About DGR Global Limited

DGR Global's business is the creation of resource exploration development and mining companies.

The business uses the skills of a core team of talented geoscientists to identify resource projects capable of yielding world class discoveries of attractive commodities.

This is achieved through:

- The identification of commodities with a favorable 20 year price outlook.
- Geological terranes with:
 - A demonstrated strong endowment for that commodity;
 - An under-explored history;
 - Opportunity for the application of recently developed exploration techniques;
 - Jurisdictions with improving socio-economic and regulatory frameworks;
 - Extensive available tenures.

DGR provides initial seed funding and management support to secure these assets in subsidiaries and develop these assets to more advanced funding stages. The Company has a pipeline of projects in daughter companies at various stages of emergence, and in March 2015 crystallised a significant return through the sale of its 15% holding in Orbis Gold for \$26million. Further development of its holdings in AIM-listed SolGold and IronRidge Resources and ASX-listed AusTin Mining, Dark Horse Resources and Armour Energy, and unlisted Archer Resources, are expected over the coming years.

DGR Global has commenced an intended program of judicious dividend payments to its shareholders. The future of the dividend program will depend on circumstances from time to time.

The previous resource exploration and funding activities of DGR's key personnel underscore the opportunities provided by the DGR business model.
