

Fastbrick Robotics Paving Foundations For Future

Q3 FY17 Developments Pave The Way For Hadrian X Commercialisation

Highlights

- Development of Hadrian X Commercial Prototype on track for delivery in CY17
- Appointment of Chief Operating Officer, Marcus Gracey, strengthening executive team
- Growing opportunities for potential machine offtake agreements
- Increasing global interest in Hadrian X Commercial Prototype
- Fastbrick is well funded through to 2018
- Relocation to Fit-for-Purpose Facility enabling Hadrian X Commercial Prototype construction and ongoing research and development

Thursday 27 April 2017 - Australian robotic technology company **Fastbrick Robotics Limited (ASX:FBR)** ('Fastbrick' or 'the Company') is pleased to provide its report for the three months to the end of March, 2017. The Company remains on track to deliver Hadrian X this year, the first commercial bricklaying robot.

Appointment of Chief Operating Officer

Fastbrick appointed Marcus Gracey as Chief Operating Officer (COO) on April 21, 2017. Mr Gracey brings extensive corporate and commercialisation experience to the executive team and will be integral in delivery the Company's strategy of commercialising the Hadrian X technology.

Quarterly Cash Balance

Fastbrick's closing cash balance at end of March was \$9.9 million which included a research and development (R&D) rebate from the Australian Taxation Office (ATO) of \$414,000. Fastbrick remains well funded through to 2018 after \$8 million was secured through a share placement at \$0.081 per share to cornerstone investor Hunter Hall Investment Management Limited in Q2 2017.

Increasing Global Interest in Hadrian X

Fastbrick continues to focus on its global marketing strategy to generate interest with potential partners. During the quarter, CEO Mike Pivac attended industry key events including CONEXPO-CON/AGG March 2017, the international trade show for the construction industries held in Las Vegas and is currently at the Hanover Messe industrial technology conference in Germany.

Fastbrick's digital content continues to attract growing global interest and increasing view counts. The Company's YouTube page has now surpassed 2 million views, with the digital animation of Hadrian 105 prototype Time Lapse being viewed more than 1 million times. A recent video of Hadrian X compiled by global, multi-platform media and entertainment site Mashable has recorded 12 million views on social media platform Facebook alone.

Relocation to Fit-for-Purpose Facility

Fastbrick's facility relocated to 122 Sultana Road West, High Wycombe, Western Australia, 6057 on April 18, 2017. The new location will also serve as the registered office and principal place of business. Fastbrick's new premises represent a significant milestone in the company's journey to accommodate future expansion. The new facility has been tailored to meet all of Fastbrick's requirements and includes a two-story office area connected to a large workshop area and ten tonne overhead crane.

The purpose built workshop gives Fastbrick larger space and more capacity to ramp up its operations, resulting in anticipated productivity and efficiency improvements across assembly and construction capabilities, research and development and intellectual property (IP) for different applications. The new facility will also enhance Fastbrick's strong commitment to IP security.

About Fastbrick Robotics

Fastbrick Robotics Limited (ASX:FBR) is an Australian robotic technology company building the new revolutionary commercial bricklaying machine, Hadrian X. Hadrian X is the first globally patented 3D robotic bricklaying system and delivery of the first commercial prototype is due in 2017, following the successful proof of concept achieved with the Hadrian 105 technology demonstrator in 2016. From the computer aided design of a house structure the Hadrian X robotic handles the automatic loading, cutting, routing and placement of all bricks to complete the end-to-end bricklaying system and build a complete structure. Fastbrick Robotics is committed to improving the speed, accuracy and safety of the global brick construction industry through utilising the world's latest innovation in mobile robotic technology. Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
