Investor Presentation
March 2017

Disclaimer

This presentation prepared by Peppermint Innovation Limited (Company) does not contain all the information that a prospective investor may require in connection with any potential investment in the Company and you should not read the presentation or any information in connection with it, as financial advice, financial product advice or advice relating to investment, taxation or legal matters. Nothing in this material should be construed as an offer to sell or a solicitation of an offer to buy securities. It does not include all available information and should not be used in isolation as a basis to invest in the Company.

All statements, other than those of historical fact, which address activities, events, outcomes, results, developments, performance or achievements that Peppermint Innovation anticipates or expects may or will occur in the future (in whole or in part) should be considered forward-looking information. In some cases, forward-looking information is identified by the use of terms and phrases such as “anticipate”, “believe”, “could”, “estimate”, “expect”, “intend”, “may”, “plan”, “predict”, “project”, “will”, “would”, and similar terms and phrases, including references to assumptions. Such information may involve, but is not limited to, comments with respect to expectations, planned operations or future actions. These forward-looking statements are based on currently available information as of the date of this presentation but are subject to known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from those expressed or implied by such forward-looking information. The forward-looking information contained in this presentation is expressly qualified by this cautionary statement and no representation or warranty express or implied, is made by the Company, or any of its directors, officers, employees, advisers or agents that any intentions, expectations or plans will be achieved.

A number of risks, uncertainties and other factors could cause actual results to differ materially from the results discussed in the forward-looking information, including, but not limited to, the following: risks associated with reliance on key personnel; financial health of Peppermint Innovation and its related cash flows; general industry and market conditions and growth rates; legislative and regulatory developments; general economic conditions and levels of economic activity; global financial conditions; financing risks; degree of competition in the industry; risks associated with the development of projects; changes in employee relations; and control of costs and expenses.

Forward-looking information reflects Peppermint Innovation’s current beliefs and is based on information currently available to Peppermint Innovation and on assumptions it believes to be reasonable. The forward-looking information is made as of the date of this presentation and Peppermint Innovation assumes no obligation to update or revise such information to reflect new events or circumstances, except as may be required by applicable law. Prospective investors should not read forward-looking information as guarantees of future performance or results and should not place undue reliance on forward-looking information. Nothing in this presentation is, or should be relied upon as, a promise or representation as to the future.

My Weps at work

"Our neighbor offers MyWeps services in their Sari-Sari store and it definitely saves us a lot of time and money, now we won't have to travel and go too far to pay our bills or send money."

-Garry, MyWeps Customer

"What I like the most about MyWeps is the convenience that it provides, and of course, the opportunity for agents like us to earn extra and grow our business."

-Niel, MyWeps Agent

"In some provinces people would have to lineup for a day just to pay their electric bills. Imagine how much time was wasted and how MyWeps could change the lives of these people."

-Garry, MyWeps Customer

Philippines Operations

With more than 31 years of combined experience and expertise in software & web applications development, and in business management. The team, realizing the great potential that the mobile technology has brought about, is now focused on developing mobile financial applications. Taking part in revolutionizing the banking and payment industry in the Philippines.
