REVIEW OF OPERATIONS

The loss for the consolidated entity after providing for income tax amounted to \$978,624 (31 December 2015: \$278,276).

The six months ended 31 December 2016 saw the consolidated entity complete its first six months since successfully completing the IPO of the company on the Australian Securities Exchange ('ASX').

In this time the consolidated entity has made significant advances in the execution of its strategy.

MARICUNGA – CHILE JOINT VENTURE

During the half-year ended 31 December 2016, the consolidated entity, through its newly formed subsidiary entity Lithium Power Inversiones Chile SpA ('LPI Chile') completed the formation of the Maricunga Joint Venture ('JV') to acquire 50% of the Maricunga lithium brine project in Chile.

The formation of the JV was completed during the period, and the final closing and the constitution of the NewCo Shareholders Agreement occurred in Santiago, Chile on 13 January 2017 ('Closing') including constituting the JV Shareholder Agreement for the JV company, Minera Salar Blanco SA ('NewCo').

As at 31 December 2016 the status of the JV was as follows:

- The consolidated entity provided a secured loan of US\$2.7m to NewCo via LPI Chile on 17 October 2016 to fund the recently completed drilling program.
- The consolidated entity, via LPI Chile, acquired the tenements, San Francisco, Salamina & Despreciada, directly from the landowners for US\$5.22m on 21 October 2016. These titles were transferred to LPI Chile on this date and are recorded as an exploration and evaluation asset as at 31 December 2016. These titles were then vended at cost into NewCo at Closing.
- The consolidated entity transferred to LPI Chile's bank account US\$4.25m on 5 December 2016, as part of the completion process. This amount was in LPI Chile's bank account as at 31 December 2016. This amount was transferred to NewCo at Closing and converted to equity as per the requirements of the JV agreement. This amount is to fund the next stages of the Maricunga development program.
- As per the JV agreement the consolidated entity is allocated 50% of the share capital in NewCo at Closing. The consolidated entity, via LPI Chile has paid for 26.37% of its interest in NewCo through its funding contributions to date. The liability for the remaining US\$15m is to be paid in installments up until the completion of DFS to earn the remaining 23.63%.

The JV has recently completed the drilling program at the Maricunga joint venture project in Chile with the completion of:

- 8 rotary and 3 sonic drill holes for the resource estimate;
- 1 hole installed as a test production well; and
- 7 holes installed as monitoring wells for the project Environmental Impact Assessment.

The sonic drilling was undertaken to obtain high quality cores for porosity test work, an important input to the upcoming resource estimate. All 11 holes have produced excellent results, with heightened lithium levels through-out the drill test area. The results of the drilling tests have been disclosed on the ASX as results have been received, in compliance with the Company's continuous disclosure obligations.

CENTENARIO - ARGENTINA

During the period the consolidated entity was granted 3 further licenses in the Centenario salar to bring the total to 6 properties licensed by the consolidated entity. Desktop analysis of data and samples has continued throughout the period.

To the members of Lithium Power International Limited

Report on the half year financial report

We have reviewed the accompanying half-year financial report of Lithium Power International Limited, which comprises the statement of financial position as at 31 December 2016, statement of comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal controls as the directors determine are necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2016 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Lithium Power International and the entities it controlled during the half-year, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We have given to the directors of the company a written Auditor's Independence Declaration, a copy of which is included in the Directors' Report.

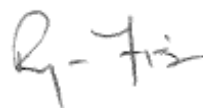

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Lithium Power International Limited is not in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2016 and of its performance for the half-year ended on that date; and
- b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.
