Environmental credits at FVTPL' category are presented in profit or loss within other income or other expenses in the period in which they arise.

Details on how the fair value of financial instruments is determined are disclosed in note 2.

Fair value

The fair values of environmental credits are based on current bid prices. If the market for a financial asset is not active (and for unlisted securities), the Group establishes fair value by using valuation techniques. These include the use of recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, and option pricing models making maximum use of market inputs and relying as little as possible on entity specific inputs.

Impairment

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated. In the case of equity investments classified as available-for-sale, a significant or prolonged decline in the fair value of the security below its cost is considered an indicator that the assets are impaired.

If there is objective evidence of impairment for available-for-sale financial assets, the cumulative loss - measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss - is removed from equity and recognised in profit or loss.

(p) Property, plant and equipment

Property, plant and equipment is stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Land is not depreciated. For carbon sinks held by the Group the economic benefits from the asset are consumed in a pattern which is linked to the production level of carbon credits. Such assets are depreciated on a unit of production basis. Depreciation on other assets is calculated using the straight line method to allocate their cost or revalued amounts, net of their residual values, over their estimated useful lives, as follows:

- Freehold buildings	10 - 50 years
- Ponds	10 - 50 years
- Plant and equipment	2 - 15 years
- Leasehold improvements	Length of lease
- Vehicles	3 - 30 years
- Furniture, fittings and equipment	5 years
- Carbon sinks	30 - 50 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

1 Summary of significant accounting policies (continued)

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (note 1(j)).

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the income statement.

(q) Intangible assets

(i) Research and development

Research expenditure is recognised as an expense as incurred. Costs incurred on development projects (relating to the design and testing of new or improved products) are recognised as intangible assets when it is probable that the project will, after considering its commercial and technical feasibility, be completed and generate future economic benefits and its costs can be measured reliably. The expenditure capitalised comprises all directly attributable costs, including costs of materials, services, direct labour and an appropriate proportion of overheads. Other development expenditures that do not meet these criteria are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period. Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is ready for use on a straight line basis over its useful life.

(ii) Other intangible assets

Intangible assets acquired separately are recorded at cost less accumulated amortisation and impairment. Amortisation is charged on a straight line basis over their estimated useful lives. The estimated useful life and amortisation method is reviewed at the end of each annual reporting period, with any changes in these accounting estimates being accounted for on a prospective basis.

(iii) Intangible assets acquired in a business combination

Intangible assets acquired in a business combination are identified and recognised separately from goodwill where they satisfy the definition of an intangible asset and their fair values can be measured reliably.

Subsequent to initial recognition, intangible assets acquired in a business combination are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets acquired separately.

(iv) Goodwill

Goodwill is measured as described in note 1(i). Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units (CGUs) for the purpose of impairment testing. The allocation is made to those CGUs or groups of CGUs that are expected to benefit from the business combination in which the goodwill arose, identified according to operating segments (note 4). CGUs (or groups of CGUs) to which goodwill has been allocated are tested for impairment annually, or more frequently if events or changes in circumstances indicate that goodwill might be impaired.

If the recoverable amount of the CGU (or group of CGUs) is less than the carrying amount of the CGU (or Group of CGUs), the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the CGU (or Group of CGUs) and then to the other assets in the CGU (or groups of CGUs). An impairment loss recognised for goodwill is recognised immediately in profit or loss and is not reversed in a subsequent period.

On disposal of an operation within a CGU, the attributable amount of goodwill is included in the determination of the profit or loss on disposal of the operation.

1 Summary of significant accounting policies (continued)

(v) NGAC Accreditation

The accreditation under the New South Wales Greenhouse Gas Abatement Scheme (NSWGGAS) allows the Group to generate revenues from any single project and is transferrable between projects at no significant additional cost. During 2011 the Carbon Farming Initiative (CFI) received Royal Assent and the Clean Energy Bill passed through the House of Representatives. Under the CFI the Group will continue to generate revenues from its existing projects, accordingly the NGAC accreditation will continue to be amortised on a unit of production basis.

(r) Trade and other payables

These amounts represent liabilities for goods and services measured initially at fair value provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

(s) Borrowings

Borrowings are measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the income statement over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities, which are not an incremental cost relating to the actual draw down of the facility, are recognised as prepayments and amortised on a straight line basis over the term of the facility.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs.

Where the terms of a financial liability are renegotiated and the entity issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognised in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

(t) Provisions

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

(u) Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits and accumulating sick leave that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

The liability for long service leave and annual leave which is not expected to be settled within 12 months after the end of the period in which the employees render the related service is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the end of the reporting period on national corporate bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

1 Summary of significant accounting policies (continued)

(iii) Share-based payments

The fair value of options granted to employees is recognised as an employee benefit expense with a corresponding increase in equity. The fair value is measured at grant date and recognised on a straight line basis over the period during which the employees become unconditionally entitled to the options.

The fair value at grant date of unlisted options is independently determined using a Black Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option.

(v) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the balance sheet.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the taxation authority, are presented as operating cash flows.

(w) Parent entity financial information

The financial information for the Parent entity, Seafarms Group Limited, disclosed in note 42 has been prepared on the same basis as the consolidated financial statements, except as set out below.

(i) Investments in subsidiaries, associates and joint venture entities

Investments in subsidiaries, associates and joint venture entities are accounted for at cost in the financial statements of Seafarms Group Limited. Dividends received from associates are recognised in the Parent entity's profit or loss when its right to receive the dividend is established.

(ii) Tax consolidation legislation

Seafarms Group Limited and its wholly-owned Australian controlled entities have implemented the tax consolidation legislation.

The head entity, Seafarms Group Limited, and the controlled entities in the tax consolidated group account for their own current and deferred tax amounts. These tax amounts are measured as if each entity in the tax consolidated group continues to be a stand alone taxpayer in its own right.

In addition to its own current and deferred tax amounts, Seafarms Group Limited also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from controlled entities in the tax consolidated group.

The entities have also entered into a tax funding agreement under which the wholly-owned entities fully compensate Seafarms Group Limited for any current tax payable assumed and are compensated by Seafarms Group Limited for any current tax receivable and deferred tax assets relating to unused tax losses or unused tax credits that are transferred to Seafarms Group Limited under the tax consolidation legislation. The funding amounts are determined by reference to the amounts recognised in the wholly-owned entities' financial statements.

The amounts receivable/payable under the tax funding agreement are due upon receipt of the funding advice from the head entity, which is issued as soon as practicable after the end of each financial period. The head entity may also require payment of interim funding amounts to assist with its obligations to pay tax instalments.

Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as current amounts receivable from or payable to other entities in the Group.

1 Summary of significant accounting policies (continued)

Any difference between the amounts assumed and amounts receivable or payable under the tax funding agreement are recognised as a contribution to (or distribution from) wholly owned tax consolidated entities.

(iii) Financial guarantees

Where the Parent entity has provided financial guarantees in relation to loans and payables of subsidiaries for no compensation, the fair values of these guarantees are accounted for as contributions and recognised as part of the cost of the investment.

2 Financial risk management

The Group's activities may expose it to a variety of financial risks: market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Group. The Group does not use derivative financial instruments such as foreign exchange contracts and interest rate swaps to hedge certain risk exposures, as management considers this unnecessary given the nature and size of the Group's operations.

	Consolidated	
	30 June 2016	30 September 2015
	\$	\$
Financial assets		
Cash and cash equivalents	8,283,532	12,031,225
Loans and receivables	1,593,879	2,529,617
Fair value through profit or loss	356,660	267,535
Other	-	9,354
	10,234,071	14,837,731
Financial liabilities		
Amortised cost	17,077,840	17,162,513
	17,077,840	17,162,513

(a) Market risk

(i) Foreign exchange risk

The Group's exposure to foreign currency risk at the end of the reporting period, expressed in Australian dollars, was as follows:

	30 June 2016	30 September 2015
	NZD	NZD
	\$	\$
Consolidated		
Fair value through profit or loss	186,829	216,498

2 Financial risk management (continued)

Amounts recognised in profit or loss and other comprehensive income

During the year, the following foreign-exchange related amounts were recognised in profit or loss and other comprehensive income:

	Consolidated	
	9 months to	Year to 30
	30 June	September
	2016	2015
	\$	\$
<i>Amounts recognised in profit or loss</i>		
Net foreign exchange gain/(loss) included in other income/other expenses	24,031	14,069
Total net foreign exchange gains recognised in profit before income tax for the period	24,031	14,069
 <i>Net gain/(loss) recognised in other comprehensive income (note 30(a))</i>	 24,031	 14,069

(ii) Price risk

Exposure

The Group is exposed to equity securities price risk. This arises from investments held by the Group and classified in Other financial assets - investments as available-for-sale investments. The Group is not exposed to commodity price risk.

(iii) Cash flow and fair value interest rate risk

Cash deposits at variable rates expose the Group to cash flow interest rate risk.

As at the end of the reporting period, the Group had the following variable rate deposits:

	30 June 2016		30 September 2015	
	Weighted		Weighted	
	average	Balance	average	Balance
	interest rate	\$	interest rate	\$
	%	\$	%	\$
Deposits at call	2.1%	<u>307,987</u>	2.1%	<u>6,368,617</u>
Net exposure to cash flow interest rate risk		<u>307,987</u>		<u>6,368,617</u>

Sensitivity

Profit or loss is sensitive to higher/lower interest income from cash and cash equivalents as a result of changes in interest rates. At 30 June 2016, if interest rates had increased by 70 or decreased by 100 basis points from the year end rates with all other variables held constant, post tax profit for the year would have been \$2,874 higher / \$4,105 lower (2015 changes of +70 / -100 bps: \$17,607 higher / \$25,088 lower), mainly as a result of higher / lower interest income from cash and cash equivalents.

2 Financial risk management (continued)

(b) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, a means of mitigating the risk of financial loss from defaults. The Group's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded are spread amongst approved counterparties. Credit exposure is controlled by counterparty limits that are reviewed and approved by the audit committee annually. The Group measures credit risk on a fair value basis.

(i) Risk management

Wholesale customers of prawns and related products are subject to trade credit insurance. Credit limits are set by the insurer and are not exceeded. There have been no bad debts or claims on the insurance policy.

In the carbon segment, trade accounts receivable consist mainly of a small number of large enterprises which have individual contracts for the management of carbon sinks, and the government for re-vegetation projects (eg the 20 million trees project). With very few customers, of which all have significant financial standing, the Group is able to maintain very low levels of credit risk.

Apart from the above, the Group does not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. The credit risk on liquid funds is limited because the counterparties are banks with high credit ratings assigned by international credit rating agencies.

The carrying amount of financial assets recorded in the financial statements, net of any allowances for losses, represents the Group's maximum exposure to credit risk without taking account of the value of any collateral obtained.

The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to external credit ratings (if available) or to historical information about counterparty default rates:

	Consolidated	
	30 June 2016	30 September 2015
	\$	\$
Trade receivables		
<i>Counterparties with external credit rating (Moody's)</i>	-	-
<i>Counterparties without external credit rating *</i>		
Group 1	-	-
Group 2	1,321,339	2,250,315
Group 3	-	-
Total trade receivables	1,321,339	2,250,315

* Group 1 - new customers (less than 6 months)
Group 2 - existing customers (more than 6 months) with no defaults in the past
Group 3 - existing customers (more than 6 months) with some defaults in the past. All defaults were fully recovered.

(c) Liquidity risk

The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecasts and actual cash flows and matching the maturity profiles of financial assets and liabilities.

2 Financial risk management (continued)

(i) Financing arrangements

The Group does not have access to any undrawn borrowing facilities at the end of the reporting period (2015: Nil).

(ii) Maturities of financial liabilities

The tables below analyse the Group's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

Contractual maturities of financial liabilities	Less than 6 months	6 - 12 months	Between 1 and 2 years	Between 2 and 5 years	Over 5 years	Total contractual cash flows	Carrying amount (assets)/ liabilities
	\$	\$	\$	\$	\$	\$	\$
At 30 June 2016							
Non-derivatives							
Trade payables	6,984,505	-	-	-	-	- 6,753,119	6,753,119
Borrowings - Fixed rate 7.5%	686,772	657,084	322,605	-	-	- 1,666,460	1,593,333
Borrowings - variable rate (weighted average 7.38%)	-	-	9,104,748	-	-	-	8,500,000
Total non-derivatives	7,671,277	657,084	9,427,353	-	-	- 8,419,579	16,846,452
At 30 September 2015							
Non-derivatives							
Trade payables	4,011,179	-	-	-	-	- 4,011,179	4,011,179
Borrowings - Fixed rate 7.5%	2,869,921	698,647	1,320,106	-	-	- 4,888,674	4,651,334
Borrowings - variable rate (weighted average 7.38%)	-	-	9,104,748	-	-	- 9,104,748	8,500,000
Total non-derivatives	6,881,100	698,647	10,424,854	-	-	-18,004,601	17,162,513

(d) Fair value measurements

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes.

Disclosure of fair value measurements are performed by level of the following fair value measurement hierarchy:

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1)
- (b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (level 2), and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The following table presents the Group's assets and liabilities measured and recognised at fair value at 30 June 2016:

2 Financial risk management (continued)

Consolidated - at 30 June 2016	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
Assets				
Financial assets at fair value through profit or loss				
Trading derivatives	186,829	-	-	186,829
Biological assets	-	-	3,325,639	3,325,639
Total assets	186,829	-	3,325,639	3,512,468
Liabilities				
Derivatives used for hedging - foreign exchange contracts	-	-	-	-
Trading derivatives	-	-	-	-
Total liabilities	-	-	-	-

Consolidated - at 30 September 2015	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
Assets				
Available-for-sale financial assets				
Trading derivatives	216,498	-	-	216,498
Biological assets	-	-	3,522,950	3,522,950
Total assets	216,498	-	3,522,950	3,739,448
Liabilities				
Derivatives used for hedging - foreign exchange contracts	-	-	-	-
Trading derivatives	-	-	-	-
Total liabilities	-	-	-	-

There have been no transfers between Level 1 and Level 2 in the period. The carrying value of other financial assets and financial liabilities approximates their fair value. For a reconciliation of the movement of level 3 disclosures, refer to note 15.

3 Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances.

(a) Critical accounting estimates and assumptions

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are discussed below.

(i) Estimated impairment of goodwill and other non-current assets

Determining whether goodwill and other non-current assets are impaired requires an estimation of the value in use of the cash generating units to which the assets have been allocated. The value in use calculation requires the directors to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate present value. Where the actual future cash flows are less than expected, a material impairment loss may arise.

3 Critical accounting estimates and judgements (continued)

The carrying amount of goodwill at 30 June 2016 was \$1,207,187 (30 September 2015: \$1,207,187). No impairment losses were assessed in 2016 or 2015.

The carrying amount of development costs at 30 June 2016 was \$1,979,482 (30 September 2015: \$2,274,995). An impairment loss of \$267,886 was recognised during 2016 (2015:\$392,037)

The carrying amount of carbon sinks at 30 June 2016 was \$1,387,125 (30 September 2015: \$2,451,215). An impairment loss of \$905,461 was recognised during 2016 (2015:-).

(b) Critical judgements in applying the entity's accounting policies

(a) Revenue recognition

The Group's policy for recognising revenue from project development is based on management's estimation of the stage of completion for these projects by reference to costs incurred compared to total estimated costs at completion. As at 30 June 2016, the Group has recognised \$791,890 (2015: \$75,288) as accrued income and \$1,069,527 (2015: \$1,139,629) as deferred income as a result of the application of this policy.

(ii) Development costs

Management continually evaluates the commercial and technical feasibility of projects, together with the ability to complete the project and generate revenues. As at 30 June 2016, the Group has capitalised \$1,979,482 (2015: \$2,274,995) as development costs as a result of following this policy.

(iii) Biological assets

The fair value of biological assets is estimated using market-observable data to the extent that it is available. Where Level 1 inputs are not available, management uses Level 3 inputs based on unobservable inputs and discounted cash flow analysis. Assumptions are made on the stage of life-cycle of the prawns, the amount of feed consumed and an estimate of future costs until harvest-ready. The model outputs a fair value adjustment market value gain/(loss) (see note Current assets - Biological assets).

(iv) Deferred tax

The deferred tax asset has not increased during the financial year due to current tax losses or research and development tax offsets. Management has evaluated the recoverability of the deferred tax assets with reference to budgets and forecasts that contain estimates and judgements, and assessed that the Group will recover the tax losses and research and development tax offsets in future periods. Management has assessed that it is not probable that the current year's tax losses and research and development tax offsets will be recovered, accordingly these have not been included in the deferred tax asset. At 30 June 2016, the tax losses included in the deferred tax asset total \$2,099,734 (2015: \$2,477,432) and the research and development tax offset included in the deferred tax asset was \$3,851,100 (2015: \$3,225,176) (note 21).

4 Segment information

(a) Description of segments

Business Segments

The Group operates wholly within three reportable segments, all located within Australia.

Aquaculture

Development of a large scale land-based aquaculture project in Northern Australia by Project Sea Dragon Pty Ltd, and prawn aquaculture operations in North Queensland, acquired 6 January 2014 and 31 October 2014.

Carbon services

The establishment and management of carbon sinks and re-vegetation projects throughout Australia including the provision of abatement certificates generated from accredited forest carbon sinks owned by the Group and its customers, and trading in environmental credits.

Other

'Other' is the aggregation of the Group's other operating segments that are not separately reportable.

4 Segment information (continued)

(b) Segments

The segment information provided to the strategic steering committee for the reportable segments for the 9 months ended 30 June 2016 is as follows:

9 months to 30 June 2016	Aquaculture	Carbon services	Other	Consolidated
	\$	\$	\$	\$
Segment revenue				
Sales and external customers	19,220,281	3,786,946	444,388	23,451,615

Unallocated assets				13,033,194
Total assets				58,552,995

For personal use only

4 Segment information (continued)

(b) Segments (continued)

Segment revenues, expenses, and assets are those that are directly attributable to a segment and the relevant portion that can be allocated to the segment on a reasonable basis. Segment assets include all assets used by a segment and consist primarily of forest carbon sinks, receivables, inventories, property, plant and equipment and goodwill and other intangible assets, net of related provisions. While most of these assets can be directly attributed to individual segments, the carrying amounts of certain assets used jointly by segments are allocated based on reasonable estimates of usage. Segment assets do not include income taxes.

Segment profit represents the profit earned by each segment without allocation of central administration costs and directors' salaries, share of profit of associates, investment revenue, income tax expense, and gains or losses on disposal of associates and discontinued operations. This is the measure reported to the chief operating decision maker for the purposes of resource allocation and assessment of segment performance.

(c) Other profit and loss disclosures

2016	Individually significant items	Depreciation and amortisation
	\$	\$
Carbon Services	(1,173,347)	(233,524)
Aquaculture	-	(1,156,732)
Other	-	(15,762)
Unallocated	-	(6,465)
Total	(1,173,347)	(1,412,483)
2015	Individually significant items	Depreciation and amortisation
	\$	\$
Carbon Services	(392,037)	(424,756)
Aquaculture	(311,088)	(1,330,035)
Other	-	(33,321)
Unallocated	(2,344,580)	(20,014)
Total	(3,047,705)	(1,808,126)

The individually significant items for 2016 includes an impairment charge of \$267,886 (2015 \$392,037) in the carbon services segment relating to capitalised development costs on projects that management has assessed to no longer be viable. There is also another impairment charge for this segment of \$905,461 (2015: -) relating to carbon plantations.

The individually significant items for the aquaculture segment in 2015 is an impairment of plant and equipment caused by cyclone damage at the Project Sea Dragon Broodstock facility in Exmouth, West Australia.

The unallocated significant item in 2015 is the deemed loss on disposal of a subsidiary (note 37(b)).

Income tax benefit	(375,204)	(374,743)

(c) Tax consolidation legislation

Seafarms Group Limited and its wholly-owned Australian controlled entities have implemented the tax consolidation legislation. The accounting policy in relation to this legislation is set out in note 1(g).

On adoption of the tax consolidation legislation, the entities in the tax consolidated group entered into a tax sharing agreement which, in the opinion of the directors, limits the joint and several liability of the wholly-owned entities in the case of a default by the head entity, Seafarms Group Limited.

The entities have also entered into a tax funding agreement under which the wholly-owned entities fully compensate Seafarms Group Limited for any current tax payable assumed and are compensated by Seafarms Group Limited for any current tax receivable and deferred tax assets relating to unused tax losses or unused tax credits that are transferred to Seafarms Group Limited under the tax consolidation legislation. The funding amounts are determined by reference to the amounts recognised in the wholly-owned entities' financial statements.

The amounts receivable/payable under the tax funding agreement are due upon receipt of the funding advice from the head entity, which is issued as soon as practicable after the end of each financial year. The head entity may also require payment of interim funding amounts to assist with its obligations to pay tax instalments. The funding amounts are recognised as current inter-company receivables or payables.

(d) Franking account

	Consolidated	
	9 months to 30 June 2016 \$	Year to 30 September 2015 \$
Franking account balance (tax paid basis)	741,264	741,264
Impact on franking account balance of dividends not recognised	-	-
	741,264	741,264

9 Current assets - Cash and cash equivalents

	Consolidated	
	30 June 2016	30 September 2015
	\$	\$
Cash at bank and in hand	7,974,224	5,661,287
Deposits at call	307,987	6,368,617
Other cash and cash equivalents	1,321	1,321
	8,283,532	12,031,225

(a) Risk exposure

The Group's exposure to interest rate risk is discussed in note 2.

(b) Cash at bank and on hand

Of the cash at bank and on hand, \$319,305 (2015: \$999,669) is non-interest bearing, and \$7,964,226 (2015: \$4,661,618) is in accounts that earn interest.

(c) Cash not available for use

\$307,987 (2015: \$337,317) is held as security for bank facilities and lease guarantees (note 27).

(d) Deposits at call

Deposits at call are interest bearing.

10 Current assets - Trade and other receivables

	Consolidated	
	30 June 2016	30 September 2015
	\$	\$
Trade receivables	1,321,357	2,250,315
Loans to employees	21,299	20,816
Goods and services tax (GST) receivable	215,717	18,113

Loans to related parties	-	201,190
	1,558,373	2,490,434

(a) Past due but not impaired

As of 30 June 2016, trade receivables of \$703,679 (2015: \$383,680) were past due but not impaired.

	Consolidated	
	30 June 2016	30 September 2015
	\$	\$
Up to 3 months	672,663	310,981
3 to 6 months	4,474	72,699
More than 6 months	26,542	-
	703,679	383,680

10 Current Assets Trade and other receivables (continued)

(b) Interest rate risk

Information about the Group's exposure to interest rate risk in relation to trade and other receivables is provided in note 2.

(iii) Fair value and credit risk

Due to the short-term nature of these receivables, their carrying amount is assumed to approximate their fair value. The average credit period on rendering of invoices is 30 days.

Refer to note 2 for more information on the risk management policy of the Group and the credit quality of the entity's trade receivables.

11 Current assets - Inventories

	Consolidated	
	30 June 2016	30 September 2015
	\$	\$
Finished goods	5,121,160	7,266,505
Feed and consumables	1,245,357	1,330,178
	6,366,517	8,596,683

Finished goods are harvested prawns from the Group's aquaculture operations in North Queensland.

Feed and consumables relate wholly to the Group's aquaculture operations.

12 Current assets - Current tax receivables

	Consolidated	
	30 June 2016	30 September 2015
	\$	\$
Current tax receivables	15,786	12,210
	15,786	12,210

Current tax receivables relates to overseas income tax refundable to CO2 Asia Pte Ltd.

13 Current assets - Other current assets

	Consolidated	
	30 June 2016	30 September 2015
	\$	\$
Prepayments	292,168	456,897
Accrued interest	-	8,882
Deposits paid	19,720	18,091

Other aquaculture assets	58,996	200,572
	540,715	735,479

13 Current assets - Other current assets (continued)

Environmental credits have been purchased on the spot market. They do not represent carbon credits produced by the Group's carbon sinks. All credits generated from the Group's plantations were sold during the financial year.

14 Current assets - Accrued income

	Consolidated	
	30 June 2016	30 September 2015
	\$	\$
Carbon sink development	-	75,288
Accrued income from carbon sink management	791,890	-
	791,890	75,288

15 Current assets - Biological assets

	30 June 2016	30 September 2015
	\$	\$
<i>Livestock at fair Value</i>		
Opening Balance	3,522,950	3,425,164
Gain or Loss arising from changes in fair value less estimated point of sale costs	(623,668)	(417,909)
Increases due to purchases	3,949,307	3,940,859
Transferred to inventories	(3,522,950)	(3,425,164)
Closing Balance	3,325,639	3,522,950

The discounted cash flow model is underpinned by a number of inputs, each having an impact on the final valuation. The key inputs to the model include survival rates, average growth rates, feed costs, feed conversion ratio and power costs. Each of these inputs are updated to align with the average recent performance.

(a) Impairment tests for goodwill

Goodwill is allocated to the Group's cash generating units (CGUs) identified according to operating segment.

Goodwill is monitored by management at the level of the three operating segments (see note 4 for details).

A segment-level summary of the goodwill allocation is presented below.

Consolidated

	\$	Total \$
2016		
Carbon services	-	-
Aquaculture	1,207,187	1,207,187
Other	-	-
	<u>1,207,187</u>	<u>1,207,187</u>
Consolidated	\$	Total \$
2015		
Carbon services	-	-
Aquaculture	1,207,187	1,207,187
Other	-	-
	<u>1,207,187</u>	<u>1,207,187</u>

(ii) Significant estimates: key assumptions used for value-in-use calculations

The group tests whether goodwill has suffered any impairment on an annual basis. The recoverable amount of a cash generating unit (CGU) is determined based on value-in-use calculations which require the use of assumptions. The calculations use cash flow projections based on financial budgets approved by management covering a five-year period.

Cash flows beyond the five-year period are extrapolated using the estimated growth rates stated below. These growth rates are consistent with forecasts included in industry reports specific to the industry in which each CGU operates.

The following table sets out the key assumptions for those CGUs that have significant goodwill allocated to them:

CGU	Budget period				Growth rate beyond budget period **		Discount rate	
	Gross margin *		Growth rate		2016	2015	2016	2015
	2016	2015	2016	2015				
Aquaculture	21.5	21.5	5.0	4.3	-	-	20.0	20.0

* Budgeted gross margin

** Weighted average growth rate used to extrapolate cash flows beyond the budget period

23 Current liabilities - Trade and other payables

	Consolidated	
	30 June 2016	30 September 2015
	\$	\$
Trade payables	4,844,779	2,784,793
Amounts due to associates	229,410	-
Accrued expenses	1,317,709	879,985
PAYG payable	363,880	177,747
Other payables	228,728	168,654
	6,984,506	4,011,179

The Group has financial risk management policies in place to ensure that all payables are paid within the credit time frame.

24 Current liabilities - Borrowings

Opening balance 1 October 2015	30,150,190	301
Balance 30 June 2016	30,150,190	301

(d) Convertible preference shares

The convertible preference shares were issued at \$0.00001. To convert to fully paid ordinary shares each holder is required to pay \$0.06499. Conversion can occur at any time at the election of the holders.

29 Issued capital (continued)

(d) Convertible preference shares (continued)

The convertible preference shares have limited voting rights as described in ASX Listing Rule 6.3 and are entitled to the payment of a dividend equal to one hundred thousandth of any dividends declared.

(v) Options

Information relating to the Group's Employee Option Plan and options issued to employees and executives of the Group, including details of options issued, exercised and lapsed during the financial period and options outstanding at the end of the financial period, is set out in note 41.

30 Reserves

(a) Other reserves

	Consolidated	
	30 June 2016	30 September 2015
Financial assets revaluation reserve	\$ (24,740)	\$ (24,740)
Share-based payments	3,606,808	3,606,808
Option premium reserve	1,670,705	1,670,705
	5,252,773	5,252,773

(b) Nature and purpose of other reserves

(i) Share-based payments

The share-based payments reserve is used to recognise:

- the grant date fair value of options issued to employees but not exercised
- the grant date fair value of shares issued to employees
- the issue of shares held by the Seafarms Employee Share Trust to employees
- in the parent entity the fair value of shares and options issued to employees of subsidiaries.

(ii) Option premium

The option premium represents the fair value of 47,734,412 Seafarms Group Limited options issued as part consideration for the Ranger takeover bid.

(iii) Financial assets revaluation reserve

Changes in the fair value of assets classified as available for sale financial assets are taken to the financial assets revaluation reserve. Amounts are recognised in profit and loss when the associated assets are sold or impaired.

31 Key management personnel disclosures

(a) Directors

The following persons were directors of Seafarms Group Limited during the financial year:

(i) Chairman - executive

I N Trahar

(ii) Executive directors

H R Whitcombe

Dr C D Mitchell

31 Key management personnel disclosures (continued)

(a) Directors (continued)

(iii) *Non-executive directors*

P Favretto

(b) Other key management personnel

The following persons also had authority and responsibility for planning, directing and controlling the activities of the Group, directly or indirectly, during the financial year:

<i>Name</i>	<i>Position</i>	<i>Employer</i>
A J Soanes	Director and General Manager Operations	CO2 Australia Limited
Dr J Bulinski	Director	CO2 Australia Limited
D Donovan	Chief Operating Officer	Seafarms Operations Limited

(c) Key management personnel compensation

	Consolidated	
	9 months to 30 June 2016	Year to 30 September 2015
Short-term employee benefits	\$ 1,111,400	\$ 1,471,668
Post-employment benefits	116,132	154,752
Long-term benefits	17,067	24,192
	1,244,599	1,650,612

Detailed remuneration disclosures are provided in the remuneration report on pages 6 to 12.

32 Remuneration of auditors

During the 9 months the following fees were paid or payable for services provided by the auditor of the Parent entity, its related practices and non-related audit firms:

(a) Audit services

(i) *Deloitte Touche Tohmatsu*

	Consolidated	
	9 months to 30 June 2016	Year to 30 September 2015
Audit and review of financial reports	\$ 145,000	\$ 135,000
Total auditors' remuneration	145,000	135,000

33 Commitments

(a) Lease commitments: Group as lessee

(a) Non-cancellable operating leases

Operating leases relate to four office facilities, each with different terms: 3 years with an option to renew for a further 3 years; 1 year with no option to renew; 8 years with 2 options for a further 4 years, and a fixed term to June 2020 with no option for any further extension. The operating lease contracts contain market review clauses in the event that the Group exercises its option to renew. There are also fixed increase dates annually. The Group does not have an option to purchase the leased asset at the expiry of the lease period.

The Group leases 11 motor vehicles under operating leases with a term of three years, with no option to purchase the vehicle at the expiry of the lease period.

	Consolidated	
	30 June 2016	30 September 2015
	\$	\$
Commitments for minimum lease payments in relation to non-cancellable operating leases are payable as follows:		
Within one year	298,954	176,678
Later than one year but not later than five years	1,174,735	1,000,849
Later than five years	39,225	73,842
	1,512,914	1,251,369

34 Related party transactions

(a) Parent entities

The parent entity within the Group and the ultimate Australian parent entity is Seafarms Group Limited.

(b) Subsidiaries

Interests in subsidiaries are set out in note 35.

(c) Loans to/from related parties

The Group has an \$8.5 million a credit facility with Avatar Finance Pty Ltd, a company owned by Mr Ian Trahar, Chairman of the Group. The Group has also advanced funds to a related party, Callisto, to commence setup of energy trading operations in Singapore. The amounts advanced and interest charged are disclosed in the following table:

	Consolidated	
	30 June 2016	30 September 2015
	\$	\$
<i>Loan from Avatar Finance Pty Ltd</i>		
Beginning of the year	8,500,000	2,900,000
Loans advanced	-	5,600,000
Interest charged	306,183	415,114
Interest paid	(306,183)	(415,114)
End of period	8,500,000	8,500,000

34 Related party transactions (continued)

	Consolidated	
	30 June 2016 \$	30 September 2015 \$
<i>Loans to other related parties</i>		
Beginning of the year	218,178	106,140
Loans advanced	-	112,038
Loans repayments made	(66,389)	-
End of period	151,789	218,178

(d) Terms and conditions

The facility from Avatar Finance Pty Ltd is provided on normal commercial terms and conditions and at market rates, and is to be repaid on 31 October 2017. The average interest rate on the loan during the 9 months was 7.38% (2015: 7.38%).

35 Subsidiaries and transactions with non-controlling interests

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiaries.

Name of entity	Country of incorporation	Class of shares	Equity holding	
			2016 %	2015 %
CO2 Australia Limited *	Australia	Ordinary	100	100

Seafarm Queensland Pty Ltd*	Australia	Ordinary	100	100

* These subsidiaries have been granted relief from the necessity to prepare financial reports in accordance with Class Order 98/1418 issued by the Australian Securities and Investments Commission. For further information refer to note 36.

36 Deed of cross guarantee

All companies in the Group except CO2 Group Financial Services Pty Ltd ("CO2GFS") are parties to a deed of cross-guarantee under which each company guarantees the debts of the others. By entering into the deed, the wholly-owned entities have been relieved from the requirement to prepare a financial report and directors' report under Class Order 98/1418 (as amended) issued by the Australian Securities and Investments Commission.

The balance sheet and income statement of the closed group is the same as that of the consolidated entity except that they do not include CO2GFS.

36 Deed of cross guarantee (continued)

Set out below is a consolidated income statement for the 9 months ended 30 June 2016 of the Closed Group consisting of Seafarms Group Limited, CO2 Australia Limited, Carbon Banc Limited, Carbon Estate Pty Ltd, CO2 New Zealand Limited, Mallee Land Company Pty Ltd, Mallee Carbon Limited, Carbon Sinks Services Pty Ltd, The Oil Mallee Company of Australia Limited, Yonderr Pty Ltd, Seafarms Operations Limited, Marine Farms Pty Ltd, Marine Harvest Australia Pty Ltd, Seafarm Queensland Pty Ltd, Seafarm Hinchinbrook Pty Ltd, and Project Sea Dragon Pty Ltd.

37 Interests in joint ventures

(a) Joint venture partnership

Blue-Leafed Mallee Pty Ltd (BLM) was a wholly owned subsidiary of the Parent Entity, conducting carbon projects through a 60% interest in a joint operation. In relation to its interest in the joint operation, BLM recognised its 60% share of the assets, liabilities, revenues and expenses in/resulting from the joint operation in the P&L and statement of financial position of the Group.

During 2015, the existing joint operation was terminated and the Group entered into a new joint venture arrangement (with a different third party). The new joint venture was structured through the sale of 40% of the Group's interest in BLM to the new joint venture party for \$325,000, leaving the Group with a 60% interest in BLM.

The Group has accounted for the retained 60% interest as an equity accounted investment - refer to Note 1(b)(iii) for the accounting policy.

The transaction was treated as a deemed disposal of a subsidiary and a subsequent acquisition of an interest in a joint venture.

(b) Deemed disposal of a subsidiary

This transaction has resulted in the recognition of a loss on disposal of subsidiary, calculated as follows:

	30 June 2016 \$	30 September 2015 \$
Investment retained in BLM at fair value at date control was lost*	-	487,500
Carrying value of BLM to the Group at date control was lost	-	(2,832,080)
Loss on deemed disposal	-	(2,344,580)

* The fair market value of the 60% interest retained in BLM has been calculated by reference to the transaction price of \$325,000 for the sale of the remaining 40% to the third party.

This loss has been recognised within 'loss on disposal of subsidiaries' on the face of the statement of profit and loss.

(c) Equity accounted investment

As noted above the retained 60% interest of the Group is based on the fair market value evidenced through the transaction with the third party.

This fair value of \$487,500 became the cost of the equity accounted investment, recognised as such in the statement of financial position at 30 September 2015. At 30 June 2016, the carrying value of the investment in the statement of financial position is \$499,109.

37 Interests in joint ventures (continued)

During the current period an equity accounted profit of \$97,956 has been recognised in profit or loss (2015: \$86,347 loss).

38 Events occurring after the reporting period

On 23 August 2016, the Group announced an \$11 million share placement to institutional and professional investors. The placement will take place over two tranches; the first tranche of approximately \$7.1 million was received prior to payment of fees on 29 August 2016, the second tranche of \$3.9 million is subject to shareholder approval at an Extraordinary General Meeting to be held late September 2016. The placement will be used to provide ongoing working capital for the development of Project Sea Dragon ("PSD"), complete the bankable feasibility study for PSD, and allow early capital works programs to be undertaken.

No other matter or circumstance has occurred subsequent to period end that has significantly affected, or may significantly affect, the operations of the Group, the results of those operations or the state of affairs of the Group or economic entity in subsequent financial periods.

39 Reconciliation of profit after income tax to net cash inflow from operating activities

	Consolidated	
	30 June 2016	30 September 2015

(b) Guarantees entered into by the parent entity

There are cross guarantees given by Seafarms Group Limited and all its subsidiaries as described in note 36. No deficiencies of assets exist in any of these companies. The parent company has given no other guarantees.

(c) Contingent liabilities of the parent entity

The Parent entity did not have any contingent liabilities as at 30 June 2016 or 30 September 2015. For information about guarantees given by the Parent entity, please see above.

42 Parent entity financial information (continued)

(d) Contractual commitments for the acquisition of property, plant or equipment

As at 30 June 2016, the parent entity had no contractual commitments for the acquisition of property, plant or equipment.

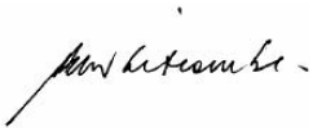

For personal use only

In the Directors' opinion:

- (a) the financial statements and notes set out on pages 21 to 80 are in accordance with the *Corporations Act 2001*, including:
- (i) complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements, and
 - (ii) giving a true and fair view of the consolidated entity's financial position as at 30 June 2016 and of its performance for the 9 months ended on that date, and
- (b) the financial statements and notes set out on pages 21 to 80 are also in accordance with the international financial reporting standards issued by the International Accounting Standards Board
- (c) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable, and
- (d) at the date of this declaration, there are reasonable grounds to believe that the members of the extended closed group identified in note 36 will be able to meet any obligations or liabilities to which they are, or may become, subject by virtue of the deed of cross guarantee described in note 36.

The Directors have been given the declarations by the executive chairman and chief financial officer required by section 295A of the *Corporations Act 2001*.

This declaration is made in accordance with a resolution of Directors.

Independent Auditor's Report to the Members of Seafarms Group Limited

Report on the Financial Report

We have audited the accompanying financial report of Seafarms Group Limited, which comprises the balance sheet as at 30 June 2016, the statement of profit or loss, the statement of profit or loss and other comprehensive income, the cash flow statement and the statement of changes in equity for the financial period ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity, comprising the company and the entities it controlled at the period's end or from time to time during the financial period as set out on pages 17 to 76.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. In Note 1, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the consolidated financial statements comply with International Financial Reporting Standards.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error.

For personal use only

In making those risk assessments, the auditor considers internal control, relevant to the entity's preparation of the financial report that gives a true and fair view, in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Auditor's Independence Declaration

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Seafarms Group Limited, would be in the same terms if given to the directors as at the time of this auditor's report.

Opinion

In our opinion, the financial report of Seafarms Group Limited is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 30 June 2016 and of its performance for the financial period ended on that date; and
- (b) complying with Australian Accounting Standards and the *Corporations Act 2001*.

Report on the Remuneration Report

We have audited the Remuneration Report included in pages 6 to 12 of the directors' report for the financial period ended 30 June 2016. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Opinion

In our opinion the Remuneration Report of Seafarms Group Limited for the financial period ended 30 June 2016, complies with section 300A of the *Corporations Act 2001*.
