## ASX Austraclear Software Installation Guide – File Deployment

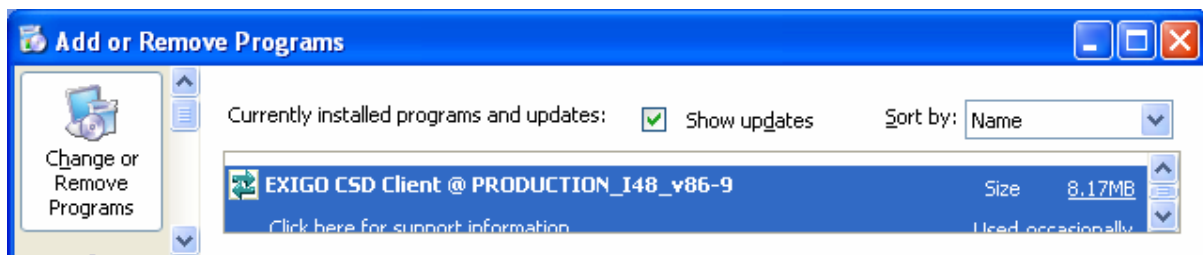

### Uninstall Instructions

**PLEASE NOTE: If you have a previous version of the system installed, it is recommended that you uninstall the previous version after a day of successful logon to the new version.**

To uninstall the EXIGO CSD client, go to *Control Panel* and click on **Add or Remove Programs**

Choose *EXIGO CSD Client* and then click on **Remove**

## Installation Instructions

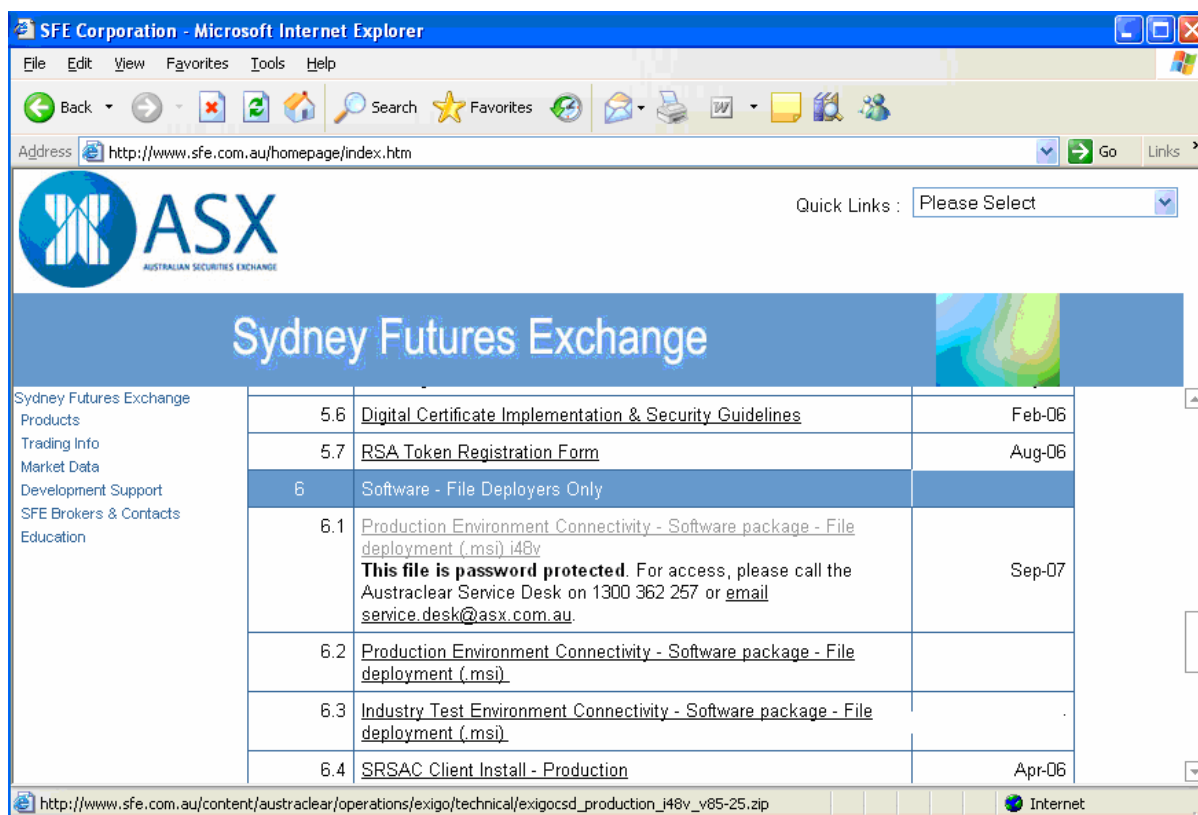

**NOTE: To install the ASX Austraclear system, Administrative rights to the PC are required. The installation may need to be completed by the appropriate IT / PC support staff.**

### 1 Installing Software

#### Prerequisites

☐ Installed Microsoft .Net Framework version 1.1 sp1. This version can be downloaded from “Links” on the Application Page. This requires administrator privilege. This will need to be installed prior to the installation of the **ASX Austraclear client for the first time**.

The ASX Austraclear installation package is available on the [ASX Austraclear Replacement System website](http://www.sfe.com.au/index.html?content/austraclear/operations/exigo/exigo.htm): <http://www.sfe.com.au/index.html?content/austraclear/operations/exigo/exigo.htm>, in the Technical Section.

The screenshot shows the ASX Sydney Futures Exchange website in Microsoft Internet Explorer. The page features a navigation menu on the left and a table of software packages. The table lists various software packages with their IDs, descriptions, and dates.

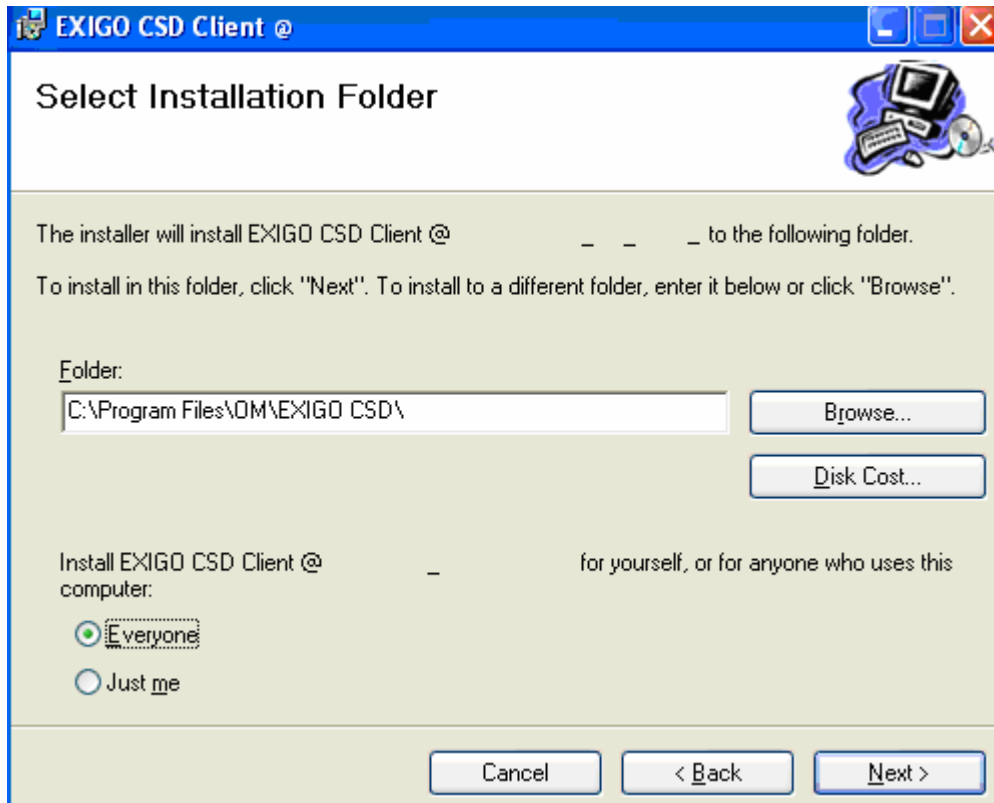

Product ID	Description	Date
5.6	Digital Certificate Implementation & Security Guidelines	Feb-06
5.7	RSA Token Registration Form	Aug-06
6	Software - File Deployers Only	
6.1	Production Environment Connectivity - Software package - File deployment (.msi) i48v <b>This file is password protected.</b> For access, please call the Austraclear Service Desk on 1300 362 257 or email <a href="mailto:service_desk@asx.com.au">service_desk@asx.com.au</a> .	Sep-07
6.2	Production Environment Connectivity - Software package - File deployment (.msi)	
6.3	Industry Test Environment Connectivity - Software package - File deployment (.msi)	
6.4	SRSAC Client Install - Production	Apr-06

Click on the link [Production Connectivity – Software Package - File Deployment \(.msi\)](#) for the Production Environment to initiate the download of the File Deployment application:

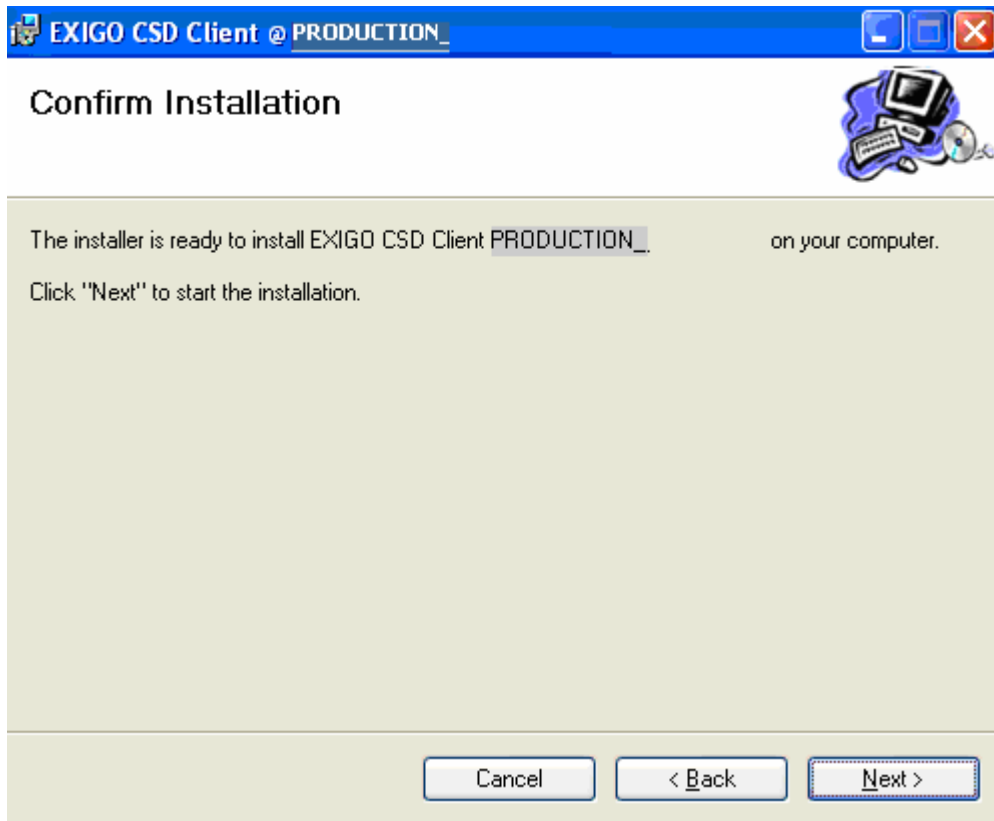

**Save** the file to the Desktop or to a suitable location on the C:\ Drive. This file is password protected. For access, please call Austraclear Service Desk on 1300 362 257 or email [service\\_desk@asx.com.au](mailto:service_desk@asx.com.au).

**Double Click** on *EXIGO CSD.msi* icon to launch the installation. Click **Next** to proceed with the installation.

**SAMPLE Screen**

Choose **Everyone**. Keep the default path as: C:\Program Files\OM\EXIGO CSD\ then click on **Next**

The "Confirm Installation" window will appear, please click on **Next** to install.

Once the Installation Complete window appears, click on **Close**. This confirms a successful installation.

- Software successfully installed**

## 2 Creating a Shortcut

A shortcut should have been automatically created in the Start Menu under:

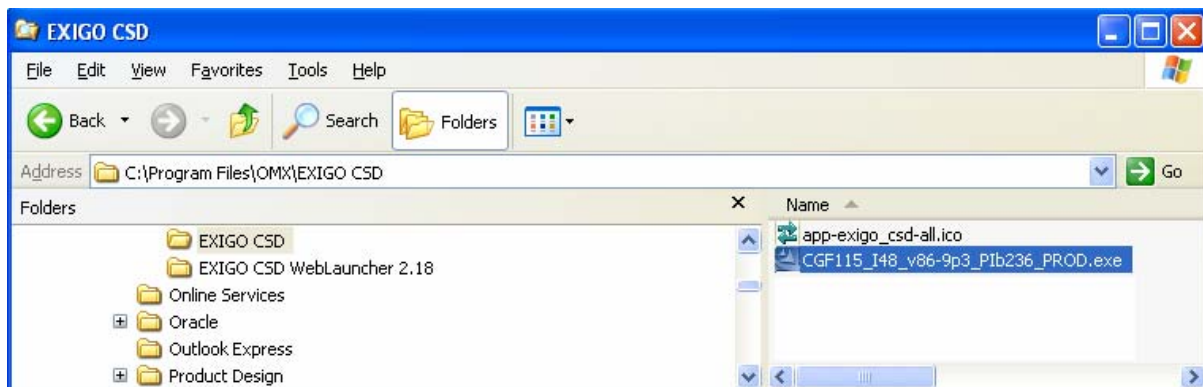

Start → Programs → EXIGO CSD → **EXIGO CSD @ I48\_v86-9p3 PRODUCTION**

We recommend that you create a shortcut on the desktop for easy access to the new system.

Open *Explorer*, and go to C:\Program Files\OMX\EXIGO CSD

1) Right Click on the file *CGF115\_I48\_v86-9p3\_PIB236\_PROD.exe*, and select **Create Shortcut**. You can then drag the shortcut onto the desktop, or

2) Windows XP users can also right click on the file, and choose **Pin to Start Menu**. This will put an entry in the *Start* menu.

## 3 Next Step

Once the software has been successfully installed please proceed onto the appropriate File Deployment Guide (ANNI or Internet).
