Rule Number	1.1 condition 12
Date	13/06/2018
ASX Code	VN8
Listed Company	VONEX LIMITED..
Waiver Number	WLC180147-001
Decision	<p>1. Based solely on the information provided, ASX Limited ("ASX") grants Vonex Limited (the "Company") a waiver from listing rule 1.1 condition 12, to the extent necessary for the Company to have on issue 27,610,000 performance rights ("Performance Rights"), for nil consideration to directors, employees and an independent supplier on condition that the material terms and conditions of the Performance Rights are clearly disclosed in the Prospectus.</p>
Basis For Decision	<p>Underlying Policy If an entity seeking admission to the official list has options or performance rights on issue, the exercise price for each underlying security must be at least 20 cents in cash. This rule supports listing rule 2.1 condition 2 which requires the issue price or sale price of all the securities for which an entity is seeking quotation (except options) upon admission to the official list to be at least 20 cents in cash. These requirements together support the integrity of the ASX market, as they demonstrate that the entity's ordinary securities have a minimum value suitable for a listed entity.</p> <p>Present Application The Company has applied for admission to the official list of ASX. The Company is proposing to have on issue 27,610,000 unquoted, non-voting, non-participating and non-transferable Performance Rights to directors, employees and an independent supplier for nil consideration. The Performance Rights would represent approximately 18.71% on minimum and 18.09% on maximum of the undiluted issued capital and 13.02% on minimum and 12.5% on maximum of the fully diluted issued capital of the Company at the time of listing. Some of the terms of the Performance Rights are disclosed in the prospectus. The full terms and conditions that comply with the Listing Rules is required by way of pre-quotation disclosure. Of the Performance Rights on issue, 22,760,000 will be escrowed in accordance with Appendix 9B with 4,850,000 having no escrow applicable. The Performance Rights will convert into ordinary shares in the Company on a one-for-one basis on the achievement of certain milestones. In the event that the conditions relevant to the Performance Right are not satisfied by the relevant vesting date then the Performance Right will automatically lapse. Accordingly, it is proposed to grant the waiver as the issue of the Performance Rights does not undermine the 20 cent rule.</p>

Based solely on the information provided, ASX Limited ("ASX") grants Myanmar Metals Limited (the "Company") a waiver from listing rule 6.18 to the extent necessary to permit Perilya Limited ("Perilya") to maintain, by way of a right to participate in any offer of securities by the Company such that Perilya's percentage holding immediately before the completion of the offer of equity securities remains the same immediately following the equity offer (the "Anti-Dilution Right"), on the following conditions:</p> <p>1.1. The Anti-Dilution Right lapses on the earlier of:</p> <p>1.1.1. ("Subscription Agreement") with Perilya. Under the Subscription Agreement, Perilya will participate in a Placement by providing a deposit of approximately \$14.9 million to be held in escrow which will become available to the Company for drawdown and the Company will issue Perilya ordinary shares in the Company at an issue price of \$0.06 per share. Subject to the conditions of the Subscription Agreement, Perilya will hold a 19.99% shareholding in the Company. Through the Alliance Agreement, the creation of a strategic relationship will allow the Company to benefit from Perilya's technical and strategic expertise and financial capacity. This includes provisions for the Company to gain technical assistance, future financial support and assistance with procurement, processing and metals marketing from Perilya. ASX's policy permits listed entities to enter into agreements of this nature with shareholders with whom the entity has a strategic relationship, provided that the shareholder pays the same price as other offerees in an issue of securities. The strategic relationship must encompass more than the investor simply being a major shareholder or source of equity capital. The nature of the relationship between the listed entity and the shareholder in this case is consistent with this policy. The Anti-Dilution Right cannot be transferred outside the corporate group of Perilya. The waiver is granted to permit the Anti-Dilution Right while the strategic relationship continues.

Present Application

The Company has entered into an agreement with 3C Group pursuant to which 3C Group agrees to provide the Company with technical expertise and funding to develop the Company's activities ("Strategic Cooperation Agreement"). Pursuant to the Strategic Cooperation Agreement, as long as 3C Group holds not less than 7.5% it will have the right to nominate and maintain a director on the board of the Company. The Anti-Dilution Right allows 3C Group to participate in future placements of securities on equal terms with other parties to whom securities are offered to the extent necessary for 3C Group to maintain its percentage shareholding. ASX's policy permits listed entities to enter into agreements of this nature with shareholders with whom the entity has a strategic relationship, provided that the shareholder pays the same price as other offerees in an issue of securities. The strategic relationship must encompass more than the investor simply being a major shareholder or source of equity capital. The nature of the relationship between the listed entity and the shareholder in this case is consistent with this policy. The Anti-Dilution Right also lapses if the strategic relationship with 3C Group ceases or its interest in the Company falls below 5% or exceeds 25%.

Register of ASX Listing Rule Waivers

Basis For Decision	
	<p>Underlying Policy Listing rule 7.1 protects a listed entity's security holders against dilution of their voting and economic interests in the listed entity by imposing a limit on the number of equity securities that may be issued by the entity without prior security holder approval. This limit is not applicable if security holders' approve the issue of the securities at a general meeting. Listing rule 7.3 sets out the information required to be included in the notice of meeting seeking approval for the issue of the securities. In particular, listing rule 7.3.2 requires the date by which the entity will issue the securities and this date must be no later than 3 months after the date of the meeting, or, for court approved reorganisations of capital, no later than 3 months after the date of the court approval. This rule ensures that an issue of securities that has been approved by security holders is made within a reasonable timeframe following the approval, so that it is less likely that the circumstances in which the issue is made will have changed materially from those prevailing at the time the approval was given.</p>
	<p>Present Application Where a listed entity has entered into a transaction which calls for the issue of securities as deferred consideration at future times that necessarily will fall longer than 3 months after the date of a shareholders' meeting, ASX's policy is to permit entities to seek shareholder approval for the issue of all the securities that may be issued under that transaction over the various phases, provided that the milestones to be achieved which trigger the obligation to issue the securities are appropriate to the entity and the transaction in all the circumstances, and adequate information can be given to shareholders about the future issues of securities. This allows the entity and the counterparty to the agreement to have commercial certainty about the ability of the entity to issue each tranche of securities as the counterparty performs its obligations, while maintaining the principle that shareholders must give their informed consent to future issues of securities.</p> <p>The Company has entered into a conditional sale and purchase agreement ("Sale and Purchase Agreement") to acquire 100% of Mt Roe Mining Pty Ltd ("Mt Roe") which has entered into a tenement acquisition agreement to acquire two exploration licence applications. Mt Roe Mining has also agreed to acquire Blue Ribbon Mines Pilbara which has made an exploration licence application for another tenement. Part of the consideration for the acquisition comprises the Exploration Licence Securities, the issue of which have been deferred until the tenement licence applications have been granted and will be issued no later than 31 July 2019.</p> <p>The maximum number of shares and options to be issued is fixed therefore the degree of dilution is known. On that basis, shareholders are able to give their informed consent to the issue of the Exploration Licence Securities. The extension of time requested by the Company is approximately 10 months beyond the ordinary three month limit for listing rule 7.1 approvals and is within ASX precedent for similar waivers. The waiver is granted on condition that the Exploration Licence Securities are issued no later than 31 July 2019 and the terms of the waiver are released at the same time the notice of meeting is released to the market.</p>

Basis For Decision	<p>Underlying Policy</p> <p>Listing rule 7.1 protects a listed entity's security holders against dilution of their voting and economic interests in the listed entity by imposing a limit on the number of equity securities that may be issued by the entity without prior security holder approval. This limit is not applicable if security holders' approve the issue of the securities at a general meeting. Listing rule 7.3 sets out the information required to be included in the notice of meeting seeking approval for the issue of the securities. In particular, listing rule 7.3.2 requires the date by which the entity will issue the securities and this date must be no later than 3 months after the date of the meeting, or, for court approved reorganisations of capital, no later than 3 months after the date of the court approval. This rule ensures that an issue of securities that has been approved by security holders is made within a reasonable timeframe following the approval, so that it is less likely that the circumstances in which the issue is made will have changed materially from those prevailing at the time the approval was given.</p>

Register of ASX Listing Rule Waivers

Present Application

Listing rule 7.3.2 requires a notice of meeting with a resolution to approve the issue of equity securities to state that the securities will be issued within 3 months of the date of the shareholders' meeting. Listing rule 7.3.2 ensures that an issue of equity securities is made within a reasonably short time after the ordinary security holders approve the issue, so that there is less possibility that the circumstances of the entity may change by the time that the issue is made in such a way that they are different from those that the ordinary security holders may reasonably have had in contemplation at the time of giving their approval.

Where a listed entity has entered into a transaction which calls for the issue of securities as deferred consideration in tranches at future times that necessarily will fall longer than 3 months after the date of a shareholders' meeting, ASX's policy is to permit entities to seek shareholder approval for the issue of all the securities that may be issued under that transaction over the various phases, provided that the milestones to be achieved which trigger the obligation to issue the securities are appropriate to the entity and the transaction in all the circumstances, and adequate information can be given to shareholders about the future issues of securities. This allows the entity and the counterparty to the agreement to have commercial certainty about the ability of the entity to issue each tranche of securities as the counterparty performs its obligations, while maintaining the principle that shareholders must give their informed consent to future issues of securities.

The Company and Sing Rim have entered into a funding agreement pursuant to which the Company will receive funds from Sing Rim upon meeting certain conditions precedent set out in the Facility Agreement. The Company will issue convertible notes to Sing Rim upon receipt of an instalment payment with a face value equal to the amount of the relevant instalment. The Company is seeking approval to issue the Convertible Notes, as well as the issue of Interest Shares within 18 months of the date of the meeting, and in any event no later than 23 January 2020. The maximum number of shares that could be issued by the Company on conversion of the Convertible Notes and any Interest Shares is fixed and the maximum degree of dilution is known, which will be disclosed in the notice of meeting seeking shareholder approval. It is appropriate to allow shareholders to be able to give their informed consent to the issue of the Convertible Notes and Interest Shares over the relevant period.

ASX Code	VMC
Listed Company	VENUS METALS CORPORATION LIMITED
Waiver Number	WLC180146-001
Decision	<p>1. Based solely on the information provided, ASX Limited ("ASX") grants Venus Metals Corporation Limited (the "Company") a waiver from Listing Rule 7.3.2 to the extent necessary to permit the notice of meeting (the "Notice") seeking shareholder approval for the issue of fully paid ordinary shares with a total value of \$3,000,000 at an issue price of not less than \$0.15 per share and not more than \$0.20 per share (the "Option Shares") pursuant to the agreement to acquire an option to purchase all of the issued shares in Oz Youanmi Gold Pty Ltd ("OYZ"), not to state that the Option Shares will be issued no later than three months after the date of the general meeting.</p> <p>2. Resolution 1 is subject to the following conditions:</p> <p>2.1. the Company issues the Option Shares no later than 31 December 2018 (in the event that the Company elects to exercise the relevant option);</p> <p>2.2. for any annual reporting period during which the Option Shares have been issued or remain to be issued, the Company's annual report provides a detailed update regarding the Company's decision to issue, or not issue, the Option Shares;</p> <p>2.3. for any half yearly or quarterly reporting period during which the Option Shares have been issued or remain to be issued, the Company's relevant half year report or quarterly report provides a detailed update regarding the Company's decision to issue, or not issue, the Option Shares;</p> <p>2.4. the Company releases the terms of the waiver to the market immediately; and</p> <p>2.5. the Notice contains the full terms and conditions on which the Option Shares are proposed to be issued.</p>

the issue of securities as deferred consideration at future times that necessarily will fall longer than three months after the date of a shareholders' meeting, ASX's policy is to permit entities to seek shareholder approval for the issue of all the securities that may be issued under that transaction over the various phases (where applicable), provided that the milestones to be achieved which trigger the obligation to issue the securities are appropriate to the entity and the transaction in all the circumstances, and adequate information can be given to shareholders about the future issues of securities. This allows the entity and the counterparty to the agreement to have commercial certainty about the ability of the entity to issue each tranche of securities as the counterparty performs its obligations, while maintaining the principle that shareholders must give their informed consent to future issues of securities.

The Company has entered into an agreement (the "OYZ Agreement") to acquire an option to purchase all of the issued shares in OYZ (the "OYZ Option"). In accordance with the terms of the OYZ Agreement, and upon exercise of the OYZ Option, the Company will acquire all of the issued shares in OYZ from the shareholders of OYZ. Upon exercise of the OYZ Option and satisfaction of all other conditions precedent under the OYZ Agreement, the Company shall pay consideration of \$5,000,000 to OYZ's shareholders by way of cash or a mix of cash and shares. If the Company chooses to pay by way of cash and shares, the Company will pay:

1.1. \$1,900,000 in cash (being \$2,000,000, less an option fee of \$100,000); and

1.2. \$3,000,000 in Option Shares, issued at a price of between \$0.15 and \$0.20 per share. Accordingly, the minimum number of Option Shares to be issued is 15,000,000 and the maximum number of Option Shares to be issued is 20,000,000.

Given that the minimum and maximum number of Option Shares that may be issued is fixed, the degree of dilution is known. There is a sufficient degree of certainty about the basis for the calculation of the Option Shares in light of the fact that the issue price range is set. With this in mind, shareholders are able to give their informed consent to the issue of the Option Shares. The extension of time requested by the Company is approximately two-and-a-half months beyond the ordinary three month limit for Listing Rule 7.1 approvals, and is consistent with similar waivers that have been granted by ASX previously. The waiver is granted on the condition that the Option Shares are issued on or before 31 December 2018, and subject to the additional conditions outlined at paragraph 2 above.

Rule Number	7.3.8
Date	12/06/2018
ASX Code	SBR
Listed Company	SABRE RESOURCES LIMITED
Waiver Number	WLC180142-001
Decision	<p>1. Based solely on the information provided, ASX Limited ("ASX") grants Sabre Resources Limited (the "Company") a waiver from Listing Rule 7.3.8 to the extent necessary to permit the resolution in the Company's notice of meeting to approve the issue of up to 33,333,333 options with an exercise price of \$0.03 and an expiry date of 31 October 2019 issued to shareholders who participated in the share purchase plan ("SPP") on a one option for every one share basis, not to include a voting exclusion statement that excludes the votes of persons who may participate in the SPP, on condition that the SPP is not underwritten, or if it is underwritten, the Company excludes any votes cast on that resolution by any proposed underwriter or sub-underwriter of the SPP.</p>
Basis For Decision	<p>Underlying Policy Listing rule 7.3.8 requires a resolution for the purposes of listing rule 7.1 to have a voting exclusion statement excluding votes of security holders who may participate in the issue, as they may receive a benefit from the passing of the resolution that will not accrue to security holders that do not participate in the issue. The policy of excluding the votes of security holders who may participate in the issue is not applicable where the nature of the issue is such that all eligible security holders may participate on an equal basis. In such cases and the exclusion of security holders entitled to participate would mean that no votes could be counted. With such issues there is also limited scope for an individual holder to gain a disproportionate advantage from the passing of the resolution. Listing rule 7.3.8 makes an exception from the requirement for a voting exclusion statement for public offers where existing security holders are given a priority, and there is a cap on the number of securities that may be issued to each security holder.</p> <p>Present Application The Company is conducting an SPP pursuant to ASIC Class Order 09/425. Separate to the SPP the Company is offering shareholders who participated in the SPP one attaching option for every one share subscribed for under the SPP as ASIC Class Order 09/425 does not provide relief for an offer of options under a securities purchase plan. Accordingly, the Company is proposing to seek, at a general meeting, shareholder approval for the purposes of listing rule 7.1 for the issue of the options. As the issue of the shares and options being undertaken is one in which all shareholders may participate on an equal basis, and for which there is an exception from the requirement for shareholder approval in listing rule 7.2 for the issue of the shares, but which is not available to the Company for the issue of attaching options, there is no need to exclude the votes of shareholders entitled to participate in the issue.</p>

Listed Company	SEAFARMS GROUP LIMITED
Waiver Number	WLC180143-001
Decision	<p>1. Based solely on the information provided, ASX Limited ("ASX") grants Seafarms Group Limited (the "Company") a waiver from listing rule 7.25 to the extent necessary to permit the Company to undertake a reorganisation of its capital which may have the effect of reducing the trading price of the Company's securities to less than 20 cents each, on condition that the capital reorganisation is completed in accordance with the relevant provisions of the Corporations Act 2001 (Cth). The capital reorganisation is an equal reduction of the Company's capital comprised of a demerger of the Company's environmental business assets into a subsidiary company CO2 Australia Limited ("CO2 Australia") and an in-specie distribution of shares in CO2 Australia on a pro-rata basis to the Company's shareholders.</p>

Decision	<p>1. Based solely on the information provided, ASX Limited ("ASX") grants Perpetual Trustee Company Limited in its capacity as issuer trustee (the "Issuer") of the APOLLO Series 2018-1 Trust (the "Trust") a waiver from listing rule 8.10 to the extent necessary to allow the Issuer to refuse to register transfers of Notes:</p> <p>1.1. from the date which is 4 business days before an interest payment date or the maturity date of the Notes; or</p> <p>1.2. if in contravention of clause 4.14 of the Series Supplement, on condition that ASX is satisfied with the settlement arrangements that exist in relation to the Notes to be quoted on ASX.</p>
Basis For Decision	<p>Underlying Policy An entity must not interfere with registration of a transfer document relating to quoted securities, subject to a number of exceptions set out in that rule. This supports the principle that quoted securities should be freely transferable. The rule also inhibits the ability of an issuer to cause disruption to the settlement cycle.</p> <p>Present Application The securities of the Issuer being quoted are wholesale debt securities. The securities of the Issuer are to be settled outside of CHESS. The Issuer is required to close the register of a series of debt securities from the close of four business days prior to an interest payment date or the maturity date, or which would result in a breach of the Series Supplement which details the general transfer requirements in relation to the Notes. This enables the register to be up to date on an interest payment date or maturity date for that series of debt securities. Register of ASX Listing Rule Waivers

Basis For Decision	<p>Underlying Policy Listed entities are required to obtain the approval of security holders for an acquisition from, or disposal to, a person in a position to exercise influence over the entity of a substantial asset. The votes of security holders who are parties to the transaction, and their associates, are not counted. Listed entities are required to obtain an independent expert's report on the fairness and reasonableness of the transaction and send it to security holders to accompany the notice of security holders' meeting. This rule protects security holders from a value-shifting transaction with a person in a position of influence being undertaken by a listed entity without the disinterested security holders having approved that transaction with the benefit of full information. The rule supplements the related party provision of the Corporations Act (or, in the case of foreign entities, the related party provisions of the law of their home jurisdiction).</p> <p>Present Application The Company is proposing to grant to Investment a second ranking security over all of its assets in respect of the existing Facility pursuant to which Investment has agreed to provide a loan facility to the Company of an aggregate principal amount not exceeding \$15,000,000. It is proposed that the Company's existing obligations under the Facility will be secured by its assets. A director of the Company controls Investment. The use of the Company's assets as collateral constitutes the disposal of an asset for the purposes of listing rule 10.1. The Company is granted a waiver from listing rule 10.1 to enable it to have in place a general and second ranking security over its assets in favour of Investment (a related party), subject to a number of conditions, including that the security documents provide that in the event the security is exercised, neither Investment or any of their associates are entitled to acquire the assets without the Company first complying with any applicable listing rules, including listing rule 10.1. This condition provides a sufficient safeguard against value-shifting to the related parties.</p>
