2016 AGM Chairman's Address

27 October 2016

Ladies and gentleman:

On behalf of the Board, I am pleased to report that Steadfast Group delivered another year of strong growth in revenue and profits in FY16.

- Underlying revenues were up 54% year-on-year to \$460 million;
- Net profit after tax grew 44% to \$60 million excluding non-trading net gains;
- Underlying cash EPS increased 12% to 11 cents per share; and
- Our fully franked dividend for the year rose 20% to 6 cents per share.

This strong performance was against a backdrop of continued low growth and flat premium rates in the insurance industry. The main drivers of our growth in profit were the acquisitions made in FY15, the synergies generated from these acquisitions and from our existing businesses, and the resilience of our diversified business model.

Thanks to strong support from existing and new shareholders, along with the capital raising last year to fund transformational acquisitions, our ASX market capitalisation has risen to around \$1.7 billion. Steadfast is now ranked in the ASX 150 index. Pleasingly, around 23% of the Group is owned by Steadfast Network Brokers who continue to share in the excellent benefits provided by Steadfast.

Shareholders who invested in Steadfast when we listed in August 2013 have benefited from a 107% total return on their investment. Those who also participated in the rights issue in early 2015 have benefited from a 138% return.

During FY16 we made a number of bolt-on and small strategic acquisitions. Most of these acquisitions were in insurance broking and included buying new brokers as well as larger stakes in existing brokers. A number of large acquisition opportunities did not materialise as they did not fit our strict acquisition criteria based on culture, strategic fit and price.

Gross written premium placed by Steadfast Network Brokers was \$4.5 billion, an increase of 4% compared to FY15 in a flat pricing environment. The growth was driven by new members and new Network brokers. With \$4.2 billion GWP in Australia and \$0.3 billion in New Zealand, we remain the largest general insurance broker network in Australia and New Zealand with 346 brokers in over 1,000 offices. We have only lost one broker from the Network since our listing and increased the Network by 105 brokers. This is due to the premier and unique service offering that we provide to our network.

We continue to adopt a prudent approach to capital management. The Board has set maximum corporate gearing at 25% and approved an additional 5% leverage for subsidiary borrowings. As at 30th September, the corporate gearing ratio was 18% and the subsidiary gearing ratio was 2%. We have in place long-term corporate debt facilities of \$285 million and corporate debt of \$192 million, giving us substantial balance sheet capacity for the future.

Corporate governance remains a key role for your Board. This includes a regular review of management performance against business plans and of our largest businesses. The Board is pleased to again report that the strong corporate governance and risk management in place have enabled Steadfast to report no material breaches during the year.

Shortly, shareholders will have the opportunity to ask questions and to vote on the Remuneration Report. We have listened to market feedback and current accepted practice and made some changes to the remuneration structure for our senior management team which will come into effect in FY17. The changes relate to both short and long-term incentives and importantly they continue to align senior management's interests with the long-term interests of shareholders. The Board firmly believes in an incentive structure which is based on stretch targets, increasing shareholder wealth, individual performance and financial outperformance against our peers. We do not support the increasing trend to include further "soft" issues which are increasingly being adopted by many listed companies.

The Group's first quarter results show that the business is tracking to plan and that we are progressing well with ongoing initiatives to improve the service to our network and the financial performance. This gives us the confidence to re-affirm our FY17 guidance and our ability to continue to grow the network and profitability of the Group.

Robert Kelly will provide more detail on the first quarter and outlook for FY17. He will also address strategic initiatives being developed and implemented for the benefit of our network and shareholders.

In closing, I would like to thank all those who have contributed to the continued growth of Steadfast, including our valued employees led by our tireless and highly experienced Managing Director & CEO Robert Kelly, our brokers, our underwriting agencies, our strategic partners, our shareholders and our end customers. I would also like to extend my gratitude to my fellow Directors for their strong commitment to governance and to their contribution to another successful year.

I will now hand over to Robert to address the meeting whom I thank for extending his commitment to remain at the helm of Steadfast for at least the next four years.

Thank you.

AGM Address from the Managing Director & CEO

27 October 2016

Thank you Frank and good morning everyone.

Steadfast's 20 Year Journey

Twenty years ago, 43 insurance brokers formed a group to compete against the large international players in Australia. We called the network Steadfast as we were determined to work together to create more buying power and a voice for independent brokers. Just over three years ago, 279 Steadfast Network Brokers voted to take the company public to participate in consolidating the insurance broking market in Australia and New Zealand. The IPO in August 2013 enabled Steadfast to become a co-owner of broker and broker-related businesses as well as remain the largest general insurance broker network in Australia and New Zealand.

The Steadfast share price debuted at \$1.15 giving us a market capitalisation of \$576 million. Our market cap has since grown threefold to around \$1.7 billion. It's been a great ride over the past 20 years and particularly over the last three. Hold on tight everybody as our journey has just begun.

Growth in Cash EPS since ASX Listing

As we celebrate Steadfast's 20th anniversary and third year as a listed public company, we are proud to have achieved another year of record performance. As you can see from the chart on the slide, growth in underlying cash earnings per share was over 12% in FY16 compared to FY15.

The strong growth was helped by acquisitions made during the previous financial year – in particular the Calliden, CHU and UAA agency acquisitions which transformed Steadfast into the largest underwriting agency group in Australia, and diversified our earnings mix.

In light of a flat pricing environment and low inflation, the performance from our existing brokers and agencies was solid and reflected their resilience in challenging markets. Our complementary businesses faced stronger market pricing pressures but continue to enhance the Group's revenues.

Pleasingly, we have shown growth in profits every year since listing. Over the past three years the average annual growth in our Cash EPS has been 17.5%.

Steadfast Network

The next slide shows a graphic of the different elements of the Steadfast Network. Our Network continues to revolve around our customers who are mainly small to medium size enterprises. They seek to focus on the advice our brokers can give them rather than just the price.

At the core of our business are our brokers. We have 346 Network brokers and over 1,000 offices in Australia, New Zealand, Singapore and London. They placed gross written premiums of over \$4.5 billion last year, giving us a 27% market share in Australia and a 10% share in New Zealand.

Underwriting agencies are a significant part of our Group, contributing 45% to our earnings in FY16. They focus on niche markets and sell through Steadfast Network Brokers as well as brokers outside the Network. Our agencies generated \$745 million of GWP last year, making them the largest underwriting agency group in Australia and New Zealand.

We continue to build our network that is “stronger together”. This involves further enhancing the premier services provided to our brokers and agencies and ultimately the value provided to their client base, our end customers. It also involves building and developing relationships with our Strategic Partners and meeting the needs of our end customers.

To revolutionise the services we provide to our Network and Strategic Partners, we continue to embark on new frontiers of client service...

New Frontiers of Client Service

These new frontiers will be influenced by three key initiatives:

1. Bringing the next generation of IT systems to our brokers, agencies and Strategic Partners;
2. Rolling out our client trading platform, which delivers improved product, service and efficiency with a panel of strategically aligned insurer partners; and
3. Accessing new insurance capacity with our Lloyd’s of London ‘super’ binder.

All of these initiatives are designed to enhance the customers’ experience in buying insurance through Steadfast.

Steadfast’s Proprietary IT Systems

The next slide outlines our proprietary IT systems for our brokers and agencies. We have built our own IT systems to have control over our destiny and our data. Our technology team of over 50 people is working on the continuing development and roll out of Virtual Underwriter, INSIGHT and InsuranceCONNECT. All three platforms are revolutionary, bespoke to our users and tailored to the next generation.

We will capture more data, analyse more data and deliver more data faster – from anywhere, at any time and on any device.

We aim to make the Virtual Underwriter the leading online marketplace for Steadfast Network Brokers, underwriting agencies and Strategic Partners. The Steadfast Client Trading Platform, Steadfast Direct and our London ‘super’ binder all link into to the Virtual Underwriter.

For personal use only

Steadfast Client Trading Platform

The Steadfast Client Trading Platform is exclusive to the Steadfast Network and participating insurer partners. It gives clients extra cover, wider choice, claims expedition and direct access into our claims triage processes. It allows for competitive pricing because it reduces the cost for the insurer of doing business with Steadfast Network Brokers.

For brokers it provides best-in-class products, the benefits of using the Virtual Underwriter, cost savings, business intelligence and data analytics, all contained within our own database.

Platform partners have the opportunity to write more GWP through the Steadfast Network and benefit from cost savings per transaction.

Business pack was launched in June. Professional lines were introduced last month. Liability is earmarked for December. Commercial motor is scheduled for March next year and property is to be rolled out by 31 May 2017, just in time for the major June renewal period.

Our Lloyd's of London 'super' Binder

Our London 'super' binder came into effect in August and is able to participate in the Client Trading Platform. They said it couldn't be done both in Australia and London and we did it thanks to the help of our co-brokers JLT and Steadfast Re. The next goal is to see how much of the Network's relevant \$2 billion market they can win.

Other Group Strategic Initiatives

Other group strategic initiatives are outlined on the next slide.

- To better compete in the market, we continue to offshore more of our non-client, administrative tasks.
- We aim to keep and foster our leadership team as well as the rest of our valued employees within the Steadfast Group. Last month we promoted Samantha Hollman to COO. I have worked with Sam for 16 years and she has held a number of executive roles at Steadfast.
- We look to balance capital management and cash flows with dividends and EPS accretion. Everything we do is to create long term value for our shareholders.
- We seek to support our complementary businesses as they play an important role in our Network.
- We continue to develop our relationship with Strategic Partners as evidenced by the rollout of our client trading platform.
- We are increasing our international footprint with a growing network in New Zealand and an expanding presence in Asia.

- And finally, we remain the natural acquirer of Steadfast Network Brokers. We have a due diligence team of five who report to our CFO, Stephen Humphrys, and who are tasked with converting, where appropriate, our robust pipeline of acquisition opportunities. We will continue to follow our strict acquisition guidelines referred to by the Chairman.

Re-affirming FY17 Guidance

Based on a first quarter that is in line with our budget and prevailing flat market conditions, we are re-affirming our guidance for FY17.

As we have been saying for the past 12 months, we expect to see price increases and further signs of a hardening market around the June 2017 renewal period as insurance companies need to address their declining profits and unsustainable pricing. Steadfast will be in a strong position to benefit from this cyclical change.

In the meantime, we continue to benefit from a defensive SME customer base and only a 2% exposure to the high-end corporate market that is more susceptible to pricing pressure. We also benefit from a diversified business model – well diversified by broker, agency, geographic region and product line – and a strategy that includes growth by acquisition based on a disciplined and successful due diligence processes.

Steadfast has grown tremendously over the past 20 years and especially since our ASX listing. What hasn't changed is the quality and enthusiasm of the people that work for Steadfast and our unique business model. We make things happen by working together to make the Network and its stakeholders stronger.

I would like to thank our employees, senior management team, board members, Network brokers, underwriting agencies and strategic partners for their valued contribution to Steadfast's growth and success this year. I would also like to thank our shareholders for their support in enabling the Group to enhance the value of the Steadfast Network, its members and its partners.

We have accomplished a lot in the past 20 years but there is still so much more to do. I look forward to creating further value for Steadfast and its stakeholders.

I will now hand you back to Frank.

Steadfast Group Limited
2016
Annual General Meeting

27 OCTOBER 2016

Important Notice

This presentation has been prepared by Steadfast Group Limited ("Steadfast").

This presentation contains information in summary form which is current as at 27 October 2016. This presentation is not a recommendation or advice in relation to Steadfast or any product or service offered by Steadfast or its subsidiaries and associates. It is not intended to be relied upon as advice to investors or potential investors, and does not contain all information relevant or necessary for an investment decision or that would be required in a prospectus or product disclosure statement prepared in accordance with the requirements of the Corporations Act 2001 (Cth). It should be read in conjunction with Steadfast's other continuous and periodic disclosure announcements filed with the Australian Securities Exchange, ASX Limited, and in particular the Steadfast 2016 Annual Report. These disclosures are also available on Steadfast's website at investor.steadfast.com.au.

To the maximum extent permitted by law, Steadfast, its subsidiaries and associates and their respective directors, employees and agents disclaim all liability for any direct or indirect loss which may be suffered by any recipient through use of or reliance on anything contained in or omitted from this presentation. No recommendation is made as to how investors should make an investment decision. Investors must rely on their own examination of Steadfast, including the merits and risks involved. Investors should consult with their own professional advisors in connection with any acquisition of securities.

The information in this presentation remains subject to change without notice. Steadfast assumes no obligation to provide any recipient of this presentation with any access to any additional information or to notify any recipient or any other person of any other matter arising or coming to its notice after the date of this presentation.

To the extent that certain statements contained in this presentation may constitute "forward-looking statements" or statements about "future matters", the information reflects Steadfast's intent, belief or expectations at the date of this presentation. Steadfast may update this information over time. Any forward-looking statements, including projections or guidance on future revenues, earnings and estimates, are provided as a general guide only and should not be relied upon as an indication or guarantee of future performance. Forward-looking statements involve known and unknown risks, uncertainties and other factors that are outside Steadfast's control and may cause Steadfast's actual results, performance or achievements to differ materially from any future results, performance or achievements expressed or implied by these forward-looking statements. Any forward-looking statements, opinions and estimates in this presentation are based on assumptions and contingencies which are subject to change without notice, as are statements about market and industry trends, which are based on interpretations of current market conditions. Neither Steadfast, nor any other person, gives any representation, assurance or guarantee that the occurrence of the events expressed or implied in any forward-looking statements in this presentation will actually occur. In addition, please note that past performance is no guarantee or indication of future performance. Possible factors that could cause results or performance to differ materially from those expressed in forward looking statements include the key risks on pages 29-31 of Steadfast's 2016 Annual Report.

Certain non-IFRS financial information has been included within this presentation to assist in making appropriate comparisons with prior periods and to assess the operating performance of the business. Steadfast uses these measures to assess the performance of the business and believes that the information is useful to investors. Non-IFRS information, including underlying P&L items, pro-forma P&L items, EBITA, NPATA and Cash EPS (NPATA per share), have not been subject to review by the auditors. FY13 and FY14 results are pro-forma and assume the Pre-IPO Acquisitions and the IPO Acquisitions were included for the full reporting period (all of the IPO Acquisitions completed on 7 August 2013). Prior period cash EPS have been adjusted to reflect the re-basing of EPS post the February/March 2015 1:3 rights issue. All references to Aggregate refer to the 100% aggregation of all investees' results regardless of Steadfast's ownership interest.

This presentation does not constitute an offer to issue or sell securities or other financial products in any jurisdiction. The distribution of this presentation outside Australia may be restricted by law. Any recipient of this presentation outside Australia must seek advice on and observe any such restrictions. This presentation may not be reproduced or published, in whole or in part, for any purpose without the prior written permission of Steadfast.

Local currencies have been used where possible. Prevailing current exchange rates have been used to convert local currency amounts into Australian dollars, where appropriate.
