SECTION 12 REGISTRATION, NOVATION, NETTING AND SETTLEMENT

This Section deals with the novation, netting and settlement of transactions.

Market Transactions are either Cash Market Transactions or Derivatives Market Transactions. A Derivatives Market Transaction may be an Option Market Transaction. A Derivatives Market Transaction comprises the number of Derivatives Market Contracts entered into on the market of an Approved Market Operator, or over the counter in the case of OTC Options Market Transactions. Market Transactions are notified to ASX Clear by an Approved Market Operator, or by the relevant Participant in the case of OTC Options Market Transactions, and will either be accepted by ASX Clear for registration or accepted for reporting but not registration. In the case of Derivatives Market Transactions, ASX Clear will register each of the Derivatives Market Contracts (Options Market Contracts or OTC Options Market Transactions) comprising the Derivatives Market Transaction.

If a Market Transaction is accepted by ASX Clear for registration and meets the requirements for novation set out in Rule 12.2.1, it will be novated to ASX Clear. Once novated, a Cash Market Transaction is discharged and replaced with two Cash CCP Transactions, a Derivatives Market Contract is discharged and replaced with two Derivatives CCP Contracts and an Options Market Contract is discharged and replaced with two Options CCP Contracts.

Cash CCP Transactions and Derivatives CCP Contracts may then be subject to set off and the netting of delivery obligations and payment obligations. In general terms, in relation to a Cash CCP Transaction both Participants together may, prior to netting and set off, choose to take a transaction out of the Clearing Facility and settle it directly or in an Alternative Settlement Facility. ASX Clear also has power, in certain circumstances to remove a transaction.

Once ASX Clear has calculated net delivery and net payment obligations of Participants for Cash CCP Transactions it will then notify the Approved Settlement Facility of:

- (a) those net delivery and net payment obligations which have been set off and netted by way of a CCP Net Batch Instruction; and
- (b) those delivery and payment obligations which have been novated but not netted by way of a CCP Gross Batch Instruction or CCP RTGS Instruction.

If a Market Transaction is accepted by ASX Clear for reporting but not registration, ASX Clear will notify the reported transaction to the Approved Settlement Facility and ASX Clear has no other obligation or responsibility for the Market Transaction.

In addition to dealing with the above matters, this section deals with:

- (c) when Market Transactions are novated to ASX Clear;
- (d) the effect of novation;

- (e) the circumstances in which a Cash Market Transaction may be excluded from novation and the consequences of so excluding it;
- (f) the circumstances in which a Cash CCP Transaction may be removed from novation and excluded from netting and the consequences of so doing;
- (g) the circumstances in which a Participant may remove and settle transactions by Real Time Gross Settlement;
- (h) what is to happen if there is a payment or delivery failure in the case of Cash CCP Transactions or a payment failure in respect of Derivatives CCP Contracts;
- (i) the circumstances in which a Participant may choose to isolate counterparty in respect of Cash CCP Transactions;
- (j) the discharge of payment and delivery obligations;
- (k) a Participant's obligation to report positions in relation to Derivatives CCP Contracts to ASX Clear;
- (l) the giving of trading and clearing information in relation to Derivatives Market Contracts and Derivatives CCP Contracts by ASX Clear to Participants, the Participant's obligation to check that information and report any errors to ASX Clear;
- (m) the correction of errors by ASX Clear; and
- (n) the cancellation and amendment of Derivatives Market Contracts.

This section also deals with the Offsetting Transaction Arrangements which will apply between ASX Clear and Participants for failed CCP Batch Instructions notified by the Approved Settlement Facility in order to facilitate the settlement (rather than rescheduling) of those instructions for the purposes of Sub-standard 7.9 of the Financial Stability Standards for Central Counterparties. Delivery and payment obligations under such Offsetting Transaction Arrangements are to be dealt with on the same basis as delivery and payment obligations under other Cash CCP Transactions and be subject to set-off against those obligations.
