## **FULL COMMERCIAL VERSION OF WANGLE VPN APP LAUNCHED TODAY**

Wangle Technologies Limited (**Wangle** or the **Company**) (ASX: WGL) is pleased to announce that it has today released its first commercial product offering, the Wangle VPN App, to market.

The paid version of the Wangle VPN App is available to customers via both the Android and iOS App Stores. It offers subscribers access to Australia's only VPN with Australian Communications and Media Authority (**ACMA**) and Communications Access Coordinator (**CAC**) approvals in place, ensuring full compliance with the recently enacted changes to the Telecommunications Act.

The Wangle App will be available at \$4.99 per month after a free 30-day trial period and provide customers access to the fastest, cheapest and most secure mobile VPN on the market. This includes our newly established global network presence backed by our partners in Rackspace and Amazon Web Services.

The Wangle VPN App is the first of the initial three commercial products scheduled for release in 2017.

### **Wangle Technologies MD and CEO Sean Smith said:**

*"Today's launch is a significant milestone for the Company, with our independently tested and best-in-class mobile VPN paid subscription application now available to Australian and New Zealand customers. The team has spent significant time and effort in recent months testing, improving and preparing the final product for public release. We're now excited to move into the growth phase of the business as we switch our efforts to marketing and acquisition of subscribers."*
