OVERVIEW & CEO COMMENTARY

GREG HYWOOD, CEO

CONSIDERATION OF DOMAIN SEPARATION

- Fairfax is conducting a strategic review of the Domain Group in preparation for Domain's potential separation into a new Fairfax controlled ASX-listed entity.
- Fairfax would continue to own a controlling majority of Domain (between 60% and 70%), while issuing shares in Domain to Fairfax shareholders at the time the separation is implemented. The current intention is that no new capital will be raised.
- The separation would result in:
 - A separately ASX-listed entity establishing direct valuation for Domain;
 - Boards and management teams that will be better able to develop distinct strategies, manage capital structures and conduct investment decisions for their respective businesses; and
 - The opportunity for Domain to attract new shareholders with different investment criteria.
- Domain Group CEO Antony Catalano will continue to lead the exceptionally talented management team which is driving the strong performance of the business.
- The decision to proceed with the Domain separation will be subject to a number of conditions including satisfactory outcome of discussions with the Australian Taxation Office and a Fairfax shareholder vote.
- The separation would be expected to complete this calendar year. We will provide updates on timing and structure.
