Australian Masters Yield Fund No 4 Limited
(ACN 149 790 563)
Explanatory Memorandum

This Explanatory Memorandum relates to the General Meeting of Australian Masters Yield Fund No 4 Limited (**Company**) to be held at **Level 15, 100 Pacific Highway, North Sydney NSW 2060** on **Friday, 20 September 2019 at 12:00pm (AEST)**.

Resolution 1 – Final Return of Capital

Resolution 1 authorises the Company to undertake reductions of capital to return up to a maximum of \$20,493,947 to Shareholders (**Final Capital Return**). Cash to fund the Final Capital Return will be drawn from the sale of debt instruments and any residual capital held within the Company's portfolio (**Debt Instruments**).

Resolution 1

Resolution 1 seeks Shareholder approval pursuant to Section 256C(1) of the Corporations Act for a capital reduction and return to Shareholders of up to a maximum of \$20,493,947. This will represent a return of approximately \$20.58 per Share (based on the capital structure as at the date of this Explanatory Memorandum). This represents the portion of redemption monies received on sale of the Debt Instruments between April and July 2019 that reflects the consideration paid to acquire those Debt Instruments and capital retained by the Company for operating purposes, that are now surplus to forecast requirements.

For the purposes of the Corporations Act, the proposed Final Capital Return will be treated as an "equal" reduction of capital and requires approval by ordinary resolution of Shareholders in general meeting.

Reasons for the Final Capital Return

From 8 April 2019 to 31 July 2019, the Company's remaining debt securities, issued by Lend Lease Finance Limited and Sydney Airport Finance Corporation (together **Bonds**) were sold.

The total consideration paid to purchase the Bonds was \$20,002,459. A summary of the Company's Bond positions prior to their sale is set out in the following table:

| Issuer | Type | Coupon | Maturity | Consideration Paid |
|------------------------------------|----------------------|---------------|-----------------|---------------------------|
| Lend Lease Finance Limited | Senior bond | 6.0% | 13/5/2020 | \$12,487,625 |
| Sydney Airport Finance Corporation | Capital Indexed bond | 3.76% | 20/11/2020 | \$7,514,834 |
| Total | | | | \$20,002,459 |

The Company has historically held a portion of Shareholders' capital in cash, for working capital purposes. As the Company has completed the sale of the remaining Bonds, the Company's requirement for working capital has declined. As a result, the Board is also seeking approval to return this capital of up to \$491,488.

Consistent with disclosures in the Information Memorandum and Prospectus, it is proposed that up to a maximum of \$20,493,947, being the consideration paid to acquire the Bonds (\$20,002,459) and capital retained by the Company for operating purposes (\$491,488) will be paid from the proceeds of sale and cash reserves to Shareholders by way of a return of capital.

On a per share basis the Company has made reductions of capital of \$78.13 since the initial public offer. The proposed maximum reduction of capital of \$20.58 per share represents the remaining balance of Shareholder capital that is available to be returned to Shareholders.

The precise amount to be returned to Shareholders under the Final Capital Return cannot be specified at this time as:

1. The Corporations Act provides that a capital return may only be undertaken with the prior approval of Shareholders if the return:
 - (a) is fair and reasonable to Shareholders of the Company as a whole; and
 - (b) the return does not materially prejudice the ability of the Company to pay its creditors.
2. The funds may be required to meet ongoing costs of the Company. These costs may include tax payable on interest or capital gains received in respect of the Debt Instruments as well as ongoing management fees and operating costs. While the Board has estimated the likely funds required to meet the remaining operating costs of the Company and to undertake the wind up of the Company, further costs may subsequently be identified.

Accordingly, the amount set out in Resolution 1 represents the maximum amount that the Company may return to Shareholders under the Final Capital Return. The Company intends to return as much of the cash authorised to be returned under Resolution 1 as possible, having regard to the above constraints.

The Board proposes to announce the amount to be returned to Shareholders under the Final Capital Return no later than 5 business days prior to the Final Record Date.

Payment of dividend

The Directors anticipate that interest income, together with the profit realised on sale of the Debt Instruments, net of taxes and expenses, will be distributed to Shareholders by way of dividend. The Corporations Act states that dividends need not be paid out of profits of the Company. It is anticipated that the dividend payment will be made prior to, or around the time of the anticipated capital return.

Who will participate in the Final Capital Return

Subject to Shareholder approval, the distribution of the Final Capital Return will be made to Shareholders, pro rata to the number of Shares held by each Shareholder at the Final Record Date. The ex-Date of this return is 25 September 2019 and it is intended to be paid on or around 2 October 2019.

If the Final Capital Return is not approved, the excess cash will be retained by the Company or utilised as the Board considers appropriate.

Tax treatment of the Final Capital Return

The following is a broad outline of the tax consequences for Shareholders associated with the Final Capital Return. This outline is not exhaustive of all possible income tax considerations that could apply to a particular Shareholder.

All Shareholders should consult their own independent professional tax advisers regarding the tax consequences of the Final Capital Return. There are a number of limitations to the outline including that:

1. it applies only to Shareholders who are Australian residents for income tax purposes. It does not cover the tax treatment for any other classes of taxpayers including individuals who are non-residents of Australia for tax purposes, insurance organisations, superannuation funds, trusts or employees of the Company who acquired their Shares in respect of their employment;

2. it applies only where Shareholders hold their Shares on capital account. It does not apply where the Shares are held on revenue account (e.g. Shares held by Shareholders who trade in securities or hold Shares as trading stock); and
3. it is based on Australian tax law in effect at the date of this Explanatory Memorandum. It does not consider or anticipate any changes in the law (including changes to legislation, judicial authority or administrative practice).

The Company intends to structure the proposed Final Capital Return so that it is treated as a return of capital, and not as a dividend, for income tax purposes. As discussed above, the proposed Final Capital Return consists of the consideration paid to acquire the Bonds and capital retained by the Company for operating purposes. The Company intends to pay a final dividend distributing retained profits to Shareholders prior to or at the same time as it affects the Final Capital Return.

Shareholders may be liable to pay capital gains tax (**CGT**) in relation to the Final Capital Return, however this will depend on Shareholders' individual circumstances. An outline of the potential CGT consequences for Shareholders is as follows:

1. if the amount of the Final Capital Return is less than or equal to the Shareholder's CGT cost base of the Shares they hold, the CGT cost base will be reduced by the amount of the Final Capital Return, but it cannot be reduced below nil;
2. if the Final Capital Return is more than the Shareholder's CGT cost base, the CGT cost base will be reduced to nil, and the excess amount of the Final Capital Return will be included in the Shareholder's taxable income calculation as a capital gain; and
3. if applicable, any capital gain can be treated as a discount capital gain where the Shares were purchased by the Shareholder at least 12 months prior to the payment of the Final Capital Return, and the other requirements of the discount capital gains provisions have been satisfied.

The Company and its advisers do not accept any liability or responsibility in respect of any statement concerning the taxation consequences of the Final Capital Return or in respect of the taxation consequences themselves.

Effect on the Company

As at the date of this Notice, the Company had 995,896 Shares on issue. After the proposed Final Capital Return, the number of Shares on issue will remain the same but the capital of the Company will be reduced by the amount of the Final Capital Return.

The anticipated effect of the Final Capital Return on the Company is illustrated in the unaudited Pro Forma Statement of Financial Position summarised below. The unaudited Pro Forma Statement of Financial Position is based on the auditor-reviewed Statement of Financial Position for the Company as at 31 December 2018.

This table is not a Pro Forma Statement of Financial Position prepared in accordance with the Corporations Act, the Corporations Regulations, Accounting Standards or any other mandatory financial reporting requirements in Australia. It is provided only to illustrate the anticipated impact on the Company's balance sheet at completion of the Final Capital Return. The specific assumptions taken in preparing the tables are set out in the notes below the tables.

1. The column headed "Statement of Financial Position at 31 December 2018" is based on the auditor-reviewed Statement of Financial Position of the Company as at 31 December 2018.
2. The column headed "Unaudited Pro forma Statement of Financial Position - Final Capital Return" is based on column 1 and has been prepared as if the Final Capital Return of \$20,493,947, subject to a Shareholder vote at the September 2019 General Meeting had been completed as at 31 December 2018.
3. All amounts assume that there are 995,896 Shares on issue being the number on issue on 31 December 2018.
4. The above table does not take into account future dividends. Future dividends will distribute the interest paid on the underlying Debt Instruments and any profits made on Debt Instruments purchased at a discount less any expenses and taxes of the Company.
5. The above assumes that the Company had paid transaction costs associated with the Final Capital Return of approximately \$3,000 on 31 December 2018 relating to legal and tax advice, and registry fees.

Under the Management Agreement, the Company pays a management fee of the equivalent of 0.65% (inclusive of GST) per annum of the value of its portfolio. This fee is payable in advance and calculated on the basis of the value of the Company's Portfolio on 30 June each year.

As the management fee for the financial year ending 30 June 2020 is payable in advance, the Final Capital Return will have no effect on the management fee payable by the Company in respect of the financial year ending 30 June 2020.

Trading in Shares

Shares were issued under the Prospectus at an issue price of \$100.00 per Share. Official quotation of the Shares on the ASX commenced on 31 October 2013. The highest and lowest prices at which the Shares have traded on the ASX between 31 October 2013 and 12 August 2019 were \$101.13 (7 November 2013) and \$17.51 (5 May 2019) respectively. A total of 218,741 Shares have traded on the ASX in this period representing turnover of approximately 4.2% of the Company's total Shares outstanding on an annualised basis. The Company publishes net tangible asset backing of the Shares on a monthly basis to assist Shareholders in valuing their investment. Between these dates, approximately \$77.8 million of capital has been returned representing \$78.13 per Share.

Alternative return structures

The Directors consider the use of a capital return to be the most appropriate mechanism to return surplus capital to members for the following reasons:

- (a) the capital return procedure was initially outlined to potential investors in the Prospectus and it was confirmed in the Information Memorandum. The Directors consider that Shareholders will have invested in the Company on the understanding that a series of capital returns would be proposed in the manner outlined in this Notice and Explanatory Memorandum;
- (b) the combination of the Final Capital Return and payment of a dividend provides the Company with the opportunity to make available the benefits of franking credits on dividends generated from the operations of the Company to the extent that they are available without adding to the income tax liability of Australian resident shareholders receiving further cash from the Company.

Why you might vote against the Final Capital Return

The Directors unanimously recommend that Shareholders vote in favour of the Final Capital Return. However, some reasons why a Shareholder may choose to vote against Resolution 1 approving the Final Capital Return include the following:

- (a) a Shareholder may consider that the Company is more likely to generate a better financial return through reinvestment of funds realised on maturity of Debt Instruments than through direct investment by the Shareholder; and
- (b) Shareholders who are not Australian residents for tax purposes may not be able to take advantage of the franking credits to be provided by way of dividend or the benefit in the reduction in the CGT cost base resulting from the Final Capital Return.

Recommendation of Directors

The Directors are of the opinion that the proposed Final Capital Return is fair and reasonable to Shareholders as a whole and does not materially prejudice the Company's ability to pay its creditors. Accordingly, the Directors unanimously recommend that Shareholders vote in favour of Resolution 1.

No Director will receive any payment or benefit of any kind as a consequence of the Final Capital Return other than as a Shareholder of the Company.

Other material information

Other than in this Explanatory Memorandum, there is no other information known to the Company that is material to the decision whether or not to vote in favour of Resolution 1 which has not previously been disclosed to Shareholders.

Pursuant to Section 256C(5) of the Corporations Act, copies of this Notice and Explanatory Memorandum have been lodged with the Australian Securities and Investments Commission.
