DirectMoney

Annual Report 2017

DirectMoney is a technology platform, owning the front end of consumer lending to provide better outcomes for Australian borrowers and investors, as part of the rapidly growing marketplace lending industry. The highly automated, secure, and proprietary platform brings together borrowers and lenders to offer more attractive lending interest rates than the Big Four and to deliver Australians more financial choice.

Figure 1: Australia Total Alternative Finance Size 2013-16 (\$US million)

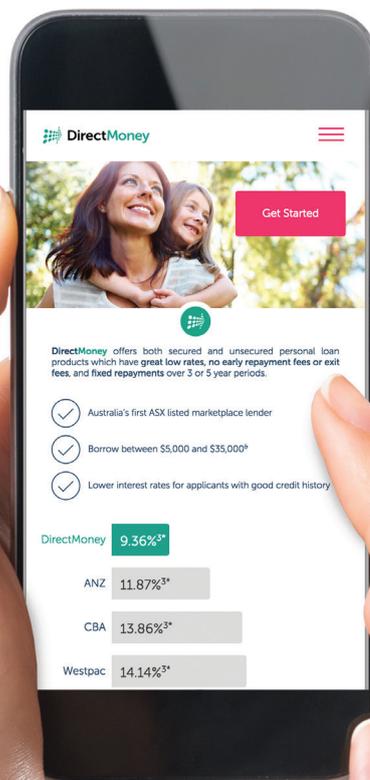

Online alternative finance has continued to grow rapidly in Australia. Outside of China, Australia was the largest alternative finance market in the Asia Pacific Region with an increase of 53% to US\$609.60 million in 2016. Marketplace consumer lending accounts for a significant proportion of the total. The growth is forecast to continue and estimates predict between \$8 billion and \$12 billion will be lent and invested across these platforms in Australia by 2020. With market leading technology in place, DirectMoney is exceptionally well placed to capitalise as the sector continues to grow and capture a share of the \$100 billion consumer finance market.

Chairman's Review

On behalf of the Board of Directors of DirectMoney Limited ("DirectMoney" or the "Company") I am pleased to present the Annual Report for the financial year ended 30 June 2017.

John Nantes
Executive Chairman

This was a year of significant transformation and achievement for the business. During the year, under the guidance of new CEO Anthony Nantes, we delivered on the key objectives previously advised, positioning the business for significant growth.

Vision

DirectMoney's vision is to become Australia's most respected and innovative marketplace lender accounting for a growing share of the \$100 billion unsecured consumer finance market. There continues to be a huge opportunity in Australia to disrupt the personal loan market with our technology platform. We believe a technology-enabled marketplace can be a far more efficient mechanism to bring together borrowers and investors than the traditional banking system. DirectMoney substantially reduces the need for physical infrastructure, reduces transaction costs and provides market leading customer experience, improving overall borrower and investor outcomes.

Strategy

DirectMoney's strategy throughout 2017 consisted of transforming the Company while maintaining its offering of a simple, attractively priced, unsecured personal loan product via both direct and introducer channels, managed entirely using DirectMoney's proprietary, end-to-end technology platform.

The Company deliberately slowed loan book growth during the year as the business was transformed, the balance sheet protected and institutional funding put in place. With the business transformation now largely complete and our foundation properly established, we can aggressively grow the Company and compete against incumbent institutions.

Diversification of funding and the establishment of institutional wholesale funding is a key ongoing objective for the Company. This was delivered through a wholesale funding agreement with 255 Finance structured around the purchase of \$50 million in DirectMoney originated loan assets (finalised in August 2017).

The Company continues to focus on the Fund, which in May 2017 achieved its two year milestone along with a 7.5% per annum net return to investors since inception and 7.3% per annum for the year ended 30 June 2017. The Fund buys eligible loans from DirectMoney, linking retail and wholesale investors with our borrowers and providing cash to the business for new lending. Growth in the Fund Assets Under Management of 231% for the year ended 30 June 2017 was also achieved.

For personal use only

At the 2016 AGM, the Board announced there would be: a review of the operations and strategic outlook for the Company, a significant improvement in people and skill capability, prudent management of capital consumption, and the addition of new institutional funding arrangements to position for growth in this \$100 billion strong lending market. The Board believes significant progress has been made across all these areas and now look forward to the management team driving responsible and accelerated lending growth into this new financial year.

The Board is delighted with the progress of the turnaround under the new CEO, Anthony Nantes, who set and achieved the following objectives:

- Refreshing the Leadership Team across the Company
- Closing significant wholesale funding agreements
- Growing the Fund Assets Under Management
- Continuing to optimise our proprietary, integrated, end-to-end web-based loan processing platform, including rolling out customer facing initiatives to enhance user experience and leverage the businesses technology skill set
- Continued focus and discipline on credit performance

Financials

DirectMoney reported a net loss after tax of \$5.4 million for the full-year ended 30 June 2017. This result includes non-cash related costs in relation to loan funding of \$890k. At 30 June 2017 the Company was managing approximately \$11.2 million of personal loans assets and held \$6.4 million of personal loan assets on its balance sheet.

The Company generated revenue of \$1.2 million during the year. Revenue was derived from interest earned on loans held on balance sheet, crystallisation of loan establishment and other fees, fees earned from servicing loans sold to third parties, ongoing fees from borrowers related to late payments and borrower referral sales.

The Company deliberately slowed loan book growth during the year as the business was transformed, the balance sheet protected and institutional funding put in place. Therefore, revenue was broadly flat relative to prior year. Further, the business did not complete material loan sales during the year which had the effect of deferring revenue recognition related to loans held on balance sheet and delaying the release of cash for additional lending.

The Company incurred operational expenses of approximately \$5.6 million in the year, excluding non-cash costs related to funder fees and share based payments. These expenses arose from the Company's commitment toward building out its marketplace lending business, in particular the continued development of the web based, integrated, end-to-end platform for writing personal loans and building an ecosystem of partners and loan sales channels to support future growth.

The Company spent approximately \$3.0 million in cash on staff costs, increasing staff numbers during the year to approximately 25, adding capacity and skills in the critical areas of finance, strategic partnerships, IT development and loan processing.

Notwithstanding the deliberate slowing of loan book growth, the Company invested \$0.6 million in a range of marketing and advertising programs to support the DirectMoney brand for both the borrower and investor channels.

Expenses relating to bad debts, doubtful debts and loss on sale of impaired loans recognised in the year totalled \$0.4 million. As previously advised, significant adjustments to the Company's credit team and credit processes made during Q1 and Q2 2015 have materially improved the credit performance on loans written subsequently.

Chairman's Review continued

We would like to thank our shareholders, staff, customers and suppliers for their support during the past year. We look forward to achieving success with you all in the year ahead.

Capital management

During the year, the Company conducted a 1 for 2 non-renounceable entitlement issue to raise a further \$5.4 million (after costs of capital raising). At year end the Company had net assets of \$9.2 million and \$3.5 million of cash. The Company continues to focus on protecting the balance sheet and has no bank debt.

The wholesale funding agreement with 255 Finance and the Fund along with other well progressed funding opportunities will allow the Company to significantly grow loan volumes while maintaining balance sheet protection.

Outlook

DirectMoney's strategy to achieve its vision is centred on applying technology to grow loan volumes, differentiating our product offering, enhancing the overall customer experience and achieving the necessary scale economies to drive shareholder value.

The Company understands the dynamic and competitive nature of both the consumer lending business and the fintech segment. The Company is committed to responding quickly and appropriately to changing market conditions and commercial challenges as they arise.

The Board are delighted with the progress of the turnaround under the new CEO, Anthony Nantes, who has a proven track record in technology and business innovation across multiple sectors including lending over 15 years. The Board also welcomed new CFO, Andrew Goodwin, who has over 15 years of experience in the financial services industry including Macquarie Capital and KPMG. Together they bring significant experience to complement the existing team and guide the Company through the next phase of growth which the company is very committed to.

Achieving our vision is a journey and the journey has just begun. We would like to thank our shareholders, staff, customers and suppliers for their support during the past year. We look forward to achieving success with you all in the year ahead.

The Board and Management look forward to providing an overall business update at the AGM in late November 2017.

John Nantes
Executive Chairman

CEO's Review

The Australian banking sector is one of the most profitable in the world, and is ripe for disruption through technology.

Anthony Nantes
Chief Executive Officer

I was exceptionally excited to join DirectMoney part way into this last financial year. The simple vision of utilising a technology platform to deliver better outcomes for Australian consumers and investors was compelling then, and remains so now.

The Australian banking sector is one of the most profitable in the world, and is ripe for disruption through technology. There is significant opportunity in this market for those who build, own and run scalable technology that focusses on:

- driving efficiency into inefficient value chains or high margin areas;
- improving customer outcomes, experiences or value propositions; or
- changing the way investors get access to underlying assets.

In DirectMoney's case, our technology platform delivers all three.

In overseas markets that are arguably 5-7 years ahead of us, we've seen a range of business models and platforms such as DirectMoney take 6-10% market share of the unsecured consumer finance market. Whilst I am confident we'll see a similar pattern emerge here in Australia, we are only in our infancy, and this will create a significant array of opportunities for DirectMoney.

The wider explosive growth in fintech across Australia over the last year alone is proving up the value of the industry itself and how it can transform the way consumers interact with finance. Entrepreneurial minds are identifying areas they can improve on with emerging technology, which is backed by increased investment into the market opportunity as a whole, which is in turn driving a whole new ecosystem of fintech businesses ready to challenge the banking and finance sector.

Rapid advancement in machine learning, artificial intelligence and robotics will impact traditional roles significantly in the years ahead. As a society, we've been here before, through the decline of farming and manufacturing industries. But we had almost 100 years for workers displaced from farms to move into functions, around 60 years for the roles on the factory lines to be replaced by those in the service industries.

These are timelines that cause pain, but were manageable. Some estimates predict we may have as little as 5-10 years to adjust to the next significant phase of working, as many of today's roles in banking, finance and other industries vanish rapidly before our very eyes.

From my vantage point of CEO of DirectMoney, I see the tip of this iceberg already. Our technological capability already achieves outcomes in hours or days that would take the large incumbents weeks or months (or years) to achieve. Internally, as we look to do more at DirectMoney, we first work out the technology that can achieve the outcome the fastest and back ourselves to build it, rather than watching others build it and hedging our bets, or working out how to change our culture and retrain our thousands of staff to adapt to a new demand, technology or process.

Since joining the Company I've seen our small team of dedicated staff deliver some outstanding outcomes as we've looked to re-align the business priorities and focus on our core strengths as a technology company. In traditional business terms this would be referred to as a year of "transformation", and in the ever increasingly jargon led world of tech startups as a "pivot". What I think we've done is focus on where our competitive advantage truly sits, and ensure we invest and deliver on that core promise first, before looking to scale the company up.

For personal use only

CEO's Review continued

I believe we are have the right team, the right business model and technology platform, in the right market, at the right time to build something truly significant.

This year we have set the business up for long term success and value for our shareholders through a range of initiatives I think we can be proud of:

- We own our own proprietary platform which I believe is a clear market leader in terms of efficiency, functionality, capability and flexibility
- We have prudently protected the balance sheet
- We have focussed on delivering outcomes where the margin opportunity exists and how to maximise this as we grow
- We have attracted significant new talent to the business, which will be our ultimate determinant of success
- We have attracted key institutional partners to the company such as 255 Finance, who will support our long-term growth ambitions in a mutually beneficial way
- We have invested in a range of technology innovations across Customer Experience, AI & Machine Learning and Customer Acquisition that will come to market in the near future, further propelling us ahead of the curve
- And we have built a strong foundation on which the company can now confidently invest in growth

The world ahead of us is changing rapidly, in small but meaningful ways such as open data, open banking API's, distributed ledgers and positive credit reporting in Australia, and in large and impactful ways such as AI and Machine Learning. Whilst we're still a young and fast-growing company, I believe we are one of the best placed in this market to take advantage of this change. We are mature enough in our systems, tools and people to be able to deliver amazing outcomes, but not big enough yet to be slowed down by the weight and size of our organisation. I believe we are have the right team, the right business model and technology platform, in the right market, at the right time to build something truly significant.

Building a technology company that chooses to operate in the banking and finance sector in Australia is not without its challenges. But with the talent we have across this organisation, and what I've seen our team achieve over the last year, I am confident in our ability to deliver on the opportunity ahead of us. I'd like to thank all our staff for their hard work and impressive commitment to our goals as a group.

I'd like to thank our Board for their ongoing support, guidance and belief in our team for what we're trying to achieve. I'd like to acknowledge our founder David Doust who retired this year, and all he has done to get the company to where it is today. I'd like to thank our shareholders for their belief in our vision, and continued support, and look forward to working hard on your behalf going forward. We are now set to scale rapidly and are completely focussed on driving profitable lending growth in a market ready for disruption, as well as creating other opportunities that leverage our innovative technology platform.

Board of Directors

John Nantes

Executive Chairman

BA, U Melbourne; BComm, U Melbourne;
LLB, Deakin U; Dip. Fin Planning

Mr Nantes has over 20 years of experience in Financial Services. Prior to being the Chief Executive Officer of Adcock Private Equity, Mr Nantes was Group Head of Financial Services at Crow Horwath, which held over \$10b in funds under management and was Australia's largest SMSF provider with over 10,000 funds.

Mr Nantes has held various Chief Executive roles in Financial Services and Senior Executive roles in St George Bank and Colonial State Bank. Mr Nantes is also currently a non-executive director and responsible manager for Cashwerkz, a financial services company.

Craig Swanger

Non-Executive Director

BSC Agr. U. Sydney;
MBA, FAICD

Mr Swanger has 20 years of experience in financial services. He was previously Executive Director of Macquarie Global Investments, responsible for managing around \$10bn in client funds across Asia, North America and Australia.

He has extensive board experience, including Macquarie Bank's major funds management entity, Macquarie Investment Management Limited and a total of 15 internal external boards since 2003.

Mr Swanger more recently has worked with Australia's largest corporate bond and securitization distribution specialists, FIIG Securities.

Chris Whitehead

Non-Executive Director

B.Sc (Chem), U Manchester; Advanced
Management, U. Penn-Wharton

Mr Whitehead has over 30 years' experience in financial services and technology, over a wide range of roles. He was formerly CEO of Credit Union Australia Limited from 2009 to 2015 and CEO Retail Banking at BankWest from 2001 to 2007.

Chris has previously served as non-executive director for Cuscal Limited, St Andrews Insurance Group, Unisys West and a number of other financial services, technology and community organisations

Directors' Report

FOR THE YEAR ENDED 30 JUNE 2017

DIRECTORS

The following persons were directors of the Company during the whole of the financial year and up to the date of this report, unless otherwise stated:

Name	Position
John Nantes	Executive Chairman (from 19 August 2016 to date) Non-Executive Director (from 7 June 2016 up to 19 August 2016)
Craig Swanger	Non-Executive Director
Chris Whitehead	Non-Executive Director
Stephen Porges	Non-Executive Director (from 19 August 2016, resigned 8 November 2016) Executive Chairman (from 3 July 2015 up to 19 August 2016)

Particulars of each director's experience and qualifications are set out later in this report.

PRINCIPAL ACTIVITIES

During the financial year, the Group's primary activity was writing personal loans for 3 and 5 year maturities to Australian consumers, then on-selling these loans to either the DirectMoney Personal Loan Fund ARSN 602 325 628 (the Fund), issued by One Managed Investment Funds Limited ACN 117 400 987 AFSL 297042 as Responsible Entity of the Fund, or to institutional and wholesale investors.

REVIEW OF OPERATIONS

The Group reported a net loss after tax of \$5.4 million for the full-year ended 30 June 2017. This result includes non-cash related costs in relation to loan funding of \$890k. At 30 June 2017 the Company was managing approximately \$11.2 million of personal loan assets and held \$6.4 million of personal loan assets on its balance sheet.

Table 1: Key financial results

FY2017	Reported	Excluding significant one-off items ¹
Revenues from ordinary activities	\$1.2 million	\$1.2 million
Loss before income tax	\$5.4 million	\$4.6 million
Earnings per share	(1.4) cents	(1.2) cents
FY2016	Reported	Excluding significant one-off items ²
Revenues from ordinary activities	\$1.2 million	\$1.2 million
Loss before income tax	\$8.8 million	\$4.7 million
Earnings per share	(3.3) cents	(1.7) cents

1. Excludes one-off expenses for Macquarie Bank Limited's Funder Fee (\$0.9 million).
2. Excludes one-off expenses related to the purchase of DirectMoney Finance Pty Ltd (\$2.7 million), the non-recurring capital raising costs conducted by the Company in July 2015 (\$0.9 million) and Macquarie Bank Limited's Funder Fee (\$0.5 million).

Key Company highlights include:

- A successful \$5.4 million Rights Issue (after costs of capital raising) adding further capital to the Company
- A wholesale funding agreement with 255 Finance structured around the purchase of \$50 million in DirectMoney originated loan assets (finalised in August 2017)
- In May 2017, the DirectMoney Personal Loan Fund ARSN 602 325 628 (the Fund), issued by One Managed Investment Funds Limited ACN 117 400 987 AFSL 297042 as Responsible Entity of the Fund, achieved its two year milestone along with a 7.5% per annum net return to investors since inception and 7.3% per annum for the year ended 30 June 2017
- Growth in the Fund Assets Under Management (AUM) of 231% for the year ended 30 June 2017

For personal use only

Directors' Report

FOR THE YEAR ENDED 30 JUNE 2017

- Appointment of a new CEO and Chief Financial Officer (CFO) as part of a leadership rejuvenation
- A focus on capital preservation with a strong balance sheet and no debt
- Overall reduction in net loss of 38% versus prior year (before exclusions)
- A continued investment in the DirectMoney proprietary technology platform to solidify the competitive advantage of the Company

The Company delivered on the key immediate priorities set previously including:

- Refreshing the Leadership Team across the Company
- Closing significant wholesale funding agreements
- Growing the Fund AUM
- Continuing to optimise our proprietary, integrated, end-to-end web-based loan processing platform, including rolling out customer facing initiatives to enhance user experience and leverage the Company's technology skill set
- Continued focus and discipline on credit performance

REVENUE

The Company generated revenue of \$1.2 million during the year. Revenue was derived from interest earned on loans held on balance sheet, crystallisation of loan establishment and other fees, fees earned from servicing loans sold to third parties, ongoing fees from borrowers related to late payments and borrower referral sales.

The Company deliberately slowed loan book growth during the year as the business was transformed, the balance sheet protected and institutional funding put in place. Therefore, revenue was broadly flat relative to prior year.

Further, the business did not complete material loan sales during the year which had the effect of deferring revenue recognition related to loans held on balance sheet and delaying the release of cash for additional lending.

EXPENSES

The Group incurred operational expenses of approximately \$5.6 million in the year, excluding non-cash costs related to funder fees and share based payments. These expenses arose from the Company's commitment toward building out its marketplace lending business, in particular the continued development of the web based, integrated, end-to-end platform for writing personal loans and building an ecosystem of partners and loan sales channels to support future growth.

The Company spent approximately \$3.0 million in cash on staff costs, increasing staff numbers during the year to approximately 25, adding capacity and skills in the critical areas of finance, strategic partnerships, IT development and loan processing.

Notwithstanding the deliberate slowing of loan book growth, the Company invested \$0.6 million in a range of marketing and advertising programs to support the DirectMoney brand for both the borrower and investor channels.

Expenses relating to bad debts, doubtful debts and loss on sale of impaired loans recognised in the year totalled \$0.4 million. As previously advised, significant adjustments to the Company's credit team and credit processes made during Q1 and Q2 2015 have materially improved the credit performance on loans written subsequently.

STRATEGY AND OUTLOOK

The Group's strategy to achieve its vision is centred on applying technology to grow loan volumes, differentiating our product offering, enhancing the overall customer experience and achieving the necessary scale economies to drive shareholder value. Growing loan volumes, which drives growth in assets under management, requires the Company to have well-established institutional loan sale channels operating in concert with the Fund. Strong progress has been made with the 255 Finance wholesale funding agreement and 231% growth in the Fund AUM.

The Group understands the dynamic and competitive nature of both the consumer lending business and the fintech segment. The Group is committed to responding quickly and appropriately to changing market conditions and commercial challenges as they arise.

DIVIDENDS

There were no dividends declared or paid in the financial year.

SIGNIFICANT CHANGES IN STATE OF AFFAIRS

There were no significant changes in the state of affairs of the Group during the financial year.

EVENTS SINCE THE END OF THE FINANCIAL YEAR

In August 2017, the Group completed a wholesale funding agreement with 255 Finance structured around the purchase of \$50 million in DirectMoney originated loan assets over a multiple year period. The transaction included an issue of shares to 255 Finance and options that vest upon certain hurdles being met. As part of this funding agreement, the purchase of certain loan assets currently held on balance sheet will commence in October 2017.

The Group has also awarded its staff an offer to participate in the Group's Long Term Incentive Plan (LTIP) which may result in staff performance rights being granted if the Board determines that specific LTIP performance conditions have been met within the LTIP performance period of 1 July 2017 to 30 June 2018.

ENVIRONMENTAL MATTERS

The Group is not subject to any significant environmental regulations under Australian Commonwealth or State law.

- Experience – Miss Ho holds a Bachelor of Laws and Bachelor of Business (Accounting Major) degree and has recently completed a Graduate Diploma in Applied Corporate Governance. She is currently also Office Manager and Compliance Officer of the Group. Miss Ho has also had over 3 years' experience practicing as a solicitor in a private law firm in Sydney.

Directors' Report

FOR THE YEAR ENDED 30 JUNE 2017

INDEMNIFICATION AND INSURANCE OF OFFICERS AND AUDITORS

The Group has entered into agreements with the following to indemnify them against liabilities incurred in their capacity as an officer/director of the Group to the extent permitted by law:

- John Nantes
- Craig Swanger
- Chris Whitehead
- Peter Beaumont
- Leanne Ralph
- Stephen Porges
- Campbell McComb
- Winton Willesee
- Andrew McKay
- Robert Parton

During the financial year, the Group incurred a premium to insure the directors and officers of the Group. Disclosure of the nature of the liabilities covered and the amount of the premium payable is prohibited by the insurance contract.

The Group has not otherwise, during or since the end of the financial year, except to the extent permitted by law indemnified or agreed to indemnify an officer or auditor of the company or any of its controlled entities against a liability incurred as such an officer or auditor.

MEETINGS OF DIRECTORS

The number of meetings of the Company's Board of Directors and of each board committee held during the year ended 30 June 2017, and the number of meetings attended by each director were:

	Directors' Meetings		Audit Committee Meetings		Remuneration and Nomination Committee Meetings	
	Number eligible to attend	Number attended	Number eligible to attend	Number attended	Number eligible to attend	Number attended
John Nantes	15	15	-	-	-	-
Craig Swanger	15	14	-	-	2	2
Chris Whitehead	15	15	-	-	2	2
Stephen Porges	6	6	-	-	1	1

PROCEEDINGS ON BEHALF OF THE COMPANY

No proceedings have been brought or intervened in on behalf of the Company with leave of the Court under section 237 of the Corporations Act 2001.

NON-AUDIT SERVICES

BDO East Coast Partnership were appointed Company auditor on 20 May 2015 and will continue in office in accordance with section 327 of the Corporations Act 2001. The Company may decide to engage the auditor on assignments additional to their statutory audit duties where the auditor's expertise and experience with the Group are important.

The following fees were paid or payable to BDO East Coast Partnership for non-audit services provided during the year ended 30 June 2017:

	\$
Taxation services	3,540
Accounting advice	4,525
	8,065

The directors are satisfied that the provision of non-audit services during the financial year, by the auditor (or by another person or firm on the auditor's behalf), is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001.

Directors' Report

FOR THE YEAR ENDED 30 JUNE 2017

The directors are of the opinion that the services as disclosed in Note 19 to the financial statements do not compromise the external auditor's independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor; and
- none of the services undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants issued by the Accounting Professional and Ethical Standards Board, including reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the company, acting as advocate for the company or jointly sharing economic risks and rewards.

AUDITOR'S INDEPENDENCE DECLARATION

The auditor's independence declaration in accordance with section 307C of the *Corporations Act 2001* for the year ended 30 June 2017 has been received and can be found within the financial report.

PERFORMANCE RIGHTS

At the date of this report, the unissued ordinary shares of DirectMoney Limited under option are as follows:

Effective Grant Date	Date of Expiry	Exercise Price	Number under Performance Rights
13 July 2015	19 June 2018	Nil	6,500,000
4 September 2015	4 September 2018	Nil	11,675,000
18 November 2015	18 November 2018	Nil	1,500,000
17 November 2016	17 November 2019	Nil	17,500,000
			37,175,000

Performance rights holders do not have any rights to participate in any issues of shares or other interests of the Company or any other entity.

There have been no performance rights granted over unissued shares or interests of any controlled entity within the Group during or since the end of the reporting period.

For details of performance rights issued to directors and executives as remuneration, refer to the remuneration report.

CORPORATE GOVERNANCE STATEMENT

Our Corporate Governance Statement is available on our website at: www.directmoney.com.au/About/Policies

Directors' Report

FOR THE YEAR ENDED 30 JUNE 2017

REMUNERATION REPORT (AUDITED)

The Directors present DirectMoney Limited's 2017 remuneration report which sets out remuneration information for the Company's non-executive directors and other key management personnel.

The report contains the following sections:

- a) Key management personnel disclosed in this report
- b) Remuneration governance
- c) Service agreements
- d) Details of remuneration
- e) Equity instruments held by key management personnel
- f) Movement in performance rights
- g) Fair value of performance rights

a) Key management personnel disclosed in this report

The key management personnel are those persons having authority and responsibility for planning, directing and controlling the major activities of the Group, directly or indirectly, including any director (whether executive or otherwise) of the Parent Entity.

During the year ended 30 June 2017 and up to the date of this report, the following were classified as key management personnel:

Name	Position
John Nantes	Executive Chairman (from 19 August 2016 to date) Non-Executive Director (from 7 June 2016 up to 19 August 2016)
Craig Swanger	Non-Executive Director
Chris Whitehead	Non-Executive Director
Anthony Nantes	Chief Executive Officer (KMP from 29 September 2016 to date)
Peter Beaumont	Chief Operating Officer (KMP from 29 September 2016 to date) Chief Executive Officer (KMP from 31 August 2015 to 29 September 2016)
Andrew Goodwin	Chief Financial Officer (KMP from 1 May 2017 to date)
Stephen Porges	Non-Executive Director (from 19 August 2016, resigned 8 November 2016) Executive Chairman (from 3 July 2015 up to 19 August 2016)
David Doust	Executive Director of DirectMoney Finance Pty Ltd (retired 17 August 2017)

b) Remuneration governance

The Remuneration and Nominations Committee was established on 19 August 2016 with Non-Executive Directors Chris Whitehead, Craig Swanger and Stephen Porges (resigned 8 November 2016) as members. The Remuneration and Nominations Committee has a Charter in place which specifies the authority delegated by the Board and to set out the role, responsibilities, membership and operation of the Committee.

The Remuneration and Nominations Committee ensures that executive reward satisfies the following key criteria for good reward governance practices:

- competitiveness and reasonableness;
- acceptability to shareholders;
- performance linkage and alignment of executive compensation;
- transparency; and
- capital management.

For personal use only

Directors' Report

FOR THE YEAR ENDED 30 JUNE 2017

REMUNERATION REPORT (AUDITED) (continued)

The Company has structured an executive remuneration framework that is market competitive and complimentary to the reward strategy of the organisation. Aligning to shareholders' interests, the framework:

- has economic profit as a core component;
- focuses on sustained growth in shareholder wealth as well as focusing the executive on key non-financial drivers of value; and
- attracts and retains high calibre executives who receive a base salary (which is based on factors such as length of service and experience), superannuation, and performance incentives.

In accordance with best practice corporate governance, the structure of non-executive director and executive remuneration is separate and distinct.

Company Performance

Given the early stage nature of the Company, the lack of profit and other key financial variables as shown in the table below, salary and the award of Performance Rights are made on the basis of each individual's contribution to their specific role in the Company to date and their expected importance to the future of the Company. Performance Rights were deemed to provide an appropriate performance incentive for each individual as applicable.

	30 June 2017 \$	30 June 2016 \$
Operating revenue	1.160m	1.237m
Loss	(5.432m)	(8.754m)
Dividend	nil	nil
Cash balance	3.479m	1.265m
Share price	\$0.03	\$0.05

Non-executive directors

Non-executive director remuneration was designed to attract and retain directors of the highest calibre, whilst incurring a cost which is acceptable to shareholders.

The Constitution and the ASX Listing Rules specify that the aggregate remuneration of non-executive directors shall be determined from time to time by a general meeting. An amount not exceeding the amount determined is then divided between the directors as agreed. The latest determination was adopted by a special resolution passed at the Annual General Meeting held on 24 November 2006 when shareholders approved an aggregate remuneration of up to a maximum of \$500,000 per year.

The aggregate remuneration is reviewed annually. The remuneration for non-executive directors is comprised of cash, superannuation contributions and performance rights.

Retirement allowances for non-executive directors

There is no scheme to provide retirement benefits, other than statutory superannuation, to non-executive directors.

CEO remuneration

On 29 September 2016, Anthony Nantes was appointed CEO, replacing Peter Beaumont and remains in the position as at 30 June 2017.

The remuneration aspects of the contract for the CEO aims to reward the CEO with a level and mix of remuneration commensurate with the position and responsibilities within the Company and so as to:

- align the interests of the CEO with those of the shareholders; and
- ensure total remuneration is competitive by market standards.

The Remuneration and Nominations Committee assesses the appropriateness of the nature and amount of remuneration of the CEO on a periodic basis by reference to relevant employment market conditions with the overall objective of ensuring maximum stakeholder benefit from the retention of a high quality CEO.

Directors' Report

FOR THE YEAR ENDED 30 JUNE 2017

Fixed remuneration

The level of fixed remuneration for the CEO is set so as to provide a base level of remuneration which is both appropriate to the position and is competitive in the market. The CEO receives fixed remuneration by way of salary and company superannuation payments.

Other employees' remuneration

The Company aims to reward employees with a level of remuneration commensurate with their position and responsibilities within the Company and so as to ensure total remuneration is competitive by market standards. The CEO makes assessments and recommendations to the Board regarding employee remuneration.

Retirement benefits

No executives have entered into employment agreements that provide additional retirement benefits.

c) Service agreements

The remuneration agreements of key management personnel as at 30 June 2017 are set out below:

KMP	Position held as at 30 June 2017 and any change during the year	Contract details (duration and termination)	Agreed gross cash salary incl. superannuation \$
Mr J Nantes	Executive Chairman (previously Non-executive director up to 19 August 2016)	No determined duration – subject to retirement and re-election rules of the Company's constitution. No notice required to terminate.	100,000
Mr C Swanger	Non-executive director	No determined duration – subject to retirement and re-election rules of the Company's constitution. No notice required to terminate.	60,000
Mr C Whitehead	Non-executive director	No determined duration – subject to retirement and re-election rules of the Company's constitution. No notice required to terminate.	60,000
Mr A Nantes	Chief Executive Officer (from 29 September 2016)	No fixed term. 6 months' notice required to terminate.	219,000
Mr P Beaumont	Chief Operating Officer (previously Chief Executive Officer up to 29 September 2016)	No fixed term. 3 months' notice required to terminate.	200,000
Mr A Goodwin	Chief Financial Officer (from 1 May 2017)	No fixed term. 1 months' notice required to terminate.	219,000
Mr D Doust	Executive director of DirectMoney Finance Pty Ltd (retired 17 August 2017)	No fixed term. 1 months' notice to terminate.	191,625

Directors' Report

FOR THE YEAR ENDED 30 JUNE 2017

REMUNERATION REPORT (AUDITED) (continued)

Further details of performance-related remuneration paid or accrued for FY2017 in respect of specific key management personnel are discussed below:

Mr A Nantes

In March 2017, Mr Nantes was awarded a short-term incentive comprised of \$27,397 (excl. superannuation) in cash and a grant of shares in the Company totalling \$71,353 (being 0.5% of the market capital value of the Company as at the opening of trading on the first business day after 31 December 2016) for securing a lending facility, approved by the Board, of greater than \$5 million by 31 December 2016.

Subject to Board determination on outcomes achieved for FY2017, a share based long-term incentive equal to 1% of the market capital value of the Company as at 30 June 2017, up to a maximum value of 200% of total remuneration may also be payable to Mr Nantes in the next financial year. An amount of \$131,078 has been accrued in respect of this incentive for FY2017.

Mr P Beaumont

In March 2017, Mr Beaumont was awarded a short-term cash incentive of \$13,699 (excl. superannuation) for securing a lending facility, approved by the Board, of greater than \$5 million by 31 December 2016.

Subject to the achievement of KPI targets related to compliance and risk management of the Group for FY2017, a short-term cash incentive totalling \$13,698 (excl. superannuation) may be payable to Mr Beaumont in the next financial year and has been accrued for FY2017.

Subject to board determination, a share based long-term incentive equal to 1% of the market capital value of the Company as at 30 June 2017, up to a maximum value of 50% of total remuneration or \$100,000, whichever is the lesser, may also be awarded to Mr Beaumont. An amount of \$100,000 has been accrued in respect of this incentive for FY2017.

Mr A Goodwin

Subject to the achievement of agreed KPI targets, a share based long-term incentive to a maximum value of \$170,000 for each of the financial years to 30 June 2018 may be awarded to Mr Goodwin in the next financial year. An amount of \$24,343 has been accrued in respect of this incentive for FY2017 representing a pro-rata apportionment from the period 1 May 2017 to 30 June 2017.

Other short-term and long-term incentives established in the year for the above KMPs are set out in Note 20 of the financial report.

Performance conditions set for KMP short-term and long-term incentives (as discussed above and in Note 20 of the financial report) align the KMP interests with the outcomes for shareholders, customers, and staff. The achievement of these performance conditions support the growth of company value whilst providing KMPs with remuneration packages that are above market rates relative to peer roles. Conversely, an underperformance of goals expose KMPs to a level of financial risk where their remuneration packages become well below market rates.

* Performance rights were granted 19 June 2015 but were 100% contingent on the completion of the acquisition of DirectMoney Finance Pty Ltd and re-admission of the Company to the ASX therefore the effective grant date was 13 July 2015.

** These Performance Rights will automatically vest and exercise for nil consideration on satisfaction of the Vesting Conditions.

The Vesting Conditions for the Performance Rights are:

- 1) The holder being a director/employee of the Company as at the relevant vesting determination dates specified in the table; and
- 2) The relevant volume weighted average price (VWAP) of the Company's ordinary shares is at least the price specified in the table for a period of 10 consecutive trading days.

*** Mr Porges has not been included in this table as his performance rights lapsed as shown in the table in f above.

The total fair value of rights at grant date issued to key management personnel is \$357,406. The value of rights granted during the period differs to the expense recognised as part of each key management person's remuneration in table d) above because this value is the grant date fair value calculated in accordance with *AASB 2 Share Based Payment*.

Directors' Report

FOR THE YEAR ENDED 30 JUNE 2017

REMUNERATION REPORT (AUDITED) (continued)

This concludes the remuneration report, which has been audited.

This report is made in accordance with a resolution of directors.

DECLARATION OF INDEPENDENCE BY ARTHUR MILNER TO THE DIRECTORS OF DIRECTMONEY LIMITED

As lead auditor of DirectMoney Limited for the year ended 30 June 2017, I declare that, to the best of my knowledge and belief, there have been:

1. No contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
2. No contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of DirectMoney Limited and the entities it controlled during the period.

A handwritten signature in black ink, appearing to read 'A Milner'.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2017

The consolidated financial statements of DirectMoney Limited (the Company) for the year ended 30 June 2017 was authorised for issue in accordance with a resolution of the directors on 29 September 2017. The directors have the power to amend and revise the financial report.

The consolidated financial statements and notes represent those of DirectMoney Limited and its controlled entities (the Group).

DirectMoney Limited is a company limited by shares incorporated and domiciled in Australia whose shares are publicly traded on the Australian Stock Exchange.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001*. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless stated otherwise.

Except for cash flow information, the financial statements have been prepared on an accrual basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

i) Compliance with IFRS

The consolidated financial statements of the Group also comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

ii) Going concern

These financial statements have been prepared under a going concern basis.

The Directors believe that the Group will have sufficient resources to pay its debts and meet its commitments for at least the next 12 months from the date of this financial report due to the Group having strong cash reserves, no debt and wholesale funding arrangements which allow for the acceleration of cash flows from its originated loan assets on balance sheet and provide capacity for future loan originations, all of which support its operational commitments.

iii) New and revised accounting standards and interpretations

The Group has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that are mandatory for the current reporting period.

iv) New accounting standards for application in future periods

Discussed below are certain new accounting standards and interpretations which have been published but are not mandatory for the 30 June 2017 reporting period and have not been early adopted by the Group. The Group has not yet assessed the potential impact of these new accounting standards and interpretations.

AASB 9 Financial instruments

This standard is applicable to annual reporting periods beginning on or after 1 January 2018. The standard replaces all previous versions of AASB 9 and completes the project to replace IAS 39 'Financial Instruments: Recognition and Measurement'. AASB 9 introduces new classification and measurement models for financial assets. A financial asset shall be measured at amortised cost, if it is held within a business model whose objective is to hold assets in order to collect contractual cash flows, which arise on specified dates and solely principal and interest. All other financial instrument assets are to be classified and measured at fair value through profit or loss unless the entity makes an irrevocable election on initial recognition to present gains and losses on equity instruments (that are not held-for-trading) in other comprehensive income (OCI).

For financial liabilities, the standard requires the portion of the change in fair value that relates to the entity's own credit risk to be presented in OCI (unless it would create an accounting mismatch). The standard also introduces a new model for hedge accounting that will allow greater flexibility in the ability to hedge risk, particularly with respect to hedges of non-financial items.

New impairment requirements will use an 'expected credit loss' (ECL) model to recognise an allowance. Impairment will be measured under a 12-month ECL method unless the credit risk on a financial instrument has increased significantly since initial recognition in which case the lifetime ECL method is adopted. The Group will adopt this standard from 1 July 2018 but the impact of its adoption is yet to be assessed by the Group.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

AASB 15 Revenue from contracts with customers

This standard is applicable to annual reporting periods beginning on or after 1 January 2018. The standard provides a single standard for revenue recognition. The core principle of the standard is that an entity will recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard will require: contracts (either written, verbal or implied) to be identified, together with the separate performance obligations within the contract; determine the transaction price, adjusted for the time value of money excluding credit risk; allocation of the transaction price to the separate performance obligations on a basis of relative stand-alone selling price of each distinct good or service, or estimation approach if no distinct observable prices exist; and recognition of revenue when each performance obligation is satisfied. Credit risk will be presented separately as an expense rather than adjusted to revenue. For goods, the performance obligation would be satisfied when the customer obtains control of the goods. For services, the performance obligation is satisfied when the service has been provided, typically for promises to transfer services to customers. For performance obligations satisfied over time, an entity would select an appropriate measure of progress to determine how much revenue should be recognised as the performance obligation is satisfied. Contracts with customers will be presented in an entity's statement of financial position as a contract liability, a contract asset, or a receivable, depending on the relationship between the entity's performance and the customer's payment. Sufficient quantitative and qualitative disclosure is required to enable users to understand the contracts with customers; the significant judgments made in applying the guidance to those contracts; and any assets recognised from the costs to obtain or fulfil a contract with a customer. The Group will adopt this standard from 1 July 2018 but the impact of its adoption is yet to be assessed by the Group.

AASB 16: Leases (applicable to annual reporting periods beginning on or after 1 January 2019)

When effective, this Standard will replace the current accounting requirements applicable to leases in AASB 117: Leases and related Interpretations. AASB 16 introduces a single lessee accounting model that eliminates the requirement for leases to be classified as operating or finance leases.

The main changes introduced by the new Standard include:

- recognition of a right-to-use asset and liability for all leases (excluding short-term leases with less than 12 months of tenure and leases relating to low-value assets);
 - depreciation of right-to-use assets in line with AASB 116: Property, Plant and Equipment in profit or loss and unwinding of the liability in principal and interest components;
 - variable lease payments that depend on an index or a rate are included in the initial measurement of the lease liability using the index or rate at the commencement date;
 - by applying a practical expedient, a lessee is permitted to elect not to separate non-lease components and instead account for all components as a lease; and
 - additional disclosure requirements.
- The transitional provisions of AASB 16 allow a lessee to either retrospectively apply the Standard to comparatives in line with AASB 108 or recognise the cumulative effect of retrospective application as an adjustment to opening equity on the date of initial application.
- The directors anticipate that the adoption of AASB 16 will not have a material impact on the Group's financial statements.

b) Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of the Company and all subsidiaries as at 30 June 2017, and the results of all subsidiaries for the year then ended.

Subsidiaries are all those entities over which the Company has the power to govern the financial and operating policies, generally accompanying a shareholding of 100% of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Company controls another entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Investments in subsidiaries are accounted for at cost in the individual financial statements of the Company, less any impairment charges.

c) Income tax

The income tax expense or benefit for the period is the tax payable / refundable on the current period's taxable income based on the national income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities, attributable to temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements, and to unused tax losses.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2017

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates which are enacted or substantively enacted for each jurisdiction. The relevant tax rates are applied to the cumulative amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability.

An exception is made for certain temporary differences arising from the initial recognition of an asset or a liability. No deferred tax asset or liability is recognised in relation to these temporary differences if they arose in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit or taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

DirectMoney Limited and its wholly owned controlled entities have implemented the tax consolidation legislation as of 1 January 2004.

The head entity, DirectMoney Limited, and the controlled entities in the tax consolidated group continue to account for their own current and deferred tax amounts. These tax amounts are measured as if each entity in the tax consolidated group continues to be a standalone taxpayer in its own right.

In addition to its own current and deferred tax amounts, DirectMoney Limited also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from controlled entities in the tax consolidated group.

Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as amounts receivable from or payable to other entities in the group.

Any difference between the amounts assumed and amounts receivable or payable under the tax funding agreement are recognised as a contribution to (or distribution from) wholly owned tax consolidated entities.

d) Share based payments

The Company provides benefits to employees in the form of share-based payment transactions, whereby employees render services in exchange for shares or performance rights (equity-settled transactions).

The cost of the transactions with employees is measured by reference to the fair value at the date at which they are granted. The fair value is determined by an external valuer using a binomial model. In valuing equity-settled transactions, no account is taken of any performance conditions, other than conditions linked to the price of the shares of the Company (market conditions). The cost of equity-settled transactions is recognised as an expense, together with a corresponding increase in equity, over the period in which the performance conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to exercise the rights (vesting date).

The cumulative expense recognised for equity-settled transactions at each reporting date until vesting date reflects (i) the extent to which the vesting period has expired and (ii) the number of rights that, in the opinion of the Directors of the Company, will ultimately vest. This opinion is formed based on the best available information at balance date. No adjustment is made for the likelihood of market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date. Where the terms of an equity-settled option are modified, at a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any increase in the value of the transaction as a result of the modification, as measured at the date of the modification.

e) Foreign currency transactions and balances

Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the functional currency). The consolidated financial statements are presented in Australian dollars, which is DirectMoney Limited's functional and presentation currency.

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised through profit or loss, except when deferred in equity as qualifying cash flow hedges and qualifying net investment hedges.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

f) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the entity and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

i) Interest income

Interest revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

ii) Loan establishment fees

Loan establishment fees are deferred and recognised as an adjustment to the effective interest rate as these fees are an integral part of generating an involvement with the resulting financial instrument.

iii) Government grants

Government grants revenue is recognised at fair value when there is reasonable assurance that the grant will be received and the grant conditions will be met.

g) Impairment of assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable, and as a minimum, annually. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets, other than goodwill, that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

h) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short term highly liquid investments with original maturities of three months or less, and bank overdrafts.

i) Property, plant and equipment

All property, plant and equipment are initially measured at cost and are depreciated over their useful lives on a straight-line basis. Depreciation commences from the time the asset is available for its intended use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

The useful lives used for each class of depreciable assets are as follows:

Class of Asset	Useful Life
Plant and equipment	2-5 years

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have not been discounted in determining recoverable amounts.

j) Leases

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are recognised as expenses in the periods in which they are incurred on a straight line basis.

k) Financial instruments

Recognition and initial measurement

Financial instruments, incorporating financial assets and financial liabilities, are recognised when the entity becomes a party to the contractual provisions of the instruments. Trade date accounting is adopted for financial assets that are delivered within timeframes established by marketplace convention.

De-recognition

Financial assets are derecognised where the contractual rights to receipt of cash flows expires or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised where the related obligations are either discharged, cancelled or expire. The difference between the carrying value of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed is recognised in profit or loss.

Classification and subsequent measurement

Financial instruments are subsequently measured at fair value, amortised cost using the effective interest method, or cost. Where available, quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

For personal use only

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2017

Amortised cost is calculated as the amount at which the financial asset or financial liability is measured at initial recognition less principal repayments and any reduction for impairment, and adjusted for any cumulative amortisation of the difference between the initial amount and the maturity amount calculated using the effective interest method.

The *effective interest method* is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that exactly discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying amount with a consequential recognition of an income or expense item in profit or loss.

The consolidated entity does not designate any interests in subsidiaries, associates or joint venture entities as being subject to the requirements of Accounting Standards specifically applicable to financial instruments.

i) financial assets at fair value through profit or loss

Financial assets are classified at 'fair value through profit or loss' when they are held for trading for the purpose of short-term profit taking, derivatives not held for hedging purposes, or when they are designated as such to avoid an accounting mismatch or to enable performance evaluation where a group of financial assets is managed by key management personnel on a fair value basis in accordance with a documented risk management or investment strategy. Such assets are subsequently measured at fair value with changes in carrying amount being included in profit or loss.

ii) Available-for-sale investments

Available-for-sale investments are non-derivative financial assets that are either not capable of being classified into other categories of financial assets due to their nature or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

They are subsequently measured at fair value with any remeasurements other than impairment losses and foreign exchange gains and losses recognised in other comprehensive income. When the financial asset is derecognised, the cumulative gain or loss pertaining to that asset previously recognised in other comprehensive income is reclassified into profit or loss.

Available-for-sale financial assets are classified as non-current assets when they are not expected to be sold within 12 months after the end of the reporting period. All other available-for-sale financial assets are classified as current assets.

iii) loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss through the amortisation process and when the financial asset is derecognised.

iv) financial liabilities

Non-derivative financial liabilities other than financial guarantees are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss through the amortisation process and when the financial liability is derecognised.

v) Trade and other payables

Due to their short term nature trade and other payables are not discounted. They represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured and are usually paid within 30 days of recognition.

Impairment

At the end of each reporting period, the consolidated entity assesses whether there is objective evidence that a financial asset has been impaired. A financial asset (or group of financial assets) is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events (a loss event) having occurred which has an impact on the estimated future cash flows of the financial asset(s).

In the case of financial assets carried at amortised cost, loss events may include: indications that the debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments; indications that they will enter bankruptcy or other financial reorganisation; and changes in arrears or economic conditions that correlate with defaults.

For financial assets carried at amortised cost (including loans and receivables), a separate allowance account is used to reduce the carrying amount of financial assets impaired by credit losses. After having taken all possible measures of recovery, if management establishes that the carrying amount cannot be recovered by any means, at that point the written-off amounts are charged to the allowance account or the carrying amount of impaired financial assets is reduced directly if no impairment amount was previously recognised in the allowance account.

When the terms of financial assets that would otherwise have been past due or impaired have been renegotiated, the consolidated entity recognises the impairment for such financial assets by taking into account the original terms as if the terms have not been renegotiated so that the loss events have occurred are duly considered.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

l) Trade and other receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method less provision for impairment. Trade receivables are generally due for settlement within 30 days. They are presented as current assets unless collection is not expected for more than 12 months after the reporting date.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off by reducing the carrying amount directly. An allowance account (provision for impairment of trade receivables) is used when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables.

The amount of the impairment loss is recognised in the statement of profit or loss and other comprehensive income. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited in the statement of profit or loss and other comprehensive income.

Fair value estimation

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes. Unless otherwise disclosed in the notes to the financial statements, the carrying amount of the Group's financial instruments approximates their fair value.

m) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities.

n) Contributed equity

Ordinary shares are classified as equity and recognised at the fair value of the consideration received by the Group. Incremental costs directly attributable to the issue of new shares or options are expensed as incurred.

o) Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing the result attributable to equity holders of the Company by the weighted average number of ordinary shares outstanding during the financial year.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

p) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the statement of financial position.

q) Parent entity financial information

The financial information for the parent entity, DirectMoney Limited, has been prepared on the same basis as the consolidated financial statements, except that investments in subsidiaries are accounted for at cost net of impairment in the parent financial statements.

r) Employee benefits

Provision is made for the Group's obligation for employee benefits arising from services rendered by employees to the end of the reporting period. Short term employee benefits are benefits (other than termination benefits and equity compensation benefits) that are expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and personal leave. Short term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled, plus any related costs.

s) Critical accounting estimates and judgments

The Directors evaluate estimates and judgments incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

Key estimates

Impairment of loan receivables

The Group assesses impairment at the end of each reporting period by evaluating conditions and events specific to the Group that may be indicative of impairment triggers.

Recoverable amounts are estimated using historical amounts received as consideration for sale of impaired loans to factoring organisations and recoveries from court judgments.

Refer to Note 1. k) for further detail on the treatment of impairment of loan receivables.

For personal use only

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2017

t) Fair value measurements

The Group measures some of its assets and liabilities at fair value on either a recurring or non-recurring basis, depending on the requirements of the applicable Accounting Standard.

Fair value is the price the Group would receive to sell an asset or would have to pay to transfer a liability in an orderly (ie unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset or liability (ie the market with the greatest volume and level of activity for the asset or liability) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (ie the market that maximises the receipts from the sale of the asset or minimises the payments made to transfer the liability, after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

The fair value of liabilities and the entity's own equity instruments (excluding those related to share-based payment arrangements) may be valued, where there is no observable market price in relation to the transfer of such financial instruments, by reference to observable market information where such instruments are held as assets. Where this information is not available, other valuation techniques are adopted and, where significant, are detailed in the respective note to the financial statements.

The Group measures and recognises the following assets and liabilities at fair value on a recurring basis after initial recognition:

- available-for-sale financial assets.

The Group does not subsequently measure any liabilities at fair value on a non-recurring basis.

a) Fair Value Hierarchy

AASB 13: *Fair Value Measurement* requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurements into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1	Level 2	Level 3
Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.	Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.	Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Valuation techniques

The Group selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Group are consistent with one or more of the following valuation approaches:

- *Market approach*: valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.
- *Income approach*: valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.
- *Cost approach*: valuation techniques that reflect the current replacement cost of an asset at its current service capacity.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Group gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

b) Valuation techniques and inputs used to measure Level 2 fair values

Description	Fair Value at 30 June 2017 \$000	Valuation Technique(s)	Inputs Used
<i>Financial assets</i>			
Investment in DirectMoney Personal Loan Fund (Fund)	500	Market approach using monthly valuation reports provided by Fund's Investment Manager and Fund's Administrator.	Monthly valuation report provided Fund's Investment Manager and Fund's Administrator.

There were no changes during the period in the valuation techniques used by the Group to determine Level 2 fair values.

u) Research & development expenditure

Research and development costs are charged to the statement of profit or loss and other comprehensive income as incurred, or deferred where it is probable that sufficient future benefits will be derived so as to recover those deferred costs.

2. REVENUE

	Consolidated	
	2017 \$	2016 \$
Effective interest income on financial assets	859,725	1,036,341
Other revenue from financial assets	251,971	145,158
Interest on cash	10,179	24,290
Interest from investments	38,278	31,012
Revenue	1,160,153	1,236,801

3. OTHER INCOME

	Consolidated	
	2017 \$	2016 \$
R&D tax incentive	365,547	-
Rental income	5,367	-
Other income	370,914	-

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2017

4. EXPENSES

Losses from ordinary activities before income tax includes the following other specific expenses:

	Consolidated	
	2017 \$	2016 \$
Property lease costs	127,227	134,910
Superannuation expense	238,221	179,471
Marketing costs	640,523	514,010
Legal expenses	197,799	455,662
Write off of loan assets		
Doubtful debts expense	32,028	87,803
Bad debt expense	278,871	146,898
Loss on sale of loan assets	78,966	179,609
	389,865	414,310

5. CASH AND CASH EQUIVALENTS

	Consolidated	
	2017 \$	2016 \$
Cash at bank	3,479,300	1,264,795
Reconciliation to cash and cash equivalents at the end of the financial year		
The above figures are reconciled to cash and cash equivalents at the end of the financial year as shown in the statement of cash flows as follows:		
Balance as above	3,479,300	1,264,795
Balance as per statement of cash flows	3,479,300	1,264,795

6. LOAN RECEIVABLES

	Consolidated	
	2017 \$	2016 \$
Current		
Loan receivables	1,839,049	1,634,484
Less: provision for impairment of receivables	(111,645)	(80,359)
	1,727,404	1,554,125
Non-current		
Loan receivables	4,911,654	6,245,956
Less: provision for impairment of receivables	(199,680)	(198,938)
	4,711,974	6,047,018

Loan receivables comprise of personal loans between \$5,000 to \$35,000 with an interest range between 8.50% to 22.75%. The personal loans are repayable within the ranges of 3 to 5 years.

The fair value of the loan receivables is considered to approximate the carrying value.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2017

6. LOAN RECEIVABLES (continued)

Movements in the provision for impairment of receivables were as follows:

	Consolidated	
	2017 \$	2016 \$
Opening balance	279,297	191,494
Doubtful debts provision raised	282,095	236,345
Bad debts written off	(190,175)	(116,881)
Delinquent loans sold	(59,892)	(31,661)
Closing balance	311,325	279,297

7. TRADE AND OTHER RECEIVABLES

	Consolidated	
	2017 \$	2016 \$
<i>Current</i>

	287,054	292,285

9. PROPERTY, PLANT AND EQUIPMENT

	Consolidated	
	2017 \$	2016 \$
Plant and equipment, at cost	81,924	8,831
Less: accumulated depreciation	(16,408)	(4,284)
	65,516	4,547

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2017

10. AVAILABLE-FOR-SALE FINANCIAL ASSETS

	Consolidated	
	2017 \$	2016 \$
<i>Non-current</i>		
Investment in DirectMoney Personal Loan Fund	500,000	500,000

The Group has invested \$500,000 into the DirectMoney Personal Loan Fund. The DirectMoney Personal Loan Fund is a registered managed investment scheme where investors' money is pooled and invested into unsecured personal loans acquired from DirectMoney Finance Pty Ltd. The investment is classified as available for sale in accordance with AASB 139 *Financial Instruments: Recognition and Measurement*.

11. TRADE AND OTHER PAYABLES

	Consolidated	
	2017 \$	2016 \$
<i>Current</i>		
Trade payables	232,057	100,716
Sundry payables	204,297	368,979
Accrued expenses	279,806	261,187
Superannuation payable	67,758	51,969
	783,918	782,851

12. EMPLOYEE BENEFITS

	Consolidated	
	2017 \$	2016 \$
<i>Current</i>		
Provision for annual leave	180,620	125,900

13. CONVERTIBLE NOTES AND INTEREST BEARING LIABILITIES

As of 30 June 2017, DirectMoney Marketplace Limited had \$672,000 (2016: \$1,000,000) of convertibles notes on issue that are secured against identified loans within DirectMoney Marketplace Limited's balance sheet. The carrying value of the loans pledged as security as of 30 June 2017 was \$636,407. The holders have recourse to these loans and a distribution of interest based on the gross return of the loans less a 4% loss reserve and 1.5% servicing fee.

These notes are currently in a rundown phase where holders receive periodic repayments of principal on the note based on the total principal repayments received from the loans secured against the note.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2017

14. ACQUISITION ACCOUNTING

There were no listing expenses during the year ended 30 June 2017.

In the prior year ended 30 June 2016, DirectMoney Limited completed its acquisition of 100% of the issued capital of DirectMoney Finance Pty Ltd (DMF) as part of a reverse acquisition.

The value of the transaction was as follows:

	3 Jul 2015 \$
Assets and liabilities acquired	
Cash and cash equivalents	2,857
Other current assets	17,806
Trade and other payables	(729,332)
	(708,669)
Fair value of notional shares that DMF issued to effect the transaction	2,000,088
Listing expense	2,708,757

The fair value of the shares was assessed on the basis of the fair value of the net assets acquired and DirectMoney Limited's listing status.

15. ISSUED CAPITAL

a) Issued and paid up capital

	Consolidated	
	2017 \$	2016 \$
Ordinary shares fully paid	28,925,131	22,409,803
Costs of raising capital	(320,406)	-
	28,604,725	22,409,803

Ordinary shares participate in dividends and the proceeds on winding up the Company. At shareholder meetings, each ordinary share is entitled to one vote when a poll is called. Otherwise, each shareholder has one vote on show of hands.

b) Reconciliation of issued and paid-up capital

	2017		2016	
	Number of shares	\$	Number of shares	\$
Opening balance as at 1 July	271,954,175	22,409,803	271,843,978	6,106,746
DirectMoney Finance Pty Ltd shares issued prior to acquisition	-	-	62,203,896	2,505,169
Reversal of existing shares on acquisition	-	-	(334,047,874)	-
Existing DirectMoney Limited shares on issue	-	-	10,000,443	-
Issue of DirectMoney Limited shares on acquisition of DirectMoney Finance Pty Ltd	-	-	199,609,932	2,000,088
Issue of DirectMoney Limited shares post acquisition	-	-	62,343,800	11,797,800
Issue of shares from rights issue	135,777,153	5,702,641	-	-
Costs of raising capital	-	(320,406)	-	-
Issue of shares as payment of funder fees	27,155,099	741,334	-	-
Issue of shares to CEO as part of short term incentive	2,038,657	71,353	-	-
Closing Balance as at 30 June	436,925,084	28,604,725	271,954,175	22,409,803

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2017

c) Performance rights

As at 30 June 2017, there were a total of 37,175,000 (2016: 32,175,000) performance rights outstanding.

Under the Company's Performance Rights Plan, these performance rights were issued at no cost to the recipients and represent a right to one ordinary share in the Company in the future for no consideration, subject to satisfying the performance conditions and compliance with the rules of the Plan.

d) Capital management

Management controls the capital of the Group in order to maintain a sustainable debt to equity ratio, generate long term shareholder value and ensure that the Group can fund its operations and continue as a going concern.

The Group's debt and capital includes ordinary share capital and financial liabilities, supported by financial assets. The Group is not subject to any externally imposed capital requirements.

The Group's objectives when managing capital are to maximize shareholder value and to maintain an optimal capital structure. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders. Management gives particular regard to conservation of liquidity in its recommendations as to the declaration of dividends. There were no dividends declared in the year.

16. EQUITY – RESERVES AND ACCUMULATED LOSSES

a) Employee equity benefits reserve

The employee equity benefits reserve records items recognised as expenses on valuation of employee performance rights and accrual of employee long-term incentives.

b) Other share based payments reserve

The other share based payments reserve records funding expenses accrued and are expected to be paid in the form of shares.

c) Foreign currency translation reserve

The foreign currency translation reserve records exchange differences arising on translation of the foreign controlled subsidiary, HomeStake Capital Inc. which was deregistered on 29 February 2016.

	Employee equity benefits reserve \$	Other share based payments reserve \$	Foreign currency translation reserve \$	Total \$
Movement in reserves:				
At 1 July 2015	–	–	4,210	4,210
Currency translation differences	–	–	(4,210)	(4,210)
Share based payments expense	819,894	–	–	819,894
At 30 June 2016	819,894	–	–	819,894
Currency translation differences	–	–	–	–
Share based payments expense	421,488	153,126	–	574,614
At 30 June 2017	1,241,382	153,126	–	1,394,508

	Consolidated	
	2017 \$	2016 \$
Accumulated losses:		
Opening balance	(15,365,123)	(6,610,635)
Total loss after income tax for the year	(5,431,673)	(8,754,488)
Total	(20,796,796)	(15,365,123)

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2017

17. CAPITAL AND LEASE COMMITMENTS

a) Finance lease commitments

There are no finance lease commitments (2016: nil).

b) Operating lease commitments

Non-cancellable operating leases contracted for but not recognised in the financial statements.

	Consolidated	
	2017 \$	2016 \$
Payable – minimum lease payments:		
i) Within one year	161,126	108,490
ii) One to five years	110,089	5,945
iii) More than five years	–	–
Total	271,215	114,435

DirectMoney Finance Pty Ltd has a non-cancellable property lease with a 24 month term commencing on 1 March 2017, with rent payable monthly in advance. Contingent rental provisions within the lease agreement require that the minimum lease payments shall be increased from and including each anniversary of the commencing date of the term by 4%.

18. INCOME TAX

	Consolidated	
	2017 \$	2016 \$
<i>Numerical reconciliation of income tax expense to prima facie tax payable</i>		
Loss from continuing operations before income tax expense	(5,431,673)	(8,754,488)
Tax at the tax rate of 27.5% (2016: 30%)	(1,493,710)	(2,626,346)
Tax effect of amounts which are not deductible (taxable) in calculating taxable income:		
– Temporary differences not recognised	90,799	(788,482)
– Non-recognition of current year tax losses	1,402,911	3,414,828
Income tax expense/(benefit)	–	–

As at 30 June 2017, the entity has unrecognised carried forward tax losses of \$13,396,647 (2016: \$8,295,152), the utilisation of which is dependent on the entity satisfying the requirements of the Same Business Test (SBT).

19. REMUNERATION OF AUDITORS

During the year, the following fees were paid or payable for services provided by the auditor:

	Consolidated	
	2017 \$	2016 \$
BDO East Coast Partnership		
– Audit of the financial report	60,500	54,500
– Taxation services	3,540	42,780
– Review of the half-yearly financial report	22,500	22,500
– Accounting advice	4,525	–
	91,065	119,780

For personal use only

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2017

20. CONTINGENT LIABILITIES

Macquarie Bank Agreement

On 19 February 2016, the parent entity entered into a Loan Sale and Management Deed with Macquarie Bank Limited (Agreement) in which Macquarie Bank Limited (Macquarie) agreed to purchase a \$5 million loan portfolio from DirectMoney Finance Pty Ltd and provide certain services to the Company. A \$5 million cash consideration for the \$5 million loan portfolio was paid on 23 February 2016, at which point the loan portfolio was derecognised.

Note 19 of the Group's 2016 Annual Report detailed the various fees payable as tranches under the Agreement.

In accordance with the modification of the Agreement, Tranche 2 funder fee is the only contingent liability remaining under the Agreement and is payable for so long as Macquarie continues to hold an interest in the loan portfolio.

CEO Short and Long Term Incentives

The following short and long term incentives may be awarded by the Company to the CEO and are noted as contingent liabilities:

- Grant of shares of a value equal to 0.5% of the market capital value of the Company as at the close of trading on 31 December 2017 if new book growth, approved by the Board, of \$5 million is achieved by 31 December 2017;
- Grant of shares of a value equal to 0.5% of the market capital value of the Company as at the opening of trading on the first business day after 31 December 2017 if agreement of a lending facility, approved by the Board, of greater than \$10 million by 31 December 2017 is secured;
- Grant of shares of a value equal to 0.5% of the market capital value of the Company as at the opening of trading on the first business day after 30 June 2018 if new book growth, approved by the Board, of \$10 million is achieved by 30 June 2018;
- Grant of shares equivalent to 1% of the market capital value of the Company as at 30 June 2018 and 30 June 2019, up to a maximum value to be determined by the Company in July 2017, but to be between 100% to 200% of base remuneration subject to the discretion of the Board and outcomes to be agreed with the Board, or absent agreement, as determined by the Board;

- Grant of shares equivalent to 0.5% of the market capital value of the Company on achieving a share price of 6c based on the average weighted price of the equity of the Company for a consecutive 30 day period in the 90 days immediately preceding the first day of the Vesting Date being 6c. The Vesting Date being within 20 business days following 30 June 2019; and
- Grant of shares equivalent to 0.5% of the market capital value of the Company on achieving a share price of 12c based on the average weighted price of the equity of the Company for a consecutive 30 day period in the 90 days immediately preceding the first day of the vesting date being 12c. The Vesting Date being within 20 business days following 30 June 2019.

COO Long Term Incentives

The following long term incentives may be awarded by the Company to the COO and are noted as contingent liabilities:

- Grant of shares equal to 1% market capital value of the Company as at 30 June 2018 and 30 June 2019, up to a maximum value of 50% of total remuneration or \$100,000, whichever is the lesser, for each of the relevant years;
- Grant of shares equal to 0.25% of the market capital value of the Company on achieving a share price of 6c based on the average weighted price of the equity of the Company for a consecutive 30 day period in the 90 days immediately preceding the first day of the Vesting Date being 6c. The Vesting Date being within 20 business days following 30 June 2019; and
- Grant of shares equal to 0.25% of the market capital value of the Company on achieving a share price of 12c based on the average weighted price of the equity of the Company for a consecutive 30 day period in the 90 days immediately preceding the first day of the vesting date being 12c. The Vesting Date being within 20 business days following 30 June 2019.

CFO Long Term Incentives

The Company may award the CFO an issue of shares in the Company to a maximum value of \$170,000 for each of the financial years to 30 June 2018 and subsequently, annually, subject to the discretion of the CEO and Board, and achievement of outcomes to be agreed with the CEO or absent agreement, as determined by the CEO. This is noted as a contingent liability.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2017

21. SUBSIDIARIES

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiaries in accordance with the accounting policies described in Note 1:

Name	Status	Country of incorporation	% owned 2017	% owned 2016
DirectMoney Finance Pty Ltd	Registered 2 May 2006	Australia	100%	100%
DirectMoney Investment Management Pty Ltd	Registered 20 February 2015	Australia	100%	100%
DirectMoney Loans Servicing Pty Ltd	Registered 20 February 2015	Australia	100%	100%
DirectMoney Credit Management Pty Ltd	Registered 19 March 2015	Australia	100%	100%
DirectMoney Marketplace Limited	Registered 16 March 2015	Australia	100%	100%
DirectMoney Services Pty Ltd	Registered 13 January 2017	Australia	100%	100%

22. EVENTS AFTER THE REPORTING PERIOD

In August 2017, the Group completed a wholesale funding agreement with 255 Finance structured around the purchase of \$50 million in DirectMoney originated loan assets over a multiple year period. The transaction included an issue of shares to 255 Finance and options that vest upon certain hurdles being met. As part of this funding agreement, the purchase of certain loan assets currently held on balance sheet will commence in October 2017.

The Group has also awarded its staff an offer to participate in the Group's Long Term Incentive Plan (LTIP) which may result in staff performance rights being granted if the Board determines that specific LTIP performance conditions have been met within the LTIP performance period of 1 July 2017 to 30 June 2018.

23. KEY MANAGEMENT PERSONNEL DISCLOSURES

Compensation

The aggregate compensation made to directors and other members of key management personnel of the consolidated entity is set out below:

	Consolidated	
	2017 \$	2016 \$
Short-term employee benefits	814,428	554,597
Post-employment benefits	76,459	42,167
Long-term benefits	–	–
Share-based payments	469,786	542,940
Total KMP compensation	1,360,673	1,139,704

Short-term employee benefits

These amounts include fees and benefits paid to the executive Chair and non-executive directors as well as all salary, paid leave benefits, fringe benefits and cash bonuses awarded to executive directors and other KMP.

Post-employment benefits

These amounts are the current year's estimated cost of providing for the Group's superannuation contributions made during the year.

Long-term benefits

These amounts represent long service leave benefits accruing during the year.

Share-based payments

These amounts represent the expense related to the participation of KMP in equity-settled benefit schemes as measured by the fair value of the options, rights and shares granted on grant date.

For personal use only

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2017

24. RELATED PARTY TRANSACTIONS

a) Parent entity

The legal parent is DirectMoney Limited.

b) Subsidiaries

Interest in subsidiaries are set out in Note 21.

c) Transactions with related parties

As at 30 June 2017, all transactions that have occurred among the subsidiaries within the Group have been eliminated for consolidation purposes. There were no other related party transactions (2016: nil).

25. PARENT ENTITY INFORMATION

a) Summary financial information

The individual financial statements for the parent entity show the following aggregate amounts:

Statement of financial position	2017 \$	2016 \$
Current assets	1,248,962	610,432
Non-current assets	13,402,500	8,787,402
Total assets	14,651,462	9,397,834
Current liabilities	53,267	188,759
Non-current liabilities	–	–
Total liabilities	53,267	188,759
<i>Shareholders' equity</i>		
Issued capital	21,592,496	15,397,574
Reserves	1,394,508	819,894
Accumulated losses	(8,388,809)	(7,008,393)
	14,598,195	9,209,075
Loss for the year	(1,380,416)	(2,678,576)
Total comprehensive income	(1,380,416)	(2,678,576)

b) Contingent liabilities

See Note 20.

c) Contractual commitments

The parent entity had no capital commitments for property, plant and equipment as at 30 June 2017 and 30 June 2016.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2017

26. CASH FLOW INFORMATION

Reconciliation of loss after income tax to net cash outflows from operating activities	Consolidated	
	2017 \$	2016 \$
Loss for the year	(5,431,673)	(8,754,488)
<i>Adjustments for non-cash items or items for which the cash flows are investing or financing cash flows</i>		
Depreciation	12,124	2,782
Share-based payments and accruals	1,387,301	1,319,894
Fundraising expenses	27,500	–
Forgiveness of Homestake loan	–	(21,933)
Listing expense	–	2,708,757
<i>Changes in operating assets and liabilities:</i>		
Decrease/(increase) in loan receivables	1,161,765	(3,188,956)
Decrease/(increase) in trade and other receivable	42,828	(608,908)
Decrease/(increase) in other assets	5,231	(266,914)
Increase in trade and other payables	1,067	57,680
Increase in provision for employee benefits	54,720	87,225
Net cash flows used in operating activities	(2,739,137)	(8,664,861)

27. EARNINGS PER SHARE

	2017 Cents	2016 Cents
Basic earnings per share	(1.4)	(3.3)
Diluted earnings per share	(1.4)	(3.3)

Weighted average number of shares used as the denominator

	Number of shares	Number of shares
Weighted average number of shares used as the denominator in calculating basic earnings per share	396,015,543	269,026,898
Adjustments for calculation of diluted earnings per share	–	–
Weighted average number of ordinary shares used in calculating dilutive earnings per share	396,015,543	269,026,898

The performance rights on issue have not been considered in the diluted earnings per share as their effect is anti-dilutive.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2017

28. OPERATING SEGMENTS

The Group's business includes two related operating activities constituting one operating segment, which forms the basis of the Group's marketplace lending business. The Group makes unsecured personal loans to approved applicants in sizes ranging from \$5,000 to \$35,000 with loan maturities of three to five years. The Group also conducts activities to sell these loans after they have been settled to institutional investors and to the DirectMoney Personal Loan Fund (the Fund). The Group is the Investment Manager of the Fund.

The information in this report is presented on the same basis as the internal reports provided to the Chief Operating Decision Makers (CODM). The CODM is responsible for the allocation of resources to operating segments and assessing their performance.

29. DIVIDENDS

a) Dividends paid during the year

Ordinary shares

There were no dividends paid during the year (2016: nil).

b) Franking Credits

	2017 \$	2016 \$
Franking credits available for subsequent reporting periods based on a tax rate of 27.5% (2016 – 30%)	1,542,955	1,542,955

The above amounts are calculated from the balance of the franking account as at the end of the reporting period, adjusted for franking credits and debits that will arise from the settlement of liabilities or receivables for income tax and dividends after the end of the year.

30. SHARE BASED PAYMENTS

The share based payment expense of \$1,060,528 is comprised of:

- Performance rights expense of \$166,068, accrued up to 30 June 2017; and
- Funder fee expense totalling \$894,460 paid and accrued during the year.

a) Performance rights

	Notes	2017		2016	
		Number of performance rights	Exercise price	Number of performance rights	Exercise price
Balance at beginning of year		32,175,000	Nil	–	Nil
– granted	(i)	17,500,000	Nil	37,175,000	Nil
– forfeited		(12,500,000)	Nil	(5,000,000)	Nil
– exercised		–	Nil	–	Nil
Balance at end of year		37,175,000	Nil	32,175,000	Nil

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2017

30. SHARE BASED PAYMENTS (continued)

(i) Number of performance rights granted during the year

Number of performance rights granted	Effective grant date	Vesting conditions *		Expiry date	Exercise price
		Earliest vesting determination date	VWAP Share Price condition (\$)		
5,833,333	17 Nov 2016	17 Nov 2016	0.06	17 Nov 2019	Nil
5,833,333	17 Nov 2016	17 Nov 2017	0.12	17 Nov 2019	Nil
5,833,334	17 Nov 2016	17 Nov 2018	0.18	17 Nov 2019	Nil
17,500,000					

* These Performance Rights will automatically vest and exercise for nil consideration on satisfaction of the Vesting Conditions.

The Vesting Conditions for the Performance Rights are:

- 1) The holder being a director/employee of the Company as at the relevant vesting determination dates specified in the table; and
- 2) The relevant volume weighted average price (VWAP) of the Company's ordinary shares is at least the price specified in the table for a period of 10 consecutive trading days.

The total fair value of the performance rights at grant date is \$1,047,580 of which \$166,068 has been recognised as an expense during the year.

The fair value of the performance rights was calculated by an independent advisor using a path-dependent option pricing model, a 2% risk free rate of return and a 40% implied volatility which was based on the historical volatility of suitable reference companies and indexes.

Performance rights granted to key management personnel as share based payments during the year are as follows:

Effective Grant Date	Number
17 Nov 2016	17,500,000

These performance rights were issued as compensation to key management personnel of the Group. Further details are provided in the directors' report.

b) Macquarie bank funder fee

In relation to an agreement entered into between the Company and Macquarie Bank Limited on 19 February 2016, the Company issued \$741,334 of ordinary shares during the year, being 27,155,099 ordinary shares at a price of \$0.0273 per share in payment of Tranche 2 and Tranche 3 funder fees.

The Company also accrued \$153,126 in additional Tranche 2 funder fee expense as at 30 June 2017.

31. FINANCIAL RISK MANAGEMENT

The business of the Group and the industry in which it operates are subject to risk factors both of a general nature and risks which are specific to the industry and/or the Group's business activities.

The potential effect of these risk factors either individually, or in combination, may have an adverse effect on the future financial and operating performance of the Group, its financial position, its prospects and the value of its shares.

The following are the key risks that specifically relate to the Group:

i) Credit risk

As a lending business, the Group is at risk of a larger than expected number of its borrowers failing or becoming unable to repay their loans, particularly for loans which are held on balance sheet as opposed to being funded by a third party. While loans are assessed according to a strict Credit Manual and Credit Risk Policy as well as being targeted at prime retail borrowers (not 'payday' lending customers), the loans may be unsecured and so are subject to the capacity of the individual borrower to repay the loan.

All loan balances are monitored on an ongoing basis for collectability and a provision for doubtful debts is raised when appropriate. Detail of the provisioning policy is provided in Note 1. k).

For personal use only

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2017

The maximum exposure to credit risk by class of recognised financial assets at the end of the reporting period is equivalent to the carrying amount and classification of those financial assets (net of any provisions) as presented in the statement of financial position.

	2017 \$	2016 \$
Loan receivables past due but not impaired		
Less than 30 days	459,805	284,981
31 – 60 days	172,525	29,721
61 – 90 days	–	9,851
Greater than 90 days	17,839	112,261
	650,169	436,814

ii) Inability to recover defaulted loans

If a borrower does not meet their required loan payments and the loan goes into default, the Group may not be able to recover the relevant portion of the value of the loan or the cost of recovery of the loan may be deemed to be greater than the amount potentially recoverable, even if the borrower owns assets such as a house. In this case the loan may be sold (at a loss) to a third party or written off as a bad debt. High levels of bad debts could limit profitability and adversely affect future performance. The Group mitigates this risk by approving loans according to a strict credit criteria. The risk is also mitigated through the use of third party funders for a proportion of loans.

iii) Fraudulent borrowers

There is a general ongoing risk that borrowers may deliberately fabricate evidence to support loan applications and they have no intention of paying off their loan. The Group has procedures in place to detect fraudulent applications and activities, however the risk of fraud cannot be totally removed. The Group has been the subject of a borrower fraud before and these events allowed the Group to learn and adjust procedures to minimise such risk. As far as the Group is aware, there has been no instance of fraudulent loan applications settled within the year ended 30 June 2017.

iv) Personal Loans may be unsecured

The Group's loans may be issued on an unsecured basis. The Group's reputation and financial position could be adversely impacted if the Group's targeted credit performance of its loan book is not met and collections and debt recovery procedures prove less than effective.

v) Costs of acquiring loans

The Group's business model and on-going commercial viability is directly linked to its ability to attract suitable borrowers and increase the volume of loans funded and managed by the Group. The Group has built its existing loan volumes using a mix of direct channel marketing (using search engine marketing and media advertising) and developing relationships with mortgage and finance brokers to introduce loans. The Group has forecasted the future costs of acquiring loans in the desired volumes however these costs are subject to market forces and cannot be predicted with certainty.

vi) Ability to source third party funding and sell loans

The Group's business model and on-going commercial viability is strongly linked to its ability to source sufficient third party funding to enable it to sell its loans and raise the funds to lend to potential borrowers.

The Group seeks to manage this risk by establishing multiple sources of loan buyers. The Group seeks to on-sell loans to the DirectMoney Personal Loan Fund (subject to that fund having sufficient funds available) and to institutional loan buyers.

vii) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash to ensure the ability to meet financial obligations as they fall due. The Group manages liquidity risk by maintaining a cash reserve and continuously monitoring forecast and actual cash flows.

Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2017

31. FINANCIAL RISK MANAGEMENT (continued)

MATURITY ANALYSIS – GROUP

	Within 1 year \$	1 – 5 years \$	Total \$

Total non-derivatives	1,782,851	–	1,782,851
Net financial assets	1,146,624	6,547,018	7,693,642

* The repayment of the notes is linked to the repayment profile of the loans which provide security for the notes. Given the option the Group has to repay these notes prior to their maturity, the notes are shown as being current.

viii) Market risk

a) Price risk

The Group's investment in the DirectMoney Personal Loan Fund (Fund) is exposed to variations in the unit price of the Fund. The unit price may vary subject to the credit performance of the loans held in the Fund. As the Group is the Seller of and Investment Manager of the Fund, the Group has a sound knowledge of the price risk associated with its investment. To date, the unit price has not declined in value.

b) Interest rate risk

The Group has no bank debt, fixed rate or otherwise. The Group earns interest from a portfolio of fixed rate loans held on its balance sheet.

Directors' Declaration

FOR THE YEAR ENDED 30 JUNE 2017

The directors of the Company declare that, in the opinion of the directors:

- (a) the attached financial statements and notes thereto are in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the financial position and performance of the consolidated entity; and
 - (ii) complying with Australian Accounting Standards, including the interpretations, and the *Corporations Regulations 2001*;
- (b) the financial statements and notes thereto also comply with International Financial Reporting Standards, as disclosed in Note 1;
- (c) the directors have been given the declarations required by s.295A of the *Corporations Act 2001*; and
- (d) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable;

Signed in accordance with a resolution of the directors made pursuant to s.295(5) of the *Corporations Act 2001*.

INDEPENDENT AUDITOR'S REPORT

To the members of DirectMoney Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of DirectMoney Limited (the Company) and its subsidiaries (the Group), which comprises the statement of financial position as at 30 June 2017, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial report, including a summary of significant accounting policies and the directors' declaration.

In our opinion the accompanying financial report of the Group, is in accordance with the *Corporations Act 2001*, including:

- (i) Giving a true and fair view of the Group's financial position as at 30 June 2017 and of its financial performance for the year ended on that date; and
- (ii) Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's *APES 110 Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

For personal use only

Independent Auditors Report to the Members of DirectMoney Limited

FOR THE YEAR ENDED 30 JUNE 2017

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Performance rights

<i>Key audit matter</i>	<i>How the matter was addressed in our audit</i>
<p>During the year ended 30 June 2017, the Company granted performance rights to directors which have been accounted for as share-based payments.</p> <p>The calculation of share-based payments is complex and includes assumptions utilised in the fair value calculations and judgements regarding the performance rights issued during the year. There is a risk that amounts are incorrectly recognised and/or inappropriately disclosed in the financial statements and consequently it was considered a key audit matter.</p> <p>Refer to note 1(d) and note 30 of the financial report for a description of the accounting policy and significant estimates and judgements applied to these transactions.</p>	<p>To address this matter, our audit procedures included, amongst others:</p> <ul style="list-style-type: none"> • Reviewing the terms of the DirectMoney Limited Performance Rights Plan; • Evaluating management’s assessment of the likelihood of meeting the performance conditions attached to the performance rights; • Testing management’s methodology for calculating the fair value of the performance rights including assessing the valuation inputs using internal specialists where required; and • Evaluating the adequacy of the disclosures in respect of the accounting treatment of share-based payments in the financial statements, including the judgements involved, and the accounting policy adopted.

For personal use only

Independent Auditors Report to the Members of DirectMoney Limited

FOR THE YEAR ENDED 30 JUNE 2017

Modification to Macquarie Bank Deed

<i>Key audit matter</i>	<i>How the matter was addressed in our audit</i>
<p>Refer to note 20 of the financial report.</p> <p>On 19 February 2016, the Company entered into a Loan Sales and Management Deed ('the Deed') with Macquarie Bank to sell \$5m of their loan book to Macquarie Bank. Under the Deed, the Company was required to pay fees to Macquarie for certain services in five separate tranches over the course of the Deed, to be settled by the issue of shares in the Company.</p> <p>The terms of the Deed were modified during the year ended 30 June 2017, amending Tranches 2 & 3 and removing Tranches 4 & 5.</p> <p>This is a key audit matter due to the higher assessed risk of material misstatement in accounting for the modifications in the Deed.</p>	<p>To address this matter, our audit procedures included, amongst others:</p> <ul style="list-style-type: none"> • Reviewing and understanding the terms and conditions of the Deed and modification of the Deed; • Evaluating the impact of the modification of the Deed on the financial statements; and • Testing the calculations of the expenses and liabilities in line with the Deed.

Other information

The directors are responsible for the other information. The other information comprises the information contained in the Group's annual report for the year ended 30 June 2017, but does not include the financial report and our auditor's report thereon, which we obtained prior to the date of this auditor's report, and the Highlight Report and Chairman's Report, which are expected to be made available to us after that date.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Highlight Report and Chairman's Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the directors and will request that it is corrected. If it is not corrected, we will seek to have the matter appropriately brought to the attention of users for whom our report is prepared.

Responsibilities of the directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the

For personal use only

Independent Auditors Report to the Members of DirectMoney Limited

FOR THE YEAR ENDED 30 JUNE 2017

financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website (<http://www.auasb.gov.au/Home.aspx>) at:

http://www.auasb.gov.au/auditors_responsibilities/ar2.pdf

This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 17 to 26 of the directors' report for the year ended 30 June 2017.

In our opinion, the Remuneration Report of DirectMoney Limited, for the year ended 30 June 2017, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
