On 27 July 2017, Ms Sarah Harvey was appointed as Non-Executive Director of the Company and the Chair of the Audit Committee.

The loss of the Group for the half-year after providing for income tax amounted to $904,842 (2016: $797,578).

The net asset position of the Group has increased from $28,825,022 at 30 June 2017 to $29,498,567 at 31 December 2017.

Fiji Exploration Developments

Projects

Dome, through its wholly owned Fijian subsidiaries, Dome Mines Ltd and Magma Mines Ltd holds 100% of three Special Prospecting Licences (SPL) in Fiji, namely, SPL1495 (Sigatoka Ironsand Project), SPL1451 (Ono Island Project) and SPL1452 (Nadrau Project).

Directors' Report

Sigatoka Ironsand Project

The drilling of a total of 68 sonic drill holes has been completed on Koroua Island on SPL1495. Fifty-two of the 68 drill holes have been completed on a 100m x 200m grid while on section line 3871200N holes were drilled at 50m intervals (see ASX announcement dated 30 January 2018). Further drilling is planned to continue this year.

Preliminary analytical results have been reported for 8 of 10 batches of the sonic core samples submitted to the laboratory (748 x 2m samples). HM content (in-ground) is high and ranges from 3.1% to 47.3% and averages 13.3%. Laboratory work will continue on the remaining samples and the HM concentrate from all the samples will be further analysed for their magnetite content.

The objective of this drill program is to sample parts of the magnetite bearing sand deposit not drilled in previous programs and based on the data collected will be used to update the initial JORC 2012 resource estimates initially published in an ASX release dated 10 October 2014. The program is being conducted in advance of a definitive feasibility study (DFS) planned to commence this year.

The renewal of SPL1495 for a 3-year period was granted by the Mineral Resources Department on 13 July 2015.

Ono Island Project

Preparations are advanced to undertake an exploration diamond drilling program on two prospects (Naqara East and Naqara West). Pre-mobilisation construction of accommodation, messing and drill core management infrastructure was completed during the half-year, and logistics such as shipping services for delivery of drilling and support equipment and fuel and other supplies were identified (see ASX release dated 31 October 2017).

As previously announced by Dome, the targeting of drill holes on Ono is based on the combined results of ionic leach soil sampling, geological and alteration mapping and an Induced Polarisation geophysical survey. Diamond drilling will produce HQ size core samples that will be analysed for gold, silver and other metals. The program is planned to continue for a minimum of five holes with selection of the later hole locations selected based on the results from the first drilling phase.

The renewal of SPL1451 for a 3-year period was granted by the Mineral Resources Department from 13 February 2017.

Nadrau Project

Quotes were obtained to undertake three dimensional Induced Polarisation and magnetometer surveys over the Namoli and Wainivau Prospects. The objective of this work is to provide subsurface data on the intrusive systems whose interpretation will assist with targeting of exploration diamond drill holes.

The renewal of SPL1452 for a 2-year period was granted by the Mineral Resources Department from 13 February 2017.

NO MATERIAL CHANGES STATEMENT

Dome Gold Mines Ltd confirms that it is not aware of any new information or data that would materially affect the information included in the market announcements and that all material assumptions and technical parameters in the market announcements continue to apply and have not materially changed.

The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements.

Directors’ Report

COMPETENT PERSON STATEMENT

The information in this Half-Yearly Report that relates to Exploration Results is based on information compiled by John V McCarthy, who is the Chief Executive Officer of the Company. Mr McCarthy is a geologist who is a Member of the Australasian Institute of Mining and Metallurgy and has sufficient experience which is relevant to the style of mineralisation and type of deposits under consideration and to the activities which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the ‘Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves’. Mr McCarthy, through his family Superfund, holds shares in the Company. He consents to the inclusion in this Annual Report of the matters based on his information in the form and context in which it appears.

SUBSEQUENT EVENTS

- On 3 January 2018 the Company completed a placement of 3,000,000 fully paid ordinary shares at $0.20 per share to raise $600,000 and granted 3,300,000 unlisted options exercisable at $0.20 expiring on 3 January 2020.
- On 22 January 2018 the Company completed a placement of 4,377,489 fully paid ordinary shares at $0.20 per share to raise $875,498 and granted 4,465,566 unlisted options exercisable at $0.20 expiring on 22 January 2020.
- On 20 February 2018 the Company completed a placement of 561,990 fully paid ordinary shares at $0.20 per share to raise $112,398 and granted 162,398 unlisted options exercisable at $0.20 expiring on 20 February 2020.
- Preparations of an exploration diamond drilling program are advanced with pre-mobilisation of the advance team taking place in mid-February 2018 and the drilling equipment and team to Ono Island in early March 2018. Dome has engaged senior geologist Matthew White to manage the drilling program (see ASX release dated 30 January 2018).

No other matters or circumstances have arisen since the end of the financial period which significantly affected or may significantly affect the operations of the Company, the results of those operations, or the state of affairs of the Company in future financial years.

AUDITOR’S INDEPENDENCE DECLARTION UNDER SECTION 307C OF THE CORPORATIONS ACT 2001

The auditor’s independence declaration is set out on page 4 as required under section 307C of the Corporations Act 2001 and forms part of this Directors’ Report.

Notes to the Condensed Interim Consolidated Financial Statements

1 BASIS OF PREPARATION

The condensed interim consolidated financial statements of the Group are for the six months ended 31 December 2017 and are presented in Australian dollar ($), which is the functional currency of the parent company. These general purpose interim financial statements have been prepared in accordance with the requirements of the Corporations Act 2001 and AASB 134 Interim Financial Reporting. They do not include all of the information required in annual financial statements in accordance with Australian Accounting Standards, and should be read in conjunction with the consolidated financial statements of the Group for the year ended 30 June 2017 and any public announcements made by the Group during the half-year in accordance with continuous disclosure requirements arising under the Australian Stock Exchange Listing Rules and the Corporations Act 2001.

The interim financial statements have been approved and authorised for issue by the board of directors on 8 March 2018.

Going concern

The consolidated financial statements have been prepared on a going concern basis which contemplates the realisation of assets and settlement of liabilities in the ordinary course of business.

For the 6 months to 31 December 2017, the Group has incurred a trading loss of $904,842 (2016: $797,578), used $1,185,687 (2016: $1,131,430) of net cash in operations including payments for exploration for the half year ended 31 December 2017, and had a cash balance of $1,621,937 as at 31 December 2017. These conditions give rise to a material uncertainty that may cast significant doubt upon the Group's ability to continue as a going concern. The ongoing operation of the Group is dependent upon:

- the Group raising additional funding from shareholders or other parties; and/or
- the Group reducing expenditure in-line with available funding.

The Directors have prepared cash flow projections that support the ability of the Group to continue as a going concern. These cash flow projections assume the Group obtains sufficient additional funding from shareholders or other parties. If such funding is not achieved, the Group plans to reduce expenditures significantly.

In the event that the Group does not obtain additional funding and/or reduce expenditure in-line with available funding, it may not be able to continue its operations as a going concern and therefore may not be able to realise its assets and extinguish its liabilities in the ordinary course of operations and at the amounts stated in the financial report.

2 SIGNIFICANT ACCOUNTING POLICIES

The interim financial statements have been prepared in accordance with the same accounting policies adopted in the Group’s last annual financial statements for the year ended 30 June 2017, except for the share-based employee remuneration policy stated below which was not applicable in the Group’s last annual financial statements.

The accounting policies have been applied consistently throughout the Group for the purposes of preparation of these interim financial statements.

Notes to the Condensed Interim Consolidated Financial Statements

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.1 Share-based employee remuneration

The Group operates equity-settled share-based remuneration plans for its employees. None of the Group's plans feature any options for a cash settlement.

All goods and services received in exchange for the grant of any share-based payment are measured at their fair values. Where employees are rewarded using share-based payments, the fair values of employees' services are determined indirectly by reference to the fair value of the equity instruments granted. This fair value is appraised at the grant date and excludes the impact of non-market vesting conditions (for example profitability and sales growth targets and performance conditions).

All share-based remuneration is ultimately recognised as an expense in profit or loss with a corresponding credit to share option reserve. If vesting periods or other vesting conditions apply, the expense is allocated over the vesting period, based on the best available estimate of the number of share options expected to vest.

Non-market vesting conditions are included in assumptions about the number of options that are expected to become exercisable. Estimates are subsequently revised if there is any indication that the number of share options expected to vest differs from previous estimates. Any cumulative adjustment prior to vesting is recognised in the current period. No adjustment is made to any expense recognised in prior periods if share options ultimately exercised are different to that estimated on vesting.

Upon exercise of share options, the proceeds received net of any directly attributable transaction costs are allocated to share capital.

3 SEGMENT REPORTING

Segment information is presented in respect of the Group's management and internal reporting structure.

Transactions with business segments are determined on an arm's length basis.

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly income earning assets and revenue, interest bearing loans, borrowings and expenses, and corporate assets and expenses.

Business segments

For the half-year year ended 31 December 2017 the Group principally operated in Fiji in the mineral exploration sector.

During the period to 31 December 2017 management has re-assessed how financial information is presented to the chief operating decision makers. This re-assessment is reflective of the progress being made in exploration activity and the need to distinguish between the Group's ironsand and gold projects. The Group now has two reportable segments, as described below. Comparative financial information has been restated to reflect this change.

Independent Auditor's Review Report to the Members of Dome Gold Mines Ltd

Report on the Half-Year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of Dome Gold Mines Ltd (the Company) and it's controlled entities (the Group) which comprises the consolidated statement of financial position as at 31 December 2017, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year then ended, a description of accounting policies, other selected explanatory notes, and the directors' declaration.

Based on our review, which is not an audit, nothing has come to our attention that causes us to believe that the half-year financial report of International Base Metals Limited does not give a true and fair view of the financial position of the Group as at 31 December 2017, and of its financial performance and its cash flows for the half-year ended on that date, in accordance with the Corporations Act 2001, including complying with Accounting Standard AASB 134 Interim Financial reporting.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 in the financial statements, which indicates that the Group incurred a net loss of $904,842 during the half-year ended 31 December 2017, and had net cash outflows from operating activities of $1,185,687 and had a cash balance of $1,621,937. As stated in Note 1, these events or conditions, along with other matters as set forth in Note 1, indicate that a material uncertainty exists that may cast doubt on the Group's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Directors' Responsibility for the Half-Year Financial Report

The Directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including giving a true and fair view of the consolidated entity's financial position as at 31 December 2017 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting and the Corporations Regulations 2001*. As the auditor of International Base Metals Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001.*
