

GetSwift Reaches its First Performance Milestone

GetSwift Limited (ASX: GSW) ('GetSwift' or the 'Company') is pleased to announce that it has now exceeded 250,000 deliveries per month. The company has met this milestone ahead of projected timelines, and is delighted to reach the first of its performance milestones documented as part of its IPO and prospectus.

Additionally, GetSwift is continuing to strongly grow its market share in verticals, countries and cities with its current position at 65 verticals, 66 countries and 554 cities.

With broad reaching appeal, high scalability, simple integration, low risk implementation and a white label offering, the GetSwift platform has the capability to service a significant global market covering a broad range of industry verticals.

The company's growth and reach continues unabated, with operational measures being undertaken to accelerate the on boarding of larger multinational clients.

About GetSwift Limited

Technology to optimise global delivery logistics

GetSwift Limited is a global technology company listed on the Australian Securities Exchange, with offices in New York, Sydney and Melbourne, Australia.

Offering a best in class software-as-a-service solution (SaaS), GetSwift's proprietary technology and its unique and powerful algorithm supports a user-friendly interface. Designed for use across any industry and in any country, GetSwift streamlines an organisation's logistics, optimising delivery routes, automating the delivery dispatch process and providing real-time tracking alerts for both the sender and the receiver, via mobile devices.

GetSwift's platform optimises its client's delivery business, minimising costs, increasing sales and improving customer satisfaction. Offering its customers scalability, stability, security and sustainability, GetSwift's offering is revolutionising the logistics business and is currently utilised by clients in over 66 countries and 554 cities.
