## ASX Austraclear File Deployment Guide – Internet

### 1 Prerequisites

- ❑ **Software installation completed.** Please ensure that you have successfully completed the installation of the new ASX Austraclear system as documented in the Software Installation Guide before proceeding with logging in to the new system.
- ❑ **Digital Certificate Enrolment completed.** A client side digital certificate is required to be downloaded and installed prior to logging into the new ASX Austraclear system. Also an RSA token and pin will be required for logging on.

Please follow the instructions provided in the Digital Certificate User Enrolment Guide which is published on the ASX Austraclear website, [http://www.sfe.com.au/content/austraclear/operations/exigo/technical/digital\\_guide.pdf](http://www.sfe.com.au/content/austraclear/operations/exigo/technical/digital_guide.pdf)

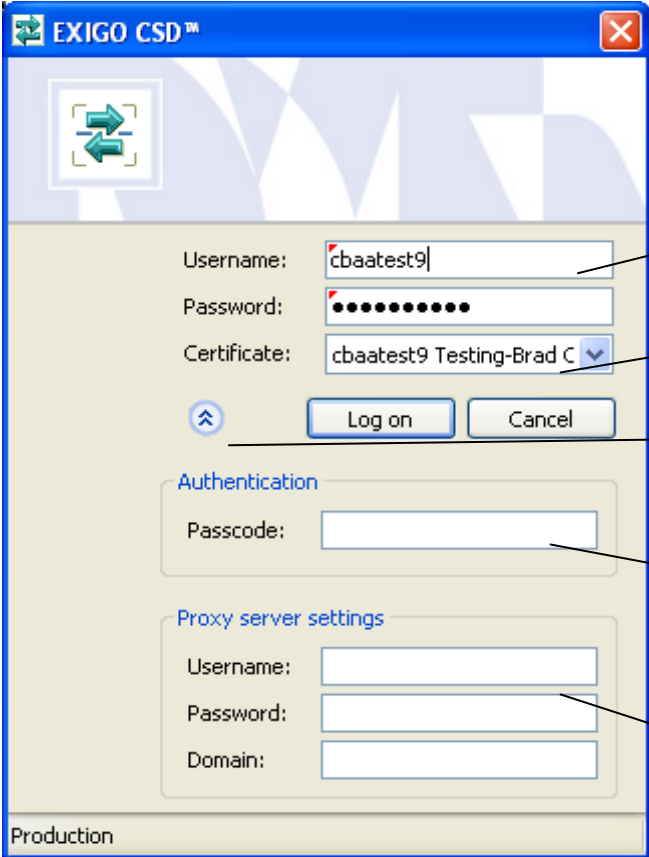

### 2 File Deployment Procedures

#### 1) Log into the application \*\*

To launch the new ASX Austraclear Application either:

- Click on the desktop shortcut (if you have created one) OR;
- Launch the new ASX Austraclear System (EXIGO CSD) via the Start Menu: START->Programs->EXIGO CSD->EXIGO CSD @ **Production\_I48\_v86-8**

#### 2) You will be presented with the EXIGO CSD Login dialog box.

The screenshot shows the EXIGO CSD Login dialog box with the following fields and callouts:

- Username:** cbaatest9 | *Username and password to be confirmed prior to connectivity*
- Password:** [masked] | *Username and password to be confirmed prior to connectivity*
- Certificate:** cbaatest9 Testing-Brad C | *Please select your ASX Austraclear certificate from the drop-down box*
- Log on / Cancel buttons:** | *If you manually authenticate to your proxy server you will need to provide additional information regarding your proxy server. (See point 2D for further details)*
- Authentication section:**
  - Passcode:** [empty] | *If you manually authenticate to your proxy server you will need to provide additional information regarding your proxy server. (See point 2D for further details)*
- Proxy server settings section:**
  - Username:** [empty] | *RSA SECUR ID Authentication (See point 2C for further details).*
  - Password:** [empty] | *RSA SECUR ID Authentication (See point 2C for further details).*
  - Domain:** [empty] | *If Applicable, enter your proxy authentication details here*

**A) Username and Password**

Enter Username and Password as provided for access to the system.

Username \_\_\_\_\_

Password \_\_\_\_\_ (Note that the password is case sensitive)

**B) Digital Certificates**

Please select your ASX Austraclear digital certificate from the drop-down box.

**C) RSA authentication**

Enter current user credentials

- Passcode, being 4-digit PIN and 6-digit token code (RSA SecurID) e.g. **6451684256**

**D) Proxy Server Details – Manual Authentication**

If your access to the new ASX Austraclear is via a proxy that requires you to manually authenticate, this information will need to be entered. Please contact your Administrator for further details.

Proxy server username \_\_\_\_\_

Proxy server password \_\_\_\_\_

Proxy server domain \_\_\_\_\_

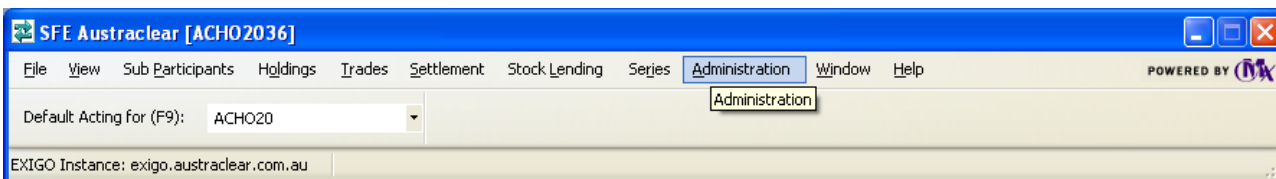

Press Log on after completing all the requirements above.

**Please note**, Exigo does NOT support Automatic Proxy Configuration Script. Please ensure that this functionality is disabled in your proxy settings:

This setting can be found on the following menu in internet explorer:

Tools → Internet Options → Connections → LAN Settings

7) The following GUI will appear

You have successfully logged on to the Austraclear system.

### 3 Next Step

Once you have successfully logged into the new ASX Austraclear system, please refer back to your Internet Environment User Guide for further instructions.
