ASX Release

UPDATE – NEW W.A. GOLD MINE

Mining in full swing at Penny's Find

Mining at WA's newest gold mine is proceeding as planned at Empire Resources Limited's ('Empire', ASX code: ERL) new Penny's Find gold mine, 50km northeast of Kalgoorlie in Western Australia.

The Company announced today that the mine contractor has mobilised its equipment and is operating as per the planned scheduled mining rate.

Safety bunds and flood mitigation channels have been constructed around the key mine infrastructure on schedule.

All mining infrastructure including the fuel facility is in place for a rapid ramp up to full production.

Initial mining and preparing the first bench at Penny's Find Gold Mine

For personal use only

Arrival of a second digger at Penny's Find

Self bunded fuel tank being installed at Penny's Find

Excavating and loading waste at Penny's Find Project

Initial waste dump at Penny's Find Project
