Alcidion Releases Miya Clinic, following successful NICS deployment

Highlights:

-) **Tasmania's Department of Health & Human Services rolls out Miya Clinic.**
-) **Provides a unified Electronic Medical Records for Outpatient Clinics.**

Alcidion Group Limited (ASX:ALC) has officially launched Miya Clinic, following the successful deployment of the technology across Tasmania's Northern Integrated Care Service.

The system provides an integrated solution for Outpatient Clinics and is interfaced with Pathology and Radiology Systems (RIS/PACS), Administration System (PAS) and the Outpatient Booking System with integration into the Emergency Department Information Systems (TrakED) scheduled for later this calendar year. Additionally, the solution utilises Alcidion's "Smartform" technology, that enables clinically coded data to be captured and recorded in the patient's Electronic Health Record.

Ray Blight commented "This is a further demonstration of the augmentation of the Miya architecture to address specific challenges faced by healthcare. We are delighted to officially launch Miya Clinic today, following its deployment at NICS earlier this year."

"NICS is delighted to be working with Alcidion on an opportunity to deliver a very much anticipated and ground breaking system that, for the very first time, will provide a holistic view of all the patient information at a centralised modal", said Jan Coull, eHealth Project Manager for NICS.

Alcidion is hosting a Webinar to launch Miya Clinic, details following:

Date: Thursday, 20 April 2017

Time: 3:30pm AEST; 1:30pm AWST; 3:00pm ACST

Shareholders are invited to attend the webinar at:
